☞ Table Clearings by Telegraph and Canadian Clearings on Page 36.

On subsequent pages of the "Chronicle" we print to-day our usual annual review of the events and incidents of the year, and also give elaborate tables of prices of stocks and bonds by months.

On account of the pressure on our columns occasioned by the large amount of extra matter, it has been found necessary to contract the space devoted to our various departments, notwithstnading the addition of a considerable number of pages to the usual size of the paper.

We would also direct attention to the tables of stock and bond prices contained in our "Bank and Quotation" Supplement, which accompanies to-day's issue of the paper. These tables show the highest and lowest prices for December and the calendar year of every stock and bond sold on the New York Stock Exchange, and also the aggregate amount of the dealings for the twelve months in each stock and bond.

## *CHRONICLE INDEX.*

The index to Volume 85 of the "Chronicle"—which volume ended with the issue of Dec. 28—will be sent to our subscribers with next Saturday's number, Jan. 11.

## *THE FINANCIAL SITUATION.*

Mr. Taft professed to explain Monday night, December 30, at Boston the cause or causes of the financial disturbances and panic this country has recently experienced. In doing this he unfortunately was hampered by another object dear to his heart—that is, by a desire to relieve the present Administration of any responsibility for our business dislocation. That branch of the inquiry he hoped to put out of public remembrance (1) by simply ignoring the large body of facts that most clearly gives it credence, and (2) by bringing forward another theory having very little relation to our present difficulty, to wit, that the world's floating capital has been so far turned into fixed forms as to over-tax the supply and to leave no mobile funds available for new enterprises or the enlargement of old ones. This claim was no doubt a kind of ride-and-tie arrangement kept handy for any industrial progressive occasion—a condition used for quickening movement without taking on the responsibility for troublesome facts that might be cited.

Mr. Taft, moreover, starts his address on an untenable basis. Indeed his theory, we might say, has been taken at a venture, and is supported by assertions, not at all by evidence. He says: "Writers upon financial subjects who have given their lives and constant attention to matters of this kind, and who are entirely familiar with the conditions, all of them substantially agree upon the causes." There is a fundamental fallacy in that statement. Unanimity upon matters of that kind we have never before heard remarked upon. Instead of a general accord, opinions among leading writers have shown no little variance. So true is this, there are but few cases where leading financial writers have not only met disagreements, but have found more than one cause, indeed generally several, operative in producing a single widespread liquidation. The nearest to complete harmony we have ever witnessed was with reference to our silver legislation. On those issues as they presented themselves in America no man of more than one idea misunderstood the controlling facts and principles after a single political campaign of education had passed.

Now, the problem which seems to Mr. Taft to be so easily solved by simply laying claim to unanimity of opinion among writers is capable, if true, of better proof. If the world's mobile capital has been turned into fixed capital more rapidly than the supply has been added to, it is easy to furnish the evidence. We claim that all the figures procurable go to show that the world's stock was never so large as now, nor ever increasing so rapidly. We also have far more currency per capita than ever before in the United States, while the world's almost unlimitable supply stands inviting us, as it were, to draw on it freely. Note with what an open hand we have been helping ourselves to these millions during late months; also how readily it came. Moreover, although nearly a hundred million dollars changed its habitat at our bidding from Europe, we find no dearth there. Note the following little statement which we have compiled from the latest trade compilation of Great Britain as to the gold movement in and out of that country for 11 months of the last three years. Does that look like a dearth in the world's supply?

GOLD MOVEMENT IN GREAT BRITAIN 11 MONTHS, JAN. 1 TO NOV. 30.

* Net receipt.

What does the foregoing tell us? It tells us that the world's floating supply is so great that Great Britain (the entrepot of the world's commerce) not only was able to furnish the unusual draft of 100 millions of dollars we made, but all the requirements of the world of nations, without causing or leaving any appreciable impression on the floating stock. The figures are that the gold imports of Great Britain during the last 11 months were £49,306,609 (or, say, five dollars to the pound), $246,533,045, and that after supplying our needs, and providing for the necessities of all other countries (which called for £45,986,743 or $229,933,715), there was a net gain left over in Great Britain of £3,319,866, or $16,699,330, which went towards furnishing an addition to the interior floating supply or left the country in the pockets of travelers.

But there has been a disposition among some to work their way out of the maze they have lost themselves in by leaning on our money market as evidence of scarcity. What was that monetary spasm? How was it produced? We have given on subsequent pages in great detail by months, one after another, the events of 1907. Let every reader study those facts if he would inform himself as to the character of events. It was capital on the run—at its wit's end to find a

place where it would be out of the reach of the confiscatory action of the Administration. Capital had found there was no safety in investments. Would their idle funds be safe in stockings? That was apparently the only alternative. Surely no one can claim in that flight there was any appearance of mobile money being turned into fixed capital. Little and big deposits—those in savings banks where the widow's mite looks for lodgment as well as those in our largest financial institutions—all left their usual place of safety for some better place of concealment.

---

The most important foreign event of the week was the reduction on Thursday by the Bank of England of its official rate of discount from 7% to 6%. This action was scarcely expected this week, though it was regarded as probable that it would not be deferred longer than next week, for the indications toward the end of December strongly pointed to such an improvement in the Bank's condition as to give assurance of a reduced official rate early this year. The reduction was the direct result of the suspension of gold imports by American bankers under circumstances which appeared to show that the suspension would be permanent. On Saturday of last week an American importer of gold who, early in that week, had bought for shipment hither about one million dollars, or nearly half of the consignment of Cape gold which was then offered in the market, resold the metal because, owing to the reduction in the premium on currency in New York, it was unprofitable to complete the import.

Monday the premium on currency fell still lower, and indeed it was almost entirely extinguished. Under these circumstances the American bankers, who have been the chief importers of the metal, and for reasons which induced them to resell their gold as above stated, refrained from bidding for the $5,000,000 gold that was offered in the bullion market this week Monday. Nearly the whole of the offering consequently was secured by the Bank of England at a reduced price. As a result of this absence of demand for gold for shipment to New York and of the practical extinction of the premium on currency—which, while it existed, was apparently the sole incentive for gold imports to New York—there was an immediate relaxation in discount tension at London and at Berlin; open market discount rates at the British capital also fell sharply, while those in Germany were distinctly easier. These favorable influences were also supplemented by equally encouraging statements from New York which seemed to inspire confidence abroad that there would be no resumption of the currency premium whereby gold imports would be again stimulated.

The Secretary of the Treasury on Saturday of last week gave notice of an intention to withdraw from local bank depositories 10% of the public funds held by these institutions. The withdrawals of deposits began on Saturday last and they have since continued. The amount of public funds in New York City banks reported by the Clearing-House summary statement of condition last Saturday was $78,889,100.

---

The message of Gov. Hughes does not show any indication of having been composed with reference to the political prospects of its author, and its tone of expression is moderate, there being no denunciatory talk and no appeal to the dangerous passions of men which have been so unhappily fanned during some years past. Nothing is said of centralization in general, nor are corporations and wealth specifically called to the bar; but centralization within the State is still advocated, and Gov. Hughes gives evidence that he is unable to lay aside t he role of exposure and antagonism which brought him into public attention. The insurance law of 1906, while bearing the name of another, was probably largely shaped by him, and he adheres to it, notwithstanding time has already shown that it was unnecessary and is vicious in effect, whatever be conceded in the way of good intention. The message gives only one brief paragraph to the subject. Amendments should receive consideration, "but there should be extreme caution in making any changes, and no changes should be made unless it clearly appears that they are needed to conserve the interests of the policyholders." But it has already clearly appeared so, to all who have watched results; and to advise extreme caution in touching what was forced through without caution and with the utmost haste is not a counsel of wisdom. On the contrary, while it is doubtless inexpedient to attempt substituting a better statute at present, some of the most hurtful parts (already discussed in the "Chronicle") ought to be repealed and some others ought to be modified, and this should be done with promptness.

Concerning the Utilities Commission, which is the special measure of Gov. Hughes, he also writes a single paragraph, but he stands by the measure and wishes to enlarge its scope. It should now be extended, he says, to telegraph and telephone corporations, but he would defer this to October, to avoid over-burdening while organization is being perfected and precedents are established. But organization is already effected, or all semblance of excuse disappears for the practical failure to do any good, of which Gov. Hughes shows no recognition. It is needless to argue the case anew, but a scheme which has done nothing in a half-year except to demonstrate its visionary character cannot reasonably ask enlargement of scope. The message also fails to mention the Elsberg Law, which acts as one bar to further subway construction by private capital; nor does Gov. Hughes show any recognition of the fact that the modern policy of assault upon railroads, including therein this very Utilities Commission as an example right at home, is a deterrent influence. It is useless to plead public advantage or even public need as a reason why private capital should come forward; it must be approached in some manner more persuasive than an invitation to come forward and immolate itself for the general good.

Some suggestions—such as about banking, receiverships, ballot reform, gambling, forest preserves, and so on—are mainly good, and the language of the document is mild; but it is to be regretted that one of the most prominent of State Executives has not been able, at a critical time, to rise high enough to see and point out the need of return to the ancient broad channels wherein is safety, even if this required him to confess his own mistakes.

---

Though the disposition is to take a hopeful view of things and to look for an early return of prosperity, we regret to say that in many particulars the new year has not opened auspiciously. On the first business

day there came the announcement of the receivership for the Seaboard Air Line Railway Co. Then an avalanche of unfavorable returns of railroad earnings was received, covering the month of November, and showing that while gross earnings were no longer recording gains of any moment, or were actually showing decreases, expenses kept increasing in the same old way, thus involving heavy losses in the net. Typical instances of the kind are the Atchison Topeka & Santa Fe, which has suffered a decrease in net for the month in the large sum of $1,222,943, due entirely to the augmentation in expenses, and the Louisville & Nashville, which, with a decrease of $174,266 in gross, found its expenses enlarged by $449,676, thus producing a loss in net of $623,942. The Rock Island lines have done somewhat better; and yet here, too, with only $8,229 increase in gross, there has been an augmentation of $327,843 in expenses, causing a loss in net of $319,613. The Pennsylvania Railroad, which is such a representative system, yesterday submitted a statement of much the same character, showing for the combined lines directly operated east and west of Pittsburghand Erie $974,000 increase in gross with $303,800 decrease in net.

There might be good reasons for regarding these adverse returns as only temporary, to be followed in succeeding months with much better exhibits on a revival in trade, except that the influences responsible for the existing prostration in the country's industries are being kept alive by governmental authorities. Governor Hughes, as noted above, in his annual message argues in favor of still further extending the functions of the Public Service Commission—one of the most preposterous bodies ever called into being by legislative action—and bringing telegraph and telephone companies under its benign influence. Besides this, some of the morning papers on Thursday contained dispatches from Washington saying that the Attorney-General, Mr. Bonaparte, seriously contemplated bringing legal action to disrupt the Harriman combination by taking control of the Southern Pacific away from the Union Pacific. If this were done, the Union Pacific would be cut off at Ogden without any line of its own to San Francisco, since the Southern Pacific controls the Central Pacific, which, jointly with the Union Pacific, makes up the old and original transcontinental route across the continent, extending from Omaha to San Francisco. The States, too, do not seem to have learned the lesson taught by the collapse in railroad credit and the destruction of security values, and many of them are still engaged considering measures for the reduction of rates. Secretary Taft's speech assigning other causes for the collapse and absolving the Administration from responsibility for it is referred to above.

Thus the old spirit apparently remains dominant. The politicians are still engaged in stirring up things. We do not think that the people of this country will much longer look on complacently while their representatives are engaged in these attempts to prolong the existing depression. We notice that in Canada the sway of reason is much more in evidence than in this country, and indeed this may be stated to have been always the case. One instance, which occurred the past month, will suffice for illustration. There was a meeting of the shareholders of the Ontario Bank, which by reason of mismanagement failed over a year ago. The position of the shareholders is a most unfortunate one and they are trying to ascertain where they stand. At the meeting in December it was shown that the net loss to the defunct institution from the speculations of the management had been over $2,000,000 and it was thought that the shareholders would be called upon by reason of their double liability to meet at least a portion of this loss. A resolution was moved, asking the present board to go ahead with the litigation against the former board, and in the circumstances it would not have been surprising if this resolution had gone through with a rush. But it was argued by some of the shareholders that no public good could be served by such an action, that the expense would fall upon the shareholders, and that it could not but happen that any disclosures would be damaging to other financial institutions. Accordingly action has been deferred for the time being until the matter can be studied in all its bearings. How different this from the course pursued in the United States, where we rush ahead regardless of consequences, bent only on creating a sensation and placing some one, culpable or innocent, in an unenviable position.

We are persuaded, however, that our people will soon call a halt on this reckless policy. Some slight indications of a change are already apparent. The "Boston News Bureau" on Thursday quoted a Boston banker as saying that in North Carolina a delegation is forming of 300 to 400 representatives of the Brotherhood of Locomotive Engineers, the Conductors' Association, the Brakemen's Union, the Carpenters' Association, and other labor organizations, who will shortly wait upon Governor Glenn and petition him, in the name of the united labor interests of the State, to call together in special session the Legislature of the State to repeal the railroad legislation recently passed. The meaning of this is that the laboring classes are feeling the pinch of hard times. When such a pass is reached the people are in no mood to listen to those who argue that adverse legislation does no harm and idleness and depression must be ascribed to the conversion of mobile capital into fixed forms. With the evidence before them showing how hurtful such assaults have proved, an intelligent populace cannot well be deceived. This is the really hopeful feature in the situation—from which much may be expected in the early future.

---

The market for call money was somewhat unfavorably influenced early in the week by the requisition by Secretary Cortelyou for 10% of the public funds in the local depositary banks; also by the final preparations for the distribution of January interest and dividends, and furthermore by the demands for money over the holiday. After renewals of loans had been effected, however, rates partially receded and on the last day of the year money was not excessively high; this comparative ease was said to be due to the anticipation last week of large payments for dividends. Later in the week, when distribution of interest and dividends, became general and when recipients thereof deposited their checks in the banks, the tone of the market grew easier.

Money on call, representing bankers' balances, loaned on the Stock Exchange during the week at 20% and at 5%, averaging about 15%. On Monday

loans were at 20% and at 5% with the bulk of the business at 18%. On Tuesday transactions were at 18% and at 6% with the majority at 15%. Wednesday was a holiday and on Thursday loans were at 20% and at 5% with the bulk of the business at 15%. On Friday transactions were at 10% and at 6% with the majority at 7%. Time loans on good mixed Stock Exchange collateral were quoted at 10% for sixty to ninety days, 7% for four to five months and 6% for six months; a loan of $500,000 at 6% for eight months attracted attention because of its magnitude. Commercial paper was quoted at 8% for sixty to ninety-day endorsed bills receivable and for the best four to six months' single names.

As above noted, the Bank of England reduced its rate of discount this week from 7%, which has been maintained since Nov. 7, to 6%. The cable reports discounts of sixty to ninety day bank bills in London 5%. The open market rate at Paris is 4@4⅛ and at Berlin and Frankfort it is 6@6¼%. According to our special cable from London, the Bank of England gained £1,797,816 bullion during the week and held £32,543,662 at the close of the week. Our correspondent further advises us that the gain was due largely to receipts from the interior of Great Britain. The details of the movement into and out of the Bank were as follows: Imports £534,000 (of which £107,000 from Australia and £427,000 bar gold bought); exports, *nil*, and receipts of £1,264,000 *net* from the interior of Great Britain.

The foreign exchange market was unsettled and lower early in the week. In the closing days of the week there was a recovery in rates, due to the resumption of the ordinary demand for remittance The announcement on Thursday of a reduction in the Bank of England rate of discount caused a rise in all classes of exchange.

The arrivals of gold from Europe and Cuba during the week amounted to $6,460,300, making a total, as reported, since the beginning of the movement, of $96,500,000, exclusive of $2,000,000 received at Boston. There were no engagements this week; an importer who last week bought $1,000,000 for shipment hither resold the metal this week, and, as above noted, American bankers refrained from bidding for the $5,000,000 South African metal that was offered in London on Monday and $4,500,000 of this amount was secured by the Bank of England. The total engagements of gold thus far reported for import on this movement are, as estimated, $109,500,000.

On Saturday of last week the market was inactive, with long unchanged, compared with the previous day, at 4 79½@4 79¾, short 10 points higher at 4 84½@4 84¾ and cables 10 points lower at 4 86¾@4 87. On Monday the market was weak, especially for cables, which fell 135 points to 4 8540@4 8550, short declined 40 points to 4 8410@4 8415, and long 50 points to 4 79@4 79¼. On Tuesday long rose 25 points to 4 79¼@4 79½, short 10 points to 4 8415@4 8425 and cables 25 points to 4 8560@4 8575. On Thursday long rose 50 points to 4 7975@4 80, short 55 points to 4 8470@4 8475 and cables 25 points to 4 8575@4 86. On Friday the tone was strong, at an advance of 75 points for long, of 50 for short and of 30 for cables.

The following shows daily posted rates for sterling exchange by some of the leading drawers.

| | | Fri., Dec. 27 | Mon., Dec. 30 | Tues., Dec. 31 | Wed., Jan. 1 | Thurs., Jan. 2 | Fri., Jan. 3 |

The market closed on Friday at 4 80½@4 80¾ for long, 4 8520@4 8530 for short and 4 8605@4 8615 for cables. Commercial on banks 4 80@4 80¼ and documents for payment 4 79@4 80½. Cotton for payment 4 79@4 79¼, cotton for acceptance 4 80@4 80¼ and grain for payment 4 80¼@4 80½.

The following gives the week's movement of money to and from the interior by the New York banks.

| Week ending Jan. 3 1908. | Received by N. Y. Banks. | Shipped by N. Y. Banks. | Net Interior Movement. |
|---|---|---|---|
| Currency | $7,563,000 | $2,339,000 | Gain $5,224,000 |
| Gold | 1,340,000 | 1,106,000 | Gain 234,000 |
| Total gold and legal tenders | $8,903,000 | $3,445,000 | Gain $5,458,000 |

With Sub-Treasury operations and gold imports the result is as follows:

| Week ending Jan. 3 1908. | Into Banks. | Out of Banks. | Net Change in Bank Holdings. |
|---|---|---|---|
| Bank's interior movement, as above | $8,903,000 | $3,445,000 | Gain $5,458,000 |
| Sub.-Treas. oper. and gold imports | 26,200,000 | 25,200,000 | Gain 1,000,000 |
| Total gold and legal tenders | $35,103,000 | $28,645,000 | Gain $6,458,000 |

The following table indicates the amount of bullion in the principal European banks.

| Bank of— | Jan. 2 1908. Gold. | Silver | Total. | Jan. 3 1907. Gold. | Silver. | Total. |

## *THE NEW SITUATION IN RUSSIA.*

Along with the numerous indications of good will between the people and sovereigns of Europe which came to hand in the despatches at the close of the old year, there was one which struck a singularly discordant note. The news from St. Petersburg on December 31 stated that all but two of the one hundred and sixty-nine members of the first Russian Douma who had signed the so-called "Viborg manifesto" had been sentenced to three months' imprisonment and forfeiture of all future political rights. So long a time has elapsed since the incident to which this St. Petersburg sentence is a sequel that people will, perhaps, have forgotten precisely what the circumstances of that episode were. They are worth recalling because, along with the incident of the past week, they throw some light on the curious condition of things in Russia's parliamentary experiment.

The first Douma, as every one will recall, displayed a spirit of independence and a disposition to criticise the Imperial Government which was as unwelcome in

the higher circles as it was unexpected. After a session lasting about three months, the Czar suddenly resorted to a coup de'tat which had few resemblances in history outside of the attempt of Charles the First to bring his soldiers into the disaffected Parliament, and the seizure of the Assembly Chamber by Louis Napoleon at Paris two centuries later. Before the hour of daily assembling for the Douma on July 21 1906, the Government posted soldiers around the Hall of Legislature and in effect notified the elected representatives, not only that their Assembly was dissolved and that they were retired to private life, but that they would approach the Tauride Palace again at their peril.

It will be remembered that something like a panic seized on these legislators, who were convinced that the next step would be their personal arrest. A good part of them, including some of the most responsible statesmen of the Legislature, fled to Finland, where, in the town of Viborg, in the ensuing week, they issued a manifesto to the following effect: The Douma, they claimed, according to the grant of rights conferred on it voluntarily by the Czar in 1905, enjoyed a power over "departmental, ministerial and national budgets." This being so, the dissolution of the Douma had in their view the same effect as a dissolution of Parliament in any European State when the vote of appropriations for public expenditure had not been taken. It would leave the executive without the power to tax. From this the manifesto deduced the conclusion that, until the Douma should have been again convoked, and should have passed such fiscal legislation, imposition and collection of taxes was unconstitutional. On this inference, they called on the Russian people to resist payment of taxes imposed by arbitrary edict of the sovereign power.

Now, to the ears of an American or an Englishman, nothing could have been more logical than the action and language of these delegates. It was not so taken in Russia's administrative circles; on the contrary, the formal charge was immediately brought forward against this group of statesmen of inciting revolt against the Government. On their return to Russia, they were called to the bar to defend themselves under indictments for high treason. In one way or another, the trial dragged on to the end of 1907. It was made the occasion of many eloquent speeches and of some daring appeals in defense of the accused legislators. That a real cause celebre was involved might have been judged by the fact that among the indicted delegates were the leader of the party which voted the large majority in the first Douma and two of the best-known jurists in the Russian Empire. The trial has ended, however, as most people expected it would end. If it be said that the three months' sentence is light, compared with the penalties imposed on old-time offenders against the autocracy, the answer is that it strikes distinctly at the root of representative government in that these elected delegates of the Russian people are deprived of the right of ever hereafter standing for elective office. It is, in short, a plain intimation that the achievements of 1905 and 1906 in regard to Russian constitutional liberties are at least temporarily over.

So far as the dispatches indicate, popular reception of this verdict has been stolid and indifferent. The truth is, as we in common with many other observers predicted at the time, the excessive violence of the popular outbreak against the Government at the close of 1905 in a certain sense wore out the capacity of the people for constitutional agitation. With returned sanity, after the debauch of blood, destruction and rapine in the uprising of that year, they turned from political controversy with the sense of surfeit and disgust. The moment was adroitly seized by the Czar's advisers, first, for a second tentative experiment in a constitutionally elected Douma, and then, when this assembly also had been dismissed as too independent, for the summoning of the Legislature which had been packed by methods assuring support of the Government. The tameness with which this last move in particular was received by the Russian people gave little promise of continued resistance to the reactionary movement. The sentence of the Viborg group is merely another step in this movement back to old conditions.

It awakens curious conjecture as to what is to follow next. That the Czar himself, in a feeble and uncertain way, has honestly wished to grant something to his people, has been believed not only by outsiders but by the Russian populace itself. It would appear, however, that the strongly interested advisers who surround him had allowed such concessions only when the necessity of some grant to appease an angry people was evident, or when foreign opinion had to be conciliated as the price of a foreign loan. In both ulterior purposes, the bureaucrats have achieved their ends, and, if their influence with the Czar is what it was before, it is quite upon the cards that they should lose no time in moving back the hands of the clock to where they stood three years ago. The question of larger interest is, whether the Russian people have once and for all exhausted their capacity for resistance and their aspirations for constitutional freedom, or whether another movement is merely gathering force, which will put the autocracy to its test at some time in the longer future.

No doubt the answer to this question will be governed largely by the manner in which the Imperial party presses its advantage. It cannot be said that the sentence of the authors of the Viborg manifesto holds out much promise. It was a tradition of the English Jacobite agitation of the eighteenth century that, so long as the ringleaders of an insurrection against the House of Hanover were beheaded by the dozens after each victory by the Government, just so long assurance remained of a new demonstration of the sort. It was not until, with the present dynasty firmly established on the English throne and with another incipient rebellion quelled, its leaders were quietly dismissed to their homes, that the agitators gave up all hope for the future. Tradition of the day quoted them as declaring to their friends that with a conciliatory Government they had now no chance of keeping up the fight. Something of the sort, one might suppose, would have crossed the brain of the Russian Emperor —more particularly so, when, at the end of their short imprisonment, these eminent political leaders will be free to go back to their constituents with a new and acknowledged grievance. In default of generous action by the Imperial Government in this regard, we can see no help for its dilemma, unless in an unexpectedly broad and independent program of legislation by the existing Douma.

## *RETROSPECT OF* 1907.

The year 1907 began in prosperity and ended in depression. In this it confirmed the expectations—we might almost say the predictions—of close observers, expressed during the course of the year or before its beginning. It has been said of the panics of the past that generally they came unawares. Such a statement certainly cannot be made concerning the tremendous financial upheaval which occurred in 1907, and which will always distinguish that year as one of the most disastrous of its kind in the country's history.

Whatever may be said of the contributory influences, no competent student of affairs can deny that the controlling element in the financial revulsion which came in October and November was the tremendous shrinkage in security values which had been steadily going on for a period of nearly two years, and the complete loss of confidence in the financial world resulting from that circumstance and from the legislative and governmental assaults upon the railroads, upon corporate activity generally and upon capital and accumulated wealth. It was recognized when the year opened by those whose business it is to watch the course of the markets that the situation was gradually becoming acute. The railroads, the country's industrial force, were in need of new supplies of capital for their extension and development, but could not borrow except on onerous terms; and some of them, with credit never of the very best, could not borrow at all. The reason was that various new enactments, Federal and State—more particularly the Hepburn Rate Law of 1907 and the New York insurance legislation of the same year—had greatly changed the old state of things, while repeated increases in wages and enhanced prices for everything needed in the operation of a railroad came in still further to complicate affairs. In brief, the future of railroad properties was in doubt, the long antecedent decline had made investors timid, and, as there was no abatement of the spirit of hostility which had already done so much damage, investors began to lose faith altogether.

In their dire extremity the railroads began to have recourse to the issue of short-term obligations; and no feature of the financial history of 1907 is so conspicuous as the extent to which this expedient was employed. Even the strongest and best-managed roads, those of highest credit, were forced to employ this means to relieve their financial necessities. We may refer, for illustration, to the $50,000,000 three-year 5% notes issued in January on behalf of the New York Central and its subsidiary properties and to the $60,000,000 three-year 5% notes placed by the Pennsylvania Railroad in February. But this at best was only a palliative, not a remedy. As the year progressed it became more and more difficult to raise money, even on the basis of short-term obligations, one reason being that the continued shrinkage in security values was so greatly impairing the resources and the strength of financial institutions and capitalists and men of means, that it was not possible for these to extend assistance in the way so frequently done in the past, even if they had desired. Investors held aloof for the reasons already stated.

One would have supposed that such a situation would have made those high in authority cautious—would have induced them to pause and see whither the new policy was leading. On the contrary, they determined to go ahead regardless of consequences. In a word, the country, as far as these governmental agencies are concerned, proceeded headlong towards destruction—and with its eyes wide open. That this is not an exaggeration, bear in mind that, though the climax did not come until October in a financial catastrophe which shook the whole world, as early as the previous March the man for whose rescue work at the critical moment the country is so much indebted paid a visit to President Roosevelt at Washington and tried to acquaint him with the dangers of the situation. Mr. Morgan on that occasion, it may be remembered, sought, entirely unsolicited, to get the President to call in consultation the heads of the leading railroad systems of the country. The conference he tried to arrange between these railroad presidents and the President never took place, apparently because Mr. Roosevelt was determined not to modify his policy and the railroad presidents did not want to appear as suppliants before him. Only a few days after this there came that tremendous collapse in prices on the Stock Exchange which alone would have made 1907 memorable, even if it had not been followed by more serious events later in the year.

Let anyone read the narrative of the events of the year as given at such great length in our monthly summaries on succeeding pages and he will see how, step by step, month after month, as if with malice prepense, we proceeded towards the inevitable goal—disaster. Never before have cause and effect been so closely related. Never before has the connection been so direct and palpable. Mr. Roosevelt's own efforts were reinforced by those of his Cabinet Ministers and the work of the Federal Government was supplemented by that of the several State governments and legislatures. In January and February the Inter-State Commerce Commission was stirring up things in connection with its investigations of the so-called Harriman roads, and several of the States began that movement towards the enactment of 2-cent-a-mile passenger rate laws which later assumed such tremendous dimensions. In March Gov. Hughes's Public Utilities Bill began to play a prominent part in affairs, and after Mr. Morgan's fruitless efforts and the occurrence of a semi-panic on the Stock Exchange, the President was beseeched by financial men to make some kind of an assuring statement with reference to his policy that would tend to relieve apprehension. On April 1 Mr. Roosevelt finally authorized a public declaration which was to the effect that he had nothing new of moment to say concerning railroad affairs, and that he would not in the future deviate one hair's breadth from the course he had pursued in the past. The disposition of all the executive officials at Washington was to treat the disturbance in the stock market as having been engineered by Wall Street.

In May the financial public again looked forward to something encouraging from the President—hung on his prospective utterances—but the Decoration Day speech proved as disappointing as previous remarks. In June Mr. Roosevelt delivered two addresses at the Jamestown Exposition at Norfolk in which he took occasion mainly to declare renewed adherence to radical notions, advocating an income tax, progressive inheritance tax, the employers' liability for damages to employees, &c. At the same time the legal depart-

ment of the Government began suit against the anthracite coal roads. In July Attorney-General Bonaparte announced his new policy with reference to actions against so-called trusts, saying he would hereafter ask for the appointment of receivers who would then proceed to bring about a dismemberment of such combinations. In the same month there came the conflict of authority between the State and Federal courts in several of the Southern States in the effort to compel the railroads to put into effect new rate laws imposing non-compensatory rates upon the carriers. The actions on the part of State officials, not only in the South but in many other portions of the country, were an exceedingly disturbing feature nearly all through the year, and perhaps the most remarkable fact was the number of States that sought to deny access to the Federal courts to railroads and other corporations, on penalty of exclusion from the State if suits were taken into the United States courts. The revoking of the license of the Southern Railway by the State authorities in Alabama on Aug. 2 was based on an enactment of that kind.

At this juncture, things were rapidly approaching a crisis; and of all the months of the year, aside from October, August was perhaps the most noteworthy. The series of adverse developments in that month was simply overwhelming. Another break in the stock market occurred, hardly less serious than that of March, and carrying prices even lower than on that occasion. Besides the troubles of the railroads with the authorities in the various Southern and Western States, the celebrated $29,000,000 fine against the Standard Oil was announced. Arrangements were also under way for calling a convention of the Attorneys-General of the different States with a view to determining upon a concerted plan of action in trust prosecutions. Attorney-General Bonaparte, on his part, spoke to newspaper men of there being "a big covey of game," and saying he proposed to land a bird or two. Aug. 19 came the speech of Secretary of War Taft and Aug. 20 the very notable address of President Roosevelt at Provincetown, in which he attributed the financial disturbances in Wall Street to "certain malefactors of great wealth," who, he charged, were engaged in attempts to discredit his Administration.

In the foregoing we have alluded mainly to the more conspicuous of the disturbing events and influences of the year, in order that the reader might see how we were paving the way for the inevitable disaster which came with such overwhelming force in October and November. It should be distinctly remembered that there was no crop failure (though the crops were not of the extraordinary magnitude of those of 1906) or other calamity of nature. It was the acts of man that were working destruction, which was now proceeding at an accelerating pace. It only needed some such overt happening like the disclosure with regard to the internal affairs of the Mercantile National Bank of this city to show how utter was the loss of confidence and how widespread the fear that no man could feel sure of the safety of his possessions and accumulations except by getting physical possession of the same. Runs upon all classes of financial institutions—commercial banks, savings banks, trust companies—immediately began; and, in complete falsification of the claim that the loss of confidence was confined to Wall Street, these runs extended to all parts of the country. It deserves to be recalled that when the panic was at its heighth, and at the very moment when the Secretary of the Treasury, Mr. Cortelyou, was employing all the vast resources of the Government in the effort to avert general disaster, Mr. Roosevelt felt called upon to make declaration once more that he would persist in his policy and course.

The disaster when it came was naturally proportioned to the disturbing nature of the influences and conditions that brought it about. Whether it will take its place as the worst financial crisis ever experienced in the country's history is not for those contemporary with it to say. Some idea of its depth and magnitude, and of the profound nature of the loss of confidence which preceded and attended it, is gained from the fact that never before at a time of a calamity of this kind has the premium on currency been maintained for so long a period. In its earlier stages cash money commanded a premium of 4@5%. The premium gradually diminished, but even up to the last week of December as much as 1@1½% was paid for cash in any form. It was not until the very close of the year that the premium reached the vanishing point.

The extent of the relief which had to be provided is also an evidence of the profound nature of the disturbance. No statement has yet been issued to indicate the extent of the issue of Clearing House certificates by the banks of this city. But that means of relief, it is known, was applied with great freedom. On Nov. 2 the Clearing House banks in their weekly statement showed a deficiency below the required reserve of $38,838,825. By Nov. 23 this had increased to $54,103,600. Loan certificates, of course, were also issued by most of the other clearing houses throughout the country, and, indeed, at some very small places where such associations were not previously in existence they were expressly organized so that the combined resources of all the banks might be availed of in support of any one of them. After the panic was finally upon us the Government did everything to prevent its spread. Secretary Cortelyou, apparently with the full approval of the President, poured out Treasury resources in a most lavish way. Between Oct. 1 and Dec. 31 deposits in the national banks were increased from $170,512,212 to $256,920,155. The Government also stimulated national bank circulation in every possible way, one of the means to that end finally adopted being the issue of Panama Canal bonds and one-year Treasury notes. The aggregate of national bank notes secured by bonds increased from $556,101,329 Sept. 30 to $643,459,899 Dec. 31. At the same time there were tremendous imports of gold, the United States having drawn from the other side over $100,000,000.

In Europe the financial situation was also more or less disturbed throughout the year, and this at times tended to accentuate our own troubles. There was considerable apprehension regarding the state of things in Germany as a result of the speculation which has been so actively carried on in that country for some years; and at the end of 1907 Germany apparently was suffering from business depression much the same as the United States, only in diminished degree. In the main, however, the financial unsettlement abroad—in London and on the Continent of Europe—had its origin in the state of things in the United States. In a word, Europe's financial turmoil was

only a reflex of the dislocation here. The reasons lie on the surface. At nearly all the chief European financial centres larger or smaller amounts of American securities are held and the prodigious declines in these weakened the foreign position in precisely the same way that it did the American position. Other classes of securities on the European markets naturally also declined—in part out of sympathy, in part because weakened holders had to throw them over in order to protect American properties. At such a time gilt-edged securities are naturally disposed of with the greatest freedom, since a market can be found for none others. This will explain the drop in English consols and funds of that description. It is to be added that the high yield which it was possible to obtain on first-class notes of American railroads furnished an additional inducement to foreign investors to dispose of home securities netting only a very small return. Lastly, in some of the European markets there is a considerable interest in foreign copper shares and these suffered from the complete collapse of the copper market no less than the American copper shares.

As illustrating the security situation abroad, it may be noted that in March English consols touched 84 5-16, the lowest point reached since 1848, and that repeatedly thereafter still lower figures were recorded, until in August the price dropped to 80 1-16. A recovery followed, but in November the price got down pretty close to the same figure again. It will be observed that these low records were coincident with the periods of intensest depression on our own Stock Exchange—March, August and October-November having been the three occasions when the biggest collapses in the stock values here occurred. The Bank of England rate, which was 6% at the opening of the year, never got below 4%, and as early as August there was an advance to 4½%. At the time of our panic in Oct.-Nov., successive advances were made from 4½ to 5½, to 6 and then to 7%. The Bank of Germany reduced from 7 to 6% in January and to 5½ in April. In October there was an increase to 6½ and in November to 7½%. The Bank of France, which very rarely changes its rate, in March, at the time of the financial disturbances, quite unexpectedly raised its rate from 3 to 3½, and in November made another upward move to 4%.

With the exception of the copper trade and some slackening in the iron and steel trade, the country's industries remained in a state of great activity until the very time of the outbreak of the bank troubles in October. During all the many months when the market value of securities was so steadily shrinking and investors and capitalists were fearful and timid, business activity was maintained unimpaired. This may seem rather anomalous, but is not so difficult of explanation after all. Mills, factories and furnaces were kept busy on past orders, which had been steadily accumulating, most concerns having been in arrears on their deliveries for years. Furthermore, as business prosperity had continued almost uninterruptedly for over a decade, very few persons could get themselves to believe that any change in that respect was possible. The collapse in the copper trade, however, which occurred in the second six months, showed clearly what was going on—what inroads were being made upon the country's prosperity. From an unparalleled demand for copper, the inquiry all of a sudden disappeared, and the price of the metal dropped from 26 cents a pound to only about 12 cents, and even then no considerable purchases were induced. There is no plausible explanation for the breakdown in the copper industry except that the inability to raise new capital made it impossible for trolley enterprises and other undertakings, in which extensive amounts of copper are used, to continue development work, thus cutting off the consumption of copper.

The collapse in the copper trade may also be said to have been the prime cause of the misfortunes of the Mercantile National Bank, out of which all the banking troubles arose. The loans of this institution may not have been safe-guarded as they should have been, but the underlying trouble was that the institution was a copper bank—that is, made a business of lending on copper securities. The sudden cutting in two of the price of copper destroyed the dividend-earning capacity of these properties and consequently took the value out of their shares.

Below we bring together some general statistics for 1907 and 1906, affording an interesting contrast between the two years. The data for 1907 are necessarily largely estimates, as the year has only just closed. The same table is incorporated in our annual "Financial Review" and there the 1907 figures will appear in their final corrected form.

GENERAL SUMMARY FOR TWO YEARS.

| | 1907. | 1906. |
|---|---|---|
| Coin and currency in U. S. Dec. 31 ---$ | *3,269,065,058 | 3,225,954,768 |

*Figures for December 1 1907; result for Dec. 31 not yet available. A revised estimate of stock of gold coin was adopted Aug. 1 1907, a reduction of $135,000,000 being made. † Last few days of December estimated. *a* Estimated. *b* These are the statistics of the pipe-line companies handling the oils produced in the States of Pennsylvania, West Virginia, New York, Ohio, Indiana and Illinois. *h* Net exports.

JANUARY.—*Current Events.*—Business continued extremely active everywhere. In Europe the monetary tension relaxed (the Bank of England on the 17th reducing its rate from 6 to 5% and the Bank of Germany Jan. 22 from 7 to 6%), and in this country ease in money developed for the time being. Nevertheless, the feeling in financial circles and on the Stock Exchange became depressed and the stock market experienced a sharp decline. A recrudescence of the spirit of hostility against railroads and corporate interests was apparent. In the suit brought by Attorney-General Young in the Ramsey County District Court in Minnesota, Judge Oscar Hallam Jan. 23 made an order enjoining the Gt. Northern Ry. from issuing its proposed $60,000,000 additional stock. On Jan. 25 the Attorney-General brought still another suit in the Supreme Court at St. Paul, asking forfeiture of the charter of the St. Paul Minn. & Man. RR., a constituent property of the Gt. North Later in the month there were disturbing intimations from Washington that President Roosevelt was getting ready to adopt the ideas of Senator La Follette of Wisconsin and was giving much thought to devising some plan for the valuation of railroad property by which capitalization could be reduced. Attorney-General Hadley of Missouri Jan. 9 began an action in the Missouri Supreme Court to dissolve the alleged illegal merger of the Missouri Pacific, Iron Mtn. and Wabash RR., &c. Capital additions by the railroads were on an extensive scale. Following the announcement the previous month (Dec. 1906) of the offering of $60,000,000 new stock by the Gt. North., of $93,000,000 by the Nor. Pac., and of, roughly, $100,000,000 by the Milwaukee & St. Paul (payment, however, for these different issues being in installments extending far into the immediate future), news came that the Penn. RR. would ask for authority at the annual meeting for considerable new securities—$100,000,000 in stock and $100,000,000 in bonds, so the accounts stated. Chic. & No. West. offered shareholders $24,403,000 new com. at par, payment to be made on or before March 16. Most of the large borrowers, however, were obliged to issue short-time notes at stiff terms, it being impossible to sell long-term obligations at satisfactory figures. President Finley of the Southern Ry. issued an address to the public setting out the difficulties experienced in providing adequate service and this was followed by the sale of $15,000,000 3-yr. 5% gold debenture notes to J. P. Morgan & Co., the notes being subsequently re-sold to banking houses and offered at 97 and int. The N. Y. N. H. & H. RR. put out $26,000,000 of short-term notes of one kind or another. On Jan. 25 J. P. Morgan & Co. purchased $50,000,000 3-yr. 5% notes of the N. Y Cent. lines unsecured by collateral, $25,000,000 being issued by the Cen-

tral itself, $15,000,000 by the L. S. & Mich. So. and $10,000,000 by the Mich. Cent. About $6,000,000, it is understood, was placed abroad. Early in the month the Amer. Tel. & Tel. Co. sold to a syndicate $25,000,000 of 3-yr. 5% notes and later the same syndicate offered at public subscription $40,000,000 of that company's convertible 4% gold bonds. A number of minor roads also issued larger or smaller amounts of short-time notes. Atch. Top. & Santa Fe shareholders authorized $98,000,000 of bonds convertible into common stock; of this amount $26,056,000 (10-yr. 5s) were offered to stockholders at par the following July, but only $9,943,000 subscribed—the rest sold. One of the incidents of the month was an investigation by the Inter-State Commerce Commission of the Union Pac. RR. and its relations to competing lines. At the hearing in this city it developed that since the close of the fiscal year on June 30 1906 there had been acquired by the Union Pac. $28,123,300 of Ill. Cent. stock and by the Oregon Short Line RR. (controlled by the U. P. RR.) $14,285,700 of N. Y. Cent. stock, $10,000,000 of Atch. pref. stock, $3,690,000 of Mil. & St. Paul com., $3,215,000 of North. West. com. and $32,334,200 of the com. and $7,206,400 of the pref. of the Balt. & Ohio. These disclosures were used to intensify the hostile sentiment against Mr. Edward H. Harriman. The Inter-State Commerce Commission made two reports on investigations undertaken by it under the joint resolution of Congress approved March 7 the previous year—one with regard to the Standard Oil Co. concerning the relations of common carriers by rail to the production and distribution of oil, and the other relating to discriminations with regard to the transportation of bituminous coal; neither report attracted much attention. That with regard to coal was reviewed in the "Chronicle" of Feb. 2 1907, page 244. The Secretary of the Treasury modified the requirement as to the re-payment of the $12,000,000 special deposits placed with the banks the previous month; instead of requiring that $6,000,000 be returned Jan. 21 and $6,000,000 Feb. 1, he advanced the dates respectively to Feb. 1 and Feb. 15. Some little uneasiness, however, was caused by rumors that re-payment would be required some time during February of the $30,000,000 deposits made with the banks the previous Sept., as it was thought to be the purpose of Mr. Shaw to get the money back into the Treasury by March 4, when he was to retire from office. Government deposits in the banks Feb. 1 were $160,654,952, against $158,753,158 Jan. 1. Treasury money holdings were $336,518,292, against $343,836,223. National bank circulation changed but slightly. Extensive further increases in wages of railway employees were announced—see V. 84, p. 222. An earthquake destroyed a considerable part of the city of Kingston, Jamaica. The United States offered relief and Rear Admiral Davis, with the consent and at the request of some of the local authorities, landed a small force of marines for the purpose of carrying on rescue work. An unpleasant incident grew out of this, Governor Swettenham of Jamaica asking Admiral Davis in a very offensive letter to re-embark the marines. The sentiments contained in this letter, however, were repudiated by the British public. The U. S. Govt. did not feel called upon to take any official notice of the event. It was announced that Theodore P. Shonts, the Chairman of the Isthmian Canal Commission, would resign his office in order to become President of the Interbor.-Met. Co. of this city. Two decisions adverse to the constitutionality of the employers' liability Act with regard to railroad employees passed by Congress the previous year were given in the Federal courts, one by Judge Evans at Louisville and one by Judge McCall at Memphis. The U. S. Supreme Court upheld the constitutionality of the stock transfer tax of this State under the law of 1905 imposing a tax of 2 cents on each $100 of face value or fraction thereof, but the Court of Appeals at Albany declared unconstitutional the amendment of 1906 making the tax applicable to each *share* of $100 of face value or fraction thereof. The N. Y. Court of Appeals also sustained the right of the Brooklyn Rapid Transit Co. to charge a double fare to Coney Island. At a general election of members to the German Reichstag a striking feature was a heavy reduction of the Socialist representatives. The weather here in the East was rather mild the first half of the month, but about normal the latter half. The trans-continental lines on the extreme north, however—the Gt. North., the Can. Pac., the "Soo" road, &c—reported the weather the worst ever experienced, with very heavy drifts of snow and abnormally low temperatures, running from 30 to 50 degrees below zero. Parts of some of these lines remained tied up for weeks. Middling upland cotton advanced from 10.65c. Dec. 31 1906 to 11c. Jan. 31. There was much agitation against the grading of cotton on the New York Cotton Exchange, and the upshot was the striking off of certain grades from the list of grades tenderable on contracts, the changes to go into effect Jan. 1 1908. Print cloths at Fall River remained at 4 cents per yard. The demand for copper continued unabated, and Lake copper advanced to 25½ cents per pound. The Chemical National Bank of this city increased its capital from $300,000 to $3,000,000 through the payment of a dividend of 900%. The Mercantile National Bank of this city passed to the control of F. Augustus Heinze and copper interests; this change was to play an important part in bringing about the panic the following October. Mr. Frederick B. Schenck, the President of the Mercantile, having thus been displaced, was made President of the Liberty National Bank. Another local event was the announcement that the Trust Co. of America had acquired the Colonial Trust Co. and the latter was to be consolidated with it. This institution, too, was to become conspicuous in the October panic—through no fault of its own, however.

*Railroad Events and Stock Exchange Matters.*—The stock market was very much depressed during January, and there was a large and almost continuous decline in prices, with only fitful rallies except at the very close, when a somewhat more substantial recovery ensued. The disposition was to take a very unfavorable view of things. The disturbing incidents were the successive announcements of new capital flotations, the fact that in so many instances resort had to be had to the issue of short-time notes on onerous terms, the rumors of further hostile action against the railroads and against corporate interests generally, with the litigation against the Gt. North. Ry., and the fact that railroad returns showed that the increase in the cost of materials and supplies and the increases in wages were adding to the expense accounts of the roads in a very marked way. Moreover, owing to the traffic congestion, the railroads appeared to be unable to move freight with due economy. Early in the month Nor. Pac. and Gt. North. were particularly under pressure, but later Southern Ry., Penn., N. Y. Cent., and most of the other roads which announced or had in view new capital issues, as also the Reading shares and the industrial properties, were almost equally weak. Nor. Pac. sold down from 189½ Jan. 7 to 149 ex div. Jan. 21, with the close Jan. 31 154⅝; Gt. North. dropped from 189¾ Jan. 2 to 164 ex div. Jan. 26, with the close Jan. 31 166¼; North West. com., which had been 205 Jan. 10, sold at 179¾ Jan. 31, with the close the same day 181¾; Reading com. was 139⅛ Jan. 7 but only 119¼ Jan. 31, with a recovery before the close to 122⅛; Union Pac. com. was 183 Jan. 5, 168⅞ Jan. 30, with the close Jan. 31 172⅛; Penn. RR. was 141⅜ Jan. 8 and 129½ Jan. 31, with a recovery to 131¼ at the close. Many of the low-priced shares suffered equally with the gilt-edged properties. Southern Ry. com. from 34 Jan. 5 fell off to 24⅞ Jan. 31, closing at 26. In face of the unexampled activity of the iron and steel trades Steel com. declined from 50⅜ Jan. 7 to 42¾ Jan. 31, closing at 44¼. And notwithstanding the high price of copper, Amal. Copper dropped from 121⅞ Jan. 5 to 110⅜ Jan. 30, closing Jan. 31 at 112¼. The syndicate that had underwritten the $12,000,000 convertible bond issue of the Erie RR. was dissolved with some three-fourths of the bonds, it is understood, unsold. Vice-President James McCrea was elected President of the Penn. RR. to succeed the late Alexander J. Cassatt. Del. & Hud. raised its div. from 7% per annum to 9%. The Nashv. Chatt. & St. L. raised its semi-annual div. from 2½ to 3%. N. Y. Chic. & St. L. made the annual div. on 2d pref. 4% against 3 previously. People's Gas Light & Coke Co. of Chicago restored the quarterly div. to 1½% from 1¼.

*The Money Market.*—Call money continued high at the beginning of January before the distribution of the 1st of Jan. int. and div. payments, but ease gradually developed, and on Jan. 31 the range was only 1¾@3½. For the month the range was 1¾@20. Surplus reserves of Clearing House banks Jan. 5 got down to $147,825, but the next two weeks there was an increase to $18,460,700. Owing to the expansion in deposits the surplus decreased again to $12,634,100 by Feb. 2. Money holdings, which were $250,292,400 Jan. 5, increased to $282,315,700 Jan. 26, and were $281,814,100 Feb. 2. Deposits rose from $981,301,100 Dec. 29 1906 to $1,000,578,300 Jan. 5, 1907, and to $1,076,720,000 Feb. 2. Loans from $1,032,973,000 Dec. 29 increased to $1,097,837,500 Feb. 2. Time money, which at the beginning of the month was quoted at 7% for 30 to 60 days and 6½@7 for 90 days, 6@7 for 4 mos. and 6@6½ for 5 to 6 mos., gradually worked lower, and at the close was 5¼@5½ for 30 to 60 days, 5½ for 90 days to 4 mos., 5½@5¾ for 5 to 6 mos. and 5¾@6 for 12 mos. Commercial paper was also easier at the close at 5¾@6¼ for 60 to 90-day endorsed bills receivable, 5¾@6¼ for prime single names and 6½ for good 4 to 6 mos. single names.

*Foreign Exchange, Silver, &c.*—Foreign exchange early in the month ruled quite strong, and rates sharply advanced. This was because the low rates ruling had induced purchases for investment and also in part because a demand sprang up to cover exchange which had been speculatively sold in expectation of the maintenance of dear money and the consequent continuance, as supposed, of low exchange. After a few days, however, the exchange market again developed weakness, influenced by offerings of commodity bills in fair amounts, chiefly against cotton. Later, the market lapsed into dulness with the tendency of prices upward. At the close of the month renewed weakness occurred and rates fell off all around, the principal cause being the placing abroad of considerable amounts of short-time notes issued by American railroads and the selling of exchange against the same. As noted above, both the Bank of England and the Bank of Germany reduced their discount rates. The Bank of England increased its gold holdings for the five weeks ending Jan. 31 no less than £5,185,018, notwithstanding large shipments of the metal to India and to South America. There was a large return flow of gold from the provinces and the Bank received supplies from Paris and secured considerable amounts in the open market. Exchange rates were at their highest about the 19th, when prices were 4 8175@4 82 for 60-day bills, 4 8595@4 8610 for sight and 4 8665@4 8675 for cable transfers. The close Jan. 31 was at 4 8050@4 8065, 4 8465@4 8470 and 4 8535@4 8545, respectively. Open market discounts at the European financial centres declined all

around and Jan. 31 were 4⅝ at London, 3@3⅛ at Paris and 4½ at Berlin and Frankfort. Silver in London was 32 7-16d. at the beginning of Jan. but declined to 31¼ and closed at 31½.

FEBRUARY.—*Current Events.*—Further issues of short-time notes by railroad and other corporations were made, the most conspicuous instance being $60,000,000 3-year 5% notes of the Penn. RR., which were sold to Kuhn, Loeb & Co. The action in this case at first caused some uneasiness in view of the previous announcement that stockholders were to be asked to authorize a large addition to stock and debt at the annual meeting in March. Explanation came promptly that these notes were to complete the company's financing for 1907, and moreover that $50,000,000 of the amount was to take up the Penn. *Company* notes for like amount when they matured in Nov. Furthermore that none of the stock or bonds to be voted at the annual meeting would be issued during 1907. The feeling of uncertainty concerning the outlook for the railroads continued and was reflected in further liquidation on the Stock Exchange. The investigation by the Inter-State Commerce Commission of the Harriman roads was continued, and at the hearing in this city the latter part of the month Mr. Harriman was under examination for several days and Mr. Otto H. Kahn, of Kuhn, Loeb & Co., was also a witness. The matter was treated in a sensational way in the newspapers. Unusual attention was given to the Chicago & Alton reorganization, which occurred eight years before, in 1899, and stress was laid on the very large increase in the capitalization of the property made at that time, but there was nothing new in the facts themselves. One episode in the examination of Mr. Harriman was the reasons assigned by him (in response to questions) why Stuyvesant Fish had not been retained as President of the Illinois Central; Mr. Harriman criticized Mr. Fish's deposits of Ill. Cent. money in the Trust Co. of the Republic and its successor, the Commonwealth Trust Co., and also criticized some loans obtained by Mr. Fish from the Ill. Cent. Later in the year, in the contest at the Illinois Cent. annual election, the matter became the subject of acrimonious controversy. The movement to reduce passenger rates made further headway in the different States. The depositary banks met the calls for the return of Government deposits previously made, but to get out Treasury accumulations Sec. Shaw on Feb. 11 offered to purchase $25,000,000 U. S. 4s of 1907 at 101½ flat. The response was very meagre, the payment for bonds bought during the month reaching only $1,895,550. Government deposits in the banks were reduced from $160,654,952 to $150,486,236, and money holdings in sub-treasuries increased from $336,518,292 to $357,114,829. Considerable satisfaction was felt over the passage by the U. S. Senate on Feb. 26, by a vote of 43 to 14, of the Aldrich Financial Bill. The House passed the bill next month (Mch. 2) by 160 to 72, and it became a law on Mch. 4. Besides making certain changes in the denominations of gold certificates and U. S. notes, it allows the Secretary to deposit customs receipts in the banks as well as internal revenue, and increases from $3,000,000 a month to $9,000,000 the limit of the deposits of lawful money for the retirement of national bank notes—see V. 84, p. 545. Bank note circulation secured by bonds Feb. 28 was $549,737,373, against $549,698,574 Jan. 31. Business remained good everywhere, with pronounced activity in the dry goods market. The demand for cotton goods was reported abnormally heavy, with stocks practically "cleaned up" in numerous cases. Print cloths at Fall River were marked up first from 4 to 4⅛ cents, then to 4¼, then to 4⅜ and finally to 4½. Raw cotton advanced slightly, middling uplands in this market Feb. 28 being 11.25 cts., against 11 Jan. 31. There was a sale Feb. 1 of $30,000,000 N. Y. City bonds at which the whole $26,000,000 4s due 1956 was taken, but only part of the $1,500,000 bonds due 1926 and of the $2,500,000 assessment bonds due 1916. The weather during Feb. was much colder than usual. Here in the East temperatures were almost continuously low from the middle of Jan. through Feb., and well into Mch., with much fall of snow. At Boston, the coldest Feb. for 22 years was reported, with a snowfall of 25.8 inches. In the West, on the Great Northern Ry. and the other northern transcontinental roads, the situation improved, and it was found possible to open up again all their lines after the worst snow blockades on record. The N. Y. State Commission of Gas & Electricity reduced the price of gas and electricity in the city of Rochester. See V. 84, p. 509. There were further advances in wages of railroad employees—among others on the Southern Ry. The Washington authorities decided not to accept any of the bids which had been received for the building of the Panama Canal. The Isthmian Canal Commission was later completely reorganized—V. 84, p. 807. J. D. Rockefeller made a gift of $32,000,000 to the General Educational Fund.

*Railroad Events and Stock Exchange Matters.*—The stock market showed some recovery the early part of Feb., but with business small. The latter half weakness again developed with some sharp declines in prices. The last week the downward movement was accelerated by the hearings in this city of the Inter-State Commerce Commission in its investigation of the Harriman properties. The general feeling was that attempt would be made to disrupt the Harriman combination, and that in any event much litigation would result. Furthermore, that this was only a first step in a movement against large railroad interests in general. The very last day, Feb. 28, a sharp upward reaction occurred, but the improvement was not maintained the following month, as noted below. One of the strong features was Mo. Kan. & Tex., the common rising from 35¾ Feb. 1 to 44½ Feb. 28. Atch. Top. & S. Fe com. sold up from 99¼ Feb. 1 to 105 Feb. 13, but closed at 102¾ Feb. 28; Mil. & St. Paul com., after selling at 150½ Feb. 14, declined to 143¼ Feb. 26, with the close Feb. 28 145⅞; Great North. dropped from 171¼ Feb. 14 to 159 Feb. 27, with the close 164; Nor. Pac. fell off from 155¾ Feb. 1 to 144½ Feb. 27, with the close 146⅝; N. Y. Cent. sold up from 124 Feb. 1 to 130½ Feb. 13, then declined and closed at 126 Feb. 28; Union Pac. com. from 177¼ Feb. 18 got down to 168⅜ Feb. 27, with the close 171½; South. Ry. pref. was weak on the large increases in expenses with consequent decrease in net earnings. Besides the $60,000,000 3-yr. 5% notes issued by the Penn. RR., the Interb. Rap. Tran. Co. sold $10,000,000 3-yr. 5% notes, and the Lackaw. Steel Co. $5,000,000 2-yr. 5% notes. The Tidewater Construction Co., organized by H. H. Rogers and associates to build the Virginian Ry., placed $10,000,000 2-yr. 6% notes secured by extensive collateral. The N. Y. N. H. & RR., through Kuhn, Loeb & Co. placed $27,985,000 (145,000,000 fcs.) 4% 15-yr. debens. abroad. The Atlantic Coast Line RR. issued $5,000,000 5% 3-yr. notes and the L. & N. $6,500,000 5% 3-yr. notes. Chic. R. I. & Pac. Ry. placed $6,500,000 equipment 4½s. Bankers offered the unsold portion of $6,000,000 6% s. f. 10-yr. debens. of the Schwarzschild & Sulsberger Co. The unsold portion of a $3,000,000 issue of 5% bonds of the Penn. Beech Creek & Eastern Coal Co. was offered at 90, with a bonus of 50% in stock. Seaboard Air Line Ry. shareholders were offered $7,300,000 gen. mtg. and coll. 5% 30-yr. bonds at 90. Col. & South. Ry. declared the first div. (2%) on its 2d pref. stock. Charles W. Morse purchased control of the N. Y. & Porto Rico SS. Co., also the "Ward Line," or N. Y. & Cuba Mail SS. Co. The special committee appointed the previous May by the directors of the Penn. RR., to investigate the ownership by officials and employees in coal and other enterprises making shipments over the Pennsylvania system, submitted its final report, showing that, with few exceptions, officers and employees had been faithful to their duty. See V. 84, p. 416.

*The Money Market.*—Call loans showed increased firmness and time loans were in good demand, with the offerings small. The market was influenced by the borrowing by corporations either on short-time notes or direct. As indicated above, Government deposits in the national banks were drawn down, Surplus reserves of the Clearing House banks were reduced from $12,634,100 Feb. 2 to $3,345,875 Feb. 9 and were $3,858,650 Mar. 2. Money holdings declined each week, and were only $263,466,600 Mar. 2, against $281,814,100 Feb. 2. Deposits decreased from $1,076,720,000 Feb. 2 to $1,038,431,800 Mar. 2, and loans, after increasing from $1,097,837,500 Feb. 2 to $1,099,356,400 Feb. 9, were reduced to $1,079,185,600 Mar. 2. Call loans Feb. 28 got up to 6%, as on some other days during the month. Time loans at that time were 5¼% per annum for 60 to 90 days, 5¼@5½ for four and 5½@5¾ for five to six months. Commercial paper was in better demand, the inquiry, however, being mainly by interior institutions, more particularly the West. Rates at the close were 5¾@6 for double names and prime single names and 6½ for good single names.

*Foreign Exchange, Silver, &c.*—Foreign exchange was irregular during Feb.—at the beginning generally strong, followed by a downward tendency; the last half of the month there was much weakness, but also quick recoveries, one of these occurring at the close. Offerings of bills against purchases here of American securities for foreign account and expectations of increased supplies of drafts against the negotiation abroad of short-term corporation obligations were what tended to keep the market easy. Accumulations of credits in Europe resulting from sales of corporation notes and from investments in exchange, afforded opportunity to settle current maturities through cable transfers instead of in the ordinary way of remittance, thus minimizing the inquiry for sight bills. News of the negotiation in Paris of the N. Y. N. H. & H. debens. had a distinct weakening effect for the time being. Comparatively little gold was drawn from the other side. Some engagements in London for shipment hither were made early in the month, and arrangements were then under way for other purchases of the metal. At this time, according to report, representatives of the Bank of England approached the American importers with a request that they refrain from bidding, thereby permitting the Bank to secure the gold. This request was acceded to and the remainder of the month there was no competition between American bankers and the Bank for the gold arrivals in London. Through purchases in the open market and imports from Egypt, the Bank was enabled to make a further important addition to its gold holdings, even after meeting a heavy demand for gold for South America. Exchange rates were lowest Feb. 16 at 4 8025@4 8035 for 60-day bills, 4 8440@4 8450 for sight and 4 8515@4 8525 for cable transfers. Feb. 28 prices were 4 8050@4 8060, 4 8465@4 8470 and 4 8535@4 8545 for the three classes of bills. There were no material changes in open market discounts abroad, which Feb. 28 were 4¾ at London, 2⅞ at Paris and 4⅞ at Berlin and Frankfort. The Imperial Bank of Russia reduced its rate from 7 to 6½. Silver again showed strength and recovered to 32⅛d. Feb. 28.

MARCH.—*Current Events.*—A world-wide disturbance of the financial markets developed, mainly as the result of a phenomenal break in prices on the New York Stock Exchange. The collapse here was due chiefly to the complete impairment of confidence in the value and stability of railroad investments, owing to the hostility against the railroads. Tense conditions in money, however, arising out of the withdrawals of cash through Government absorptions and uncertainty as to the probable course of the new Secretary of the Treasury, Geo. B. Cortelyou, who on March 4 had succeeded Leslie M. Shaw, accelerated the downward movement. The various State legislatures continued their policy of adverse legislation, passing or considering rate bills and other measures inimical to the railroads. In this State, the Public Utilities Bill excited much discussion, a point at issue being whether there should be a limited or a broad court review of the acts of the proposed commission, and whether the members should be elected or appointed. The decline on the Stock Exchange continued, and finally on March 14 a frightful collapse ensued; prices simply melted away—in some cases dropping five points or more at a time. In many respects the shrinkage was worse even than that which occurred in the Nor. Pac. corner in May 1901. The next day, March 15, a concerted effort was apparently made to check the break so as to prevent great disaster. There were rumors of an agreement whereby leading interests stood ready to advance $25,000,000 to support the market. It is not known what basis the rumor had, but a sharp recovery in prices ensued. The recovery was not enduring. The next week prices again ran off in an alarming way. The European financial markets were as much disturbed as our own and there were rumors of impending trouble at Berlin and London and also at Brussels and Amsterdam. On March 21 the Bank of France unexpectedly advanced its rate from 3 to 3½, the first change by it since May 24 1900—and the Bank of Belgium advanced its rate from 4 to 5%; the previous week the Bank of Netherlands had advanced from 5 to 6%. It should also be noted that March 13 British consols fell to 84 11-16, the lowest price since 1866, and the next morning got as low as 84 5-16, a figure not paralleled since 1848; later in the year still lower quotations were reached. The action of the Bank of France served further to unsettle our own markets. On March 22 a sudden big drop occurred in Canadian Pac. shares, and this was reflected the next day in panicky markets in Berlin, where considerable amounts of these and other American railroad shares were held. The situation became very serious and much anxiety was manifested at all the European centres. At London fears were expressed lest the fortnightly settlement which would end on the 27th should disclose serious weakness. The result was a tremendous outpour of stocks on our Exchange the following Monday, March 25, under which prices again crumbled away in the same fashion as on March 14, and in numerous instances even lower quotations were recorded. After that, however, considerable recovery ensued, though some weakening in the price of copper abroad unsettled the copper shares. In face of the tremendous liquidation and shrinkage in prices, not a single failure of a Stock Exchange house occurred. In Europe, too, no very serious trouble developed, the failures at London and Berlin being unimportant. By the end of March, English consols had got back to 85 11-16. Great efforts were made all through the month to get President Roosevelt to make some announcement tending to reassure investors. Mr. J. P. Morgan called on the President Monday evening March 11 before taking his customary annual tour to Europe, and after his visit stated that he had suggested to Mr. Roosevelt the advisability of his consulting with certain leading railroad men, naming President Mellen of the N. Y. N. H. & H. RR., President Marvin Hughitt of the Chic. & Nor. West., Pres. Newman of the N. Y. Central and Pres. McCrea of the Pennsylvania RR., with the view to allaying public anxiety. Mr. Morgan sailed for Europe on the morning of the second day following. It was thought he had arranged for a conference between these men and the President. It later developed that Mr. Morgan's proposal was simply in the nature of a suggestion and that the railroad men referred to were not a party to it. They had several conferences among themselves but in the absence of a special invitation from Mr. Roosevelt they seemed at a loss what to do. Late Friday March 15, the announcement was definitely made that it had been decided not to go to Washington, since they did not feel that they had any proper mandate from the railroad corporations to represent them, and it was not clear that any good would result from the move, and the object of the visit might be misconstrued. The failure of this expected conference with the President was in large part responsible for the great break in prices which occurred. Some of the railroad men subsequently called on Mr. Roosevelt as individuals, and all through the month Mr. Roosevelt was in receipt of visits from leading bankers and financiers. The President remained obdurate, however, though he called some of the State governors in consultation with him at Washington with reference to the possibility of harm from hostile State legislation. The President on April 1 finally authorized a declaration to the effect that, after considering the matter very carefully, he had come to the conclusion that he had nothing new of moment to say concerning railroad affairs. He declared that he would not in the future deviate one hair's breadth from the course he had pursued, and for an expression of his views referred inquirers to past speeches and to his annual messages. With reference, however, to the fears of harm from a contemplated re-valuation of railroad property, he declared it was "utter nonsense" to suppose "that the Government had the slightest intention to take any action which would invalidate the safety and stability of the railway securities now issued." At the time of the great break on March 14 call money on the Stock Exchange got up to 25%. Sub-treasury operations were then taking large amounts of cash out of the banks. There was a disposition at Washington to treat the disturbance in the stock market as having been engineered by Wall Street. Nevertheless, Secretary Cortelyou was obliged to take repeated steps to get out treasury accumulations. The Aldrich currency bill became a law March 4 and increased the Secretary's power for furnishing effective relief. On March 13 Mr. Cortelyou announced that the date for the return of the $30,000,000 public deposits placed with the banks the previous Sept. had been indefinitely postponed. He also announced that he deemed it unwise to compel compliance with Secretary Shaw's order made the previous Oct., when banks holding public deposits secured by Govt. bonds were permitted to substitute municipal securities up to an aggregate of $18,000,000, on condition that the bonds released be used as the basis for new bank-note circulation, but contingent upon the retirement of this circulation beginning with March at the rate of $3,000,000 a month. He announced that the increased circulation might be retained. March 14 he rescinded the circular of Feb. 11 for the purchase of 4s of 1907 at 101½ and announced that instead he would purchase $25,000,000, paying full int. to July 1 1907. He also gave notice that where the bonds were held as security for Govt. deposits he would allow the substitution of bonds in which New York or Massachusetts savings banks are allowed to invest. He also directed that the int. due April 1 on the registered 2s of 1903 and the 4s of 1907 be paid at once. Finally, on March 26, he ordered the turning back into the N. Y. City banks of customs dues paid at N. Y. to a total of $15,000,000. As a consequence of all this, Govt. holdings of cash April 1 were only $349,520,548, against $357,114,829 March 1, but against $336,518,292 Feb. 1 1907. Govt. deposits in the banks were $165,235,680 April 1, against $150,486,236 March 1 and $160,654,952 Feb. 1. National bank circulation secured by bonds was $547,633,063 March 31, against $549,737,373 Feb. 28. Pres. Roosevelt's contemplated reorganization of his Cabinet was completed. Besides advancing Mr. Cortelyou to the Treasury, James R. Garfield, formerly Commissioner of Corporations, was made Secretary of the Interior, succeeding Ethan A. Hitchcock; Geo. Von L. Meyer succeeded Mr. Cortelyou as Postmaster-General. Middling upland cotton, after touching 11.45c. March 6, closed at 10.95c. March 30. Congress expired March 4. Besides the Aldrich Currency Bill, which was the only legislation on financial matters, the other important measures which became laws were: a bill limiting the hours of railway employees; a bill giving the Govt. the right of appeal in certain criminal cases, the latter after it had been considerably modified; a bill increasing the pay of Senators and Members of Congress from $5,000 a year to $7,500, and also increasing the pay of the Speaker, the Vice-President and the Cabinet officials; a bill forbidding corporations to contribute money to political campaigns; a bill establishing an agricultural bank in the Philippine Islands, and the Immigration Exclusion Bill excluding from this country Japanese without passports. The Ship Subsidy Bill, after having first been beaten in the House and then passed by that body on re-consideration (after some of its opponents had gone away), was defeated by filibustering tactics in the Senate. Some of the other measures which died in Congress were the Eight-Hour Bill and the Anti-Injunction Bill. In signing the bill giving the Govt. the right of appeal in criminal cases, Pres. Roosevelt filed a memorandum saying he gave it his approval because it represented a step in advance, but nevertheless felt that it fell lamentably short of accomplishing what should be accomplished. After the passage of the Immigration Exclusion Bill, Pres. Roosevelt prevented adverse legislation against the Japanese by California. On March 11 he sent a telegram to Gov. Gillett of California saying that the action of the California Legislature was most unfortunate in its effect upon his efforts to secure exclusion of Japanese laborers by friendly agreement, and if continued would probably render the new legislation of Congress for that purpose ineffective. Gov. Gillett transmitted this telegram to the California Assembly, which promptly killed the whole three of the anti-Japanese measures previously adopted by the California Senate, namely the Wolfe Bill for the segregation of the Japanese in the public schools, the Keane Bill for the submission of the question of Japanese exclusion to the people of California at the next general election, and the Sanford resolution protesting against the admission to the State and to naturalization of Japanese. Subsequently the President issued an executive order directing that Japanese or Corean laborers who had received passports to go to Mexico, Canada or Hawaii, and who come therefrom, be not allowed to enter the continental territory of the United States. The San Francisco Board of Education modified its resolution excluding Japanese children from the public schools so as to admit those who speak English, and Pres. Roosevelt agreed to dismiss the suit of the U. S. Govt. to test the legality of the attempt at exclusion. The U. S, Senate before its adjournment ratified the treaty with Santo Domingo, which had been considerably modified. Owing to the changes, it had to be re-submitted to the Santo Domingo Congress, which eventually approved the changes. Some sanguinary battles were

fought in Central America as the result of a new outbreak of hostilities between Honduras and Nicaragua. An uprising of peasants occurred in Roumania and a great slaughter ensued in Moldavia when the Govt. ordered the bombardment of the rebellious villages; the Roumanian King subsequently granted extensive reforms. In Persia a conflict between the Shah and the Assembly was averted by the Shah granting all the popular demands, including formal recognition that the country was under constitutional government. The second Russian Douma convened at St. Petersburg March 5 and there were some scenes of disorder. The first parliament of the Transvaal Colony under the newly granted constitution met at Pretoria March 21, and as the Boers were in the majority, General Botha was chosen Premier, but the latter at once entered upon a policy of loyal suppor tto the British Empire, and furthermore announced that he would participate in the conference of Colonial Prime Ministers which had been called to assemble at London. At the London County Council elections March 2, the "Progressives," or party carrying out the policy of "municipal trading," or municipal ownership, and which had long been dominant, suffered overwhelming defeat, the number of its representatives in council being reduced from 83 to 36. A Japanese 5% loan for £23,000,000 was placed in Europe and the U. S. to take up the £22,000,000 6s issued in 1904; the subscription price was 99½. The Argentine Govt. negotiated a £7,000,000 loan with European bankers. The Mechanics' & Traders' Bank of this city took over the Union Bank of Brooklyn. The Indiana legislature enacted a law making 60 cents per 1,000 feet the maximum charge for gas in Indianapolis. V. 84, p. 576. The Corbin Banking Co. of this city made an assignment. About the middle of the month Pittsburgh suffered tremendous losses from unprecedented floods. Both Philadelphia and St. Louis failed to sell their bond offerings—the former 3½s, the latter 3.65s. The Supreme Court of Minnesota March 28 overruled the lower courts and held that the Gt. Nor. Ry. could issue the $60,000,000 new stock offered shareholders the previous Dec. without first getting authority from the State Board.

*Railroad Events and Stock Exchange Matters.*—The long-continued and serious decline in prices culminated in utter collapse on the Stock Exchange during this month. The features and incidents connected with this tremendous shrinkage have been set out above. It remains to be said that while the aggregate of the transactions for the month was large, the volume of business on none of the most memorable days surpassed previous records. The days of heaviest declines were Mar. 14 and 25. On the latter day the number of shares dealt in was 1,675,825 shares and on Mar. 14 2,571,516 shares, this last having been exceeded several previous times. As a graphic record of the extraordinary drop in prices which occurred, we present the following little table showing the opening prices Mar. 1 for leading stocks, the extreme high and low for the month with date, and the closing price Mar. 31:

| Name. | High Mch. 1. | Low (with date). | Close Mch29 |

a March 6th. b March 11th.

The N. Y. Stock Exchange changed the method of quoting some shares with a low par value, from a percentage basis to dollars per share. V. 84, p. 546. The N. Y. N. H. & H. disposed of its ownership of the Boston & Phil. SS. Co. to the Merchants' & Miners' Transportation Co. and acquired a half interest in the latter. Penn. RR. shareholders authorized the $100,000,000 stock and the $100,000,000 bonds previously announced.

*The Money Market.*—The money market gave much cause for uneasiness the early part of March. The surplus reserves of the Clearing-House banks Mar. 2 were $3,858,650 and Mar. 9 dropped to only $2,051,725. At the same time the U. S. Government was drawing money from the banks. On Mar. 13 the call-loan rate at the Exchange got up to 15% and Mar. 14 to 25%. Mar. 15 the high figure was 15. Thereafter the tension relaxed somewhat, and the rate did not rule above 6 until the renewed break in stocks on Mar. 25, when as high as 14% was again reached; Mar. 26 the highest was 10%. The rest of the month the rate did not again get above 6, with the range on the closing business day (Mar. 29) 2¾@5%. The successive steps of the Secretary, as narrated above, served to relieve the strain. Furthermore, the condition of the Clearing-House banks greatly improved. By Mar. 30 surplus reserves were up to $13,131,275. Money holdings, which had dropped from $263,466,600 Mar. 2 to $254,026,700 Mar. 16, increased to $268,085,600 Mar. 30. Deposits, after declining from $1,038,431,800 Mar. 2 to $1,002,144,600 Mar. 23, increased to $1,019,817,300 Mar. 30. Loans, after being reduced from $1,079,185,600 Mar. 2 to $1,049,989,600 Mar. 23, increased to $1,056,545,200 Mar. 30. Provision had to be made for some $37,000,000 of special payments, including payments on account of the Penn. RR. notes and Chic. & N. W. new stock. For time money a commission frequently had to be paid in addition to the legal rate for the shorter maturities, but at the close the quotation was 6% for all periods from 90 days to six months. Sixty-day loans, however, at that date were still quoted at 6½%. Commercial paper at the close was 6@6½ for double names and prime single names and 6¾@7 for good single names.

*Foreign Exchange, Silver, &c.*—Foreign exchange was weak most of the month. The principal influences were the monetary tension here and the offerings of bills against European purchases of American securities induced by the low prices ruling. Later in the month, however, there was considerable selling here of securities for foreign account caused by the panicky conditions abroad. On occasions foreign bankers showed a decided indisposition to operate in exchange in view of the disquieting rumors which were in circulation of the embarrassment of international banking houses on account of the tremendous shrinkage in security values. The critical situation at Berlin at one time caused a sharp upward reaction in exchange, but later rates again declined. Europe all through the month was apprehensive of large gold takings for the United States, but our bankers acted very cautiously in view of the great nervousness abroad and the only gold engagements were $1,000,000 in Amsterdam and $1,625,000 in London. Exchange rates were at their highest Mar. 2, when 60-day bills were 4 8035@4 8050, sight 4 8465 @4 8470 and cable transfers 4 8535@4 8545. By the 18th 60-day bills were down to 4 7840@4 7845, and by the 20th sight bills were down to 4 83@4 8305 (on the 26th some sales of sight were made as low as 4 8275) and cable transfers 4 8375@4 8380. On Mar. 30 quotations were 4 7875@4 79 for 60-day bills, 4 8320@4 8325 for sight and 4 8410@4 8420 for cable transfers. We have referred above to the advance from 3 to 3½ in the discount rate of the Bank of France on Mar. 21, and also to the advances by the Bank of Amsterdam and the Bank of Brussels. There were fears at one time that the Bank of England, too, would again have to put up its rate to 6%, but this step was averted. Open market discounts moved upward at all the European centres. The close was at 5@5⅛ at London, 3½ at Paris and 5⅜@5½ at Berlin and Frankfort. Silver in London declined sharply, the quotation Mar. 25 being only 30 7-16d. against 32⅛d. Feb. 28; the close was at 30⅝d.

APRIL.—*Current Events.*—During April our stock market enjoyed a substantial recovery and the stringency in money at this centre was relieved. With relaxation here, uneasiness abroad also vanished, and improvement occurred everywhere at the European monetary centres. Easier money at New York resulted entirely from the measures adopted the previous month by the Secretary of the Treasury. The Department also issued a circular, April 2, offering to exchange $50,000,000 of the maturing 4s of 1907 into 2% consols (the 2s to be taken at 103 in the exchange), and called the residue of the outstanding 4s for redemption July 2 1907. Purchases of these bonds under the offer of the previous month continued, and up to April 30 aggregated about $23,500,000. The customs collections placed in the depositary banks at N. Y. under the Secretary's order of Mch. 26 actually reached $17,500,000 instead of the $15,000,000 originally fixed. Altogether, money holdings in the Treasury were substantially reduced, and aggregated only $334,991,587 May 1 1907, against $349,520,548 April 1 and $357,114,829 Mch. 1. Government deposits in national banks were $178,691,078 May 1, against $165,235,680 Apr. 1 and $150,486,236 Mch. 1. After the decline the previous month, there was also again an increase in national bank circulation, the amount secured by bonds being $550,204,771 Apr. 30, against $547,633,033 Mch. 30 and $549,737,373 Feb. 28. The Bank of England twice reduced its minimum—on the 11th from 5% to 4½% and on the 25th to 4%. The Bank of Germany Apr. 23 reduced from 6% to 5½% and the Bank of Netherlands reduced its rate first from 6 to 5½ and then to 5%. The Bank of France made no change in its rate, as Paris bankers began to withdraw from London the gold which they had advanced to the British market earlier in the year and its 3½% rate was calculated to facilitate the movement. There were some favorable developments in this country. The threatened strike of the conductors and trainmen on the Western lines was averted; a settlement of the points at issue was arranged by Chairman Knapp of the Inter-State Commerce Commission and Commissioner Neill of the Department of Labor. The men got an advance in wages of about 10%, instead of the 12% demanded, and waived their request for nine hours. At the municipal election at Chicago, Mayor Edward F. Dunne, who had been championed by William R. Hearst and his newspapers, was defeated for re-election by a plurality of 13,000 votes, and the ordinances granting new franchises to the trolley lines in Chicago were approved by a majority of over 33,000, clearing the way for the rehabilitation of these lines. At a primary election of one of the political parties in Baltimore, it was also proved that sentiment did not favor municipal ownership (V. 84, p. 834). The Supreme Court of Illinois declared illegal the proposed issue of $75,000,000 street railway certificates by the City of Chicago for the purpose of buying up, if desired, the Chicago trolley lines (V. 84, p. 967). The State Corporation Commission of Virginia, however, issued an order under proceedings initiated the previous year, reducing passenger rates on all the

important lines within that Commonwealth to 2 cents a mile (V. 84, p. 1026), and a number of other States also took action of one kind or another to reduce rates—see V. 84, p. 932. Gov. Stuart of Pennsylvania Apr. 5 signed the two-cent fare bill for that State, it becoming effective Sept. 30. In other directions, also, the crusade against the railroads was continued. In Minnesota, what was known as the Sundberg Investigating Committee made a report intended to show that railroads in Minnesota had been enormously overcapitalized, and particularly arraigning the Chicago Great Western Ry. Both the Cincinnati and the Dayton (Ohio) chambers of commerce adopted memorials embodying anti-railroad presentments, but there were also some significant indications of opposition to the attitude of hostility against corporations. The Philadelphia Board of Trade passed a resolution demanding fair and rational treatment of the transportation agencies (V. 84, p. 894), and from Chicago there came the news that several hundred manufacturing and business firms throughout the country had united in an address deploring the attacks on the railroads and expressing fears of the consequences (V. 84, p. 963). The weather was quite unseasonable (the month here in New York having been the coldest in 32 years), and in the Southwest damage to the growing winter wheat from undue cold, and in part also from a drought, was noted, while from the South there were complaints of low temperatures and the necessity of much replanting. Grain prices advanced, July wheat in Chicago rising from 77¾c. Apr. 4 to 84c. Apr. 29, with the close Apr. 30 81½c., and there being sharp advances also in corn and oats. Middling uplands cotton in this market rose from 10.95c. Mch. 30 to 11.45c. Apr. 30. Print cloths at Fall River on Apr. 29 were further marked up from 4½c. to 4 9-16c. per yard. One of the political events of the month was the publication of a letter written Jan. 21 1906 by E. H. Harriman to a friend, dealing with a political campaign fund of $200,000 raised by Mr. Harriman at the time of the Presidential election of 1904. The letter was not made public by Mr. Harriman, but was given out by a discharged stenographer, who was subsequently prosecuted by Mr. Harriman for his act. In reply, Mr. Roosevelt gave out a letter that he had written the previous October to James S. Sherman, the Chairman of the Republican Congressional Committee, denying that he ever requested Mr. Harriman to raise a dollar for the Presidential campaign of 1904, and saying "any such statement is a deliberate and wilful untruth—by rights it should be characterized by an even shorter and more ugly word." The President also adverted to other matters, one of them an absurd allegation that Mr. Harriman had said he could buy the State legislatures and Congress, and then characterized Mr. Harriman as "at least as undesirable a citizen as Debs, or Moyer or Haywood." This last statement was taken up by the labor unions, who looked upon it as an attempt to prejudge the case of Moyer and Haywood of the Western Federation of Miners, who were then in jail in Boise, Idaho, charged with complicity in the murder of ex-Governor Steunenberg with a dynamite bomb. Accordingly, Mr. Roosevelt, under date of Apr. 22 1907, wrote another letter in which he repeated his characterization of Haywood and Moyer as "undesirable citizens." In Great Britain, Mr. Asquith, the Chancellor of the Exchequer, on Apr. 19 submitted his budget to the British Parliament, the main features of which were some reduction in the income tax so far as "earned incomes" are concerned and an increase in the contribution to the sinking fund. See London letter in V. 84, p. 1033. A Peace Congress was held in this city during the month, which was well attended, and at which Mr. Andrew Carnegie was very prominent. It was preliminary to the Hague Conference held later in the year. Lord Cromer, "the maker of Egypt," and who had been connected with the administration of Egypt since 1883, resigned, and was succeeded by Sir Eldon Gorst. The Jamestown Exposition at Norfolk was formally opened Apr. 26 by President Roosevelt. The German Imperial and the Prussian Government each placed $50,000,000 of treasury bills, bearing 4% interest and redeemable in five years. Only $75,000,000 altogether of the two issues were publicly offered, $25,000,000 having been privately placed by the syndicate. The loan was oversubscribed. The Western Union Telegraph Co., together with the Postal Telegraph Co., made a pretty general advance in telegraph rates, beginning Apr. 1 (V. 84, p. 808). The Stock Exchange firm of W. L. Stow & Co., which had suspended in 1903, again announced its suspension. The Rapid Transit Commission in this city was unsuccessful in obtaining bids for the new subway routes for which it asked proposals. Announcement was made that the syndicate which in Feb. 1906 had underwritten $35,000,000 25-year 4% debentures of the L. S. & Mich. Ry. would be dissolved May 1, and that only a small part of the bonds had been disposed of. James H. Eckels, Comptroller of the Currency in the second Cleveland Administration, and a prominent figure in the financial world, died suddenly Apr. 14. The Court of Appeals at Albany Apr. 3 declared invalid the apportionment of Senate and Assembly districts made by the Legislature of 1906.

*Railroad Events and Stock Exchange Matters.*—There was a sharp upward reaction on the Stock Exchange during April. The recovery was particularly noteworthy the early part. The advances, however, were not fully maintained, and about the middle of the month a downward movement occurred. Later the market lapsed into dulness and the volume of business dwindled to insignificant dimensions, with the fluctuations narrow as a rule. Yet there was much irregularity, with occasional sharp breaks, especially in certain properties. Unfavorable crop advices at times had some adverse effect. Atch. Top. & Santa Fe increased its semi-annual dividend from 2½ to 3% and the Kansas City Southern declared its first div. (4%) on its pref. stock. The Bethlehem Steel Corporation decided to suspend dividends on the pref. stock. Can. Pac. Apr. 1 opened at 178@179, sold up the same day to 189¾, dropped to 171½ Apr. 3 and closed Apr. 30 at 177¼. Mil. & St. Paul com., after selling up from 132½ Apr. 1 to 139¼ Apr. 6, declined to 131 Apr. 15 and closed at 137½ Apr. 30. N. Y. Cent. from 118 Apr. 1 got up to 121¾ Apr. 5, fell off to 116 Apr. 15 and closed at 118¾. Pennsylvania from 122⅜ Apr. 1 rose to 128⅜ Apr. 6 and closed at 127¼. Reading com. advanced from 103 Apr. 1 to 114 Apr. 5, closing at 112¾. Sou. Pac. com. from 76¾ Apr. 3 rose to 86¼ Apr. 9 and closed at 85¾. Un. Pac. com. opened Apr. 1 at 135½, touched 132⅜ Apr. 15 and advanced to 148¾ Apr. 30. There were conflicting reports regarding the condition of the copper trade, and Amal. Cop., after advancing from 89¾ Apr. 1 to 99⅛ Apr. 6, dropped to 89 Apr. 15, but closed Apr. 30 at 95. The Steel shares fluctuated within comparatively narrow limits. The Erie RR. Co. sold to J. P. Morgan & Co. $5,500,000 1-year notes to provide for the retirement of maturing notes. The new notes carried no interest, being discounted at the outset. They were later offered in the market at 7% discount. The Wabash RR. sold $6,160,000 2-year 5% notes to take up a like amount of notes maturing May 10. A syndicate of bankers offered for sale $8,000,000 of Western (Bell) Telep. & Teleg. Co. 5% 2-year notes. The Westinghouse Elec. & Mfg. Co. offered to stockholders $5,000,000 of new stock at $75 for each $50 share.

*The Money Market.*—The augmentation in the supplies of money in the loan market, chiefly as the result of the Treasury disbursements, caused a sharp decline in money rates here for both call loans and time contracts. Furthermore, the calling for redemption July 2 of a large amount of the maturing 4s of 1907 was taken as an indication that supplies of money would be large in the immediate future, too. Money holdings of the Clearing House banks, which were $254,026,700 Mch. 16 and $268,085,600 Mch. 30, got up to $288,892,600 Apr. 27. Government deposits in the Clearing House banks, which were $14,512,100 Mch. 23, had increased to $31,648,600 Apr. 27. Surplus reserves got up to $19,441,225 Apr. 6, but the next two weeks declined and Apr. 27 were $12,346,775. One of the features of the Clearing House returns was the great expansion shown in the loan account for two successive weeks, namely Apr. 13, when the addition was almost $37,000,000, and Apr. 20, when there was still another addition of $25,000,000. Apr. 27 the aggregate of loans was $1,123,417,600, against $1,056,545,200 Mch. 30 and $1,049,989,600 Mch. 23. Deposits were $1,106,183,300 Apr. 27, against $1,019,817,300 Mch. 30 and $1,002,144,600 Mch. 23. Two main reasons were assigned for the large expansion in the loan account, (1), the shifting of loans from Europe to this side, and (2) the withdrawal of the trust companies to a large extent from the loan market, owing to the drop in rates. After the first few days of the month, the call loan rate on the Stock Exchange did not get above 3%, and Apr. 30 the range was 1¾@2¼%. Time loans also sharply declined, the quotations Apr. 30 being 3% for 60 days, 3½% for 90 days, 3¾% for 4 months and 4½@4¾% for five to six months. Commercial paper then was 5½@6% for double names and prime single names and 6½% for good single names.

*Foreign Exchange, Silver, &c.*—The course of the foreign exchange market was completely reversed in April. At the beginning of the month rates on London were still low, and Apr. 2 $3,000,000 gold was taken from the London bullion market, with a view to its shipment to the United States. Owing, however, to a sudden sharp rise in exchange here, the purchaser of the metal found it more profitable to re-sell the gold. The rest of the month exchange rates almost continuously advanced, and at the close there were suggestions of possible gold exports from New York to London or to Paris. The rise in exchange amounted to 2½@4cts. per pound sterling. The most potential factor in this rise was the drop in money rates at this centre. Furthermore, the recovery in our stock market induced considerable selling of American securities here for London account in order to realize profits. Then, also, as noted above, owing to the ease in money at this centre, there was a shifting of loans from the London market to New York. Occasionally there was some recession in exchange, due to the offering of bills against corporation notes, and at one time, also, against offerings of bills in connection with the N. Y. N. H. & Hartford French loan. Apr. 1 quotations for sterling were 4 79@4 7910 for 60-day bills, 4 8365@4 8370 for sight and 4 8450@4 8455 for cable transfers. The highest figures of the month were reached about the 23d or 24th, when the three classes of bills were quoted at 4 8345@4 8350, 4 8640@4 8645 and 4 8680@4 8685. Apr. 30 quotations were 4 8315@4 8320, 4 8610@4 8615 and 4 8640@4 8645. We have referred above to the reduction in the rates of discount by the leading European banks, and open market discounts declined yet more strikingly, —at London, Apr. 30, being 3@3¼, at Paris 3¼ and at Berlin and Frankfort 4¼@4⅜. Silver in London Apr. 30 was 30 7,16d.

MAY.—*Current Events.*—Unfavorable crop accounts were added to the other depressing features. The season was extremely backward all over the country with the temperatures unusually low for the time of year. In this city the month was reported the coldest in 25 years. Spring-wheat planting in the North West was delayed while the unseasonable temperatures retarded the growth of winter wheat in the South West and the Middle West. A tremendous and excited speculation sprang up in the grain markets, and the dollar market for wheat was reached and passed. The Agricultural Dept. report issued May 10 made the condition of winter wheat May 1 82.9, against 89.9 April 1, and against 90.9 May 1 1906. It also stated that 11.2% of the acreage planted to wheat the previous autumn had been abandoned. The advices from the farming sections became more and more gloomy as the month progressed until towards the close. The Sept. option for wheat in Chicago rose from 83⅜ to 104½ and in New York from 90½ to 109, with sharp advances in other grains. On somewhat better weather the latter part of May, particularly relief from drought in the South West, prices reacted somewhat, the Sept. option May 31 at Chicago closing at 100⅝ and at New York 105⅝. In the South there were excessive rains besides low temperatures and much re-planting of cotton was found necessary. The speculation in this staple also was on an enormous scale and the highest prices were reached on the last day of the month, when middling uplands in New York were 12.90c., against 11.45c. April 30. Print cloths at Fall River were marked up from 4 9-16c. to 4 13-16c. A wage agreement was entered into assuring cotton operatives at Fall River an advance of about 10%, and providing for adjustment each half-year thereafter the last Monday in May and Nov. At other New England points the operatives also got advances. Legislation adverse to corporate interests, and especially to so-called public service corporations continued a marked feature in affairs. In New York Gov. Hughes (after the State Senate had failed, by a vote of 27 to 24, on May 2, to sustain his action in removing Insurance Supt. Otto Kelsey) forced through the Public Service Commissions Bill, conferring extraordinary powers upon two bodies created by the measure not only over the railroads, steam and street, but over express companies, sleeping car companies and the like, and over gas and electric-light concerns. In the Assembly 140 votes were cast for the bill and not one against it, while in the Senate the vote was 41 to 6. Mayor McClellan of this city, to whom the bill was submitted, disapproved of it, but the Legislature the next month again passed it—the Assembly on June 4 by 116 to 11 and the Senate June 5 by 38 against 8. It became a law with Gov. Hughes's signature June 6. The immediate effect was very damaging to stocks like Brooklyn R. T., Interb.-Met., Consol. Gas, &c., all of which suffered serious declines. Gov. Hughes had the previous month (April 26) signed a bill reducing the price of gas in Albany from $1 30 to $1 for 1,000 cubic feet. The report of Arthur H. Masten, the special Master appointed by Judge Lacombe in the U. S. Circuit Court to take evidence in the suit brought by the Consolidated Gas Co. to have the 80-cent gas law of 1906 declared confiscatory, was made public and sustained substantially all the contentions of the company. But this was immediately followed by attacks from other directions. Corporation Counsel Ellison of this city began actions in the N. Y. Supreme Court to test the validity of the company's franchises, and State Attorney-General Jackson obtained from the Supreme Court in this city an order to show cause why he should not be permitted to bring suit for the forfeiture of the company's charter. The Inter-State Commerce Commission on May 5 made its first ruling in regard to express rates, reducing rates on cut flowers from New Jersey and Pennsylvania points to New York City. All this, together with the gloomy crop news, produced a renewed panicky feeling on the Stock Exchange. The feeling in Europe seemed to be as gloomy as on this side, and there was more or less talk of impending trouble. Some small failures actually did occur. Securities were very weak and British consols again got down to unprecedentedly low figures. Lord Rothschild in an interview was quoted as saying that the chief influences in the depressed situation in Europe were Pres. Roosevelt's policy towards the railroads in the U. S., the income-tax problem in France and the Socialist movement in England. A strike of the longshoremen in this city for higher wages began May 3 and quickly spread until most of the steamship lines were involved. It lasted throughout the month but the strikers were gradually worsted and returned to work the next month (June 14) without gaining any concessions. San Francisco remained strike-ridden and serious troubles developed on the trolley lines in that city, some blood being shed. On May 20 the Commissioner of Corporations at Washington, Herbert Knox Smith, made public a synopsis of his report to the President on the petroleum industry, in which the Standard Oil Co. was severely arraigned, and it was recommended that that company's system of pipe lines be made available to all shippers of oil at figures which seemed to be based on an allowance of little more for the service than a bare return on the company's investment in these lines. Verdicts for large amounts were also rendered against the company in suits brought by the National and State governments. With the stock market extremely depressed, great expectations had been built on the speech which Pres. Roosevelt was to deliver on Memorial Day (May 30) at Indianapolis, but this speech when published proved a distinct disappointment, since, though it contained many assuring statements and remarks, it expressed the President's desire for a valuation of railroad property and announced his purpose to continue his policy unchanged. The National Association of Manufacturers at their convention in this city reaffirmed their well-known stand in favor of the open shop, and adopted resolutions practically pledging themselves to contribute $500,000 per annum for three years to be used in fighting illegal and improper tactics or methods of labor unions. Practically the whole of the $50,000,000 4s of 1907, which the Treasury Dept. had offered to refund were refunded, and the pre-payment of the $25,000,000 more without rebate of interest was also completed. This left about 36 millions to be paid off July 1. Government deposits in the banks increased during the month from $178,691,078 to $183,810,573 and money holdings in Treasury vaults were reduced from $334,991,587 to $331,656,154. Bank circulation afloat on bonds increased from $550,204,771 to $553,614,574. The Pennsylvania Legislature passed a law requiring trust companies to keep a reserve of 15% against deposits payable on demand and a reserve of 7½% against time deposits. One-third of the 15% must consist of cash, one-third may consist of money on deposit and one-third of certain bonds. The reserve could be accumulated gradually. The N. Y. Legislature amended the Recording Tax Law enacted the previous year (by which real estate mortgages are exempt from the annual personal property tax on payment of a recording tax of ½ of 1%) by extending the operation of the statute to mortgages made prior to July 1 1906. The Legislature also amended the Greater New York Charter in a number of particulars so as to allow New York City to issue bonds at a higher rate of interest than 4%. State Treasurer Hauser at Albany announced that banking institutions desiring to continue as State depositories, instead of paying only 2% interest on State funds, would be obliged after July 1 to pay from 2½ to 3%.

*Railroad Events and Stock Exchange Matters.*—As a result of the depressing influences noted above, the stock market in May, except during the first few days of the month, was under great pressure. In not a few instances values dropped to a lower level than the previous March. On May 29 there was a premature disclosure of the speech which President Roosevelt was to make the next day at Indianapolis—those parts of the speech which appeared to indicate some modification of the policy antagonistic to railroad interests having leaked out and being given great prominence—and as a result the market on that day enjoyed a substantial recovery, which recovery was fairly well maintained May 31. The plan for financing the needs of the Un. Pac. and the So. Pac. also had a depressing influence. When it developed how extensive were the financial requirements of these companies, the whole market suffered. Un. Pac. arranged for the issue of $75,000,000 of 4% 20-yr. bonds to be offered to shareholders at 90, with the right of conversion into com. stock at $175 per share any time before July 1 1917, and authority was also asked for $100,000,000 additional com. stock, $42,857,200 of the new stock being to provide for the convertible feature of the bonds. So. Pac. decided to issue $36,000,000 additional pref. stock and this was offered at par to stockholders of record May 25; of the new stock about $16,200,000 went to the Un. Pac. on its holdings of So. Pac. Brooklyn Rap. Tran., Interb.-Met., Consol. Gas and other securities of the same description were weak in view of the passage at Albany of the Public Utilities Bill. A small Stock Exchange house, E. B. Havens & Co., was forced to make an assignment May 22. Atch. com. dropped from 96⅜ May 8 to 86 May 27 and closed May 31 at 88⅝. Consol. Gas from 137½ May 20 dropped to 111 May 27, closing at 118; Gt. Nor. was 138½ May 3, 123 May 27 and 125½ May 31; Nor. Pac. com. 137½ May 3, 120 May 27, 123¼ May 31; N. Y. Cent. dropped from 119⅝ May 3 to 109 May 27; Penn. from 128⅝ May 2 to 118⅛ May 27; Un. Pac. com. from 150⅞ May 3 to 131⅝, ex-div., May 29, and Reading com. from 115⅜ May 6 to 96⅛ May 27—in all cases with some recovery at the close. The Steel stocks fluctuated within a much narrower range, but nevertheless the common declined from 38½ May 3 to 31⅜ May 27; Amal. Cop. was 98¼ May 3, 83¾ May 28 and 85⅜ May 31. The syndicate which the previous year underwrote $10,000,000 American Woolen Co. pref. stock at par was dissolved, the subscribers being obliged to take themselves about $7,000,000. Del. & Hud., in whose board changes occurred, sold $10,000,000 4½% 15-yr. equipment bonds.

Chic. R. I. & Pac. Ry. sold $10,000,000 of its 1st and ref. 4s. Gen. Elec. shareholders were offered $13,000,000 5% 10-yr. gold debentures convertible into stock at par after four years. North American Co. sold $5,000,000 5-yr. 5% col. trust gold notes. Clev. Cin. Chic. & St. L. Ry. sold $5,000,000 4-yr. 5% gold notes. Interb.-Met. borrowed $3,000,000 on 6 months notes bearing 6% and authorized $15,000,000 3-yr. 5% col. trust notes with which, whenever sold, to take up the 6% short notes and any other similar loans that might be made. On account of a fire in its mines, the Homestake Mining Co., for the first time in 28 years, was obliged temporarily to discontinue dividends. Nat. Lead Co., which the previous year had resumed dividends on com. at 4% per annum, now increased to 1¼% quarterly. Republic Iron & Steel declared 2% extra on the preferred in addition to the regular 1¾% quarterly, extinguishing all arrears of dividends.

*The Money Market.*—Money rates were low during May; 4 on call was touched at the beginning, but the last week the

range was 1¼@2½. Time money was somewhat firmer, with no pressure of offerings, as lenders seemed confident that they would be able to place their money on corporation notes (which continued very plentiful) at better rates than those quoted on stock collateral. At the close quotations were 2½@3 for 30 days, 3½ for 60 and 3¾@4 for 90 days, 4 for 4 mos., 4½ for 5 and 4¾ for 6 mos. and 5¼@5½ for over the year. Commercial paper then was 5@5½ for double names and for prime single names and 5½ for good single names. Money holdings of the Clearing-House banks fell to $284,591,000 May 11, but were up to $294,831,100 June 1, the highest of the year. Surplus reserves, after dropping from $12,346,775 Apr. 27 to $6,824,625 May 4, increased to $15,688,875 May 25, and then fell to $12,782,450 June 1. Deposits from $1,120,599,900 May 4 decreased to $1,104,-419,100 May 11, and then increased to $1,128,194,600 June 1. Loans were $1,140,320,300 May 4, $1,124,808,700 May 18 and $1,139,931,100 June 1.

*Foreign Exchange, Silver, &c.*—Foreign exchange developed great strength during May. There was an urgent demand for bills most of the month, in part to cover short contracts, but at times also to remit for stock sold for European account. Both the Bank of England and the Bank of France sought to get the South African gold arriving in London, and the quotation for bar gold in London was several times advanced, with the tendency, however, easier at the close. The Bank of England's bullion holdings were heavily reduced the first few weeks, but the latter part of the month it regained some of the loss, in part because about £420,000 gold which had been "earmarked" for the Indian Government was released. There was talk early in the month of possible gold exports from this side, but it was not until after the sharp advance in exchange rates here the latter part of the month that gold was actually engaged for export —the withdrawals the last week being $3,310,000. The metal went to Paris, and it was understood the movement had been facilitated by allowance of interest on the gold while in transit. The high figures for cable transfers were 4 8730@4 8735 May 17 and 4 8730@4 8740 May 29, while the quotation May 31 was 4 8725@4 8735. Sight bills were at their highest, 4 8695@4 87, May 18, with the figures May 31 4 8675@4 8685. The high point for 60-day bills was 4 84@4 8410 May 20, with the close May 31 4 8370@4 8380. Open market discounts hardened; at London they got up to 3½, but fell back to 3⅜; at Paris to 3⅜, with a reaction to 3¼; and at Berlin and Frankfort 4¾, with the close 4⅝. Silver in London manifested renewed strength under buying for Indian and China accounts. After getting down to 29 15-16d. May 8, there was a gradual rise to 31⅛d. May 28, with the price May 31 30 15-16d.

JUNE.—*Current Events.*—Crop accounts improved somewhat during this month. The troubles of the railroads, however, did not diminish. A feature was the termination of a considerable number of bond syndicates with a large portion of the bonds still on hand. Details will be found further below. To this was added the failure on June 28 of New York City's offering of $29,000,000 4% bonds. The applications aggregated only $2,121,840. Gov. Hughes vetoed the Two-Cent Fare Bill passed by the New York Legislature, but the force of that action was lessened by the circumstance that one of the grounds he gave for the veto was that the Public Utilities Commission, which was to come into being July 1, had been expressly created for dealing with such matters. He also vetoed the so-called Train-Crew Bill, the object of which was to compel the employment by steam roads in this State of an additional brakeman on freight trains. President Roosevelt delivered two addresses at the Jamestown Exposition at Norfolk which embodied many radical notions. He elaborated his ideas regarding a graded income tax and laid emphasis on the desirablity of a progressive inheritance tax. This latter, he urged, might "be carried to its logical conclusion in a maximum rate of nearly 100% for the amount in excess of a specified sum." He also suggested that "the tax could be made to bear more heavily upon persons residing out of the country than upon those residing within it." He likewise urged that employers should always be held liable in damages to employees for accidents, even though the accident be the result of the employee's own carelessness. On June 12 the U. S. Government began its suit against the anthracite coal-carrying roads in the U. S. Circuit Court at Philadelphia, charging them with maintaining a monopoly in the production, transportation and sale of hard coal. In the copper trade a deadlock developed between producers and consumers, and the price of copper weakened materially. Some weakness also developed in the iron market, occasioned by the embarrassment June 10 of Milliken Bros., large building contractors, who had erected and were conducting an extensive steel plant at Staten Island. The shipments of gold to Europe, begun the previous month, continued, and reached during June $21,500,000, of which $3,750,000 was for London and the rest for Paris. The Bank of France allowed interest on the metal while in transit, and the Bank of England agreed to establish credits in aid of shipments hence to London. The large gold outflow relieved the strain in Europe, where a decidedly improved feeling developed the latter part of June. The Bank of France withdrew the remainder of the advances it had made to the English money market in December 1906, when it discounted about $13,-000,000 foreign bills. French affairs became considerably disturbed because of an uprising in the Midi, or wine-growing sections in the South of France. The peasants refused to pay taxes, a number of their municipal officers surrendered office, extensive rioting was indulged in, resulting in bloodshed, and some of the military regiments mutinied. The Clemenceau Ministry, however, acted with considerable firmness, and after the Chamber of Deputies had passed a bill prohibiting the adulteration of French wines, the situation greatly improved. In Russia there were also disturbing events. On Sunday, June 16, the Czar ordered the dissolution of the second Russian Douma because it had failed, on peremptory demand, to hand over immediately fifty-five members of the Douma who had been accused of plotting the overthrow of the Czar and the Russian Empire. British consols on June 18 touched a new low point, 83¼. On June 12 Sec. Cortelyou issued a notice requiring the return by July 10 of the $30,000,000 special deposits placed with the banks by Sec. Shaw the previous Sept. This was with a view to being prepared to redeem on July 1 the $36,126,150 unpaid remainder of the 4s of 1907. Government deposits with the banks declined during June from $183,810,573 to $181,700,-054. Treasury money holdings increased from $331,656,154 to $342,593,811. Bank circulation secured by bonds rose from $553,614,574 to $555,570,881. The Government report June 4 showing cotton condition May 25 made the average only 70.5, which, however, was somewhat higher than had been expected. Similarly, the grain report for June 1 (issued June 10), though stating the average of winter wheat at only 77.4, as against 82.9 May 1, was not so bad as had been feared. Crop conditions improved and grain prices tended lower until the last week, when a batch of unfavorable reports caused a sudden spurt upward again. Sept. wheat in Chicago declined from $1.01 June 1 to 91c. June 15, and then moved up to $1 June 27, with the close June 29 96½c. Middling uplands cotton in New York fluctuated considerably, but closed June 29 at the top figure, 13.25c. Print cloths at Fall River advanced first from 4 13-16c. to 4 15-16c. and then to 5c. In Great Britain, operatives in the cotton-spinning industry got an advance in wages of 5%. Some minor acts of violence against Japanese residents in California on the part of the lower elements were reported, and this tended apparently to increase the feeling of irritation felt in Japan. It was announced that Mr. Roosevelt, in his next annual message to Congress, would recommend that the U.S. remit all claims for indemnity against China on account of the Boxer troubles except the actual cost to the U. S. incident to the Pekin campaign and the loss sustained by American missionaries, altogether only about $11,000,000. The amount which China obligated herself to pay was $20,000,000, with interest for 39 years. Mr. Roosevelt June 1 issued his proclamation putting into effect on July 1 (when the previously existing modus vivendi would have expired) the new commercial agreement between the U. S. and Germany. Under this agreement the U. S. gets the benefit of most of the German conventional rates and in return accords to Germany the advantages of Sec. 3 of the Dingley Tariff Law. This new agreement will not terminate until denounced by one of the contracting parties. A treaty was entered into between Japan and France for the protection of their mutual interests in Chinese territory. Treaties were also entered into between France and Spain and England and Spain regarding the Mediterranean interests of these countries. These twin treaties were looked upon as a sort of new triple alliance. The N. Y. State Legislature adjourned June 26 after having passed the bill for a recount of the vote cast at the N. Y. City mayoralty election in 1905 and also after having passed other measures desired by Gov. Hughes, but without breaking the deadlock which developed between the two Houses on the Reapportionment Bill. In order to pass a reapportionment bill the Governor called the Legislature to convene in extra session Monday July 8 at 8 o'clock at night. Among the measures signed by the Governor were the new corrupt practices Act, making many important changes in certain sections of the election law concerning campaign contributions and the expenditures of candidates, &c.; also the bill limiting the number of consecutive hours that employees on railroad trains may remain on duty; likewise the bill giving N. Y. City authority to make the interest rate on new bond issues higher than 4%; also the bill allowing banking and other institutions coming under its provisions a rebate on their taxes equal to 1% of the par value of all bonds of N. Y. State held by them bearing 3% interest or less, the purpose of this measure being to furnish an inducement for taking the 3% canal bonds, which it had been found could not be sold. The Massachusetts Legislature passed the Anti-Merger Bill making impossible a contemplated merger of the Boston & Maine and N. Y N. H. & H. RR.; also what was known as the Anti-United Shoe Machinery Co. bill, forbidding the insertion of a condition in any sale or lease of tools, implements, appliances or machinery that the purchaser or lessee shall not buy, lease or use tools, machinery, &c., other than those of the vendor or lessor. Gov. Guild of Massachusetts, however, vetoed the bill which would have allowed the city of Holyoke to harvest and sell ice at wholesale. The canvass of the policyholders' vote at the election the previous Dec. of the N. Y. Life Insurance Co. was completed (precisely six months after the closing of the polls on the day of election), resulting in the success of the administration ticket. On account of harsh laws passed by the State, the N. Y. Life and most other insur-

ance companies announced their withdrawal from further business in Texas on July 1. The N. Y. Court of Appeals confirmed the ruling of the lower courts in deciding that the law which forbade adult women to work in factories before six in the morning or after nine o'clock at night was unconstitutional. The trial at Washington, D. C., of Edwin S. Holmes Jr., for having given out advance information regarding the cotton crop statistics of the Agricultural Dept. resulted in a disagreement of the jury. The Inter-State Commerce Commission, acting under the Hepburn Railroad Act of 1906, promulgated a uniform accounting system for the railroads of the U.S. beginning with July 1, and issued an order making the principal accounting officer of every railroad personally responsible for the accurate conduct of accounts. The Waters-Pierce Oil Co. was found guilty at Austin, Tex., on June 1 of violating the Texas-Anti-Trust Laws by entering into an arrangement with the Standard Oil Co. of New Jersey to regulate the price of oil in Texas and was assessed in aggregate penalties of $1,623,900. The Philadelphia City Council gave the Philadelphia Rapid Transit Co. a new franchise under which profits above 6% on Rapid Transit stock will be shared equally between the city and the company and giving the city the right to purchase Rapid Transit stock at par at the end of fifty years. (See V. 84, p. 1084.) The City Council also decided not to give notice of intention to terminate the lease of the city gas works to the United Gas Improvement Co., thus allowing the lease to continue 20 years longer.

*Railroad Events and Stock Exchange Matters.*—There was continued liquidation on the Stock Exchange the beginning of June, but the latter part a recovery took place. The dealings for the month aggregated only 9,749,415 shares. Reading com. and U. P. com. monopolized a large share of the attention; the former after declining from 99¾ June1 to 97 June 3, advanced to 107¼ June 10 and closed at 106 June 29; U. P. com. from 132¾ June 1 sold down to 128⅝ June 3, then rose to 139½ June 28 and closed at 138⅝ June 29. N. Y. Central was 109½ June 1, 108¼ June 3, 114½ June 11 and 112¾ June 29. Penn. RR. from 119¼ June 1 declined to 117¼ June 3, then touched 122⅜ June 28 and closed at 122. The syndicate which in Dec. 1905 underwrote $7,000,000 car trusts, series "I," of the Erie RR. was dissolved, with a considerable portion of the issue undistributed. The Erie RR. negotiated a sale of $3,000,000 3-yr. 6% notes of the Erie & Jersey RR. secured by $4,000,000 bonds of the same branch. The syndicate headed by J. P. Morgan & Co. which in July 1906 underwrote $10,000,000 4% Atl. Knoxv. & Cin. division 4% bonds of the L. & N. was also dissolved and current reports stated that only about 15% of the bonds had been sold. Likewise, the syndicate headed by Brown Bros. & Co., which the previous year had taken $5,000,000 div. 1st lien gen. mtge. 4s of the Norf. & West. was dissolved with a portion of the bonds unsold. The syndicate which had underwritten $5,100,000 5% 6-yr. notes of the Kan. City Sou. Ry. arranged for an extension of the syndicate agreement for six months. The syndicate organized in Oct. 1905 to float about $9,000,000 coll. tr. bonds of the Lehigh Val. RR. was terminated after the sale of only about 42% of the bonds. The $100,000,000 syndicate in Amer. Tel. & Tel. Co. conv. gold bonds was extended until July 1 1908. Shareholders of the Amer. Tel. & Tel. Co. were offered $21,925,200 new stock at par. Bankers offered for sale $5,074,000 of St. L & San Fran. RR. 5% equip. notes guar. by the American Car & Foundry Co. Hock. Vall. Ry. increased its semi-annual div. on common stock from 1½ to 2%. Am. Car & Foundry Co. increased the quarterly div. on com. stock from ½% to 1%. Am. Smelting & Refining Co. raised its quarterly common stock div. from 1¾ to 2%. A change was made in the board of the Ches. & Ohio Ry., some of the N. Y. Cent. directors retiring. The agreement for alternate management of the Chic. & Alton by the Rock Island and Un. Pac. was abandoned. The Adams Express Co. made a 200% distribution in bonds. The Richmond Terminal Reorganization Committee sold to Oakleigh Thorne and Marsden J. Perry the whole of the $5,000,000 stock of the Cent. of Ga., the purchasers agreeing to operate the road as an independent system and binding themselves to retain voting control for two years on at least 60% of the stock; succeeding the panic in Oct. and Nov., further change of control occurred.

*The Money Market.*—The large gold exports, together with the requirement for the return by July 10 of the $30,000,000 special Government deposits held by the banks, and the demand incident to the half-yearly settlements on July 1, caused a sharp rise in call rates the latter part of June (a maximum of 12% being reached) and also a stiffening in time money. Low bank reserves contributed to the same end. Time contracts at the close were 4¼@4½ for 60 days, 4½@4¾ for 90 days, 5 for 4 mos., 5¼@5½ for 5 mos., 5½@5¾ for 6 mos. and 5¾@6 for 7 months. Commercial paper was slow of sale; the offerings were liberal, owing to poor collections due to the backwardness of the season. Quotations were 5½ for double names, 5½@6 for prime single and 6@6½ for good single names. Surplus reserves of the banks were only $2,509,275 June 29, against $12,782,450 June 1, and the money holdings were $275,517,200, against $294,831,100. Deposits June 29 were $1,092,031,700 against $1,128,194,600 June 1, and loans were $1,126,539,100 against $1,139,931,100.

*Foreign Exchange, Silver, &c.*—In face of the large gold exports, foreign exchange rates ruled high most of the month. The underlying cause was the limited offering of bills and the urgent demand to remit for settlements due at the end of the half-year. Ordinarily in June bankers draw long sterling in expectation of obtaining cover therefor from the proceeds of exportable commodities; this time uncertainty concerning the crop prospect acted as a deterrent on such operations. At times there was also some selling here of American securities for foreign account. The last week rates declined below the gold-export point, owing chiefly to the rise in money rates here. The Bank of England at the same time withdrew its offer to establish credits to assist gold shipments and the outward movement of the metal came to an end. As stated above, aggregate gold engagements during June were $21,500,000. Sterling rates were at their highest about June 21 at 4 8410@4 8415 for 60-day bills, 4 8730@4 8740 for sight and 4 8810@4 8815 for cable transfers. The last day rates were 4 8350@4 8365, 4 8535@4 8545 and 4 8750@4 8760. Discounts in the open market, after having been 3⅞@4 at London, 3½ at Paris and 4⅛@4¼ at Berlin and Frankfort, closed at 3½ at London, 3⅝ at Paris and 4⅛@4⅝ at Berlin. Silver in London closed at 31d.

JULY.—*Current Events.*—Disquietude was caused by the announcement from Washington of a new Federal policy in the prosecution of the so-called trusts. In suits against the trusts the courts were to be asked to appoint receivers to take possession of the properties and arrange for their dismemberment. The new policy was not well received, pointed objections being raised even by some of the staunchest supporters of the Administration. Suit under the new plan was at once begun against the American Tobacco Co. and its various constituent and subsidiary companies. Later the Government also filed a petition against what is commonly known as the Powder Trust—that is, the E. I. du Pont de Nemours Powder Co. of N. J. Another noteworthy occurrence was a clash between the Federal Courts and some of the State authorities in the South. U. S. Judge Pritchard at Asheville, N. C., had on June 29 continued an injunction obtained by the Southern Ry. Co. and other railroad corporations, enjoining the North Carolina Corporation Commission from enforcing the passenger and freight rates imposed under some new laws enacted by the N. C. Legislature in 1907. The passenger rate was reduced to 2¼ cts. per mile and was to have become effective July 1. In granting the injunction Judge Pritchard was careful to require that coupons must be given to passengers for the difference between the old rates and the new rates, which coupons were to be redeemed by the railroads in case it was found that the new rates were compensatory. The roads were also required to give heavy indemnity bonds. Nevertheless Governor R. B. Glenn of No. Car. insisted that the new passenger rates must be put into effect. He issued an address to the judges of the No. Car. Courts asking them to see that the railroads and their employees be indicted for violating the new law. Two of the agents of the Southern Ry. were actually sentenced in the State Court to 30 days on the chain gang for selling passenger tickets in disregard of the new statute, notwithstanding Judge Pritchard's injunction. They were subsequently released by the latter in habeas corpus proceedings. In delivering his opinion in these cases, Judge Pritchard also declared Sec. 4 of the new statute unconstitutional, since it imposed penalties in the event of failure to obey the law so enormous as virtually to deprive the carriers of a hearing in the courts. But the State continued its policy of having indictments found against the road and its officials and agents, intimidating the latter to such an extent that some of them refused to continue in the service of the road. On Saturday, July 27, President Finley of the Southern Ry. was himself placed under arrest, though he was speedily released by Judge Pritchard. The matter thus became so serious as to threaten to interfere with the operation of the roads; accordingly on July 27 a compromise was entered into. The railroads agreed to put the 2¼-ct. rate in force Aug. 8, while the State agreed not to commence any more indictments and to nolle pros those on the dockets of the State Courts, except the two cases from which appeals had been taken, and which were to be speedily pressed to final determination. In Alabama and Georgia the Federal Courts had also issued injunctions against new rate laws. One of the Alabama statutes provided that if any "foreign" road should institute a suit in any Federal court to enjoin or restrain any intra-state transportation rates fixed by the Alabama Legislature or by the Railroad Commission, it should, ipso facto, forfeit its right to do domestic business in Alabama. Federal Judge Thomas G. Jones of Montgomery in enjoining the enforcement of a schedule of passenger rates in that State (passenger rates being reduced from 3 cts. to 2½) declared this statute unconstitutional. The next month (Aug. 2) the Secretary of State for Alabama revoked the license of the Southern Ry. to do business in Alabama under another and so-called "dummy" charter, also granted in 1907. Judge Pritchard on July 10 at Richmond, Va., had also handed down his opinion continuing the restraining order against the 2-cent-a-mile rate ordered on April 27 by the Corporation Commission of Virginia. Subsequently there were threats of the calling of an extra session of the Va. Legislature to coerce the railroads, and on Aug. 3 a compromise made by Gov. Claude A. Swanson of Va. was accepted by the railroads, under which the latter agreed to put the 2-cent rate in operation not later than Oct. 1, everything before then pending meanwhile by both sides to carry the cases then pending to the U. S. Supreme Court. Some radical amendments [illegible]

additions to the Texas Anti-Trust laws also attracted a great deal of attention—see "Chronicle" of July 27, p. 193; also p. 188. Laws innumerable directed against the insurance companies were likewise a feature, including statutes in Wisconsin which every one concerned admitted he did not understand. V. 85, p. 188. At Toledo, O., on July 12 twenty-three lumber merchants were sentenced to the workshops for six months by Judge Lindley W. Morris for violation of the Valentine Anti-Trust Law of Ohio, and nine brickmakers were each fined $1,000. The Inter-State Commerce Commission submitted a report concerning its investigations of the Harriman roads (Un. Pac., Sou. Pac., &c.), but this had no adverse effect, since, contrary to expectations, its tone and recommendations were not at all severe. It transpired during the month that the Washington authorities contemplated sending a large number of battleships on a tour from the Atlantic to the Pacific Ocean; and this led to some renewal of the talk of a possible disturbance of the good relations between the United States and Japan. The railroads continued to have difficulty in placing new loans. The Un. Pac. offered its shareholders $75,000,000 4% convertible bonds at 90, and they actually took only about $2,000,000. The underwriters were obliged to take the rest. The Atch. Top. & Santa Fe invited shareholders to subscribe for $26,056,000 5% convertible bonds at par, and the aggregate applied for was not quite $10,000,000. This loan had not been underwritten, but fortunately the company was able later in the month to dispose of the remainder to J. P. Morgan & Co. Announcement came July 9 that the United Metals Selling Co. and Phelps, Dodge & Co. had reduced copper 3 cts. per lb., to 22 cts. for electrolytic and to 23 cts. for the Lake brands; but this failed to revive the demand, and electrolytic copper got down to 20@20¼ at the close. The Government report on cotton issued July 2 showed less betterment of condition than had been expected (the average being put at 72 against 70.5 the previous month), and middling uplands in N. Y. advanced to 13.50cts. July 2, and remained close to this figure for a week or more. On improving crop accounts there was a decline to 12.85 cts. by July 13; the close July 31 was 13 cts. Print cloths at Fall River, which had remained at 5 cts., were July 20 nominally 5@5¼ cts. The tendency of wheat prices was downward, with the Sept. option in Chicago closing at 91½ July 31, against 96½ June 29. Advices regarding the oats crop, however, were unfavorable, and the Sept. option for oats between the same dates advanced from 37¼ to 40⅛. The national banks, as required, surrendered the $30,000,000 special Government deposits. Of the $36,126,150 4s of 1907 called for redemption July 2, $12,456,950 still remained unpresented at the close of July. Cash in Sub-Treasuries increased from $342,593,811 to $348,472,091. Government deposits in the banks were reduced from $181,700,054 to $156,990,205. National bank circulation secured by bonds diminished slightly. Consols in London again reached a new low point, touching 82⅝ July 29. The financial markets at London were unfavorably affected by the offering of some large new loans, and there was a revival of fears respecting Egypt, for speculation in Egypt had been rampant for years, and in June serious trouble resulted—see London Letter, "Chronicle," July 6, page 19. Arrangements had been made for the voluntary winding up of the Cassa di Sconto e di Risparmio, which had on June 21 closed its doors; but it was feared that other troubles were impending. A South Manchurian railway 5% loan for £4,000,000, guaranteed by the Japanese Government, was brought out in London, and the issue price was only 97; but not much more than half the loan was subscribed for, and the underwriters had to take the remainder. Several other high-class loans fared even worse. The Emperor of Corea, Yi-Hyeung, was forced to abdicate, owing to the resentment of Japan at his action in having sent a deputation of Coreans to the Hague Peace Conference charging Japan with threatening the independence of the Corean Empire. He was succeeded by the heir-apparent, the Crown Prince Yi-Syek. Subsequently Japan concluded a new agreement with Corea, vesting absolute powers in the domestic administration of Corea in the Japanese Resident General. A strike of some of the ore miners in Minnesota and of the ore dock workers at Duluth proved of only temporary importance. The commission house of Thebaud Bros. in this city made an assignment July 17. Secretary Cortelyou announced new Custom House regulations regarding the inspection of the baggage of incoming tourists. He also directed the promulgation of regulations to carry into effect certain recommendations of the committee on department methods relative to the assembling of disbursing officers' checks and vouchers and the verification of their balances. Under the new system, which became effective Oct. 1, the practice of obtaining receipts in advance of actual payment was discontinued. The new regulations were referred to as the most important change in the Government accounting system since that required by the "Dockery Act," which became effective Oct. 1 1894. Mayor Eugene E. Schmitz of San Francisco on July 8 was sentenced to five years in the penitentiary for having extorted money from certain restaurant keepers. Through the explosion of a powerful charge of powder in a turret of the U. S. battleship Georgia on July 17, while practicing, ten officers and men were killed and a large number seriously injured. In the legislative deadlock regarding a new apportionment for N. Y. State, Speaker James W. Wadsworth Jr. and the Assembly finally yielded to the Senate and passed the "Tully" Reapportionment Bill, and on July 24 the extra session of the Legislature adjourned. The Assembly, however, defeated the Primary Direct Nominations Bill desired by Gov. Hughes. Among the measures passed at the extra session was one giving the N. Y. City officials authority to dispose at private sale of any bonds not taken at a public offering, provided the disposals are made at not less than par. Gov. Hughes also signed a bill making it unlawful to employ telegraph or telephone operators engaged in the railroad-train service more than eight hours a day. He also signed a bill, passed upon his recommendation, eliminating from the special franchise Tax Law the exemption in favor of railroad-grade crossings in cities of the first and second class. This it was thought would add very considerably to the State's income. In proceedings against the Interborough-Met. Co., Judge Holt in the U. S. Circuit Court held that the combination constitutes a monopoly in violation of Sec. 7 of the Stock Corporation Law of New York. In the N. Y. Supreme Court Justice McCall denied the application of State Attorney-General Jackson for leave to sue the Consol. Gas Co. of N. Y., declaring that the Anti-Monopoly Act of this State did not apply in its case. The old N. Y. State Commission of Gas & Electricity, just before its expiration on July 1, ordered a reduction in the price of gas supplied by the Buffalo Gas Co. from $1 to 95c., and also cut the price in Saratoga. In Massachusetts Gov. Guild signed the bill permitting savings banks to engage in industrial life insurance. The new Public Service Commission arranged for an investigation of the affairs of the Interborough-Met., Brooklyn R. T. and Coney Island & Brooklyn Street railways, and appointed William M. Ivins (candidate for Mayor in 1905 against McClellan and Hearst) as special Counsel for the purpose. At Boise, Idaho, William D. Haywood, Sec.-Treas. of the Western Federation of Miners, after a lengthy trial, was acquitted of the charge of having been engaged in a conspiracy which resulted in the murder of ex-Gov. Frank Steunenberg.

*Railroad Events and Stock Exchange Matters.*—The stock market was strong at the beginning of July, with a rise of 3 to 5 points in the better class of stocks. The improvement, however, was not maintained. The Federal Government's new policy against trusts had a depressing effect and prices again took a downward turn. The limited subscriptions, as noted above, for the new bond issues of the Union Pacific and the Atchison were also somewhat of a damper. Later a firmer tone developed, aided by the very favorable preliminary statements of earnings for the year ending June 30, submitted by the Un. Pac. and the So. Pac., and by intimations of an increase in the dividend on So. Pac. common, which intimations were confirmed Aug. 1 when the rate was raised from 5% to 6% per annum. At the very close of July there was a decided weakness in the market in part on the falling off in the orders of the U. S. Steel Corporation and unsatisfactory reports concerning the copper trade. In the great bulk of the list the prices July 31 were not greatly changed from the opening July 1, though there were a few prominent exceptions; for instance, So. Pac. com. closed at 88⅝, against 79⅝; Un. Pac. com. at 141⅞, against 139¼; Mo. Kan. & Tex. com. at 37⅞, against 34⅝, and Mil. & St. Paul com. at 132⅜, against 130½. On the other hand, L. & N. closed at 112¼, against 116¾, and Reading com. 102⅝, against 106¾. Ches. & Ohio sold $5,000,000 3-yr. coll. trust 6% notes. It was stated about $21,000,000 of the $21,925,200 new stock offered by the Amer. Tel. & Tel. Co. had been subscribed for, also that stockholders of the Gen. Elec. Co. had subscribed for the entire $13,000,000 5% debentures previously offered. The Westinghouse Elec. & Mfg. Co. sold $6,000,000 of 3-yr. 6% coll. tr. notes to pay off the same amount of 5% coll. notes maturing Aug. 1.

*The Money Market.*—There was some tension the early part of July on account of the low bank reserve and the calling of loans incident to the 1st of July disbursements. Gradually, however, the call loan branch of the market relaxed, though the time loan market remained pretty firm. Surplus reserves of the Clearing House banks got down to $856,250 July 6, but were $7,473,200 Aug. 3, after having been $9,258,675 July 27. Money holdings, notwithstanding the Treasury operations, increased from $270,491,300 July 6 to $283,201,900 July 27, and were $282,298,800 Aug. 3. Loans declined from $1,126,539,100 June 29 to $1,072,991,300 July 20, but were up again to $1,126,950,700 Aug. 3. Deposits were $1,092,031,700 June 29, decreased to $1,070,759,800 July 13 and were $1,099,302,400 Aug. 3. The range for call loans during the month was 2@16%, with the close 2@3½. Time loans at the close were 4½ for 60 days, 5@5½ for 90 days, 5½@5¾ for 4 to 5 months and 6% for 6 months. Corporation notes having from 1 to 4 years to run and bearing 4@5% interest were quoted at a discount and yielded approximately 5 to 7½%. Commercial paper at the close was quoted at 6 for double names, 6@6½ for prime single names and 6½ @7 for good single names.

*Foreign Exchange, Silver, &c.*—Foreign exchange displayed irregularity during July. Opening active and higher on an urgent demand to remit for July interest and dividends on securities held abroad and to cover oversold bills, it later receded on offerings of finance bills. The drawings of these latter were encouraged by the firm rates ruling here at the time for money, especially for 90 days, and also by the expectation that these bills could be covered in October at a profit with drafts against cotton. Subsequently the fall in

money here discouraged further drawings of loan bills and a sharp upward reaction in exchange again ensued. There were several engagements of gold for export—$1,000,000 being taken July 1 for Amsterdam and $1,750,000 July 9, $1,000,000 July 10 and $500,000 July 30 for Paris. Exchange rates July 30 were at or close to the highest figures of the month, being 4 8390@4 8395 for 60-day bills, 4 8720@4 8725 for sight and 4 8775@4 8780 for cable transfers. With some recession July 31, the close was at 4 8370@4 8375, 4 8695@4 87 and 4 8750@4 8755. Open market discounts July 31 were 3⅝ at London, 3⅛ at Paris and 4¼@4⅜ at Berlin and Frankfort. Silver again developed strength, in part on an active demand for India, both for the Government and the bazaars, and the price at London advanced to 31 15-16d. July 31.

AUGUST.—*Current Events.*—Unfavorable events followed in rapid succession during August, resulting in another serious collapse on the Stock Exchange, which carried prices in most instances lower even than during the break in March. On Aug. 2 the news came that the license of the Southern Railway to do business in the State of Alabama had been revoked by the Secretary of State at Montgomery, because it had violated the provisions of a new Act in having a suit transferred to the Federal Courts. Threatened with having all its operations in the State brought to a stop, the company's officials on Aug. 8 concluded an agreement with the State authorities by which the 2½-cent passenger rate (reduced from 3 cents) and the lower schedule of freight rates were put into effect Sept. 1, pending the determination of the litigation in the courts. Aug. 3 it was announced that Judge Kenesaw M. Landis, in the Federal Court at Chicago, had finally given judgment in the case of the U. S. Govt. against the Standard Oil Co., convicted under the Elkins law of 1903 of having shipped oil at concessions from the alleged legal rates, and had imposed a fine in amount of $29,240,000, being the maximum of $20,000 for each of 1,462 counts in the indictment, each covering the movement of a car of oil. The Standard Oil Co. of Indiana, against whom the judgment was given, had a capital of only $1,000,000, but Judge Landis in imposing such a huge penalty sought to strike at the parent company, the Standard Oil Co. of New Jersey, which owned the stock of the Indiana company. This action created general alarm, inasmuch as the Oil Co. had apparently committed only a technical violation of the law in having failed to satisfy itself that the rate which it was receiving had been properly posted and filed. Moreover, Judge Landis at the same time ordered the convening of a new special Federal Grand Jury with a view to bringing proceedings against the Chicago & Alton, the road over which the oil had been shipped. Judge Landis ruled that in cases of this kind it was not necessary to prove intentional violation of the law. On Aug. 5 the Commissioner of Corporations, Herbert Knox Smith, made public Part 2 of his report on the petroleum industry, dealing mainly with the Standard Oil Co., and declaring it a monopoly and saying the assertion that it had reduced prices was untrue. On Aug. 6 there came indications of railroad troubles in a new direction. It was announced that the day before, at St. Paul, Minn., Judge Willis Van Devanter of the U. S. Circuit Court had issued an injunction, returnable in the Federal Circuit Court at Little Rock, Ark., Oct. 2, restraining the Sec. of State of Arkansas from declaring forfeited the property of th Chicago Rock Island & Pacific Ry. and stopping proceedings to collect a fine of $1,000 a day from the company for having violated a statute passed by the last Arkansas Legislature, providing that any corporation of another State which should commence a suit in the U. S. Courts against any citizen of Arkansas, or which should remove any suit pending against it in a State Court by a citizen of Arkansas into the U. S. Courts, should forfeit all rights to do business in the State and be subject to a penalty of $1,000 a day. It happened, too, that in Judge Landis's court on the day the Standard Oil was fined, a Federal grand jury brought indictments against the Fish Trust (A. Booth & Co.) and two railroads, and it was stated the indictments covered a total of 180 counts, with a possible maximum fine, upon conviction, of $3,600,000. On Aug. 9 a Federal grand jury at Jamestown, N. Y., recommended indictments against the Standard Oil Co. of New York, the Vacuum Oil Co. of Rochester and the N. Y. Cent. and Penn. railroads, charging them with obtaining or granting illegal concessions in railroad rates, containing in all 228 counts, and involving maximum penalties of $4,560,000 against each of the defendants. About the same time the daily papers reported a movement on foot to call a convention of the Attorneys General of all the States in the United States, with a view to swapping evidence and determining upon a concerted plan of action in trust prosecutions. All the while, too, high Federal officials were giving out threatening interviews. In one of these Attorney-General Bonaparte used the expression that there was "a pretty big covey of game," and that he would have to be a poor marksman if he "failed to land a bird or two." Aug. 12 still another installment of the report of Commissioner of Corporations Smith was given out. This declared that the Standard Oil Co. sold at lower figures abroad than in this country, and that there were wide discriminations also in its charges for oil in different States and localities. On Aug. 19 came the speech of Secretary of War Taft (Mr. Roosevelt's choice for the Republican nomination for President in 1908) at Columbus, Ohio, at the opening of the political campaign in Ohio, and on Aug. 20 the address of President Roosevelt himself at Provincetown, Mass., at the laying of the corner stone in commemoration of the three hundredth anniversary of the landing of the Pilgrims. These speeches had been anxiously awaited in the hope that they would show some recognition of the seriousness of the situation into which the country was drifting. Secretary Taft, however, simply reflected and reiterated the views of the President, and Mr. Roosevelt startled the whole world by expressing the opinion that the collapse of values on the Stock Exchange was the work of "certain malefactors of great wealth" who were engaged in attempts to discredit his administration in order that they might "enjoy the fruits of their own evil doing." He at the same time announced that his policy would remain unaltered during the remaining eighteen months of his term. In Texas a suit was filed against the International Harvester Co. to oust it from the State for alleged violation of the anti-trust laws of Texas, and demanding $1,000,150 penalties. The company had previously decided to withdraw from Texas, and the next month consented to let judgment be taken against it for $35,000 rather than incur the expense of protracted litigation. In Georgia a law was passed enlarging the Railroad Commission and giving it powers over all public service agencies the same as the Public Service Commission law of New York State. The Nebraska Railway Commission gave notice of a hearing in September on a proposed reduction in grain rates. A strike of telegraph operators also proved disturbing. This had its origin at Los Angeles Aug. 7 and quickly extended to Chicago, New York and nearly all other parts of the country. The telegraph companies gradually gained the upper hand, but their service remained seriously crippled all through the month. The failure of leading municipalities to dispose of their bonds also was a depressing influence. Aug. 9 Boston invited bids for $3,924,000 4s and disposed of only $100,000, besides receiving just one other bid for $100,000. Aug 12. New York City offered $15,000,000 4s and placed only $2,713,485. An offering of only $60,000 4s by the State Water Supply Commission of New York brought one bid for a $500 bond. An almost complete collapse of the copper trade, with stock accumulating and with producers glad of a strike at Butte as giving opportunity to close some of the mines at that point, added to the feeling of gloom. In the general business world the appointment of receivers for the Pope Manufacturing Co., manufacturers of automobiles, attracted some attention, though the credit of the concern had been poor for some time. The iron and steel trades also displayed a weakening tendency. An investigation of the Interborough-Metropolitan Co. by the Public Service Commission was followed by a complete collapse in the securities of the company and its subsidiary properties. The latter part of August the Southern Ry. reduced the semi-annual dividend on its pref. shares from 2½ to 1½%, and the Erie Co. made the dividends on its 1st and 2d pref. shares payable in scrip instead of in cash. Accounts regarding spring wheat were unsatisfactory, still more so those regarding oats, while damage to cotton was reported by extremely dry weather in Texas. December wheat at Chicago closed at 97⅝c., against 95½c. July 31; December corn at 58⅞c., against 50½c., and December oats at 50½c. against 40⅛. Middling upland cotton in New York advanced from 13 cents to 13.55 cents. The financial situation abroad also again became deeply disturbed. Following the great break on our Stock Exchange Aug. 7 and 8, English consols in London made a new low record, reaching 81 Aug. 10 and, according to some accounts, having touched 80 1-16; and on Aug. 15 the Bank of England raised its rate of discount from 4 to 4½%. Later in the month the situation greatly improved, and the close for consols Aug. 31 was 82 7-16. The improvement resulted mainly from the announcement of Sec. Cortelyou's policy for making Govt. deposits in the banks, and the better tone here, which latter followed in good part from the same circumstance, and also from the action of the New York City authorities in deciding to raise the interest rate on new city bond issues from 4 to 4½% and to offer $40,000,000 at that rate Sept. 10, they having received the assurance of Mr. Morgan that the issue would be a success. Sec. Cortelyou announced late Friday, Aug. 23, that, beginning the next week, the Treasury Department would make each week, for a period of not less than five weeks, deposits in national banks at New York, Boston and other points, with the understanding that, if called for, such deposits would be returned after Jan. 1 1908 in installments to be fixed by the Secretary. It was understood that this meant deposits of $5,000,000 a week, although no definite figure was mentioned. Deposits in the banks were $157,102,219 Aug. 31, against $156,990,205 July 31. Cash holdings in Sub-Treasuries, however, were reduced from $348,472,091 to $339,617,498; of the 4s of 1907, which had been called for payment July 2 1907, $8,519,550 still remained unpresented Aug. 31. National bank circulation secured by bonds increased from $555,023,290 to $556,945,887. On account of the massacre of Europeans at Casablanca (a seaport on the Atlantic Coast of Morocco), France and Spain sent a joint naval and military expedition to Casablanca. The ships of the fleet worked great havoc, but out of the reach of the guns of the ships the Moors made determined resistance, making it evident that subduing them would be a long and difficult task. Because, mainly, of the charging of low rates by the Cunard Steamship Co. on its new steamer "Lusitania" (which the next month made a new record for ocean speed), a war of rates broke out

among the trans-Atlantic steamship lines. The Supreme Court of New Jersey upheld new tax laws in that State the effect of which was to increase very materially taxes on railroad property in New Jersey. See V. 85, p. 347.

*Railroad Events and Stock Exchange Matters.*—The stock market during August was in a state of extreme depression until the latter part of the month, when a sluggish recovery ensued. The reasons are found narrated in the facts above. There were few instances where share properties did not reach a lower depth than in March. Rumors were at different times afloat affecting the standing of various houses on the Street. No failures of any importance, however, were announced, though a very small Stock Exchange house suspended. The latter part of the month, on the unfolding of Sec. Cortelyou's plan and the other influences noted above, some recovery ensued. Atchison from 92½ Aug. 2 declined to 81¾ Aug. 15 and closed at 86½ Aug. 30; Mil. & St. P. com. was 133⅜ Aug. 1, 117½ Aug. 15 and closed 121 Aug. 30; U. P. com. was 144⅛ Aug. 2, 120½ Aug. 15 and 127¾ Aug. 30; Reading com. dropped from 103½ Aug. 2 to 85¼ Aug. 14 and closed Aug. 30 at 94⅞; N. Y. Cent. dropped below par for the first time in a decade (99½ Aug. 15) from 111¾ Aug. 2 and closed at 104¼ Aug. 30; Amal. Cop. was 86⅛ Aug. 1, 65 Aug. 15 and 72¼ Aug. 30. The Steel shares displayed perhaps greater stability than any, the com. being 35⅞ Aug. 2, 29¼ Aug. 15 and 31¾ Aug. 30. Interborough-Metro. shares completely collapsed, the pref. dropping from 43¾ Aug. 1 (it had sold at 75¼ Jan. 7) to 20½ Aug. 20, with the close Aug. 30 at 29. Third Ave. RR. stock dropped from 104 Aug. 7 (and 123 in Jan.) to 46¼ Aug. 27 and in Nov. got down to 16. Besides the action taken, as noted above, on Southern Ry. dividend and Erie pref. shares, the Central of Georgia passed the dividend on its 3d pref. incomes and declared only 3.729 on the 2d pref. incomes. The Fed. Min. & Smelt. Co. made the quarterly div. on its com. stock (extra and regular combined) only 3%, against 5% previously. Quincy Mining Co. (copper) declared only $2 50 per share, compared with $4 50 per share at the two previous quarterly distributions. Tol. St. L. & West. acquired from the Chic. R. I. & Pac. Ry. its shareholdings in the Chicago & Alton, giving control of the latter. The Consol. Gas Co. of New York sold $5,000,000 of 1-year 6% notes at a discount.

*The Money Market.*—The feature in the money market during Aug. was the advance in rates for time contracts. Early in the month there was a sharp rise also in call loans—to 6%. This last was due in the main to the utterly demoralized condition of the stock market, which led to extensive calling of loans. There was also some calling of loans incident to payments by syndicates of considerable amounts of subscriptions for new issues of Un. Pac. bonds and Sou. Pac. and Gt. Nor. stocks. Later the call loan market became abundantly supplied and rates dropped below 2%, so that the trust companies withdrew from that branch of the market. Time loans however, remained in urgent request. Sec. Cortelyou's plan caused a fractional lowering of rates on time at the close, the quotations then being 5 for thirty, 5½ for sixty and 6@6½ for ninety days to four months and 6½@7 for five to six months. On industrial securities ½@1% more had to be paid. Commercial paper closed nominally at 6½ for double names and prime single names and 6½@7 for good single names. Surplus reserves of the banks increased from $7,473,200 Aug. 3 to $9,976,400 Aug. 24, and were $8,756,450 Aug. 31. Money holdings, however, continuously declined from $282,298,800 Aug. 3 to $270,420,400 Aug. 31. Deposits were reduced from $1,099,302,400 Aug. 3 to $1,046,655,800 Aug. 31. Loans, after being contracted from $1,126,950,700 Aug. 3 to $1,048,383,600 Aug. 24, increased again to $1,087,985,400 Aug. 31.

*Foreign Exchange, Silver, &c.*—The rise in money rates here caused a sharp fall in sterling the early part of August and the fall was accelerated by offerings of finance and security bills. The advance in the Bank of England rate, however, from 4 to 4½% caused a sharp rise in exchange to figures very near the gold-export point. The latter part of the month easier discounts in London led to a decided fall in exchange rates again. There were several engagements of gold for export, the aggregate reaching $2,600,000, but these were all special transactions and the exact destination was not always known. Aug. 12 and 13 exchange rates were 4 8210@4 8215 for 60 day bills, 4 8640@4 8645 for sight bills and 4 8705@4 8710 for cable transfers. Aug. 21 rates were 4 8320@4 8325, 4 8790@4 88 and 4 8840@4 8845. Aug. 31 the figures were 4 8225@4 8250, 4 8625@4 8635 and 4 8675@4 87. Open market discounts at London at one time were 5%, at the close the quotation was 4⅜@4⅝, the rate then at Paris being 3⅝@3¾ and at Berlin and Frankfort 4⅞. Silver in London declined early in the month, partly in sympathy with the depression in the financial markets. Aug. 14, however, there was a sensational advance of ⅞d. to 32¼d. on large Eastern buying orders, but the advance was not retained and the close Aug. 31 was 31½d.

SEPTEMBER.—*Current Events.*—Adverse developments in copper were marked. The United Metals Selling Co. followed up the cut of 3 cts. a pound made in July by a further decisive cut, reducing electrolytic brands from 22 cts. to 18 cts.; another reduction, to 16½ cts., came on the 14th and subsequently still other cuts brought the price down to 15½ cts. All this, however, proved unavailing and large accumulations of copper were reported with no buying orders of consequence. Several of the copper companies reduced their dividends, among them the Calumet & Hecla Mining Co. Very general curtailment of production was begun, the Amal. Copper Co. restricting about 60%. Indications of a setback in the iron and steel trades became more pronounced, and this was reflected in a decline in the Steel shares on the Stock Exchange. Some court decisions attracted favorable attention. At Philadelphia Sept. 10 the Common Pleas Court No. 4 held that the 2-cent rate law passed by the Penn. Legislature the previous April and which was to have gone into effect on Oct. 1 was confiscatory and therefore unconstitutional; a little later the Perry County Court of Penn. gave a similar decision. In the Chicago traction cases a decision was rendered by the U. S. Circuit Court of Appeals, Justice Brewer delivering the opinion. The decision was to the effect that underlying security holders could not be forced, even by a Court, to accept terms of reorganization not to their liking. The success of the New York City bond sale was one of the chief events of the month. It appeared that the city authorities after the failure to float the 4% issue the previous month consulted Mr. J. P. Morgan and secured his support. It was on his advice that the interest was raised to 4½% and the offering made $40,000,000. He had agreed to form a syndicate to take at least one-half of the issue at not less than par and interest. This not only insured the loan against failure but was a powerful stimulus in attracting bids. Accordingly the loan was over-subscribed many times. Applications came from all parts of the country, 886 bids being received for an aggregate of $205,800,980, though this included one proposal for the whole $40,000,000 from an apparently irresponsible concern whose check for the 2% deposit required was not honored when presented and the bid, therefore, thrown out. The $35,000,000 due in 1957 brought an average of 102.063 and the $5,000,000 assessment bonds due in 1917 100.30. Quotations in the market subsequently advanced rapidly. In the unlisted department of the N. Y. Stock Exchange the 4½s of 1957, starting at 102⅞ Sept. 12 (the sale occurred Sept. 10), reached 107¾ Sept. 23, with the close Sept. 10 at 107⅛. Sec. Cortelyou made relatively small additions to Government deposits in the banks, notwithstanding his announcement of the previous month; Sept. 30 the aggregate was $170,512,212, against $157,102,219 Aug. 31. Cash in sub-treasuries was reduced only from $339,617,498 to $333,445,220. Bank notes afloat on bonds decreased from $556,945,887 to $556,101,329. Both the Government ginning report and the cotton condition report issued early in the month, while confirming the backward state of the crop (the condition was 72.7), proved less unfavorable than had been expected, and cotton sharply declined, middling uplands in this market being 11.80 cts. Sept. 30, against 13.55 cts. Aug. 31. Print cloths at Fall River remained at 5¼ cts., at which figure brokers acting for M. C. D. Borden were reported to have made large purchases for delivery up to Feb. 1908. Standard prints were advanced to 7 cts. Notwithstanding advices regarding spring wheat in the Northwest were unfavorable, Dec. wheat at Chicago closed at 98⅛ cts. Sept. 30, against 100⅝ Aug. 31; Dec. corn was 58 cts., against 60¾, and Dec. oats at the same point 52 cts., against 54⅜. The Public Service Commission continued its investigation of traction affairs in New York City and brought out some sensational features. The Interboro-Metropolitan Co. directors voted not to pay the pref. dividend due Oct. 1 and both the N. Y. City Ry. and the Metropolitan St. Ry. (the latter Oct. 1) were placed in the hands of receivers. In the general discredit attaching to street railway enterprises, a noteworthy break occurred in Philadelphia in Phil. Rap. Tran. stock and the shares of the controlled companies. In Kansas the RR. Commissioners ordered the railroads to adopt a 2-cent rate for passengers Oct. 1. In Georgia the new RR. Commission refused to revoke the order of the old board commanding the roads to adopt passenger rates varying upon the principal roads from 2 cts. a mile to 2½ cts., and accordingly the new rates were put into effect Sept. 2. Further reductions in rates were announced in the ocean steamship war.

*Railroad Events and Stock Exchange Matters.*—Stocks showed an improving tendency the early part of September. The extra dividend by the Chic. Burl. & Quincy (the Oct. quarterly payment being made 2% instead of 1¾% and an additional dividend of 6% being declared) served to impart strength to all the stocks directly benefited, more particularly the Gt. Nor., the Nor. Pac. and the Un. Pac.—the latter as a holder of stocks in the other two companies. The success of the N. Y. City bond sale likewise had an assuring effect. But later the utter collapse in the copper trade caused renewed weakness, under which a large and general decline in prices ensued. The knowledge that President Roosevelt would attend the unveiling of the McKinley monument at Canton, O., on Sept. 30, passing thence to Keokuk, Ia., and proceed on a trip down the Mississippi River, making several speeches en route, likewise operated to engender a feeling of disquietude. The unsatisfactory situation, as noted above, of the traction properties in this city and the break in traction shares in Philadelphia exercised a further unsettling influence. Mil. & St. P. com. sold down from 125⅛ Sept. 6 to 115¼ Sept. 30; N. Y. Cen. from 107¼ Sept. 21 to 101¼ Sept. 30; Un. Pac. com. from 134⅛ Sept. 6 to 125¼ ex Sept. 28. So. Pac. com. from 87¼ Sept. 6 to 83⅝ Sept. 30, while Amal. Cop. dropped from 74½ Sept. 3 to 56¼ Sept. 28, and Amer. Smelt. & Refining com. from 103⅜

Sept. 6 to 84½ ex Sept. 28; U. S. Steel com. from 33⅛ Sept. 6 to 26⅜ ex Sept. 30 and the pref. from 96 to 87¼. Nor. Pac. sold up from 121 Sept. 5 to 134¼ Sept. 18, but closed at 128⅛ Sept. 30. Gt. Nor. moved up from 123⅝ Sept. 5 to 132 Sept. 19 with the close Sept. 30 127¾. Chi. Gr. West. passed the div. on its pref. "A" shares. In the U. S. Circuit Court Judge Holt decided that Alb. & Susq. RR. shareholders were entitled to the benefit of the saving in interest effected by the refunding of bonds which matured April 1 1906, and not Del. & Hud., the lessor. The Minn. St. P. & S. S. M. Ry. increased its authorized capital from $21,000,000 to $42,000,000 and offered shareholders $1,400,000 pref. and $2,800,000 com. at par. West. Elec. & Mfg. announced the issue of 20,000,000 francs ($4,000,000) 10-yr. 5% col. notes to be offered abroad, to provide working capital for the Russian Westinghouse Elec. Co. and the French West. Co.

*The Money Market.*—Call loans Sept. 9 got up to 6% and Sept. 10 6½% and the latter part of the month again touched 6%. One of the influences tending to advance the rate early in the month was the demand incident to the subscriptions for the $40,000,000 N. Y. City bond sale; also the final payment of about $37,000,000 due on its $75,000,000 convertible bond issue of the Un. Pac. RR. The money paid to the syndicate, however, in this last instance was promptly released. Redemptions through the local agency of the Yokohama Specie Bank of Japanese 6s of 1904 also added to available supplies in the market. The advance in the call loan rate the latter part of September was in connection with the 1st of Oct. payments and settlements. Time loans at the close were 5½% per annum for 60-day periods, 5¾ for 90 days, 6% for four months and 5¾@6 for six months. Commercial paper was 7% for double names and for the best single names, and 7% and above for good single names. Deposits of the Clearing House banks were $1,055,193,700 Sept. 28, against $1,046,655,800 Aug. 31, and loans were $1,100,351,500, against $1,087,985,400. Money holdings fluctuated considerably, being $270,420,400 Aug. 31, $268,131,800 Sept. 14, $272,661,000 Sept. 21 and $269,445,000 Sept. 28. Surplus reserves followed a similar course and Sept. 28 were only $5,646,575.

*Foreign Exchange, Silver, &c.*—While exchange rates seesawed to some extent, the tone most of Sept. was weak, with the tendency downward. The decline suggested the possibility of gold imports. The influences responsible for the weakness were the firmness of money here, with the easing of discount rates abroad and liberal offerings of commodity bills, especially against cotton. Loan drafts were also in evidence, the drawers expecting to cover them at the end of the year with the proceeds of commodity exchange. There were security bills too at times, representing purchases of stocks and bonds for European account, and likewise some speculative selling of exchange based upon the probability that part of the new issue of New York City bonds would be placed abroad by the successful bidders. Sterling Sept. 30 was only slightly above the lowest figures of the month at 4 8175@4 8180 for 60-day bills, 4 8540@4 8560 for sight and 4 8610@4 8625 for cable transfers. Open market discounts abroad Sept. 30 were 3 15-16@4 at London, 3⅛ at Paris and 5¼ at Berlin and Frankfort. Silver in London did not fluctuate widely and closed at 31 3-16d. Sept. 30.

OCTOBER.—*Current Events.*—The dislocation and panic for which events had been paving the way for a very long antecedent period burst upon the country with great fury during this month, bringing with it the train of disasters that invariably accompanies such a catastrophe. When the preceding month closed considerable anxiety was felt as to the tenor and effect of the speeches Pres. Roosevelt was to make on his trip down the Mississippi River after his unveiling of the McKinley monument on Sept. 30. It was feared that he would make some utterances tending further to disturb the situation, already so highly critical. The speeches, it was found, contained no announcement of new doctrines, but were a reiteration of the most obstructive of the old, with the usual rasping sentences in them, which in the prevailing disquietude proved doubly damaging. One expression which attracted wide attention was this: "If righteousness conflicts with the fancied needs of business, then the latter must go to the wall." He also declared that "the chief economic question of the day in this country is to provide a sovereign for the great corporations engaged in inter-State business," and made an urgent plea for "constructive jurisprudence" on the part of the courts, meaning that the courts should enter upon a policy of expanding the meaning of Constitutional provisions so as to give added powers to executive officials and legislative bodies. The stock market apparently took little notice of this new manifestation of the President's old attitude, but in financial circles it was evident that distrust was being aggravated and intensified. At this juncture other adverse developments kept piling up one after another. The copper trade caused great trouble. The price of the metal dropped still lower and got down to about 12 cts., against 26 cts. less than half a year previously. Even at 12 cts. there was no demand. The effect upon the market value of the shares of the copper companies was disastrous in the extreme. Enormous declines in such shares were recorded, succeeding the long series of previous declines. Evidences of reaction in the iron and steel trades and of recession in general business also increased. Monday, Oct. 14, Marshall Field & Co of Chicago announced a reduction of from 9 to 15% in prices of prominent lines of bleached and other cotton fabrics. It so happened, too, that the Agricultural Bureau report issued Oct. 10 showed that the 1907 grain yield, though on the whole good, would fall considerably below the extraordinary yield of 1906. About the middle of the month, also, the passing of their dividends by two Western traction properties (the Detroit United Rwy. Co. and the Tol. Rwys. & Light Co.) caused a semi-panic on the Montreal Stock Exchange. The influence of this action was far reaching because of the reason given for the step. In both instances the statement was made that the companies found themselves unable to sell bonds at any reasonable figures, and, it being incumbent to make large expenditures for equipment, improvements and additions, the earnings which would have gone to pay dividends had to be used for this purpose. Additionally disturbing was the fact that the long-continued decline in American securities had weakened holders of such securities abroad, and the collapse in copper shares contributed still further to weaken the foreign position. The result was a tremendous outpour of securities abroad with very extensive selling here for European account, this very naturally causing additional breaks in our markets. In this city the utter collapse of the copper market and the copper shares worked great havoc. Among the copper stocks which slumped badly were the shares of the United Copper Co., with which F. Augustus Heinze was so prominently identified. Mr. Heinze was also President of the Mercantile National Bank of this city, to which position he had been elected earlier in the year, when he acquired a large interest in the institution. The Heinzes appear to have been interested in a market pool in United Copper shares, and thought they detected selling by some of the members of the pool. Thereupon Otto Heinze & Co. undertook to corner the stock and apparently gave extensive buying orders, and particularly to the Stock Exchange house of Gross & Kleeberg. They also undertook to stop the transfer of a certain block of the stock on the company's books. The attempted corner failed. United Copper com. was run up to 60 Oct. 14, but tumbled back the next day, and Oct. 16 broke to 10. Gross & Kleeberg were forced to the wall the same day, owing to the refusal, as alleged, of Otto Heinze & Co. to take up the stock bought for their account, and later Otto Heinze & Co. themselves suspended. Attention was at once directed to the Mercantile National Bank, which had lost heavily in deposits since the Heinzes had become connected with it and which had loans out on copper stocks to the Heinzes and others. Oct. 17 Mr. Heinze resigned the presidency of the bank, and the same day an examination of the bank was made by the Clearing-House committee. The committee declared the bank solvent, and the next day the Clearing-House decided to stand by the institution and supply it with the cash needed to carry it through. Mr. Heinze had also been interested in the State Savings Bank of Butte, Mont. This closed on the 17th. The seriousness of the copper situation was further emphasized by the action of the Amal. Copper Co. on that day in reducing its quarterly dividend from 2% to 1%. The failure on Oct. 17 of a private banking firm at Hamburg, Germany, for $7,500,000 did not tend to improve things, though it was not clear that this failure was directly due to the drop in copper. The presidency of the Mercantile National was offered to Comptroller of the Currency Ridgely, and he took the offer under advisement, but declined it on Saturday, the 19th. Banking interests recognized that a highly critical state of things was developing. Mr. Charles W. Morse, the steamship man, had been associated with Mr. Heinze in the Mercantile National and was also interested in a chain of banks, prominent among which were the National Bank of North America of this city and the New Amsterdam National Bank. The Clearing-House made an investigation of both banks, and finding them solvent determined to help them over. It was felt, however, that drastic action was necessary. Accordingly Mr. Morse was required to sever his connection with all the banking institutions in which he had an interest. The same course was insisted on with reference to Edward R. Thomas and Orlando F. Thomas, who were also interested in various banking institutions and whose methods were not approved of in banking circles. It was now supposed that the crisis had been tided over, and with the publication in the newspapers Monday morning, Oct. 21, of the news of what had been done by the Clearing House the tone became distinctly better. The stock market reflected the fact in a rise of several points. After the close of business that day, however, there came the announcement that the National Bank of Commerce of this city had given notice that after Tuesday, Oct. 22, it would refuse to clear any longer for the Knickerbocker Trust Co.—one of the largest of the trust companies with over $62,000,000 deposits and whose $100 shares had been quoted at $1,100@$1,200. Charles T. Barney at once resigned as President and director of the company. He had no loans with the Knickerbocker Trust but had been engaged in extensive real estate enterprises with Mr. Morse. Hurried conferences that night (Oct. 21) with J. P. Morgan and other financiers followed. Evidently, however, the company's condition was not found altogether satisfactory. For, notwithstanding very positive statements that the institution was strong in cash and that promises had been obtained of further cash, the company after paying out $8,000,000 to clamorous depositors, Tuesday morning, Oct. 22, was forced to close its doors. The stock market now became utterly

demoralized In the afternoon (Oct. 22) the Stock Exchange firm of Mayer & Co., which had been extensively interested in Del. & Hud. stock, made an assignment. While the whole financial world was thus in turmoil, President Roosevelt made another speech, this time at Nashville, Tenn. He had two days before emerged from the canebrakes of Louisiana, whither he had gone for a bear hunt after his trip down the Mississippi. In his Nashville speech, delivered the day of the suspension of the Knickerbocker Trust, he took occasion to say that he doubted that his policies had had "any material effect in bringing about the present troubles, but if they had it would not alter in the slightest degree my (his) determination that for the remaini g sixteen months of my (his) term these policies shall be persevered in unswervingly." The morning of the same day the daily papers had contained Washington dispatches saying that the Administration had decided to enforce a hitherto unused section of the Sherman Anti-Trust Law, which makes property owned by an unlawful combination subject to seizure and confiscation while in transit from one State to another or to a foreign country; and accordingly the Collector of Customs at Norf lk, Va., had seized a large quantity of cigarettes in transit to New York and abroad. Intimations were given that the same plan might be pursued with reference to shipments for export by other alleged combinations—shipments of oil, for instance. The next day (Wednesday, Oct. 23) the financial situation became still more acute. One of the morning papers had contained a very sensational account of a consultation the previous night concerning the affairs of the Trust Co. of America, which, like the Knickerbocker Trust, ranked among the city's largest trust companies—its deposits having aggregated $64,000,000 and its $100 shares having the previous week been quoted at $650. A run on that institution was precipitated which was not checked for two weeks following. The same day, too, there came the embarrassment of the different Westinghouse interests at Pittsburgh and the appointment of receivers for the same (namely, the Westinghouse Elec. & Mfg. Co., which for many years had been paying 10% dividends; the Westinghouse Machine Co., the Nernst Lamp Co. and the Securities Investment Co.), with the closing of the Pittsburgh Stock Exchange and the suspension of a small trust company in Pittsburgh. Some of the uptown New York institutions also experienced a run th t day, and the next day (Thursday, Oct. 24,) the Hamilton Bank (of which E. R. Thomas had been President) and the Twelfth Ward Ban were obliged to close their doors. Unremitti endeavors were made Wednesday and Wednesday night to prevent the further spread of the panic; important conferences were held in which J. P. Morgan was a notable figure, and which were attended by Mr. Cortelyou, the Secretary of the Treasury, who agreed to add $25,000,000 to the Government deposits in the city banks. At one of these conferences at Mr. Morgan's office Wednesday a committee of five trust company presidents, consisting of representatives of the strongest and best companies, was appointed for dealing with the trust company situation. This, however, did not prevent a run Thursday (Oct. 24) on the Lincoln Trust Co., similar to that which the Trust Co. of America was experiencing. It was almost impossible to secure loans upon the Stock Exchange and money rates mounted to 125%. Accordingly a money pool for $25,000,000, headed by J. P. Morgan & Co., was formed. Report also had it that John D. Rockefeller had placed $10,000,000 at the disposal of the Union Trust Co., and was ready to contribute further relief. Friday (Oct. 25) several other suspensions were announced, mostly uptown in New York or in Brooklyn; the U. S. Exchange Bank, a Harlem institution, failed to open, and the International Trust Co., a small local concern, likewise decided to close, this applying also to its Brooklyn br nch, formerly known as the Brooklyn Bank. Similar action was taken by the First National Bank of Brooklyn (this was a member of the N. Y. Clearing House), the Jenkins Trust Co. and the Williamsburgh Trust Co., in all of which there was more or less identity of interest. The Borough Bank of Brooklyn also suspended. From out of town came the announcement that the Union Trust Co. of Providence, R. I., with $25,000,000 deposits, after an all-day run Thursday, had closed, and that clamorous depositors were besieging the other large trust companies in that city. The panic may be said to have reached its height on that day and got definitely under control. Another money pool (for $10,000,000) was formed in the afternoon at the office of J. P. Morgan. At a meeting of savings bank officers that day (Oct. 25) it was decided that all the city's savings institutions should enforce the provision requiring 60 or 90 days' notice of intention to withdraw deposits—paying out, however, small amounts, according to judgment, to meet the needs of necessitous depositors. This action was quickly followed by the savings institutions in many other cities throughout the country and trust companies outside of New York holding savings deposits pretty generally took similar precautions. On Saturday, Oct. 26, the N. Y. Clearing House Assn. decided to resort to the issue of Clearing House loan certificates and this action led to the very general issue of clearing house certificates by the clearing houses throughout the country. The New York trust companies on Sunday, Oct. 27, in order to curtail the use of cash, decided as far as possible to pay depositors in certified checks on clearing house banks. Outside of New York the practice was quite generally adopted of suspending temporarily the payment of money on checks except for small sums. At some cities shipments of money to interior correspondents were for a time completely suspended. Another result of the panic was the declaration of holidays of longer or shorter duration in a number of Western States and on the Pacific Coast to protect banking institutions in their inability to meet drafts, &c.—this was true of Nevada, Oregon, Washington, California and Oklahoma. Except in the continued run on the Trust Co. of America and the Lincoln Trust Co. of this city, the situation gradually improved towards the close of the month. There were, however, numerous suspensions of minor financial institutions in different sections, and the California Safe Deposit & Trust Co. of San Francisco on Oct. 30 also suspended. On this latter day there likewise occurred the suspension of the N. Y. Stock Exchange house of Kessler & Co., which had been heavily interested in Cripple Creek Central Ry. securities. Enormous engagements of gold were made in Europe for import to the U. S. These engagements by the end of Oct. aggregated over $24,000,000, but none of the metal arrived until Nov., when further engagements of even larger magnitude were announced, as noted below. The European banks interposed no extraneous hindrances to the gold withdrawals, but as a matter of protection the Bank of Germany raised its rate from 5½ to 6½%, and the Bank of England from 4½ to 5½%, this being followed by still further advances the next month. A recovery in copper to 14@14½ cts. was a feature as the month closed. In extending relief, Treasury money holdings during the month were reduced from $333,445,220 to $277,170,058. This reduction was effected mainly through increase of Government deposits in the banks from $170,512,212 to $220,270,625. Great efforts were also made to stimulate a further increase in bank circulation, but the effects in this case did not appear to any great extent until the next month; during Oct. bank notes secured by bonds increased only from $556,101,329 to $562,727,614. The panic created a frenzied desire on the part of timid depositors to get money in any form and led to extensive hoarding throughout the country; premiums of varying percentages were paid for cash. The effect of the situation on the prices of leading staples was very depressing. Middling upland cotton in N. Y. had got up to 12c. again by Oct. 14, but Oct. 28 was quoted at 10.80c., notwithstanding killing frosts in the interval, and the close Oct. 31 was 10.90c. Print cloths at Fall River, however, were kept unchanged at 5¼c. In grain very extensive liquidation was caused, and on the Duluth Board of Trade grain trading was suspended for a time. Early in the month there had been an active speculation at higher prices, and Dec. wheat in Chicago Oct. 14 sold at 107¾; from this it got down to 94⅝ Oct. 30. Dec. corn between the same dates dropped from 64⅞ to 55 and Dec. oats from 56 to 44. The drop, however, stimulated an active export demand for grain. Even silver suffered a sharp break, declining in London from 31 3-16d. Sept. 30 to 27 7-16d. Oct. 30, with the close Oct. 31 27 9-16d; contributory causes in this decline were the diminished demand from India, owing to prolonged drought and poor crops, and also the ravages of the plague. British consols declined from 83¼ Oct. 22 to 81 15-16 Oct. 29. As a result of the panic, large numbers of industrial concerns curtailed operations greatly or suspended work altogether. In Minnesota Attorney-General Young placed himself in opposition to the Federal Courts in the railroad rate controversies pending in that State. The Southern Ry. reached an agreement with Gov. Comer of Ala. under which the litigation brought by the company and its allied lines in the Federal Courts attacking the 2½c. passenger rate and other laws was dismissed. (See V. 85, p. 1083.) An incident of the banking troubles in N. Y. was the resignation of the new State Superintendent of Banks, Luther W. Mott, whom Gov. Hughes had appointed only two weeks before. He was succeeded by Clark Williams, previously holding a prominent position with trust companies in this city.

*Railroad Events and Stock Exchange Matters.*—In the stock market the collapse which occurred during the panic came after very extensive declines the early part of the month and prices dropped not only to the lowest figures of 1907 (up to that time) but the lowest in a long term of years. The extensive selling on foreign account, the increasing distrust, the speeches of Pres. Roosevelt, the growing firmness of the money market, and not unlikely, also, the incidents connected with the investigations of the traction properties in this city by the Public Service Commission all combined to demoralize the market and the bottom was gradually dropping out of it even before the banking developments came in and finished the work. When the panic was at its height there was practically no market for either stocks or bonds, and it was possible to effect sales only at stupendous concessions. As the best way of indicating the extent of the declines we furnish the following summary showing the highest and lowest prices for the month, with the closing price Oct. 31 for some of the principal stocks. It remains to be said that prices fluctuated wildly from day to day, even from hour to hour. In the general collapse bonds suffered hardly less seriously than stocks, and this was particularly true of the inactive issues, where it was almost impossible in many instances to effect sales, no matter what the concessions. Sharp upward rebounds occurred on several days with the announcement of the formation of money pools, but the recovery was never maintained. In the outside market the shrinkage was as pronounced as on the Stock Exchange and the 4% bonds of the Consolidated Steamship Lines in which Charles W. Morse was interested dropped from 24½ Oct. 7 to 9½ Oct. 30. On the

Stock Exchange, perhaps, the largest break was in Westinghouse Elec. & Mfg. com. shares, which sold at 129 Oct. 2 and got down to 34½ Oct. 23, and which had sold at 154 Jan. 2.

Gt. Nor. Ry. shareholders were notified that through the Lake Superior Co., an auxiliary concern, they would on Nov.1 receive a dividend equal to 1½%. In the contest in the Ill. Cent. RR. between ex-Pres. Stuyvesant Fish and the Harriman interests an adjournment of the annual meeting was taken until Dec., at which time the election was further postponed. An involuntary .petition in bankruptcy was filed against the Southern Steel Co. at Birmingham, Ala. Shareholders of the Tenn. Coal, Iron & RR. Co. subscribed to $3,224,927 new stock at par, payable in installments up to June 15 1908. An agreement was reached between the Penn. RR. and the Western Union Tel. Co., terminating the litigation between the two companies and giving the Tel. Co. the right to operate over the Penn. lines West of Pittsburgh, but leaving the Postal Co. in possession of the Eastern lines.

*The Money Market.*—The money market was disturbed as it had not been for years. Even before the development of the banking troubles the monetary situation indicated great disquietude. Oct. 2 call loans on the Stock Exchange were quoted as high as 10%; subsequently the maximum was 6% until the developments in connection with the Mercantile Bank of this city. The tense situation existing, however, was best indicated in the rates for time loans, which were 6% and above for all periods, with very little money obtainable even at these figures, and in the fact that commercial paper was almost unsalable. When the banking troubles developed call money commanded as high as 100@125% and often borrowers were fortunate in being able to obtain accommodation even at these figures, while gradually a premium grew up for cash money over deposits represented by checks, though this premium did not reach very large figures until the next month. As already stated, two money pools came to the relief of the market, one for $25,000,000 and another for $10,000,000, and assistance was also extended from other sources. The action of the Clearing House Oct. 26 in determining to issue clearing house loan certificates also served as a measure of relief. Govt. deposits in the N. Y. city banks were very heavily increased; the amount Nov. 2 was not reported, but Nov. 9 the aggregate was given as $73,092,200, as against $34,450,100 Oct. 19. But the demands from the interior were on an enormous scale and the shipments to the country banks far exceeded these gains. The Clearing House return of Oct. 26 showed a deficiency of $1,233,300 below the required reserve against deposits (being the first deficit of the year) and the next week (Nov. 2) the deficit was increased to $38,838,825 (this being far in excess of any similar deficit in panic periods in the past), and beginning with the statement for that week the detailed exhibit showing the condition of the separate banks was omitted and its publication was not resumed during the remainder of the year; subsequent weeks showed even larger deficits, as narrated below. Towards the close of the month the extreme stringency, under the various measures of relief devised, abated somewhat, and Oct. 31 the range for call loans was 6@20%. No business was reported, however, in time loans, and rates therefor were entirely nominal, as was also the case with quotations for commercial paper. It was stated that 12@16% had been paid for some loans at the very close of the month, running 60 to 90 days. Money holdings of the Clearing House banks were $261,823,900 Oct. 5, $267,610,500 Oct. 19 and $224,107,900 Nov. 2. Deposits were reduced from $1,036,703,300 Oct. 5 to $1,023,772,000 Oct. 26 and then increased to $1,051,786,900 Nov. 2. Loans were reduced from $1,089,068,400 to $1,076,846,300 Oct. 19 and then rose to $1,148,452,600 Nov. 2. It was stated that this large expansion in loans was due to the transfer of loans from the trust companies to the banks and that the large deficit shown resulted partly from the same cause.

*Foreign Exchange, Silver, &c.*—Foreign exchange the latter part of the month very naturally was utterly demoralized. Up to the time when the situation here became acute there had been an urgent demand for bills, due to a variety of circumstances. First there was more or less inquiry for remittance to London in settlement of maturing finance bills which had been negotiated the previous July; likewise a demand to remit for maturing N. Y. city short-term revenue notes which had been placed in Paris in July and previously. The controlling feature, however, in the early rise in rates was the continued liquidation of American securities by foreign holders. In this situation rates for francs had advanced close to the gold-export point and shipments to Paris from this side were averted only through refusal of the Bank of France to facilitate the movement by allowance of interest on consignments of the metal while in transit. Only a slight further advance in sterling would have admitted of gold exports to London. $1,500,000 gold for Germany was actually engaged Oct. 19, although this was explained as being a special transaction. During the panic sterling bills dropped 3@5c. per lb. and very extensive engagements of gold for import were announced, as already narrated. The market at this time was absolutely without support and bankers were indisposed to buy bills even at the concessions offered, while holders were equally reluctant to sell at the low rates except where forced to make the sacrifice. From the low points reached Oct. 26 and Oct. 28 there was considerable recovery by the close of the month, when the quotations were 4 79@4 79¼ for 60-day bills, 4 84½@4 84¾ for sight and 4 8650@4 8665 for cable transfers. The Bank of Germany Oct. 29 advanced its rate from 5½ to 6½% and the Bank of England Oct. 31 from 4½ to 5½%. In the open market rates Oct. 31 were 6 at London and 6 at Berlin and Frankfort and 3¾ at Paris. We have already referred to the decline in silver, which closed at 27 9-16d. Oct. 31.

NOVEMBER.—*Current Events.*—The situation remained highly disturbed early in November. The runs on the Trust Company of America and the Lincoln Trust continued and very slow progress was being made in paying off the long lines of depositors. The Saturday bank statement (Nov. 2) showed the largest deficit in reserve requirements ever recorded (up to that time) namely $38,838,825. The papers Sunday morning, Nov. 3, contained the disturbing announcement that the President had been urged to call Congress in extra session (and was apparently holding the suggestion under advisement) not only to enact financial legislation but to provide for Federal control of corporations in accordance with the President's previous suggestions. Thus a very critical state of things seemed again to be developing. On Monday, Nov. 4, however, the dispatches from Washington conveyed the intelligence that the proposition to call an extra session of Congress had been disposed of adversely the previous Friday, and it also appeared that definite plans were being matured for dealing comprehensively with trust company affairs. Banking interests had held conferences almost continuously on Sunday and Sunday night at the home of J. Pierpont Morgan and at the Hotel Waldorf-Astoria, the last of these conferences not breaking up until 5 a. m. Monday. The plan decided upon provided for cooperation of the trust companies as a whole in support of the two besieged institutions (both of which were found solvent), a majority of the stock of each to be placed under the control of a committee of the presidents of the strongest and most conservative companies in the city. The intervention of the election holiday, Tuesday, Nov. 5, gave time to mature these plans, and early Wednesday morning it was definitely announced that the necessary financial arrangements had been made to enable both companies to proceed with their business. As part of the plan of relief, and to vitalize certain collateral pledged for loans held by various financial institutions throughout the city, the United States Steel Corporation agreed to purchase a majority of the stock of the Tenn. Coal, Iron & RR. Co. (agreeing also to take, on the same terms, the minority interest), the total of which outstanding was $32,541,000 com. and $124,500 pref. As a preliminary H. C. Frick and E. H. Gary had on Monday gone to Washington to assure President Roosevelt that the proposed act would not be an infringement of the Sherman Anti-Trust Law, and apparently got the President to coincide in this view. The Steel Corporation gave its sinking fund 5% bonds for Tenn. Coal & Iron stock, the bonds to be taken at 84 in exchange for stock at 100. By Friday, Nov. 8, J. P. Morgan & Co. had received about $25,000,000 of stock and eventually practically all of the stock of the Tennessee Co. was turned over for exchange. Thereafter there was a steady improvement, notwithstanding the disturbed state of things in Europe as the result of the large engagements of gold for the United States, and notwithstanding that the deficiency below reserve requirements of the Clearing House banks increased with each succeeding week except the last (the deficit reaching $54,103,600 Nov. 23), and notwithstanding that a premium for cash ruled throughout the entire month. The Trust Co. of America announced that it had paid out during the run $64,000,000. The Bank of England, after its advance in October from 4½ to 5½, raised its rate Monday, Nov. 4, to 6% and Thursday, Nov. 7, to 7%, this last being the highest figure reached since our panic of 1873, when, however, the English Bank rate finally touched 9%. The Bank of Germany after its advance to 6½% the previous month, on Nov. 8 advanced still further to 7½. The Bank of Belgium and other European banks also advanced their rates to stiff figures and the Bank of France Nov. 7 moved up from 3½ to 4%. On Sunday, Nov. 17, the authorities at Washington announced still further measures of relief. In order to provide a new supply of bonds available as security for bank notes, bids were asked for another $50,000,000 of the Panama Canal 2% loan and it was also decided to issue $100,000,000 (or as much as might be necessary) of one-year 3% certificates of indebtedness authorized by the Spanish War Act of 1898. These measures were sharply criticized as involving heavy withdrawals from the banks in payment for the subscriptions at a time when such an operation would be peculiarly disturbing. The Treasury Department finally agreed to allow banks desiring to avail of the 3% certificates for increasing their circulation to retain 75% of the purchase price and also announced that in cases where the Canal bonds were awarded to national banks, the latter

would be allowed to retain 90% as a deposit of Federal funds. Proposals for the Treasury certificates were invited beginning Nov. 18, and Nov. 27 the Secretary announced that no further subscriptions would be received after that date. The debt statement showed only $10,917,500 issued to the close of November and subsequently the Secretary stated that the allotments would not exceed $15,000,000. Proposals for the Canal bonds were invited up to Nov. 30, on which day it was announced that the issue had been largely over-subscribed, but only $25,000,000 of the bonds were eventually awarded. The increase in bank notes outstanding secured by bonds during November was $47,428,394, and the engagements of gold for import during October and November closely approached $150,000,000. The arrivals at this centre were somewhat over $58,000,000. The Bank of France repeated its action of 1906 in buying sterling bills on a considerable scale in London and sending the gold in payment to that centre, and also released gold for direct shipment to the U. S., though the unusually high premium of 6 per mille had to be paid for the end. The release of this French gold was understood to have been the outcome of the efforts to that end of Mr. J. P. Morgan through his Paris branch. Shipments of currency from this centre to the interior were on an enormous scale and the country banks bought large amounts of cash here in any form (gold, silver or currency) at a premium of 3%. The additions to money supplies in the way noted served eventually to reduce the premium paid, which earlier in the month had been 3@4%; on Saturday, Nov. 30, the quotation was ½@1¼%. Government deposits in the banks were further increased during November from $220,270,625 to $236,548,321; cash in Sub-Treasuries was reduced from $277,170,058 to $265,119,649. British consols early in the month again got down to low figures—81½—but Nov. 30 were 83. Among the events of the month in banking circles were the suicide of Charles T. Barney, former President of the Knickerbocker Trust Co., and Howard Maxwell, President of the International Trust Co. of Manhattan and former President of the Borough Bank of Brooklyn. A few of the smaller banks here which had closed in October opened up in November—the Twelfth Ward Bank and the United States Exchange Bank and the Terminal Bank of Brooklyn. Both the Pittsburgh Stock Exchange and the New Orleans Stock Exchange remained closed (as also in December), except that the latter dealt in State and municipal bonds. Among the additional bank suspensions were the Title Guarantee & Trust Co. Savings Bank of Portland, Ore., the Union National Bank of Oakland, Cal., and the California Bank of Oakland, Cal. The Texas State Treasury on Nov. 9 was obliged to suspend payment owing to its inability to secure cash from the depositories in which the State had its funds. The Arnold Print Works of North Adams, Mass., was on Nov. 6 placed in the hands of receivers because of its inability to finance its current liabilities and those of its subsidiary companies, aggregating $10,000,000 or more. At a meeting of insurance commissioners representing eleven States held in this city Nov. 21 resolutions were adopted saying that existing market quotations for securities did not truly represent actual values and declaring it the sense of the conference that insurance companies in making up their annual statements should use the quotations ruling Dec. 31 1906 instead of those for Dec. 31 1907. In the end very few of the State Commissioners acceded to the suggestion. At the political elections Nov. 5, the fusion ticket entered into in this city between the Republicans and the Independence League, or Hearst organization, was defeated. In Cleveland, however, in the mayoralty contest, Tom Johnson was again successful, defeating Congressman Burton, who had President Roosevelt's endorsement. In the U. S. Court at Los Angeles Judge Olin Wellborn fined the Atch. Top. & Santa Fe Ry. $330,000 on charges of having granted rebates on shipments of lime and cement. Several of the Southern States renewed their attacks on the railroads. The Alabama Legislature, which had been convened in extraordinary session by Gov. Comer, enacted 21 railroad measures framed (as supposed) so as to be injunction-proof and avoid intervention by the Federal Courts. This latter purpose, however, was not attained, as Judge Thomas G. Jones in the U. S. Court at Montgomery issued a temporary restraining order forbidding the enforcement of nine of the laws passed at the special session. In the State of Oklahoma (formed by the union of the Territory of Oklahoma with Indian Territory) a 2-cent passenger fare went into effect with the adoption of the new Constitution. The Attorney-General of Texas on Nov. 9 at Austin, Tex., filed an anti-trust suit against 120 Texas milling companies, or so-called Millers' Trust, and asked for penalties against each defendant for $56,250, or $6,750,000 in the aggregate. The Appellate Division of the Supreme Court, Third Department, at Albany on Nov. 2, by a vote of 3 to 2, sustained the order made by the old Commission of Gas and Electricity (supplanted by the Public Service Commissions) reducing the prices to be charged for light in Saratoga Springs. On account of the panic and depression in trade, immigrants in large numbers left the U. S. and the steamship companies as a consequence raised their eastbound steerage rates. Grain prices continued depressed early in the month, but enjoyed a sharp recovery the latter part on the improved financial outlook and unfavorable crop reports from abroad. December wheat in Chicago sold down to 89⅜ Nov. 8, but closed at 96⅜ Nov. 30. In cotton also there was an upward movement; middling uplands in this market closing Nov. 30 at 11.80 cts. Print cloths at Fall River continued nominally at 5¼ cts. in the absence of sales. One of the incidents of the depression was a reduction in the West in the wholesale prices of meat, Chicago packers taking the initiative. The Court of Appeals at Albany by a unanimous vote declared unconstitutional the law passed at the suggestion of Gov. Hughes allowing William R. Hearst a recount of the ballots cast at the Mayoralty election in 1905. The Custom House took possession of its new building in this city. The Third Russian Parliament or Douma opened its sessions at St. Petersburg Nov. 14. Russia on Nov. 23 paid to the Japanese Ambassador at London $24,302,200, representing the balance due Japan for the maintenance of Russian prisoners of war. Delegates from the five Central American Republics attended a peace conference at Washington for the purpose of arranging a treaty for the settlement of future disputes between these Republics by arbitration. The strike of the telegraph operators which had begun in August was formally called off by the men Nov. 7; the strike had ceased to be a factor of any importance with the companies some time previously. The Supreme Court of New Jersey upheld the "no seat, no fare" Jersey City ordinance—see V. 85, p. 1271.

*Railroad Events and Stock Exchange Matters.*—The stock market continued decidedly weak with further sharp breaks in prices until the last few days of the month, when a pronounced upward reaction ensued. There was very extensive buying of stocks in small lots, enormous transfers of shares in this way being reported by nearly all the prominent railroad companies; so much so that night work or extra sets of clerks were necessary in many instances to take care of the additional labor entailed thereby. This, however, did not serve to check the downward course of values from week to week. Many bond issues of the semi-speculative class sustained declines hardly less serious than shares. Even in the case of gilt-edged bonds it was found impossible until the latter part of the month to effect sales except at sharp declines and rumor had it that important blocks of bonds of the better class had changed hands at private sale at figures far below any recorded on the Stock Exchange. On Monday, Nov. 18, the market at the opening showed an advance of 3@4 points, compared with the closing prices the previous Saturday, this being the result of the announcement of Sec. Cortelyou's extra measures of relief. But this recovery was hardly less evanescent than previous upward reactions and was followed by a renewed downward movement. The recovery at the close, however, was general and sustained, extended to bonds as well as stocks, and appeared to be based entirely upon the improvement in the currency and financial situation. Atchison com. got down to 66⅜ Nov. 22, but closed Nov. 30 at 72¾; Can. Pac. touched 138 Nov. 21 and closed at 151½ Nov. 30; Mil. & St. Paul com., which was 93½ Nov. 21, closed at 100⅜ Nov. 30; Gt. Nor., which was 109 Nov. 4, closed at 116¼; N. Y. Central closed at 98¼, against 91½ Nov. 26; Reading com. at 90¼, against 72½ Nov. 4; Un. Pac. com. 116⅛ Nov. 30, against 106¾ Nov. 15; Amal. Copper at 51, against 44½ Nov. 15, and U. S. Steel pref. at 86⅛ Nov. 30, against 79⅛ Nov. 20. Steel Corporation sink. fund 5s, on extensive sales by those who had received the bonds in exchange for Tenn. Coal & Iron stock, dropped from 86½ Nov. 1 to 78½ Nov. 20, but closed Nov. 30 at 83½. As an indication of the disturbed state of things the Canada Southern Ry. gave notice that the $14,000,000 1st mtge. bonds put out in 1878 at 5%, and which were to fall due Jan. 1 1908, would be extended for five years at 6%. N. Y. N. H. & Hartf. RR. determined to issue at par to stockholders 6% conv. debentures for $39,029,600 in place of putting out new stock as originally proposed. N. Y. Cent. and subsidiary companies made provision for the issue of $30,000,000 5% equipment trusts to provide additional equipment. The following companies either omitted or deferred their customary dividend declarations: Amer. Cotton Oil on com.; the North American Co., Butterick Co., Lanston Monotype Machine Co., Atlantic Coast Line RR., Amer. Shipbuilding Co. on com., City Investing Co., New Central Coal Co. of Maryland and the Great Northern Paper Co.; among the copper companies the United Copper Co. and the Parrot Silver & Copper Co. omitted their dividends, and the Copper Range Consolidated, the Butte Coalition Co. and the Fed. Min. & Smelt. (on com.) reduced.

*The Money Market.*—Shipments of currency to the interior by the N. Y. City banks continued on a very large scale, but as a result of the extensive gold arrivals and the increase in national bank circulation, the money market greatly improved. Call loans at the Stock Exchange, which early in the month had ranged as high as 25%, gradually declined, and Nov. 27 the range was only 3@6%; on Friday, Nov. 29, however, the range was higher again, namely 5½@12, owing to a demand in connection with the 1st of Dec. payments. Banks and trust companies were not in the market at all. In time loans scarcely any business was done except for 60 to 90 days, the rate generally being 12@15%, with very few transactions even at these figures. Merchants experienced much difficulty in obtaining accommodations, while at the same time their requirements were increased because of slow collections and also because of the derangement of domestic exchanges, this latter affecting remittances. There was practically no market for commercial paper, though at the close some business was reported at 8%, with the quotations nominally 7@7½ for the best grades. The premium on currency was maintained in great part as the result of large

purchases for interior institutions. Owing to the heavy shipments to the country banks, money holdings of the Clearing House institutions kept steadily diminishing until the very last week, notwithstanding the large gold arrivals; Nov. 23 these money holdings were only $215,851,100, against $224,107,900 Nov. 2 and $254,709,700 Oct. 26; Nov. 30 there was an increase to $217,831,400. The deficiency in legal reserve, which was $54,103,600 Nov. 23, was reduced to $52,989,425 Nov. 30. Loans Nov. 30 were at the highest figure at $1,198,078,500, against $1,148,452,600 Nov. 2 and $1,087,711,000 Oct. 26. Deposits were $1,083,283,300 Nov. 30, against $1,089,303,800 Nov. 16, $1,051,786,900 Nov. 2 and $1,023,772,000 Oct. 26. The bank statement of Nov. 2 having been such a very poor one was not published until after the close of the stock market that day and thereafter that practice was continued.

*Foreign Exchange, Silver, &c.*—The foreign exchange market was controlled almost entirely by the premium ruling here for cash money and was unsettled and irregular, with wide fluctuations from day to day. It was calculated that with the ruling premium 3% this was equal to about 14 cts. on the pound sterling, enabling gold imports to be effected at a profit when rates apparently were at the gold-export point. With gold engagements on such an enormous scale there was naturally a continuous demand for bills to cover the engagements. On Monday, Nov. 18, Sec. Cortelyou's new plans caused a sharp break in exchange on the theory that these plans would reduce or wipe out the premium on cash money, thereby restoring exchange to normal conditions and hence check further gold imports. These expectations, however, were not realized and later exchange rates rose again. The day after the election—that is, on Nov. 6—exchange rates had also suffered a sharp break on the news regarding the relief provided for the local trust companies. The latter part of the month easier discounts in London and other circumstances served at times to weaken exchange rates. Cable transfers Nov. 16 were as high as 4 90¾@4 91½; the close Nov. 30 was 4 88@4 8810. Sight bills were at their highest Nov. 4 at 4 88½@4 88¾, with the quotation Nov. 30 of 4 8660@4 8665. Sixty-day bills were 4 81@4 81½ Nov. 22 and closed Nov. 30 at 4 79¾@4 80. We have referred above to the advance in the Bank of England rate to 7%, the Bank of Germany rate to 7½ and the Bank of France to 4%. Discounts in the open market London at one time were 7¼@7½, but Nov. 29 were 6¼@6½. At Paris the open market rate got to 4½ and closed at 4¼; at Berlin and Frankfort closing quotations were at about the highest figure—7@7¼. The Bank of England sustained some heavy losses in bullion by reason of the demand for gold for the U. S., but the India Council released £1,000,000 "earmarked" gold and the Bank of France supplied it with £3,000,000. Silver in London suffered a further break, touching 26 9-16 Nov. 27, with the close Nov. 30 at 26⅝.

DECEMBER.—*Current Events.*—Some few additional failures occurred, but on the whole the banking and general situation greatly improved. The National Bank of Commerce of Kansas City, Mo., the largest bank in that city, closed its doors Dec. 5. The suspension had been expected, as the bank's deposits since the Comptroller's call on Aug. 22 had been reduced from $35,420,811 to $16,942,695. The Fort Pitt Nat. Bank of Pittsburgh, Pa., suspended Dec. 6. This was not a large concern, having deposits of only about $3,000,000, but it was followed the next week by the appointment of a receiver for the banking firm of Whitney, Stephenson & Co., an old and quite important concern. Both Mr. Whitney and Mr. Stephenson were on the board of directors of the Fort Pitt Nat. Bank. These latter embarrassments, however, were regarded as the natural outgrowth of the involved situation of industrial affairs at Pittsburgh. The Pittsburgh Stock Exchange was not re-opened for business during the month. Nor did the New Orleans Stock Exchange resume dealings in stocks. Some banking troubles developed at Atlanta, Ga., Memphis, Tenn., and elsewhere in the United States, but the disturbances chiefly related to minor institutions. Gold imports and gold engagements continued, but on a diminished scale, and the premium ruling for cash money gradually dwindled until at the close of the month it had reached the vanishing point. Abroad, too, this had a beneficial effect, and open market discounts declined. The deficiency in the reserves of the N. Y. Clearing-House banks was reduced week by week until on Dec. 28 it was only $20,170,350, against $54,103,600 on Nov. 23. Money holdings in the same five weeks increased from $215,851,100 to $242,561,000. Government deposits in the banks throughout the country were increased from $236,548,321 to $256,920,155, and Treasury money holdings were increased from $265,119,649 to $274,506,495 on account of the issue of Panama Canal bonds. Saturday Dec. 28 some of the N. Y. City banks were notified that they would be expected to return 10% of their Government deposits at an early date. National bank circulation was increased from $610,156,008 to $643,459,899. Gold arrivals at N. Y. during the month were about $38,000,000. The Comptroller of the Currency issued the long-delayed call for a report of the condition of the national banks, and the Supt. of Banking at Albany called for a return of the condition of the State banks and trust companies. The figures in both instances served to promote confidence in the soundness and strength of banking institutions. The Comptroller's call of date Dec. 3 showed that the national banks of this city at that date had borrowed $30,199,100 on Clearing-House certificates and the State call of date Dec. 19 showed that at the latter period the State banks owed $7,355,000 on such certificates. Congress met in regular session Dec. 2. The members showed a disposition to give due consideration to measures proposing currency legislation, but at the same time to proceed with care and deliberation. The House Committee on Banking and Currency authorized Chairman Fowler to appoint a subcommittee of five to draft a currency bill. Other indications of improvement were found in the discontinuance of bank holidays in both Oregon and California, they terminating in the former State on Dec. 14 and in California on Dec. 21. The 60-days notice of intention to withdraw deposits which savings bank depositors in this city and elsewhere were required to give when the banking crisis developed in October expired in December, but comparatively few depositors availed of the option to withdraw. A political event of the month was the reiteration by President Roosevelt on Dec. 11 of his declaration made on the night of the election three years ago that under no circumstances would he be a candidate for another term. The Advisory Banking Committee appointed the previous month by Gov. Hughes to suggest any needful changes in the N. Y. banking laws announced its conclusions, and besides other recommendations submitted a divided report on the question of trust company reserves, the majority declaring that a reserve of 25% should be maintained by the trust companies in the Borough of Manhattan (of which 15% to be cash on hand and 10% in some bank or trust company), and the minority report, rendered by the trust company representatives, contending that in cities of over 800,000 inhabitants a lawful money reserve for trust companies of 15% on all deposits *payable on demand* (in addition to the reserve supplied by their capital investment and the 10% guaranty fund) would be adequate. In accordance with previous arrangements, the Atlantic fleet of the U. S. Navy departed on its long cruise to the Pacific Ocean. Almost simultaneously came the announcement of the recall of Viscount Aoki, Japanese Ambassador at Washington, but it quickly appeared that this was a mere coincidence and that the event had no significance. It was announced that Baron Takahira would succeed Aoki. Very extensive idleness resulted from the stoppage of work in industrial establishments throughout the country and in this city it became a grave problem for the charity organizations to deal with the homeless and the indigent. A receiver was appointed for the Sheffield Coal & Iron Co. In the thickly settled districts on the east side of the city, so-called strikes against the landlords were inaugurated to compel reductions in rents. New England cotton manufacturers agreed upon a curtailment plan calling for suspension of operation for 25% of the working days between Dec. 25 and Mch. 1. In the copper trade prices were about 13¼@13½c., with no indication of any revival in demand, and the Amalgamated Copper Co., which had previously laid off 8,000 men, arranged to lay off over 3,000 more, inaugurating a complete suspension of production at all the mines of the subsidiary companies, with the exception of three mines of the Boston & Montana Co. The Southern Ry. Co. reached an agreement Dec. 19 with Gov. Glenn of North Carolina settling the rate controversy with that State; the general rate on all passenger business was fixed at 2½c. per mile, but with reductions on mileage books (see V. 85, p. 1578). Many of the States kept up their activity against the railroads, notable instances being Arkansas (see V. 85, p. 1480) and Texas, the latter giving notice of a hearing in Jan. on a proposed reduction in passenger rates, while the North Carolina Supreme Court rendered a decision attempting to limit the jurisdiction of the Federal courts (V. 85, p. 1425). In the State Court at Topeka a verdict was rendered against the International Harvester Co. on charges of being a trust. Twenty-three life insurance companies gave notice that they would retire from doing new business in Wisconsin, owing to new insurance laws in that State which were to become effective with the new year. In the pending litigation regarding the 80-ct. gas law for Manhattan Borough, Judge Hough confirmed the report of the Special Master, Arthur H. Masten, filed the previous June, declaring the law confiscatory, and therefore unconstitutional, but modiyfing the Master's report in some other respects (V. 85, p. 1612). The Charter Revision Committee for New York City transmitted its report to Albany recommending, among other things, home rule for the city, the repeal of all mandatory legislation regarding appropriations, also that the people of the city should be allowed to determine for themselves whether personal property shall be taxed, likewise recommending that the issue of revenue bonds be limited, and that the date for the payment of taxes be gradually advanced until it coincides with the beginning of the fiscal year, and furthermore suggesting that the State constitution be amended so "as to exclude from the computation of the city's debt limit all bonds or evidences of indebtedness issued for purposes which produce revenues in excess of their maintenance charges." In the State of Oklahoma a law was passed providing for the establishment of a guaranty fund for the protection of depositors in insolvent banks of the State (V. 85, p. 1621). Oscar II., King of Sweden, died Dec. 8 and was succeeded by the Crown Prince, who took the title of Gustave V. At the request of Gov. Sparks of Nevada, Pres. Roosevelt sent Federal troops to restore order at Goldfield in the mining districts, but later in the month the President compelled the Governor to issue a call convening the Nevada

Legislature in extraordinary session, he having threatened to withdraw the troops if this were not done. The Peace Conference of the Central American States was dissolved Dec. 20 after having agreed upon seven treaties—to be submitted to the respective governments for final ratification. Receivers were appointed for the Jamestown Exposition Co., the exposition, which closed on Nov. 30, not having been a success.

*Railroad Events and Stock Exchange Matters.*—The stock market showed considerable irregularity both as regards the course of prices of different stocks and the fluctuations in the different weeks. In the closing days there was a decided exhibition of strength and also a considerable increase in activity, with the final sales, however, Dec. 31 showing some reaction from the best figures. Not many stocks recorded lower prices in December than in October or November, but two conspicuous instances are to be mentioned, namely N. Y. Cent. and Mo. Pac. N. Y. Cent. was weak notwithstanding the declaration of the regular quarterly dividend of 1½%, an unfavorable view being taken of the company's preliminary annual statement for the calendar year. Mo. Pac. declined because the semi-annual div. of 2½% was made payable in stock. Nor. Pac. was exceptionally strong nearly all through the month, and other strong features were Del. & Hud., Reading and Brooklyn Rap. Trans. The net result of the month's fluctuations was that while many stocks closed higher than they opened, some closed lower. Thus Mil. & St. P. com. closed at 104¾, against 99⅝; Del. & Hud. at 147½, against 135; Gr. Nor. at 116¼, against 116; Nor. Pac. 118, against 110¼; Reading at 95, against 89¼; So. Pac. com. 73¾, against 72; Un. Pac. 118⅛, against 115¼, and Steel com. 26¼, against 25¼. On the other hand, N. Y. Cent. closed at 90⅝, against 97¾; Mo. Pac. at 45¾, against 50; Amal. Cop. at 46⅞, against 50¼; L. & N. at 92¾, against 93¼, and Atch. com. at 69¾, against 71¾. Besides the Mo. Pac., the West. Un. Tel. paid its div. in stock and the Atl. Coast Line RR. paid in certs. of indebtedness. The L. S. & M. S. paid 2 extra, making 14% for the year, and the Mich. Cent. 2 extra, making 8. The Pennsylvania *Company* advanced its semi-annual dividend from 3% to 4%. The Lake Erie & West. reduced; so did the Crucible Steel (on pref.), the Distillers' Securities and the U. S. Smelt. & Refin. (com.). The Calumet & Hecla and other copper companies further reduced. Chic. Gr. West. passed the interest on its debenture stock. Speyer & Co. purchased the December coupon of the 5% notes of the Underground Elect. Rys. of London, and Kuhn, Loeb & Co. offered to purchase the semi-annual copuon due Jan. 1 1908 on the 1st consol. M. of the Third Ave. RR. Bost. & Me. RR. along with other New England railroads gave notice of withdrawal from the per diem agreement of the American Railway Assn. The Erie served notice of its withdrawal from the Central Passenger Assn. N. Y. N. H. & H. gave notice of the cancellation of joint freight rates via Jersey City in order to divert traffic to the company's Poughkeepsie Bridge route, but at the suggestion of the Inter-State Commerce Commission subsequently postponed the date of cancellation until Mch. 31 1908.

*The Money Market.*—The currency premium gradually vanished, as noted above, but call loans most of the month were maintained at high figures, in two of the weeks touching 25%. The demand was urgent in connection with the 1st of Jan. interest and dividend disbursements; on Dec. 31 the range was 8@18%. Time loans most of the month remained subject to special agreement, with hardly any business of importance. Quotations at the close were 12% for 30-day periods, 10% for 60 to 90 days and 6% for four months. Commercial paper was nominally 8% for the best names, with few purchases. We have referred above to the decrease in the deficiency of the Clearing House banks and to the increase in their money holdings. Deposits were reduced from $1,083,283,300 Nov. 30 to $1,050,925,400 Dec. 28. Loans during the same four weeks fell off from $1,198,078,500 to $1,147,694,400.

*Foreign Exchange, Silver, &c.*—Foreign exchange was weak and lower during the first two weeks of the month but took a sharp upward turn the third week. The continuance of gold engagements and the maintenance of the currency premium tended to keep alive apprehensions on the other side and open market discount rates there held to high figures. The last ten days, however, with the gradual disappearance of the currency premium here and the diminution in the American demand for gold, open market discounts sharply declined, being Dec. 31 only 5⅛ at London, 4@4⅛ at Paris and 6 at Berlin and Frankfort. These lower discounts, together with tense money in New York, caused a general weakening in sterling exchange the last week. The highest figures were touched Dec. 20, when 60-day bills were 4 80¾ @4 81, sight 4 8660@4 8670 and cable transfers 4 8835@ 4 8845. Prices Dec. 31 were 4 79¼@4 79½, 4 8415@ 4 8425 and 4 8560@4 8575. Silver in London utterly collapsed, dropping as low as 24d. with the close Dec. 31 24⅞d.

## PRICES IN 1907 AT THE N. Y. STOCK EXCHANGE.

The tables on the following pages show the highest and lowest prices at the New York Stock Exchange of Railroad, Industrial and Miscellaneous bonds and stocks, and also of Government and State securities, for each month of the past year. The tables are all compiled from actual sales. In the stocks one-hundred share lots form the basis of compilation, except in the case of those few stocks which sell almost entirely in small lots. Following a rule adopted by the Stock Exchange in April 1896, sales which are not for "regular" delivery —that is, where the buyer or seller stipulates for three or more days' time, or where delivery is to be made the same day (the sale in this last instance being for "cash")—are disregarded.

*Note.*—In case of bonds of foreign Governments issued in pounds sterling, the usage of the Stock Exchange is to consider five dollars as the equivalent of one pound sterling, and the above quotations are on that basis. With the exception of the Republic of Cuba 5s of 1904 and the U. S. of Mexico 4s of 1904 (which are issued in the denomination of dollars), the bonds in the foregoing are all sterling issues.

## ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

—Only 10 shares of bank stock were sold at the Stock Exchange this week and none at auction. Several small lots of trust company stock, aggregating 63 shares, were sold at auction. The table below, given in our usual form, shows the actual sales of New York City bank stocks made during the week at auction and at the Stock Exchange. Extensive tables showing the bid and asked quotations, deposits, surplus, &c., of banks and trust companies in all important cities of the United States are published monthly in the "Bank and Quotation" Section, the January issue of which accompanies to-day's "Chronicle." Bid and asked quotations for all New York City bank and trust company stocks are also published weekly in another department of the paper, and will be found to-day on pages 39 and 40.

| Shares. BANK—New York. | Low. | High. | Close. | Last previous sale. |
|---|---|---|---|---|
| *10 Commerce, National Bank of | 130 | 130 | 130 | Dec. 1907— 131 |
| TRUST COMPANY—New York. | | | | |
| 63 Carnegie Trust Co | 150 | 163 1/8 | 163 1/8 | Dec. 1907— 159 7/8 |

* Sold at the Stock Exchange.

—During the week just closed, with practically no demand for cash there has been virtually no premium on currency. Some small transactions were reported, the premium averaging from 1/8 to 3/8 of 1%.

—The New Orleans Stock Exchange decided this week to postpone until Jan. 15 the date for the resumption of trading in stocks. There have been no dealings in these securities on the Exchange since Oct. 29, and a resolution to resume such trading on Jan. 2 had been adopted on Dec. 14. On the 2d ult. trading in bonds was resumed, after a virtual suspension of five weeks, during which time only State, city and levee bonds were dealt in.

—Gov. Hughes in his annual message to the Legislature this week recommends for consideration the suggestions as to changes in the law governing banks and trust companies made in the report of the Advisory Banking Committee appointed by the Governor in November. Mr. Hughes adverts to the committee's recommendation that there should be an enlargement and more careful definition of the powers of the Superintendent of Banks with reference to the organization of banks and trust companies, the establishment of branches of either, and mergers or the control of one institution by another, and then adds:

> If suitable restrictions are imposed in explicit form and with appropriate penalties, insuring adequate knowledge and proper action on the part of the board of directors with regard to loans and other transactions; preventing the deposit of moneys of one institution with another in order that the officers, directors or stockholders of the former may obtain desired credits from the latter; limiting the amount which may be loaned by any bank or trust company upon the stock of another financial institution; reducing the amount which may be loaned upon collateral to any one interest, and erecting proper safeguards against loans and investments in aid of schemes of promotion represented by unmarketable securities; and if in addition suitable means are provided for the enforcement of the rulings of the Superintendent of Banks with regard to improper or unsafe practices, the security of our financial institutions, and the confidence which springs from just reliance upon their proper management, will greatly be strengthened.

In the opinion of the Governor the field of operation of banks and trust companies should be carefully "delimited." His remarks on this point are embodied in the following paragraph, in which the question of reserves is also touched upon:

> The members of the committee are not agreed upon the subject of reserves. The maintenance of reserves, to the highest extent suggested, of course will not protect against the consequences of improper investments or save an institution that is in an unsound condition. But it is apparent that the existence of demand obligations requires reserves to be

maintained and that they have the salutary tendency to prevent an undue expansion of credits. The arguments that are adduced with respect to the different reserve plans which are proposed I submit to your consideration.

With regard to trust companies, however, the matter of reserves is a phase of a larger question. It was not contemplated by the law relating to trust companies that they should engage in the same business as banks. Their powers were defined with reference to the execution of trusts and to action in fiduciary capacities, with such incidental privileges as were deemed consistent with the general purposes. In practice, however, they have engaged in the banking business upon a large scale, and the moneys deposited with them are for the most part payable on demand. Despite this development of their business, it was not until 1906 that they were required to keep any cash reserve, and this is much less than that required of banks. Whatever else may be said on the subject, it would seem clear that business of the same sort should be transacted under the same conditions. It is not the name of the institution which justifies the imposition or the omission of the restriction, but the kind of business.

In my judgment nothing will meet the situation with fairness to the interest of the banks, of the trust companies and of the public which deal with both, which does not require that each distinct field of operation should carefully be delimited, and that any corporation transacting business in a particular field shall be subject to the obligations and restrictions which pertain to that field. Whatever reserves or other restrictions may be deemed advisable with reference to demand deposits in the case of a bank should be equally obligatory with reference to the same sort of deposits in the case of a trust company. Similarly the savings bank business is a distinct field, and business of this sort should be transacted only by institutions subject to the restrictions of the savings bank law.

—One announcement of general interest made by State Superintendent of Banks Clark Williams in his annual report submitted to the Legislature this week concerns his proposed action with reference to calling for a weekly statement of condition from all State banking institutions. Mr. Williams's remarks on this subject are as follows:

The weekly bank statement issued by the Clearing-House Association of the City of New York does not reflect the aggregate financial position of the banking institutions of the city at large, since one-half of the banking power does not report to this Association. For many reasons it is to be regretted that this is the case.

Availing of the authority of law vested in the Superintendent of Banks, it is my purpose to require an average summary statement of the condition of the banking institutions of the State as of the close of business on Friday of each week.

These figures will be compiled in the office of the Department at New York, and those of the institutions in the metropolitan district not reporting to the Clearing House will be segregated, combined and published in such form as, with the weekly bank statement, will show, so far as is possible, the true financial condition of the banking institutions of the City of New York. These statements will also afford opportunity to the Department to keep more closely in touch with the conditon of, and to maintain a more constant supervision over, the banking institutions of the State.

**Canadian Bank Clearings.**—The clearings of the Canadian banks for the month of December 1907 show a decrease from the same month of 1906 of 7.6%, and for the twelve months the gain reaches 6.6%.

**New York City, Boston and Philadelphia Banks.**—The New York City Clearing House has discontinued, for the present, issuing its detailed statement showing the weekly averages of condition of the separate banks, both the member and the "non-member" institutions. The publication of these figures, it is stated, will not be resumed until all outstanding Clearing-House loan certificates are retired. The last statement issued, that for Oct. 26 1907, will be found in the "Chronicle" of Nov. 2, on page 1124.

The Philadelphia and Boston Clearing Houses have also adopted the course of not making public the returns of the individual banks. The New York Clearing House does not give out any figures regarding the volume of the outstanding loan or Clearing-House certificates, nor does the Philadelphia Clearing House; but at Boston $11,995,000 such certificates were outstanding Saturday, Dec. 28.

Below is a summary of the weekly totals of the Clearing-House banks of New York City, Boston and Philadelphia. The New York figures do not include results for non-member banks.

*We omit two ciphers in all these figures.*

| Banks. | Capital and Surplus. | Loans. | Specie | Legals. | Deposits. a | Circulation. | Clearings. |
|---|---|---|---|---|---|---|---|
| New York | $ | $ | $ | $ | $ | $ | $ |
| Nov. 30 | 293,498,3 | 1198,078,5 | 170,554,6 | 47,276,8 | 1083,283,3 | 62,129,8 | 1.054,949,5 |
| Dec. 7 | 293,498,3 | 1186,395,6 | 173,888,7 | 48,613,8 | 1074,851,4 | 65,658,1 | 1.434,538,2 |

a Including Government deposits and for Boston and Philadelphia the item "due to other banks." At New York Government deposits amounted to $78,889,100 on Dec. 28, against $78,596,200 on Dec. 21; at Boston on Dec. 28 to $6,423,000, against $6,421,000 on Dec. 21.

**Imports and Exports for the Week.**—The following are the imports at New York for the week ending Dec. 28, also totals since the beginning of the first week in January:

FOREIGN IMPORTS AT NEW YORK.

| For week. | 1907. | 1906. | 1905. | 1904. |
|---|---|---|---|---|
| Dry Goods | $3,042,367 | $4,032,669 | $2,783,027 | $3,270,077 |
| General Merchandise | 7,416,807 | 14,902,856 | 10,151,579 | 10,643,976 |
| Total | $10,459,174 | $18,935,525 | $12,934,606 | $13,914,053 |
| *Since January 1.* | | | | |
| Dry Goods | $185,409,765 | $164,964,717 | $142,717,654 | $123,819,068 |
| General Merchandise | 644,132,246 | 619,972,156 | 565,595,321 | 494,031,571 |
| Total 52 weeks | $829,542,011 | $784,936,873 | $708,312,975 | $617,850,639 |

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Dec. 28 and from Jan. 1 to date.

EXPORTS FROM NEW YORK FOR THE WEEK.

| | 1907. | 1906. | 1905. | 1904. |
|---|---|---|---|---|
| For the week | $13,324,017 | $10,556,954 | $12,206,629 | $10,200,858 |
| Previously reported | 632,034,277 | 614,506,077 | 546,741,033 | 493,388,569 |
| Total 52 weeks | $645,358,294 | $625,063,031 | $558,947,662 | $503,589,427 |

The following table shows the exports and imports of specie at the port of New York for the week ending Dec. 28 and since Jan. 1 1907, and for the corresponding periods in 1906 and 1905:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK

| Gold. | Exports. | | Imports. | |
|---|---|---|---|---|
| | Week. | Since Jan. 1 | Week. | Since Jan. 1 |
| Great Britain | | $14,380,849 | $2,275,256 | $78,004,707 |
| France | | 15,554,499 | | 3,910,745 |
| Germany | | 1,615,083 | 1,344,324 | 9,562,244 |
| West Indies | | 914,955 | 459,433 | 3,870,321 |
| Mexico | | 15,000 | | 781,737 |
| South America | | 2,808,386 | 22,776 | 2,741,431 |
| All other countries | | 1,500,000 | 13,878 | 351,308 |
| Total 1907 | | $36,788,772 | $4,115,667 | $99,222,493 |
| Total 1906 | $290,410 | 6,828,146 | 310,126 | 95,098,996 |
| Total 1905 | 250,000 | 38,639,777 | 88,729 | 16,426,971 |
| **Silver.** | | | | |
| Great Britain | $386,460 | $44,378,895 | $5,819 | $206,592 |
| France | | 4,104,000 | | 2,270 |
| Germany | | 10,278 | | 427 |
| West Indies | | 290,867 | 1,752 | 225,687 |
| Mexico | | | | 2,427,839 |
| South America | | 7,965 | 12,791 | 1,039,564 |
| All other countries | | 14,786 | 2,442 | 51,926 |
| Total 1907 | $386,460 | $48,806,791 | $28,804 | $3,954,305 |
| Total 1906 | 1,168,335 | 46,890,428 | 23,453 | 2,889,155 |
| Total 1905 | 2,609,222 | 39,070,837 | 34,461 | 4,163,916 |

Of the above imports for the week in 1907, $974,298 were American gold coin and $230 American silver coin. Of the exports during the same time _____ were American gold coin and _____ were American silver coin.

## Banking and Financial.

We shall be pleased to mail to institutions and investors copies of our Bond Circular entitled "INVESTMENT OPPORTUNITIES," in which we review past events and existing conditions in the financial and business worlds.

# Bankers' Gazette.

*Wall Street, Friday Night, Jan.* 3 1908.

**The Money Market and Financial Situation.**—Sentiment in Wall Street has been diversely affected by the developments of the week and the volume of business at the Stock Exchange, although somewhat larger than last week, is smaller than usual at this season. Call-loan rates have continued high, reaching 19 to 20% on at least three of the four full business days, reports of railway net earnings have in several cases made an unfavorable showing, and the appointment of receivers for the Seaboard Air Line suggests the possibility of similar proceedings in other cases.

On the other hand, the premium on currency, which has restricted business to a greater or less extent for some time past, has practically disappeared, Clearing House certificates are steadily .being retired, no effort to obtain gold abroad by our bankers for import has beenr eported and the Bank of England has reduced its discount rate from 7 to 6%. Every one having an interest in the matter expects the financial situation to further improve during the month now entered upon, but the prospect for industrial affairs is more obscure. Several commercial failures are reported to-day; the Jan. 1st payments on some of the New York City Street Railway leases have not been met, and it is reported from Washington that proceedings are soon to be instituted against some of our most important railway systems in the West.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 5% to 20%. To-day's rates on call were 6@10%. Prime commercial paper quoted at 8% for endorsements and 8% for best single names, but all transactions subject to special agreement.

The Bank of England's weekly statement on Thursday showed an increase in bullion of £1,797,815, and the percentage of reserve to liabilities was 35.62, against 39.99 last week.

The discount rate was reduced from 7% as fixed Nov. 7 to 6% Jan. 2. The Bank of France shows a decrease of 14,750,000 francs told and 6,850,000 francs silver.

NEW YORK CITY CLEARING HOUSE BANKS.

| | 1907. Dec. 28. | Differences from previous week. | 1906. Dec. 29. | 1905. Dec. 30. |
|---|---|---|---|---|
| | $ | $ | $ | $ |
| Capital | 129,100,000 | ---------- | 123,150,000 | 116,472,700 |
| Surplus | 163,396,900 | ---------- | 156,632,300 | 140,800,500 |
| Loans and discounts | 1,147,694,400 | Dec. 17,752,400 | 1,032,973,000 | 1,001,025,000 |
| Circulation | 71,736,000 | Inc. 1,077,000 | 53,670,800 | 53,096,000 |
| Net deposits | *1,050,925,400 | Dec. 8,568,600 | 981,301,100 | 977,651,300 |
| Specie | 187,874,300 | Inc. 6,371,200 | 179,323,000 | 173,005,600 |
| Legal tenders | 54,686,700 | Inc. 3,067,300 | 71,371,500 | 75,699,800 |
| Reserve held | 242,561,000 | Inc. 9,438,500 | 250,694,500 | 248,705,400 |
| 25% of deposits | 262,731,350 | Dec. 2,142,150 | 245,325,275 | 244,412,825 |
| Surplus reserve | def. 20,170,350 | Inc. 11,580,650 | 5,369,225 | 4,292,575 |

* $78,889,100 United States deposits included, against $78,596,200 last week and $16,529,000 the corresponding week of last year. With these United States deposits eliminated, the deficit under the required reserve would have been only $448,075 on Dec. 28 and $12,101,950 on Dec. 21.

**Foreign Exchange.**—The market was unsettled and lower early in the week, with cables heaviest, these being influenced by the suspension of gold imports, by a sharp fall in London unofficial discounts, followed by a reduction in the Bank rate to 6%, and by a limited demand; there was a recovery later in the week and the market closed strong. Gold arrivals during the week, $6,460,000, making $98,500,000 thus far on the movement.

To-day's (Friday's) nominal rates for sterling exchange were 4 80½@4 81 for sixty-day and 4 86½@4 87 for sight. To day's (Friday's) actual rates for sterling exchange were 4 80½@4 80¾ for long, 4 8520@4 8530 for short and 4 8605@4 8615 for cables. Commercial on banks 4 80@4 80¼ and documents for payment 4 79@4 80½. Cotton for payment 4 79@4 79¼, cotton for acceptance 4 80@4 80¼, and grain for payment 4 80¼@4 80½.

To-day's (Friday's) actual rates for Paris bankers' francs were 5 21⅞@5 21¼ for long and 5 18⅛*a*@5 18⅛*d* for short. Germany bankers' marks were 93¾@93⅞ for long and 94⅝@94 11-16 for short. Amsterdam bankers' guilders were 40 11@40 13 for short. Exchange at Paris on London to-day 25f. 15c.; week's range 25f. 17c. high and 25f. 15c. low.

The week's range for exchange rates follows:

| | Long | Short | Cables |
|---|---|---|---|
| *Sterling Actual—* | | | |
| High | 4 80¼ @4 80¾ | 4 8520 @4 8530 | 4 86¾ @4 87 |
| Low | 4 79 @4 79¼ | 4 8410 @4 8415 | 4 8540 @4 8550 |
| *Paris Bankers' Francs—* | | | |
| High | 5 21⅞ @5 21¼ | 5 18⅛*a* @5 18⅛*d* | ---------- |
| Low | 5 23¾ @5 23⅛ | 5 20 @5 19⅜ | ---------- |
| *Germany Bankers' Marks—* | | | |
| High | 93¾ @ 93⅞ | 94⅝ @ 94 11-16 | ---------- |
| Low | 93¼ @ 93⅜ | 94 7-16 @ 94½ | ---------- |
| *Amsterdam Bankers' Guilders—* | | | |
| High | ---------- | 40.11 @ 40.13 | ---------- |
| Low | ---------- | 39 15-16 @ 40 | ---------- |

Less: *a* 1-16 of 1%. *d* 1-32 of 1%. *h* 3-32 of 1%.
Plus: *k* 1-16 of 1%. *x* 1-32 of 1%. *y* 3-32 of 1%.

The following were the rates for domestic exchange on New York at the undermentioned cities to-day: Savannah buying 50c. per $1,000 discount; selling 75c. per $1,000 premium. Charleston selling $1 per $1,000 premium. New Orleans bank 75c. per $1,000 discount; commercial $1 per $1,000 discount. Chicago 40c. per $1,000 premium. St. Louis $1 per $1,000 premium. San Francisco $1 25 per $1,000 discount.

**State and Railroad Bonds.**—Sales of State bonds at the Board are limited to $5,000 Virginia 6s deferred trust receipts at 24.

The market for railway bonds has been more active this week, although the aggregate transactions are still relatively small, and price changes are generally to a higher level.

A few issues have been notably active, of which Brooklyn Rapid Transit and United States Steel are prominent. The latter, with other industrial bonds, including Central Leather, American Tobacco and Distillers' Securities Corporation, have advanced an average of about 2½ points. The Atchison, Pennsylvania, Delaware & Hudson and Interboro-Metropolitan issues have also been strong features of the market.

**United States Bonds.**—Sales of Government bonds at the Board are limited to $500 3s coup. 1908-18 at 101⅝. The following are the daily closing quotations; *for yearly range see third page following.*

| | Interest Periods | Dec. 28 | Dec. 30 | Dec. 31 | Jan. 1 | Jan. 2 | Jan. 3 |

* This is the price bid at the morning board; no *sale* was made.

**Railroad and Miscellaneous Stocks.**—The transactions in stocks have increased day by day throughout the week, and the tendency of prices has been steadily towards recovery from the low level reached last week. The transactions are still comparatively small, however, and the advance in prices has generally been narrow and unimportant.

A few issues have been exceptionally strong. Canadian Pacific has advanced 8 points, Delaware & Hudson over 7 and Reading nearly 5.

On the other hand, Atchison has been weak and closes with a net loss on its unfavorable report of November business; Missouri Pacific has failed to recover from its recent decline, and Pennsylvania and Southern Pacific are only fractionally higher.

Industrial stocks have not generally been conspicuous in the week's operations. American Sugar Refining and Air Brake were exceptional in a sharp advance to-day, however, and the United States Steel issues, Consolidated Gas, General Electric and Smelting & Refining have made substantial gains within the week.

*For daily volume of business see page* 48.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

| STOCKS. Week ending Jan. 3. | Sales for Week. | Range for week. Lowest. | Range for week. Highest. | Range Year 1907. Lowest. | Range Year 1907. Highest. |

| Western Maryland | 1,600 | 11⅛ Dec 28 | 11¾ Dec 31 | 6 Oct | 30½ Jan |

**Outside Market.**—Considerable activity and rising prices marked the trading in outside securities in the fore part of the week, but with the opening of the new year the activity diminished somewhat and prices were inclined to weaken. Subsequently the general tone of the market improved. Copper shares at the close were prominent. Boston Consolidated Copper, after an advance from 10⅜ to 11, moved up to-day to 12½. Butte Coalition sank from 15⅝ to 15, but recovered to 15¾. Cumberland Ely sold up from 6⅛ to 6½, back to 5⅞ and to 7 finally. Nevada Consolidated Copper advanced from 8⅛ to 8¾, to-day's final quotation showing further improvement to 9½. Nevada Utah developed unusual activity and moved up from 2 11-16 to 4. Greene Cananea rose a point to 7⅛ and weakened to 7. United Copper common declined from 7½ to 6⅞, but recovered finally to 7. The preferred sold up from 21⅛ to 26. Nipissing, after fluctuating between 6 and 6⅜, to-day jumped to 7¼ and closed at 7⅛. Among the specialties Bay State Gas continued prominent and advanced from 15-16 to 1 7-16, the close to-day being at 1. Standard Oil was a strong feature and from 439 advanced to 455, a further sharp advance to-day carrying the price to 474. American Tobacco ran up from 225 to 255. Manhattan Transit went up from 2½ to 3, but weakened to 2¾. Consolidated Steamship 4s were more or less affected by developments with regard to the reorganization of the company and were reactionary. From 10 they sold up to 10⅛, dropping back to 9. N. Y. N. H. & Hartford conv. 6s (w.i.) advanced from 111¼ to 112½, easing off finally to 112¼. Chicago Subway gained a point to 17 in the beginning of the week, but subsequently fell to 16½.

Outside quotations will be found on page 48.

# Investment and Railroad Intelligence.

## RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from **July 1** to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. *The returns of the street railways are brought together separately on a subsequent page.*

| ROADS. | Latest Gross Earnings. | | | July 1 to Latest Date. | |

**Net Earnings Monthly to Latest Dates.**—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of Dec. 21 1907. The next will appear in the issue of Jan 25.

a Net earnings here given are after deducting taxes.

b Net earnings here given are before deducting taxes.

c Figures revised for previous year so as to accord with the new classification of earnings and expenses now required by the Inter-State Commerce Commission.

d The company now includes the earnings of the Denver Enid & Gulf RR. Pecos Valley system and Santa Fe Prescott & Phoenix Ry. in both years. For November, taxes and rentals amounted to $233,008, against $199,289 in 1906; after deducting which, net for November 1907 was $1,742,400, against $2,965,343 last year. For period from July 1 to Nov. 30, taxes and rentals were $1,202,517 in 1907, against $865,807 in 1906.

e No comparative figures are given, owing to new classification ordered by Inter-State Commerce Commission. For November taxes were $94,300, and for period from July 1 to Nov. 30 were $471,500.

f Figures here are on the old basis of accounting—not the new, or Inter-State Commerce Commission, method, as the latter admits of no comparison with previous year.

h For November 1907 additional income was $6,453, against $3,411 in 1906, and for period from July 1 to Nov. 30 was $37,593 in 1907, against $23,806 last year.

k For November 1907 additional income was $15,536, against $21,686 in 1906, and for period from July 1 to Nov. 30 was $69,920 in 1907, against $110,413 last year.

n These figures represent 30% of gross earnings.

p For November 1907 additional income was $610, against $5,153 in 1906, and for period from July 1 to Nov. 30 was $5,084 in 1907, against $7,024 in 1906.

**Interest Charges and Surplus.**—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus above or deficit below these charges.

## ANNUAL REPORTS.

### American Ice Co., New York.

(*Report for Fiscal Year Ending Oct.* 31 1907.)

The report, signed by Wesley M. Oler, President, and Guy B. Johnson, Vice-President and Treasurer, says in substance:

The report shows net earnings of $185,365, after paying all fixed charges. The year has been a disastrous one for the ice business, owing to the unprecedented coolness of the entire year. The previous year was also abnormal in that the crop of ice was nearly a failure. This compelled us to close up many stations and to lengthen the distance for our teams to travel, and consequently a heavy bill for wear and tear on teams and wagons this year. It also necessitated the running of our ice factories a whole year, day and night, without opportunity for necessary repairs, which caused very heavy expenditures this year for repairs to plants.

We had also to contend with a strike of our drivers and helpers in part of Manhattan and Brooklyn, notwithstanding we had advanced their wages prior to the strike. It has been the custom in the past for the company to do its own insuring, owing to the fact that its properties are widely scattered. This has paid well during a period of five years, but this year has been one of abnormal fire loss. But for these unusual items mentioned, our report would have been very different.

The dividend declared last year has proven to have been a mistake in the light of the past bad season, which could not, of course, be foreseen. We are carrying over a stock of ice because of the past cool summer that precludes such a famine in ice as faced us in 1906.

*EARNINGS, EXPENSES, &C., FOR YEAR ENDING OCT.* 31.

| *Earnings and Expenses*— | 1906-07. | 1905-06. | 1904-05. |
|---|---|---|---|

## GENERAL INVESTMENT NEWS.

### RAILROADS, INCLUDING STREET ROADS.

**Boston & Maine RR.**—*Notes Renewed.*—The $1,000,000 5% one-year notes maturing Jan. 15 have been renewed at 6% until Jan. 6 1909, through R. L. Day & Co. and associates, who handled the original $3,000,000, of which the remaining two installments of $1,000,000 each mature Feb. 15 and March 15 next (V. 84, p. 101).—V. 85, p. 1517.

**Brooklyn Heights RR.**—*To Guarantee Bonds.*—Brooklyn Union Elevated 4-5% bonds and Kings County Elevated 4% bonds will be guaranteed on two days in each month in 1908 by the Brooklyn Heights RR. Co. at 85 Clinton St., Brooklyn, N. Y., between 9 a. m. and 12 m., as follows:

| | | | | | |
|---|---|---|---|---|---|
| Jan. | 16 and 30 | April | 16 and 30 | July | 16 and 30 | Oct. | 16 and 30 |
| Feb. | 15 and 28 | May | 15 and 29 | August | 15 and 29 | Nov. | 16 and 30 |
| March | 16 and 30 | June | 15 and 29 | Sept. | 16 and 30 | Dec. | 16 and 30 |

—V. 84, p. 101.

**Broadway & Seventh Avenue RR., New York.**—*Default on Dividend.*—See New York City Ry. below.—V. 43, p. 693.

**Bucks County Electric Ry., Pennsylvania.**—*Consolidation Plan.*—See Newton Ry. below and compare V. 85, p. 1401.

**Canadian Pacific Ry.**—*Option to Subscribe for New Common Stock.*—The shareholders having on Dec. 30 authorized the directors to issue the balance ($28,320,000) of the authorized ordinary capital stock, notice is given by advertisement on another page that shareholders of record at 3 p. m. Jan. 13 will be permitted to subscribe at par until 3 p. m. Feb. 19 1908 for $24,336,000 of additional ordinary stock to the extent of one share for every five shares of their respective holdings.

Subscriptions are payable 20 %, or $20 per share, on or before Feb. 19 1908 20 % April 21 1908; 20 % June 19 1908; 20 % Aug. 19 1908; 20 % Oct. 19 1908. An interest payment of 1¼ % will be made in October 1908 on installments up to and including that of June 19 1908, paid on the due dates. All shares on which installments have been paid in full on the due dates will rank for the full dividend accruing for the half-year ending Dec. 31 1908. Shareholders may, as a matter of convenience to themselves, pay any or all of the installments before the due dates, and interest at the rate of 5 % per annum will be allowed on amounts so paid in advance. Payments will be received at the Bank of Montreal, London, New York or Montreal. Compare V. 85, p. 1002, 1401.

**Chicago Lake Shore & South Bend Ry.**—*Mortgage.*—This company, whose electric railway, it is understood, is almost completed, connecting the cities of South Bend, Michigan City and East Chicago, filed early in December last a mortgage to the Cleveland Trust Co., as trustee, to secure an issue of $6,000,000 bonds. The company was financed by a syndicate. J. P. Hanna is President.—V. 83, p. 212.

**Chicago & Milwaukee Electric RR.**—*Settlement.*—The receivership ordered by Judge Tuthill on Dec. 31 was vacated by him on Jan. 3, a compromise agreement out of court having been signed by both parties. This compromise, it is stated, includes the following stipulations:

A claim for $50,000 on a note preferred by one of the creditors will be paid at once by interests allied with the company. Trustees will be appointed to conserve the funds involved in other claims aggregating $200,000, and the validity of the claims will be arbitrated out of court. Representatives of the Canadian bondholders will advance $250,000, with which the interest on the bonds will be paid to-day (Jan. 3) in London and Toronto. The Canadian bondholders further pledge the raising of $500,000 to be used toward the completion of the railway from Racine to Milwaukee. The control of the company will remain as at present, Albert C. Frost to continue as President and Gordon A. Ramsay as Vice-Pres.—V. 85, p. 920.

**Chicago Railways.**—*Sale Advertised.*—See Chicago Union Traction Co. below.

*Lease.*—The 20-year lease referred to in our last issue, it is stated, is designed merely to give the new company possession of the property so that it can accept the ordinance before

Feb. 1, the time limit fixed by the City Council.—V. 85, p. 1645.

**Chicago Terminal Transfer RR.**—*B. & O. Option Not Yet Exercised—General Deposit of Stock Called for.*—The stockholders' protective committee, George I. Malcom, Chairman, under date of New York, Jan. 2 1908, makes substantially the following announcement:

The Baltimore & Ohio RR. has not as yet ratified the arrangement by which the committee was to sell not less than 45,000 shares of the preferred stock (at $25 a share—Ed.) Certificates for approximately 48,000 shares out of a total of approximately 50,000 shares represented by the committee were deposited. While the proposed arrangement in terms applied only to the latter amount, it was intimated that the B. & O. would likewise purchase additional shares, and we have stood prepared to deliver approximately 64,000 shares of the preferred. The preferred stock consists of 170,000 shares, of which approximately 75,000 shares are presumed to be owned or controlled by the Chicago Burlington & Quincy RR. Co.; the committee has represented, as above, upwards of 65,000 shares, which leaves but 30,000 shares unaccounted for.

The committee understands that the Baltimore & Ohio has not definitely declined to ratify the agreement; it has simply postponed the consideration of the same from time to time. The committee has already obtained two extensions from the stockholders for the purchase from Oct. 1 to Dec. 31. As the officials of the B. & O. can give no definite assurances as to when the matter will be finally acted upon, the committee has not thought it necessary to trouble the stockholders with requests for further extensions, but has determined to ask for a general deposit of all stock with the committee under a regular stockholders' protective deposit agreement, under which, without further individual consent, the liability of depositng stockholders is limited to 50 cents per share, of which stockholders are required to pay 25 cents per share at the time of deposit, and the balance when called for. The agreement does not give the committee power to dispose of the deposited stock, and any plan of reorganization must be submitted to the depositing stockholders for their approval, and any stockholder not approving the same is given the right to withdraw his stock.

Stockholders who have already paid the whole or part of the heretofore agreed upon 10 cents per share contribution will be given credit for the same. Stockholders who have already deposited their stock under the terms of the proposed sale to the B. & O. will return their certificates of deposit to the New York Trust Co., depositary, and receive new certificates of deposit under the stockholders' protective agreement. Stockholders who have not deposited their stock should do so immediately, in order that the committee may have as large a representation as possible at the adjourned annual meeting in Chicago on Jan. 13.—V. 85, p. 1209, 921.

**Chicago Union Traction Co.**—*Sale Advertised for Jan. 25.*—The sale of the properties of this company and the West Chicago and North Chicago Street Railroad companies, in accordance with the modified plan of reorganization (V. 85,p. 1269, 1461, 1576), is advertised for Jan. 25 at the County Court House in Chicago. The order of sale was entered on Dec. 26, as follows

In the Circuit Court of the United States, Northern District of Illinois, Eastern Division; in equity; consolidated cause. Guaranty Trust Co. of New York, complainant, against Chicago Union Traction Co. et al., defendants. No. 26,727. Guaranty Trust Co. of New York, complainant, against North Chicago Street RR. Co. et al., defendants, No. 26,728. Guaranty Trust Co. of New York, complainant, against West Chicago Street RR. Co. et al., defendants, No. 26,729. Fidelity Trust Co., trustee, complainant, against North Chicago Street RR. Co. et al., defendants, No. 28,878. Central Trust Co. of New York and George Sherman, trustees, complainants, against West Chicago Street RR. Co. et al., defendants, No. 28,883.

The properties, real and personal, are to be sold free and clear with the exceptions noted below:

West Chicago Street RR.—Except that to the extent that the mortgage made by Albert E. Rawson to Illinois Trust & Savings Bank, as trustee' dated Sept. 1 1888, and the mortgage made by Frank W. Nelson and wife to Illinois Trust & Savings Bank, as trustee, dated Sept. 1 1888, and the mortgage made by John Ritchie and wife to Illinois Trust & Savings Bank, as trustee, dated March 1 1889, constitute liens upon portions of the property of the West Chicago Street RR. Co., the property aforesaid is to be sold subject to such liens, and except that such sale is subject to the rights of the Standard Trust Co. and the holders of equipment notes under two certain equipment agreements specified in said decree in respect to the equipment described in said agreements, and is also subject to the rights of the pledgees of the first mortgage bonds of the Chicago Passenger Railway Co. above referred to in respect to said bonds.

North Chicago Street RR.—Except that to the extent that the mortgage made made by Carlos E. Cook to the Illinois Trust & Savings Bank, as trustee, is a lien upon a portion of the property of the North Chicago Street RR. Co., the property aforesaid is to be sold subject to such lien, and except that such sale is subject to the rights of the Standard Trust Co. and the holders of equipment notes under two certain equipment agreements specified in said decree in respect to the equipment described in said agreements.

Chicago Union Traction Co.—Except that such sale is subject to the rights of the Standard Trust Co. and of the holders of equipment notes under two certain equipment agreements specified in the decree, in respect to the equipment described in said agreements, and is also subject to the rights of the pledgees of any of the bonds and stocks above enumerated, in respect to such pledged securities.—V. 85, p. 1645.

**Eighth Avenue RR., New York.**—*Default on Dividend.*—See New York City Ry. below.—V. 62, p. 140.

**Florida East Coast Ry.**—*Extension.*—The Key West extension, it is announced, has been completed to Knights Key, and it is proposed to operate trains to that point beginning about Jan. 15, at which time the steamers of the new Flagler Line from Knight's Key to Havana will begin service, reducing the time from Florida to Havana to some twelve hours. —V. 85, p. 1270, 921.

**Fort Worth & Denver Terminal Ry.**—*Bonds Authorized.*—The shareholders at a meeting held in Fort Worth on Dec. 26 at the office of Judge M. A. Spoonts, General Attorney, authorized an issue of $2,500,000 6% bonds, which, it is stated, will be dated Dec. 1 1907 and mature in December 1937.

The Chicago Southern Ry. (V. 85, p. 868) had prior to June 30 1907 advanced $189,992 to the company for construction and owned $200,000 each of its stock and bonds.

**Holyoke (Mass.) Street Ry.**—*New Stock.*—The Massachusetts Railroad Commission on Dec. 24 authorized the company to issue $93,600 additional capital stock at $125 per share, to provide for payment of certain outstanding bonds of the Amherst & Sunderland Street Ry. Co., assumed. —V. 85, p. 284, 40.

**Hudson & Manhattan RR.**—*First Car.*—The first car was sent through the tunnel from Morton St. to Hoboken Dec. 28. The trip, it is stated, was eminently successful, all the machinery, power and apparatus working in the most satisfactory manner. The car used was one of the standard tunnel cars, operated by electricity. The following is pronounced substantially correct:

Fifty cars will be put in operation on Feb. 1, which will run on a two-minute headway from 14th St., N. Y. City, to Hoboken. Three months later the subway in 6th Ave. will be so far completed that the route in New York will begin at 23d St. By next October the subway will be completed and in operation to Herald Square. The tunnels from Liberty and Church streets to Jersey City should be in operation before Jan. 1 1909, and by that time the whole system, including the loops on the Jersey side between the Lackawanna, Erie and Pennsylvania terminals there, is expected to be completed.—V. 85, p. 1461.

**Interoceanic Ry. of Mexico.**—*Readjustment Plans in Connection with Proposed Standard-Gauging.*—At the annual meeting which was held in London on Dec. 16 by the shareholders of this subsidiary of the National RR. of Mexico, Chairman Arthur Hill gave the following additional information regarding the contemplated financial readjustment referred to in the annual report last week (p. 1641), in connection with the plan for standard-gauging the road.

When the proper time arrives and all the details are completed, the full project, with figures and estimates, will be submitted; suffice it to say now that the difference in the earning power of our line as a broad-gauge between the Port of Vera Cruz and the City of Mexico, as compared with what it is, or ever could be, as a 3 foot gauge, is so great that we have confidence those interested will readily adopt our recommendations.

We have applied to Parliament for a bill under which the present shareholders will be asked to accept, in exchange for their existing £1,000,000 7% shares and the arrears of interest thereon, £1,400,000 in new 5% non-cumulative first preference stock and £1,000,000 in a 4% non-cumulative second preference stock. In our opinion, soon after the opening of the main line as a broad-gauge, this latter stock will have a near prospect of receiving substantial dividends, after allowing for interest on the capital which will be required for the alterations and new rolling stock. The condition will be that the preferred shareholders abandon their cumulative right for the allotment of an additional £400,000 of capital, which, in the form of 5%, is likely to see a relatively higher market value than would be possible in the case of a 7% security, and the funding of their arrears, which will, we consider, be a fair compensation. I mention these particulars, not with a view to asking their acceptance to-day, but because I am sure the shareholders would not like to be kept in ignorance of our general intention. We do, however, in asking the approval of the annual report, invite an approval of the policy indicated in that report. The minor matters still to be settled before the project is in order will take some time.—V. 85, p. 1646, 1641.

**Lehigh Valley RR.**—*Comparison Misleading.*—In connection with the statement of earnings for the month of November and the five months ending Nov. 30, which will be found in our earnings column on a preceding page, the company makes the following statement:

The earnings and expenses for the fiscal year beginning July 1 1907, being stated in accordance with the new classification ordered by the Inter-State Commerce Commission, comparison with the figures of the corresponding period of the previous year would be misleading, as the Commission, among other changes, has ordered discontinued the method heretofore employed of charging to expenses from time to time, as necessary to maintain the equipment, the cost of new locomotives or cars, and instead has directed a monthly charge to expenses for depreciation, beginning with the month of July 1907.—V. 85, p. 1005, 410.

**Los Angeles Ry.**—*Guaranteed Bonds.*—See Pacific Light & Power Co. under "Industrials" below.—V. 80, p. 651.

**Lynchburg (Va.) Traction & Light Co.**—*New Bonds Offered.*—Bioren & Co., Philadelphia, are offering at par and interest $200,000 of an issue of $250,000 6% gold convertible bonds secured by the general mortgage recently filed to the Logan Trust Co. of Philadelphia, as trustees. The bonds are convertible into stock at par value of $50 per share at any time during the life of the bonds. The bonds are dated Dec. 1 1907 and due Dec. 1 1917, but subject to call on any interest date at 103 and interest. Interest payable June 1 and Dec. 1. An increase in the capital stock from $750,000 to $1,000,000 has been authorized to provide for the conversion of bonds. A circular says:

For the first six months of the present fiscal year the company showed a remarkable gain in both gross and net earnings, and the President advises us that the surplus earnings for the full year ending April 30 1908, after deducting interest charges on the entire bonded debt, should approximate $90,000, which is equivalent to about 12% upon the outstanding capital stock.—V. 72, p. 873.

**Metropolitan Street Ry., New York.**—*Dividends on Leased Line Stocks Not Paid.*—See New York City Ry. below. —V. 85, p. 1518, 1462.

**Metropolitan West Side Elevated RR., Chicago.**—*Collateral Trust Bonds Offered.*—To reimburse itself on account of the purchase of additional cars and equipment, the company has made an issue of $100,000 of 6% collateral trust bonds, of which $50,000 is being offered at par by the Chicago Savings Bank. This latter block will mature in ten semi-annual instalments of $5,000 each, due from June 1 1908 to Dec. 1 1912, both inclusive. The bonds are secured by $200,000 Metropolitan West Side Elevated extension 4s, of which $3,321,000 are outstanding. Compare V. 85, p. 1646.

**Minneapolis General Electric Co.**—*Notes Offered.*—Lee, Higginson & Co., Boston, are offering at 98 and interest, yielding the investor slightly more than 8% interest, $641,000 one-year collateral trust 6% notes, which were issued to provide for the payment of an equal amount of first mortgage 6% bonds due Jan. 1 1908. The notes are dated Dec. 16 1907 and secured by deposit with First National Bank of Boston of $962,000 of the authorized issue of $8,000,000 ($4,344,000 recently outstanding) 5% bonds of 1934, which, by retirement of the 6% bonds Jan. 1, are a first mortgage upon the property. Compare V. 80, p. 2223.—V. 85, p. 1406.

**Missouri Kansas & Texas Ry.**—*General 4½s Listed in Amsterdam.*—Speyer & Co. have received advices from their Amsterdam house that the general mortgage 4½% sinking fund bonds have been listed on the Amsterdam Stock Exchange.—V. 85, p. 735, 716.

**Mobile Jackson & Kansas City RR.**—*Plan Operative.*—It is stated that $7,275,000 of the two issues of bonds, out of $8,061,000 outstanding, have agreed to the plan of reorganization (see "Chronicle" Dec. 21, page 1577). It is expected that the properties will be taken over during the present month by the new company, the New Orleans, Mobile & Chicago RR.—V. 85, p. 1577.

**National RR. of Mexico.**—*Plans for Controlled Property.*—See Interoceanic Ry. of Mexico above.—V. 85, p. 1646.

**Newton Railway, Pennsylvania.**—*Bonds.*—This company recently filed at Harrisburg a certificate showing the creation of an indebtedness of $375,000, as part of the plan for the merger and consolidation of the Newtown Railway Co. and the Newtown Langhorne & Bristol Street Railway Co. Compare Bucks County Electric Ry. in V. 85, p. 1401.

**New York City Ry.**—*Delay in Payment of Dividends on Leased Line Stock.*—The quarterly rentals due Jan. 2 on none of the leased lines of the Metropolitan Street Ry. Co. were met at maturity. These include the 2½% dividend on the $2,100,000 stock of the Broadway & Seventh Avenue RR. Co., 4% on the $1,000,000 stock of the Eighth Avenue RR. Co. and 1¾% on the $2,000,000 stock of the Sixth Avenue RR. Co. Counsel for the receivers is quoted as saying:

It is not the intention to allow a permanent default on the rentals of these lines. Just at present the receivers have not sufficient funds in their possession to meet the obligation. I understand, however, that the rentals will be paid on these three lines as soon as sufficient funds are raised to do so. It is not proposed to allow the leases to lapse because of non-payment of rental. It is desired to maintain these lines as a part of the Metropolitan system. (These remarks, we are informed, apply equally well to the four companies below mentioned.—Ed.)

We learn that the following rental dividends due Jan. 1 1908, being the remainder of the dividend payments that fell due on the first of the year, also remain unpaid:

| | *Dividend.* | *Stock Out.* |
|---|---|---|
| Bleecker Street & Fulton Ferry RR | Semi-ann., ¾ of 1% | $900,000 |
| Central Crosstown RR | Quarterly, 3¼% | 600,000 |
| Central Park, North & East River RR | Quarterly, 2¼% | 1,800,000 |
| Christopher & Tenth Streets RR | Quarterly, 2% | 650,000 |

*Default.*—See Third Avenue RR. below.—V. 85, p. 1518, 1462.

**New York-Philadelphia Co.**—*Payment of Coupons.*—The overdue coupons of Dec. 1 1907 were paid Jan. 2 1908 on presentation at the Guaranty Trust Co., New York.—V. 85, p. 1519.

**Norfolk & Southern Ry.**—*Report.*—The results for the fiscal year ending June 30 1907 as reported include those of the old railway (new) company since Nov. 1906, when the consolidation took effect, and of the railroad (old) company prior to that time.

| *Year—* | *Gross.* | *Net.* | *Other Inc.* | *Charges.* | *Bal., Sur.* |
|---|---|---|---|---|---|
| 1906-07 | $1,924,265 | $497,300 | $532,765 | $551,004 | $479,061 |

Owing to the aforesaid consolidation, comparison with previous years is impracticable.—V. 85, p. 1519, 1210.

**North Chicago Street RR.**—*Sale.*—See Chicago Union Traction Co. above.—V. 85, p. 1647, 1270, 865.

**Philadelphia Company, Pittsburgh, Pa.**—*Offer to Guarantee.*—See Consolidated Gas Co. of Pittsburgh under "Industrials" below.—V. 85, p. 1402, 1083.

**Sao Paulo (Brazil) Tramway Light & Power Co.**—*New Stock Authorized.*—The shareholders voted on Dec. 27 to increase the authorized capital stock from $8,500,000 to $10,000,000. Of the new stock, $600,000 has been placed in London at par, and the remainder, $900,000, will remain in the treasury for future extensions. Compare V. 85, p. 1577.

**Seaboard Air Line Ry.**—*Receivership.*—At Danville, Va., on Thursday, Jan. 2, Judge Peter C. Pritchard, of the United State Circuit Court for the Eastern District of Virginia, upon the application of the company itself, appointed S. Davies Warfield and R. Lancaster Williams receivers of the Seaboard Air Line Railway Co. Mr. Williams is a brother of former President John Skelton Williams, leader of the minority interest. S. Davies Warfield is President of the Continental Trust Co. of Baltimore, and, it is supposed, represents the Ryan-Blair party, which holds a controlling interest.

None of the interest coupons or car trust installments due Jan. 1 1908 were paid by the company, but the offer of purchase below mentioned was extended by leading bankers, and the Court has authorized the receivers to borrow $764,000 with a view to reimbursing the bankers for this outlay.

John Skelton Williams, formerly President, says:

The passing of the Seaboard Air Line system from the control of Messrs. Ryan, Blair and Coolidge into the hands of officers of the court is not an event which should cause stockholders alarm or discouragement. It is hoped that all interests may now unite upon some plan which may look to the speedy rehabilitation of the system.

My confidence in the possibilities of the system, under proper management, is unshaken. For the calendar year 1907 the Seaboard Air Line Ry. and its affiliated lines earned approximately $19,000,000. On this basis of earnings, over $6,000 per mile, the system ought to be operated at an expense ratio of approximately 70% or less. On this basis, net earnings for the past year would have been $5,700,000, or nearly $2,000,000 in excess of fixed charges. With the return of normal business conditions and the tremendous development which has been going on vigorously for the past ten years in the entire territory traversed by the Seaboard Air Line system, the arrest of which development can only be temporary, I believe that results still more favorable than these may be confidently expected.

The following statement was issued on Thursday by Judge Leigh R. Watts, General Counsel of the railway; James Byrne, Advisory Counsel; Samuel Untermyer, as counsel for the Continental Trust Co. of Baltimore, which is the trustee of the first mortgage, and for various interests, and by John Skelton Williams, on behalf of the security holders represented by him:

The company has outstanding about $1,000,000 in past-due vouchers and has a floating debt of abou t$3,000,000. It was being pressed by its creditors, and had not the credit or resources with which to borrow. The condition of the money market, together with the curtailment of net earnings and extraordinary expenditures has seriously affected the revenues of the company, and it has become manifest that if the system is to escape disintegration and be developed as its opportunities permit, there must be a readjustment of its securities which will give them the stability and value to which they are entitled.

The order making the appointment requires the receivers forthwith to pay the coupons on all underlying bonds that mature on Jan. 1 1908, and the installments on car trusts and equipment notes. The receivers have power to borrow money for that purpose. There were $764,000 of such payments due, and this step is essential to preserve the integrity of the system, which is the purpose of the receivership. In order to avoid embarrassment and delay to holders of underlying bonds, the New York interests in the property, represented by Ryan, Blair, Ladenburg-Thalmann & Co. and associates, and the Baltimore interests, represented by Warfield and his associates, have supplied the money for the purchase of the coupons until the receivers can provide for the payment and cancellation of the coupons.

*Offer to Purchase*—In expectation of default on Jan. 1 Blair & Co., 24 Broad St., New York, and Ladenburg, Thalmann & Co., 25 Broad St., New York, under date of Jan. 1, gave the following notice, offering to purchase on or before Feb. 29, for themselves and, their associates, either at the Morton Trust Co., New York, or at the Continental Trust Co. of Baltimore, the aforesaid maturing interest; also the principal and interest of certain equipment obligations. The firms mentioned say:

In order that the integrity of the system may be maintained pending an opportunity for the formulation of proper plans for the readjustment of its affairs, the undersigned, for themselves and their associates, hereby offer to purchase, at face value, the interest coupons maturing Jan. 1 1908, representing interest upon any of said mortgage bonds; also such Seaboard Air Line Ry. 4½% gold equipment bonds, Series C, as mature Jan. 1 1908, and coupons maturing Jan. 1 1908; also Seaboard Air Line Ry. equipment trust certificates, Series K. Nos. 1 to 15, both inclusive, the same being such of said issue of certificates as mature Jan. 1 1908, and dividend warrants thereon payable Jan. 1 1908. Said purchase will be made solely for the account of the undersigned and their associates, and said obligations, after purchase, will remain subsisting obligations of all corporations and others now liable thereon.

*Coupons Maturing Jan. 1 1908 Covered by Offer to Purchase.*

Seaboard & Roanoke RR. Co. first mortgage 5% bonds.
Raleigh & Gaston RR. Co. first mortgage 5% bonds.
Raleigh & Augusta Air Line Ry. first mortgage 6% bonds.
Carolina Central RR. Co. first consolidated mortgage 4% bonds.
Georgia Carolina & Northern RR. Co. first mortgage 5% bonds.
Georgia & Alabama Ry. first consolidated mortgage 5% bonds.
Florida Central & Peninsular RR. first mortgage 5% bonds.
do do first mortgage land grant extension 5% bonds.
do do first consolidated mortgage 5% bonds.
Florida West Shore Ry. Co. first mortgage 5% bonds.

*Interest and Principal Due Jan. 1 1908 of Seaboard Equipment Obligations also Included by Offer.*

4½% gold equipment bonds, Series C. Equipment trust certificates, Series K.

Compare "Annual Report" in V. 85, p. 1640, 285.

**Sixth Avenue RR., New York.**—*Default on Dividend.*—See New York City Ry. below.—V. 61, p. 925.

**Third Avenue RR., New York.**—*Interest Unpaid on $5,000,000 1st 5s.*—The interest due Jan. 1 on the $5,000,000 first mortgage 5s, usually met through the Morton Trust Co., remains unpaid. Kuhn, Loeb & Co. are purchasing the coupons due Jan. 1 on the $37,560,000 first consolidated mortgage 4s. Compare V. 85, p. 1647, 1642.

William A. Read & Co., 25 Nassau St., New York, by advertisement on another page, offer to purchase the January coupon from the first mortgage bonds.

*New Trustee.*—The Central Trust Co. has been made trustee under the first consolidated mortgage to succeed the Morton Trust Co., which resigned.—V. 85, p. 1647, 1642.

**Toledo & Indiana (Electric) Ry.**—*Interest Payment Deferred.*—Payment of the January 1 interest on the $1,500,000 5% bonds has been deferred. President Schenck says:

We have not the money earned on hand for the payment. We have had serious and costly accidents during the past year, which have taken our money, and we do not feel, because of that and the present financial condition, that we should borrow money.—V. 82, p. 753.

**Underground Electric Railways of London.**—*Over 95% of 5% Notes Assent.*—The holders of over $16,000,000 of the total American issue of $16,550,000 5% notes, it is announced, have accepted Speyer & Co.'s offer and sold their December coupon to that firm, while about 60% of such issue has already been deposited with the Guaranty Trust Co. under Speyer & Co.'s advertisement of Nov. 27 1907. Compare V. 85, p. 1402, 1519, 1642.

**Vera Cruz Terminal Co., Mexico.**—*New Enterprise.*—This company, referred to last week in the report of the Interoceanic Ry. of Mexico, has been, or is to be, organized under the English Corporation Act to provide new terminals at Vera Cruz for the Interoceanic, Mexican, Vera Cruz & Pacific and Alvarado railway companies, which will own the $6,000,000 capital stock (Mexican money), and will guarantee an issue of bonds put out to provide the necessary terminal facilities.

**Wabash RR.**—*Dividends on A and B Debentures.*—The directors on Monday declared a (semi-annual) dividend of 3% on the debenture "A" bonds and 1% on the "B" bonds.

Of the original amounts of A and B bonds, namely, $3,500,000 and $26,500,000 respectively, only $543,000 and $2,632,000, respectively, remain outstanding, the remainder having been turned in under the refunding plan and pledged as part security for the "first refunding and extension" mortgage, dated 1906.

*Dividend Record of A and B Debentures (Per Cent).*

| | 1896. | 1897-99. | 1900-04. | 1905. | 1906. | 1907. | 1908. |
|---|---|---|---|---|---|---|---|
| "A" bonds | 1 | 0 | 6 y'ly | 0 | 0 | July, 6 | Jan., 3 |
| "B" bonds | 0 | 0 | None. | 0 | 0 | July, 1 | Jan., 1 |

—V. 85, p. 1271, 917.

**West Chicago Street RR.**—*Sale.*—See Chicago Union Traction Co. above.—V. 85, p. 1647, 655, 532.

**West End Street Railway, Boston.**—*Option to Subscribe.*—Holders of common stock of record Dec. 20 are entitled to subscribe at $70 93 per share (being $70 and accrued dividend) on or before Jan. 6 1908, at the American Trust Co., Boston, for $1,010,900 new stock to the extent of one share (of $50) for every ten shares of their respective holdings. This will increase the outstanding common stock to $11,120,150. Payment in full for the new shares must be made to the American Trust Co., 53 State St., Boston, on or before Jan. 6 1908, and certificates will be ready for delivery on and after Jan. 16 1908.—V. 85, p. 1578, 1520.

## INDUSTRIAL, GAS AND MISCELLANEOUS.

**Amalgamated Copper Co.**—*Subsidiary Decreases Dividend.*—See Anaconda Copper Mining below.—V. 85, p. 1271.

**American Seeding Machine Co., Springfield, O.**—*Dividend on Common Stock Omitted.*—The usual quarterly dividend of 1½% on the preferred stock has been declared payable Jan. 15 to holders of record Dec. 31, but no dividend has been declared on the outstanding common stock. Dividends were begun by the reincorporated company last year, and from July 1906 to July 1907 the common shares received 1% every three months, but in October last the distribution was only ½ of 1%. At last accounts there were outstanding $5,000,000 common stock and $1,416,500 preferred. No bonds.—V. 85, p. 923.

**American Shipbuilding Co., Cleveland.**—*Dividend Declared but Payment Deferred.*—The directors on Dec. 30 declared a regular quarterly dividend of 1¾% on the preferred shares, payable at a date to be named later by the finance committee, provided the dividend of 1% on the common stock, which was payable Dec. 1, shall first have been distributed. In July last $456,000 was set aside to provide for quarterly dividends of 1% each from Sept. 1 1907 to June 1 1907, both inclusive, on the $7,600,000 common stock and for an extra dividend on common of 2%, payable Sept. 1 1907. For the reasons stated in V. 85, p. 1340, 1403, only the September dividend has been paid. The present action insures a distribution to the preferred shareholders when the common shareholders receive the amount overdue.—V. 85, p.1403, 1340.

**American Smelters' Securities Co.**—*New Officers.*—The following appointments are announced: W.E. Merriss, Secretary, to succeed G. M. Borden; L. A. Chapin, Assistant Treasurer; G. F. Hilton, Assistant Secretary; Mr. Hilton also succeeds G. M. Borden as Vice-President, with power of attorney.—V. 85, p. 1403.

**Anaconda Copper Mining Co.**—*Dividend Decreased Again.*—This company, a majority of whose $30,000,000 stock is owned by the Amalgamated Copper Co., has declared a quarterly dividend of 50c. a share (par $25), payable Jan. 15 to holders of record Jan. 4. This contrasts with $1 25 per share last October and $1 75 in January, April and July 1907, and reduces the annual rate to 8%, contrasting as follows:

| Cal. year | 1898 | 1899 | 1900 | 1901 | 1902 | 1903 | 1904 | 1905 | 1906 | 1907 | 1908 |
|---|---|---|---|---|---|---|---|---|---|---|---|
| Total div...% | 10 | 13 | 16 | 13 | 4 | 4 | 4 | 8 | 19½ | 26 | Jan., 2 |

—V. 85, p. 865.

**Atha Steel Casting Co., Newark, N. J.**—*Receivership.*—This company, referred to in the statement regarding the Westinghouse Electric & Manufacturing Co. in last week's "Chronicle," page 1644, was placed in the hands of Benjamin Atha and Ernest F. Harder of Newark and George A. Hebard of Brooklyn, as receivers, by Judge Cross in the United States Circuit Court at Trenton, N. J., on Oct. 28, on the ground of insolvency.

The company was incorporated in New Jersey April 4 1906 with $500,000 capital stock (of which $250,000 was 6% non-cumulative preferred) as a subsidiary of the Security Investment Co. of Pittsburgh, of which George Westinghouse is President, and took over the plant and business of Benjamin Atha & Co. of Newark. In November 1906 three 30-ton open-hearth furnaces and other additions were completed, increasing the company's capacity to more than 3,000 tons of open-hearth steel castings per month. In April 1906 $800,000 of 5% bonds were issued, with interest payable in August and February; first installment to sinking fund payable Dec. 31 1907. There are also outstanding $210,000 of notes payable, of which $140,000, along, it is supposed, with a block of bonds and stock, are held by the Security Investment Co. Accounts payable aggregate $131,700.

**Brown Shoe Co., St. Louis.**—*To Increase Capital Stock.*—The shareholders will vote Feb. 29 on increasing the capital stock from $2,500,000, consisting of $1,000,000 common, $500,000 first preferred and $1,000,000 second preferred, to $3,000,000, through an increase in the common stock to $1,500,000. Par of shares $100. George Warren Brown is President and G. E. Southwick Secretary.—V. 78, p. 1394.

**Central & South American Telegraph Co.**—*Partly Estimated Earnings.*—For 3 mos. and year ending Dec. 31.:

| 3 Mos.— | Tot. Inc. | Net Inc. | Dividends. | Bal.,Sur. | Total Sur. |
|---|---|---|---|---|---|
| 1907 | $425,000 | $285,000 | (1½ %) $145,051 | $139,949 | $1,146,047 |
| 1906 | 370,000 | 250,250 | (1½ %) 115,884 | 134,366 | 1,910,534 |
| *Year—* | | | | | |
| 1907 | $1,632,000 | $1,103,000 | (6 %) $550,838 | $552,162 | $1,146,047 |
| 1906 | 1,429,000 | 990,000 | (6 %) 463,536 | 526,464 | 1,910,534 |

—V. 84, p. 1554.

**Consolidated Gas Co. of Pittsburgh, Pa.**—*Offer to Guarantee.*—The Philadelphia Company of Pittsburgh, which owns all this company's $4,000,000 common stock, has offered to guarantee 4% per annum from Aug. 1 1907 on the $2,000,000 of outstanding preferred (6% cumulative; par $50), provided:

(1) Any additional earnings applicable to dividends on the preferred shall be divided equally between holders of said stock and the Philadelphia Company, but not more than 6% to be paid on the stock in any one year.
(2) At least 75%, or 30,000 shares, of the preferred must assent and be deposited with the Safe Deposit & Trust Co. of Pittsburgh.
(3) Assenting holders must pay not in excess of 15 cents a share to bear the expense of carrying out the plan.

The preferred shares received regular 6% dividends up to Aug. 1905, when the semi-annual rate was reduced to 2½%; a year later (Aug. 1906) this was followed by a reduction to 1% (2% per annum). In Aug. 1907 no dividend at all was paid. There are $5,000,000 5% bonds outstanding. Compare V. 83, p. 326.

**Consolidated Steamship Lines.**—*Default—Notice to Bondholders.*—The company, as expected, failed to pay the interest due Jan. 1 on the outstanding 4% collateral trust bonds. In anticipation of this event, a committee consisting of Alvin W. Krech, Chairman, Hon. William T. Cobb, Henry Hornblower, Galen L. Stone and William H. Granbery, with O'Brien, Boardman & Platt and John Quinn, Counsel, gave notice under date of Dec. 30, as stated in our advertising nolumns on another page, that, as representing a large amount of the said bonds, they have organized as a committee for the protection of the interests of the bondholders, who are invited to deposit their bonds with either of the depositaries, the Equitable Trust Co. of New York, 15 Nassau St., New York City, and Old Colony Trust Co., Boston. L. F. Gillespie, 15 Nassau St., N. Y., is Secretary to the Committee.

The agreement of deposit provides that any depositor not assenting to any plan of reorganization adopted by the committee shall have the right, without expense, to withdraw his bonds.

It is the intention of the bondholders' committee to prepare and submit a reorganization plan to the bondholders as soon as the resources and financial condition of the several companies are definitely ascertained, thus avoiding the expenses and delays of suits or legal complications and the consequent possible disintegration of the properties controlled by the Consolidated Steamship Lines.

Treasurer N. H. Campbell, announcing the default, said:

The inability of the company to make payment of interest on its bonds is chiefly due to the fact that, while it has made most substantial earnings after paying interest on the underlying bonds, and all other interest and general charges, owing to the prevailing financial condtions it has been compelled to devote its earnings to payments for new ships recently completed or under construction, and hence is unable to meet the coupons maturing on the above date.—V. 85, p. 1272, 1145.

*Payment of Coupons on Underlying Bonds.*—The January interest on the obligations of all the subsidiary companies was met promptly.—V. 85, p. 1272, 1145.

**Creamery Package Co., Chicago.**—*New Stock—Stock Dividend of 20% Proposed.*—The "Chicago Economist" of Dec. 28 said:

A meeting of the stockholders has been called for Jan. 23 to pass upon the question of increasing the authorized capital stock from $2,500,000 to $4,000,000. It is proposed to issue to stockholders $500,000 of the new shares as a stock dividend of 20%. This proposition accounts for the recent advance in the quotation of Creamery Package stock.

*Report.*—See "Annual Reports" on a preceding page.—V. 84, p. 269.

**Fort Wayne (Ind.) Gas Co.**—*Co-Trustee.*—Judge Anderson in the Federal Court at Indianapolis on Dec. 7, at the request of minority bondholders, appointed Henry W. Bennett, Postmaster of Indianapolis, as co-trustee with the Central Trust Co. of New York, under the first mortgage of the Fort Wayne Gas Co.—V. 84, p. 870.

**General Railway Signal Co., Rochester, N. Y.**—*New Plant.*—The "Railway Age" of Chicago in its issue of Dec. 6 had an illustrated article regarding the new plant, occupying about 25 acres, in the outskirts of Rochester, in which the old Buffalo and Rochester plants have been ocnsolidated. Compare V. 85, p. 224.

**Hamilton-Brown Shoe Co., St. Louis, Mo.**—*Stock Dividend.*—The shareholders voted on Dec. 20 to increase the capital from $2,500,000 to $3,500,000, fully paid, the new stock (all common) to be issued Jan. 1 as a stock dividend of 40%. Par of shares $100.

The certificate of increase of stock filed in Missouri on Dec. 21 shows: Assets, $5,549,702; liabilities, $4,423,364; increase in stock, fully paid, from $2,500,000 to $3,500,000. President, A. D. Brown; Vice-President Warren F. McElroy; Secretary, Horace L. Brady; Treasurer, R. F. Spencer.—V. 81, p. 901.

**Hudson River Electric Power Co.**—*New Bonds.*—The Public Service Commission of New York, Second Division' has finally sanctioned the issue of $3,000,000 of the $3,232,000 bonds which the company in May last asked permission to issue under the terms of a proposed "consolidated and refunding mortgage," limited to $30,000,000. The proceeds of the $3,000,000 bonds are to be used to construct a storage and electrical power dam on the Sacandaga River for the purpose of supplying electricity in Saratoga, Ballston, Mechanicville, Troy, Albany, Watervliet, Schenectady and Amsterdam. Compare V. 84, p. 1117.

**Illinois Collieries Co., St. Louis.**—*Default—Receivership.*—At Springfield, Ill., on Dec. 31, upon application of the First Trust & Savings Bank of Chicago (as trustee under the company's $3,000,000 mortgage), Glenn W. Traer of Chicago, the company's President, was appointed receiver of the property. Payments to the sinking fund of 3 cents per ton of coal mined are in default and the company was without funds for the January interest, amounting, it is said, to $50,650. The company is reported to control five mines in Illinois. The bonds, it is stated, were issued Jan. 1 1904 and are all held by the stockholders.—V. 81, p. 34.

**Iowa Light, Heat & Power Co., Des Moines.**—*Receivership.*—Judge Howe recently appointed W. B. Stardey receiver of the company on application of the Iowa Loan & Trust Co., trustee under a mortgage made in 1904 to secure $100,000 bonds, of which only $11,500 were ever issued (V. 79, p. 273).—V. 82, p. 1500.

**Kirby Lumber Co.**—*Payment of Overdue Timber Certificates.*—Notice is given that the principal of timber certificates, series "H," of $410,000, due Aug. 1 1907, will be paid on Jan. 6 1908 at the National City Bank of New York or the Maryland Trust Co., Baltimore, Md., together with interest at 6% per annum from Aug. 1 1907 to July 20. With this payment, $2,210,000 of the timber certificates will have been retired, leaving $5,105,000 outstanding.—V. 85, p. 472, 102.

**Mexican Telegraph Co.**—*Partly Estimated Earnings.*—For 3 months and year ending Dec. 31:

| 3 Mos.— | Total Income. | Net Income. | Mexican Govt. | Dividends paid. | Balance, Surplus. |
|---|---|---|---|---|---|
| 1907 | $185,000 | $176,500 | $7,500 | (2½ %) $71,752 | $97,248 |
| 1906 | 165,000 | 158,000 | 7,500 | (2½ %) 71 752 | 78,748 |
| *Year—* | | | | | |
| 1907 | $702,500 | $671,000 | $33,000 | (10 %) $287,006 | $350,994 |
| 1906 | 653,000 | 627,750 | 30,000 | (10 %) 263,067 | 334,683 |

Total surplus Jan. 1908 (estimated), $2,156,340.—V. 84, p. 1555.

**Milwaukee Coke & Gas Co.**—See Northwestern Iron Co. below.—V. 81, p. 1439.

**New York & Texas Steamship Co.**—*Reduction of Capital Stock.*—This company, whose property was taken over by the Mallory Steamship Co. (V. 85, p. 1146) has filed a certificate of reduction of capital stock from $3,000,000 to $3,000.—V. 83, p. 1102.

**Northwestern Iron Co., Milwaukee.**—*Sold.*—The "Milwaukee Wisconsin" of Dec. 20 said:

The entire interest of Capt. Irving M. Bean of Milwaukee, Wis., in the Northwestern Iron Co., of which he has been President and Treasurer for many years, has been sold to Ferdinand Schlesinger, also of Milwaukee, who is at the head of the Newport iron-mining interests on the Gogebic range, and President of the Milwaukee Coke & Gas Co.

The mines and plant of the Northwestern Iron Co. are located at Mayville, Wis. Their purchase by Mr. Schlesinger means much for the Milwaukee Coke & Gas Co. and the company operating the Newport Bessemer ore mine, as their control will give the Schlesinger interests a large output of both Bessemer and non-Bessemer iron ore. It will also give the new owners a large annual output of pig iron, as the capacity of the Mayville plant is between 500 and 600 tons of pig iron a day, and it will undoubtedly be increased next year. The Newport mine will produce 600,000 tons of good Bessemer ore this year, and improvements are now being made to insure an annual output of 1,500,000 tons there within the next three years. Those familiar with the new deal state that, with the Mayville plant and the Newport mines, the Milwaukee Coke & Gas Co. will in the future produce and control its own ore, pig iron, coke and lime. The company will also operate its own coal mines, a large deposit going with the sale of the Mayville plant. Mr. Schlesinger will be President of the Northwestern Iron Co. Compare V. 82, p. 1326.

**Pacific Light & Power Co., Los Angeles.**—*Guaranteed Bonds.*—Several months ago the company sold a block of $1,000,000 or thereabout of first mortgage 5% bonds dated 1902 and due 1942, which were guaranteed by the Los Angeles Railway Co.

The proceeds of the bonds, it is understood, have been or are being expended in connection with the completion of the new steam power plant at Redondo, Cal., which will supply a large amount of power to the "Los Angeles Railway Co., the Pacific Electric Railway Co., the Interurban Railway Co. and other Huntington trolley lines"—V. 76, p. 106.

**Realty Associates, Brooklyn, N. Y.**—*Report.*—For years ending Oct. 31:

| *Fiscal Year—* | *Total Receipts.* | *Expenses and Interest.* | *Dividends (8%).* | *Reserve for Pref. Shares.* | *Balance, Surplus.* |
|---|---|---|---|---|---|
| 1906-07 | $1,055,089 | $382,991 | $319,989 | $82,661 | $270,348 |
| 1905-06 | 1,183,589 | 416,003 | 319,973 | 113,931 | 333,682 |

—V. 84, p. 156.

**Rhode Island Perkins Horse Shoe Co., Providence, R. I.**—*Dividend.*—The directors have declared a quarterly dividend of 1¼% on the $1,750,000 preferred stock, payable Jan. 15 to holders of record Jan. 2, contrasting with 1¾% and ½% extra as paid quarterly in 1907. In 1906 1¼% was paid quarterly, with in April 2% and in Oct. ½% extra. Compare V. 83, p. 1595.—V. 84, p. 697.

**Southern Steel Co.**—*Bondholders' Committee.*—Interest due Nov. 1 1907 on the $3,000,000 first mortgage bonds having remained unpaid, James T. Woodward, R. B. Van Cortlandt, Walter T. Rosen and F. O. Brown have organized as a committee to protect the bondholders. Kean, Van Cortlandt & Co. of New York represent the committee.

Receiver T. G. Bush made a statement to the creditors at Birmingham, Ala. We have been unable to obtain a copy of this report, but according to press dispatches at the time it showed current liabilities of $2,582,213. Compare V. 85, p. 1345, 1146.

**United States Rubber Co.**—The company reports:

| *Six Months ending Dec. 31 (Dec. estimated)—* | 1907. | 1906. |
|---|---|---|
| Net earnings after all charges | $2,656,891 | $2,653,929 |
| Dividends received from Rubber Goods Mfg. Co. | 583,109 | 552,247 |
| Total net income | $3,240,000 | $3,206,176 |

—V. 85, p. 1466.

**United States Smelting, Refining & Mining Co.**—*Closing of Plants at Bingham Junction.*—In connection with the reduction last week (p. 1649) in the quarterly dividend on the common stock from 1¾% to 1%, the following statement authorized by Director Holden in November last regarding the closing down of the company's plants in Bingham Junction, Utah, is of interest:

The position of the company in the matter of smoke suit (compare Utah Consolidated Mining Company below) is of course that it will follow absolutely the decree of the courts. Since the suits were filed, certain devices have been installed to avoid the escape of injurious matter, and we do not believe that the United States plant at Bingham Junction is now causing material damage to vegetation. Nevertheless the company is now preparing for a shut-down of its smelting operations in the Salt Lake Valley.

At Bingham we shall cease the mining of both lead and copper ore. At the Centennial-Eureka we are already shipping a portion of the ore to our Mammoth works in California, and the entire product can be smelted there at little additional cost. This statement, without an understanding of the cost of fluxes, may seem unreasonable, but it is nevertheless a fact, as iron, which is expensive in Utah, is without value there in California.

The cessation of smelting operations in Salt Lake Valley will not materially affect the earnings of the company, as it will be able to treat the largest portion of its own ores in other plants. The new Mammoth smelter at Kennett, with a capacity of 2,000 tons per day, will be in partial operation Dec. 15 and in full operation by the middle of January. Compare V. 84, p. 1243; V. 85, p. 1649, 867.

**United States Telephone Co. of Cleveland, O.**—*Common Dividend Passed.*—See Cuyahoga Telephone Co. in V. 85, p. 1648.—V. 85, p. 528.

**Utah Consolidated Mining Co.**—*Decision Against Operation of Smelters.*—The United States Circuit Court of Appeals on Nov. 4 affirmed the decision of Judge Marshall in the United States District Court on Nov. 7 1906 in the action brought by the farmers' committee of the Salt Lake Valley enjoining the smelters from smelting ores carrying over 10% sulphur (compare American Smelting & Refining Co. item, V. 83, p. 1172.)

The affirmance of Judge Marshall's decision applied to the Utah Consolidated Mining Co., Bingham Consolidated Mining Co. and United States Smelting, Refining & Mining Co. The two last-named companies submitted to the decision of the Appellate Court, but the Utah Consolidated Co. requested the United States Supreme Court to review the case, the last-named Court on Dec. 30 denying the application.

The American Smelting & Refining Co. some time since arranged for a settlement of the litigation. The mines of the Utah company, it is reported, have been closed down and the fires at the smelter were being drawn, so that the entire plant was expected to be out of commission yesterday.—V. 85, p. 1592.

**Westinghouse Electric & Manufacturing Co., Pittsburgh.**—*Payment of Coupons.*—The interest due Jan. 1 on the company's convertible sinking fund gold bonds and debenture certificates was paid at maturity Jan. 1 at the Standard Trust Co., New York, and the Farmer's Deposit National Bank of Pittsburgh, calling for an outlay of $215,975.

*Allied Concern.*—See Atha Steel Casting Co. above.—V. 85, p. 1649, 1644.

**Westinghouse Machine Co.**—*Reorganization Plan.*—The plan of reorganization, which has received the approval of leading interests, provides for the issuance of $7,200,000 3-year 6% notes to pay existing indebtedness.

The notes (denominations $500 and multiples thereof) are to be secured by deposit of the company's bonds taken at 85% of their face value. Claims of less than $1,000 will be paid in cash, those exceeding $1,000 will receive 3-year 6% notes to the amount of the nearest multiple of $500 not in excess of the claim, the remainder to be paid in cash. The company will agree not to pay any dividends on the stock until provision has been made for the payment of all of the notes outstanding.—V. 85, p. 1085.

---

—Herzfeld & Stern, members of the New York Stock Exchange, announced on Jan. 1 that Morton H. M. Lachenbruch became associated with their firm and assumed the management of their bond department. The bond office of Mr. Lachenbruch at 34 Pine St., was accordingly discontinued. The brokerage business heretofore transacted by that office will be carried on by the bond department of Herzfeld & Stern, under Mr. Lachenbruch's management.

—Grannis & Lawrence, members of the New York Stock Exchange, 10 Wall St., New York, with branch offices at 24 Exchange Place, Boston, and 109 Montague St., Brooklyn, in their weekly investment circular give their opinion of the financial outlook and suggest a list of railroad stocks "whose values are so surely above their present prices that they may be bought with confidence."

—The National Battery Co. of Buffalo, manufacturers of storage batteries for electric vehicles, gas motors, car lighting, railroad signals, telephone systems, &c., owing to the increase of business, and being hampered for space, recently moved its New York depot to larger quarters, and leased the entire building at 236 West 54th St., one door west of Broadway.

—Bird S. Coler, of W. N. Coler & Co., 59 Cedar St., this city, has disposed of his N. Y. Stock Exchange membership for about $65,000. He purchased this seat in 1895 for $20,000. Of late the firm has traded little in stocks, as its business has been devoted entirely to municipal and corporation bonds. Mr. Coler and L. H. Hole are the sole partners.

—Messrs. N. W. Halsey & Co., bankers, 49 Wall Street, have published a 32-page booklet, "The Financial Soundness of Great Railroads," which contains a comprehensive review of the remarkable growth in property values and earning power of ten principal railroads since 1897. A copy will be sent upon application by referring to Booklet AJ-10.

—The New York office of the Philadelphia banking house of Ervin & Co., at 43 Exchange Place, this city, was discontinued this week, the New York business of the firm to be transacted from the home office, Drexel Building, Philadelphia. E. H. Yorke will make his headquarters at the latter address.

—The banking house of E. B. Smith & Co. of New York and Philadelphia announces the retirement from membership in the firm of John S. Jenks Jr. and the admission as partners of Osborn W. Bright and Charles F. Bloomer. The removal of the New York office from 7 Wall St. to 27 Pine St. is also announced.

—Harris, Winthrop & Co., Chicago, have removed to their new offices on the Adams St. side of the Rookery Building. The firm has consolidated its offices formerly in the building at LaSalle and Jackson streets with the one in the Rookery and taken the new quarters.

—Tracy & Co. will occupy the offices formerly used by Harris, Winthrop & Co. about Jan. 15. W. H. Busenbarck, formerly of E. L. Lobdell & Co., which concern will retire from business Jan. 1, will be associated with Tracy & Co. in the Rookery office.

—The Chicago banking and brokerage firm of E. L. Lobdell & Co. was dissolved on the 31st ult. and Mr. Lobdell retires from active business. His New York partner, Mr. Winslow, has sold his Stock Exchange membership.

—The firm of McKinnell, Coffin & Rawlins has been dissolved and a new co-partnership formed under the firm name of McKinnell, Dominick & Rawlins, who will continue the business at 49 Exchange Place.

—O'Connor & Kahler, 49 Wall Street, have issued a little circular in which they point out certain features that make municipal issues a very safe form of investment. The circular is entitled "Little Governments."

—Colgate Hoyt & Co. announce that Colgate Hoyt Jr., and Frederick W. Klein, who has for a number of years occupied important positions in the house, have been admitted as members of the firm.

—The New York banking firm of Moffat & White, 5 Nassau St., will send its January bond circular to all interested parties upon request.

# The Commercial Times.

## COMMERCIAL EPITOME.

*Friday Night, Jan.* 3 1908.

Trade is keeping to the conservative groove with values generally, however, pretty well sustained despite this fact.

| *Stocks of Merchandise.* | *Jan.* 1 1908. | *Dec.* 1 1907. | *Jan.* 1 1907. |
|---|---|---|---|

LARD on the spot has been steady to firm on a stronger market for futures and light offerings. Trade has continued quiet. Western, 8⅛@8¼c. and City 7⅞@8c. Refined lard has been dull and steady, with offerings light. Refined Continent 8.55c., South America 9.25c. and Brazil in kegs 10.50c. Speculation in lard futures at the West has been moderately active. Prices have ruled firm, owing to the strength of the grain markets, light offerings, covering of shorts and commission-house buying. The liberal movement of live hogs, however, and the dulness of the cash trade have militated against any marked improvement in prices.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

| January delivery | 7.67½ | 7.65 | 7.62½ | Holi- | 7.85 | 7.85 |
| May delivery | 7.85 | 7.85 | 7.85 | day. | ---- | 8.05 |

PORK on the spot has been quiet and firm. Stocks are small. Mess $14 75@$15 25, clear $15 75@$16 75 and family $18 50. Beef has been quiet and firm with supplies still small. Mess $10@$11, packet $12@$12 50, flank $11 75@$12 25, family $14 50@$15 50 and extra India mess $22 50. Cut meats have been moderately active and generally steady. Pickled shoulders 7½c., pickled hams 9@10c. and pickled bellies, 14@10 lbs., 8½@9c. Tallow has been firmer and more active, with supplies light; city 5½c. Stearines have been quiet and steady; oleo 7¾c. and lard 9¼c. Butter has been fairly active and steady; Creamery extras 29@29½c. Cheese has been quiet and steady; State, f. c., small, colored or white, fine, 15¾c. Eggs have been quiet and easy; Western firsts 27c.

OIL.—Cottonseed has been quiet and steady; prime summer yellow 36½@37½c. Linseed has been quiet and steady; City, raw, American seed, 45@46c.; boiled 46@47c.; Calcutta, raw, 69c. Lard has been quiet and steady; prime 73@75c. Cocoanut has been quiet and steady; Cochin 8½@9½c. and Ceylon 7¼@8½c. Olive has been quiet and steady; yellow 70@80c. Peanut has been quiet and steady; yellow 65@80c. Cod has been quiet and steady; domestic 42@43c. and Newfoundland 44@45c.

COFFEE on the spot has been dull and easy. Rio No. 7, 5⅞@6c. West India growths have been quiet and steady; fair to good Cucuta 8¾@10c. Speculation in future contracts has been stagnant and featureless and prices have shown only trifling changes.

The closing prices were as follows:

| | | | | | |
|---|---|---|---|---|---|
| January | 5.60c. | May | 5.85c. | September | 6.15c. |
| February | 5.70c. | June | 5.95c. | October | 6.20c. |
| March | 5.75c. | July | 6.00c. | November | 6.20c. |
| April | 5.80c. | August | 6.05c. | December | 6.25c. |

SUGAR.—Raw has been quiet and steady. Centrifugal, 96-degrees test, 3.85c., muscovado, 89-degrees test, 3.30@3.35c., and molasses, 89-degrees test, 3.00@3.05c. Refined has been quiet and steady. Granulated 4.60@4.70c. Spices have been moderately active and steady. Teas have been in fair demand and steady. Hops have been quiet and steady.

PETROLEUM has been moderately active and firm. Refined, barrels, 8.75c., bulk 5.00c. and cases 10.90c. Gasoline has been fairly active and steady; 86 degrees 21c. in 100-gallon drums. Naphtha has been in moderate demand and steady; 73@76 degrees 18c. in 100-gallon drums. Spirits of turpentine has been quiet and easier at 43½c. Rosin has been quiet and steady; common to good strained $3 20.

TOBACCO.—Trade in domestic leaf has been extremely dull, manufacturers still showing no disposition to replenish supplies in view of the diminished consumption of cigars. Prices have been nominally steady as a rule. Havana and Sumatra have been quiet and steady.

COPPER quiet and firmer; lake 13⅝@13⅞c. and electrolytic 13½@13¾c. Lead quiet and stronger at 3.60@3.70c. Spelter quiet and firmer at 4.30@4.35c. Tin quiet and easier; Straits 26¾c. Iron has been quiet and steady; No. 1 Northern $17 75@$18 50 and No. 2 Southern $17 25@$17 75.

## COTTON.

*Friday Night, Jan.* 3 1908.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 340,240 bales, against 349,425 bales last week and 391,364 bales the previous week, making the total receipts since the 1st of September 1907, 5,102,306 bales, against 6,069,988 bales for the same period of 1906-07, showing a decrease since Sept. 1 1907 of 967,682 bales.

Speculation in cotton for future delivery has been quiet, and although early in the week prices advanced, partly owing to the prompt stopping of January notices, they have latterly receded. The decline was most noticeable on Thursday and was due to several causes, the chief of which was a fear that the Census ginning report to be issued on Jan. 9th will show a larger total ginned from Dec. 13th to Jan. 1st than even during the same time last year. Rumors that the report of the National Ginners' Association for that period would make the total about 95,000 bales larger than during the same time last year tended to confirm these fears. One report was that the total from Dec. 13th to Dec. 31st amounted to 704,000 bales, as against 627,442, according to the Census figures for the same time last year. This, with continued high rates for money, and the appointment of receivers for the Seaboard Air Line, a prominent cotton carrier, caused a good deal of long liquidation, especially, it appears, by certain well-known New York and Southern interests. The result was a decline on Thursday of 25 to 30 points. Moreover, a local statistician estimated the crop at 12,000,000 to 12,300,000 bales, and expressed the opinion that there will be more than sufficient cotton for the requirements of the world's spinners this season and that the supply at its close will be ample. Besides, the receipts at the ports have latterly increased materially, a circumstance which has not been without its effect, even though at the same time the exports have also been on a large scale, suggesting that not a little of the cotton arriving at the ports is already sold and merely in transit to Europe. The speculation has been for the most part professional and limited to large operators, the outside public taking little part in it. The January notices, which were estimated at 40,000 bales and upward, were largely stopped, it appears, by prominent local interests as well as by some Philadelphia merchants. Of late some well-known local people have been buying March and selling May, with the pressure, however, so noticeable on May as to cause March and May to sell on even terms, although at one time the May option was 7 points over March. To-day prices were irregular, declining early and rallying later, the feature being the steady buying of March, supposedly for prominent local spot interests, which caused a net advance for the day in that month, putting it at a premium of 4 points over May. The net result for the week is a moderate advance on near months, with later months practically unchanged. Spot cotton has declined 40 points here within a week. Middling uplands, 11.40c.

The rates on and off middling, as established Sept. 11 1907 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

| | | |
|---|---|---|
| Fair ---------- c 1.75 on | Strict low mid ---- c 0 30 off | Middling tinged ---- c 0.30 off |
| Strict mid. fair ---- 1.50 on | Fully low mid ---- 0.65 off | Strict low mid. ting. 1.00 off |
| Middling fair ---- 1.25 on | Low middling ---- 1.00 off | Low mid. tinged ---- 1.80 off |
| Barely mid. fair ---- 1.00 on | Barely low mid ---- 1.25 off | Strict g'd ord. ting 2.00 off |

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

| January 3— | 1908. | 1907. | 1906. | 1905. |

Continental imports past week have been 264,000 bales.

The above figures for 1908 show an increase over last week of 167,748 bales, a loss of 351,109 bales from 1907, a decrease of 492,192 bales from 1906, and a gain of 215,457 bales over 1905.

AT THE INTERIOR TOWNS the movement—that is, the receipts for the week and since Sept. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period for the previous year—is set out in detail below.

| Towns. | Movement to January 3 1908. | | | | Movement to January 4 1907. | | | |

The above totals show that the interior stocks have *increased* during the week 4,462 bales and are to-night 155,709 bales less than at the same time last year. The receipts at all the towns has been 67,821 bales less than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The results for the week and since Sept. 1 in the last two years are as follows:

| January 3— | 1907-08 | | 1906-07 | |
|---|---|---|---|---|
| Shipped— | Week. | Since Sept. 1. | Week. | Since Sept. 1. |
| Via St. Louis | 10,343 | 172,704 | 42,057 | 370,430 |
| Via Cairo | 5,450 | 83,906 | 10,132 | 112,769 |
| Via Rock Island | 708 | 5,897 | 3,592 | 26,050 |
| Via Louisville | 2,177 | 26,918 | 4,720 | 46,278 |
| Via Cincinnati | 1,322 | 15,690 | 2,779 | 24,437 |
| Via Virginia points | 4,617 | 36,947 | 4,742 | 51,016 |
| Via other routes, &c. | 19,864 | 97,845 | 21,236 | 117,881 |
| Total gross overland | 44,481 | 439,907 | 89,258 | 748,861 |
| *Deduct shipments—* | | | | |
| Overland to N. Y., Boston, &c. | 5,632 | 40,663 | 8,407 | 62,958 |
| Between interior towns | 3,042 | 41,256 | 1,592 | 25,874 |
| Inland, &c., from South | 2,899 | 31,038 | 1,492 | 20,988 |
| Total to be deducted | 11,573 | 112,957 | 11,491 | 109,820 |
| Leaving total net overland * | 32,908 | 326,950 | 77,767 | 639,041 |

* Including movement by rail to Canada.

The foregoing shows the week's net overland movement has been 32,908 bales, against 77,767 bales for the week last year, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 312,091 bales.

| In Sight and Spinners' Takings. | 1907-08 | | 1906-07 | |
|---|---|---|---|---|
| | Week. | Since Sept. 1. | Week. | Since Sept. 1. |
| Receipts at ports to Jan. 3 | 340,240 | 5,102,306 | 311,945 | 6,069,988 |
| Net overland to Jan. 3 | 32,908 | 326,950 | 77,767 | 639,041 |
| Southern consumption to Jan. 3 | 47,000 | 866,000 | 47,000 | 846,000 |
| Total marketed | 420,148 | 6,295,256 | 436,712 | 7,555,029 |
| Interior stocks in excess | 4,462 | 477,512 | *4,787 | 617,528 |
| Came into sight during week | 424,610 | | 431,925 | |
| Total in sight Jan. 3 | | 6,772,768 | | 8,172,557 |
| North. spinners' takings to Jan. 3 | 44,872 | 730,670 | 106,188 | 1,236,670 |

* Decrease during week.

Movement into sight in previous years:

| Week— | Bales. | Since Sept. 1— | Bales. |
|---|---|---|---|
| 1906—Jan. 5 | 201,746 | 1905-06—Jan. 5 | 7,097,296 |
| 1905—Jan. 6 | 266,207 | 1904-05—Jan. 6 | 8,086,107 |
| 1904—Jan. 8 | 281,727 | 1903-04—Jan. 8 | 7,230,944 |
| 1903—Jan. 9 | 335,459 | 1902-03—Jan. 9 | 7,077,613 |
| 1902—Jan. 10 | 360,664 | 1901-02—Jan. 10 | 7,050,527 |

WEATHER REPORTS BY TELEGRAPH.—Advices to us by telegraph this evening from the South denote that rain has been general the past week and at some points along the Gulf rather heavy. On the whole, however, the precipitation has been light or moderate, and in portions of Texas dry weather has prevailed. The movement of cotton to market continues free.

*Galveston, Texas.*—We have had rain on one day of the past week, the precipitation being six inches and two hundredths. The thermometer has averaged 62, the highest being 70 and the lowest 54. Month's rainfall four inches and ninety-nine hundredths.

*Abilene, Texas.*—There has been no rain during the week. The thermometer has averaged 55, ranging from 34 to 76. December rainfall one inch.

*Corpus Christi, Texas.*—We have had no rain the past week. The thermometer has ranged from 52 to 80, averaging 66. Month's rainfall one inch and forty-six hundredths.

*Fort Worth, Texas.*—We have had no rain during the week. Average thermometer 57, highest 80, lowest 34. December rainfall two inches and nineteen hundredths.

*Palestine, Texas.*—It has rained on two days of the week, the rainfall reaching two hundredths of an inch. The thermometer has averaged 56, the highest being 74 and the lowest 38. Month's rainfall three inches and seventeen hundredths.

*San Antonio, Texas.*—There has been rain on one day of the week, to the extent of one hundredth of an inch. The thermometer has averaged 59, ranging from 42 to 76. December rainfall seventy-seven hundredths of an inch.

*Taylor, Texas.*—There has been rain on one day the past week, the rainfall being two hundredths of an inch. The thermometer has ranged from 38 to 74, averaging 56. December rainfall one inch and seventy-seven hundredths.

*New Orleans, Louisiana.*—We have had rain on two days during the week, the precipitation being eight hundredths of an inch. The thermometer has averaged 63

*Vicksburg, Mississippi.*—We have had rain on five days of the week, the rainfall reaching one inch and fifty-two hundredths. Average thermometer 59, highest 77, lowest 40.

*Leland, Mississippi.*—There has been rain during the week, the rainfall being two inches. The thermometer has averaged 55.1, the highest being 81 and the lowest 31.

*Helena, Arkansas.*—Most farmers have done picking, but the work is still going on in some fields. It has rained on two days during the week, the rainfall being one inch and eleven hundredths. The thermometer has averaged 52, ranging from 32 to 72. December rainfall three inches and forty-two hundredths.

*Memphis, Tennessee.*—Rain has fallen on two days of the week, the rainfall being nine hundredths of an inch. Average thermometer 53.9, highest 68.9, lowest 35.3. Month's rainfall three inches and three hundredths.

*Mobile, Alabama.*—Heavy rains in the interior early in the week. It has rained on four days the past week, the rainfall being one inch and ninety-four hundredths. The thermometer has averaged 60, ranging from 42 to 76.

*Montgomery, Alabama.*—There has been rain on four days during the week, to the extent of two inches and fifty-eight hundredths. December rainfall seven inches and fourteen hundredths.

*Selma, Alabama.*—There has been rain on three days during the week, the precipitation reaching one inch and ninety hundredths. Average thermometer 53.5, highest 67, lowest 32.

*Madison, Florida.*—It has rained on one day of the week, the precipitation reaching one inch and fifty-hundredths. The thermometer has ranged from 45 to 78, averaging 63.

*Augusta, Georgia.*—Rain has fallen on three days of the week, the rainfall being sixty-four hundredths of an inch. The thermometer has averaged 55, ranging from 34 to 70.

*Savannah, Georgia.*—We have had rain on three days during the week, the precipitation reaching thirty-three hundredths of an inch. The thermometer has ranged from 39 to 69, averaging 59.

*Charleston, South Carolina.*—We have had rain on two days during the past week, the rainfall being forty-two hundredths of an inch. Average thermometer 56, highest 67, lowest 41.

*Greenwood, South Carolina.*—We have had rain on three days of the past week, the precipitation being one inch and twenty-seven hundredths. The thermometer has averaged 48, the highest being 59 and the lowest 37.

*Charlotte, North Carolina.*—We have had rain during the week, the rainfall being one inch and sixty-five hundredths. The thermometer has ranged from 37 to 66, averaging 50.

## BREADSTUFFS.

*Friday, Jan. 3 1908.*

Prices for wheat flour have been firm as a rule, though without important changes, despite the continued stagnation of trade here as well as at the large milling sections of the Northwest and the Southwest. The market has been influenced mainly by the strength of wheat prices. There has been a further diminution in the output of the mills, which is considerably smaller than at this time a year ago. Export trade has been stagnant. Stocks continue small. Rye flour and corn meal have been dull and steady.

Wheat has advanced during the week, although at one time depression was noticeable, owing to large Argentine offerings, favorable weather in that country, some decline in the European markets and liquidation, as it appeared, of some five million bushels by one of the largest bull operators in Chicago. Moreover, the world's shipments were larger last week than had been expected. Of late, however, the tone has become stronger with some signs reported of a revival of export inquiry, at least if not of actual export trade, and certainly a much stronger tone in foreign markets. Most of them advanced sharply on Thursday. At the same time the Russian crop news was distinctly unfavorable. Freezing weather was reported in many parts of Russia where there was a lack of snow protection. Reports from Argentina, too, stated that damaging rains had occurred. At our Northwestern markets the receipts have latterly been light. Country receipts and acceptances have within the last few days been small. Large speculative interests in Chicago which sold early in the week have within a day or two, it seems, again taken hold on the bull side. Stocks in Canadian country elevators, it is stated, are only 7,000,000 bushels, against 20,000,000 a year ago, with only 11,000,000 bushels in farmers' hands there, against 24,000,000 a year ago, making a total of 18,000,000, compared with 44,000,000 bushels last year, or only about 40%. Some reports are to the effect that Argentine's export surplus cannot be more than Europe will require, and may be considerably less. There is an idea, too, that all of the wheat that this country can spare for export will sooner or later be wanted by Europe, owing to some decrease in crops in various wheat-exporting countries of the world. Of late, too, repeated complaints of bad weather in Germany have been reflected in a sharp advance at Berlin. To-day prices advanced at first. There was buying on bullish foreign news, including reports of severe weather and famine conditions in Russia. Later liquidation caused a decline.

DAILY CLOSING PRICES OF WHEAT FUTURES IN NEW YORK.

Indian corn futures have advanced, owing to continued small receipts, light country offerings and unfavorable reports regarding the quality of the corn. Much of it is declared to be unmerchantable. The weather during much of the time of late has been too mild and unsettled for curing the crop, and the proportion of contract grade in the daily receipts is unusually small. Stocks of contract grade at Chicago, too, are small, and there has been a good domestic demand for cash corn. At one time prices fell, owing to sympathy with the temporary break in wheat, but prominent Chicago interests have been good buyers, and there is little disposition to sell for short account, owing to the small movement. To-day prices advanced early on unfavorable weather and bullish cables and crop news, but reacted later on realizing.

| September delivery in elevator | 58⅝ | 58¼ | 59¼ | day. | 60¼ | 59¾ |

Oats for future delivery in the Western market have advanced with other cereals, though the trading has been relatively quiet. But with the receipts small and the country not disposed to sell, the preponderance of orders has been on the buying side. Elevator people at Chicago have sold at times, but the small receipts and the light supply of contract grade make the generality of the trade averse to selling for short account, despite the fact that many consider prices too high when compared with corn. The cash demand has been fairly active. To-day prices advanced early on small receipts and covering of shorts, but reacted later on liquidation.

## THE DRY GOODS TRADE.

*New York, Friday Night, Jan.* 3 1908.

The new year has opened with a generally cheerful feeling in the dry goods trade, and, while it is realized that further liquidation and contraction will have to take place, yet the common belief is that this will not be nearly as severe as was thought probable some two months ago. The principal interest at the present time is in financial conditions and the attitude of banks in the matter of dealing with commercial paper, and in this connection the improvement that has recently taken place in the local banking situation is regarded as one of the most hopeful signs. Moreover, there has been a continued steady demand from retailers for small quantities of goods, and this is found to be reflected in the primary market before long. Price revisions have not yet been made, for it is not felt that jobbers are prepared at the moment to seriously enter the market; but when the time comes and values have been put upon a level rendered necessary by the altered circumstances, it is believed by many and the hope of all that the volume of business will not be much below normal. While the revisions will undoubtedly be important, it is improbable that they will be as drastic as many have thought, owing to the general curtailment of production that is everywhere taking place. There has been some small new buying during the week by converters and cutters, and it has been noticeable that early shipment of goods has been asked for. Jobbers have had a fair trade and have shown spring lines of wash and fancy goods with moderate success. Salesmen are starting out on the road to resume the business dropped suddenly, owing to financial conditions during the last two months of the year, and their reports to headquarters will be eagerly awaited. Conditions in the woolen and worsted goods market have hardly been satisfactory, and the volume of new business has been insignificant.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending Dec. 28 were 2,650 packages, valued at $176,297:

| New York to Dec. 28— | 1907 Week. | 1907 Since Jan. 1. | 1906 Week. | 1906 Since Jan 1. |
|---|---|---|---|---|
| Great Britain | 17 | 1,593 | 65 | 1,858 |
| Other European | ---- | 2,452 | 3 | 1,390 |
| China | 1,510 | 24,152 | | 90,784 |
| India | ---- | 6,094 | 130 | 15,688 |
| Arabia | ---- | 26,425 | ---- | 54,991 |
| Africa | 1 | 4,079 | ---- | 15,512 |
| West Indies | 408 | 23,334 | 278 | 29,174 |
| Mexico | 60 | 2,508 | 25 | 2,101 |
| Central America | 5 | 12,574 | 111 | 15,899 |
| South America | 247 | 44,004 | 1,884 | 58,822 |
| Other Countries | 402 | 24,808 | 255 | 19,431 |
| Total | 2,650 | 172,023 | 2,751 | 305,650 |

The value of these New York exports since Jan. 1 has been $10,664,996 in 1907, against $17,684,893 in 1906.

It is unlikely that there will be any important buying of domestics until price revisions have been made, but there have been some few small orders during the week for goods that were required for early shipment, and these were generally filled at recent quotations. Heavy brown drills and sheetings have been exceptionally quiet, but some sales of 4-yard and lighter-weight sheetings have been reported. Export business has been almost at a standstill, but the immediate future is being looked forward to hopefully, as it is believed that when lower prices are named, a fair amount of business will be forthcoming. No buying of importance for China is expected until after the Chinese New Year, but reports from that country regarding the movement of goods are satisfactory. Bleached goods have been quiet, with little new business developing, but with fair shipments being made on old orders. Coarse, colored goods have held steady, but, like all other lines, have been comparatively inactive. There has been some inquiry for linings, but little business has developed during the week. Shipments of prints on old orders have been quite heavy, and as requests for goods held back a little while ago are now being received, it is probable that the total shipments during the month will be above the average. Print cloths have again been lowered during the week but with little success as far as the attracting of new business is concerned Converters are still inquiring for goods, but at prices that will not at present be accepted.

WOOLEN GOODS.—It had been expected that business in the men's wear woolen and worsted goods market would be very dull during the holiday week between Christmas and the New Year, and in this sellers were in no way disappointed. Practically nothing was done, and no disposition to operate was shown on any side. Most of the low-grade heavy-weights are now open, and some of the medium-grade lines, but the volume of business so far booked has been very disappointing. The better grade goods will not be shown until the latter part of the month, but it is realized that sellers have lost nothing through delaying the opening of these. So little has been done that it is evident that the volume of buying will be below normal, and unless it is to fall very much below, there will have to be unusual activity during the remainder of the month. Buyers are not yet ready to place orders, and, moreover, freely state that they do not intend to do so to the same extent as in the past. The one favorable feature of the situation is the improvement in collections, and if payments around the first of the year are promptly met, the outlook may be more hopeful. Spring ordering has been on a very small scale, and there has been nothing doing in overcoatings. The dress goods market has been inactive. The opening of fall lines so far has not been productive of much business, and little indication of the future can be gathered from the actions of buyers. There has been some disposition to look at broadcloths, but the tendency has not been pronounced, and has been principally due to the popularity of these goods in the past. A little more activity is looked for during the coming week, when the future of the market will doubtless become clearer.

FOREIGN DRY GOODS.—There has been nothing doing in imported woolen and worsted dress goods during the week. Silks have been quiet, but some improvement is looked for shortly. Ribbons have been steady but dull. Linens continue firm but seasonably inactive. Burlaps still display an easier tendency.

IMPORTS ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JAN. 1 1907 AND 1906.

## News Items.

**Cuba.**—*Population.*—The official returns of the Census Department of the Cuban Government, made on Dec. 16 1907 to the Provisional Governor, show a total population of 2,082,282, an increase of 509,437 over the census of 1899.

**Nevada.**—*Special Session of Legislature.*—Governor Sparks has issued a call for a special session of the Legislature to convene Jan. 14 to "adjust by legislation, if possible, the controversy existing between the miners and the mine owners at Goldfield, this State." This action was taken in response to the demand made by President Roosevelt, who threatened to withdraw the Federal troops now stationed at the mines at Goldfield unless steps were taken to convene the Legislature in extra session to deal with the strike situation.

**Portland, Ore.**—*Charter Amendments Declared Void.*—Although the decision has not yet been regularly rendered, the State Circuit Court of Multnomah County has given an intimation of its ruling in the suit instituted by Francis L. McKenna to test the legality of the $3,000,000 4% 25-year water bonds provided for in the charter amendment voted on June 3 1907. See V. 85, p. 879, and V. 84, pp. 1445 and 1322. The opinion of the Court, which will be to the effect that all the charter amendments voted on June 3 1907 were illegally enacted and are void, will be handed down, according to reports, by Judge John B. Cleland on Jan. 7, when the regular term of the Court opens. The announcement of the Court's ruling was made at the request of Counsel for both sides, who stated that the action was necessary in order that important municipal business might proceed in accordance with the finding of Court on the amendments. The following regarding the litigation is taken from the Portland "Oregonian" of Dec. 20 1907:

The invalidity of the water-bond amendment, and consequently of all others, as interpreted by Judge Cleland, is due to the irregular manner in which the measures were presented for a vote of the people. These amendments were all placed on the ballot by resolution passed by the Council. In his decision Judge Cleland will hold that the Council had no authority for its action. Such legislation, to be legal, he will rule, must be inaugurated by petitions signed by legal voters of the municipality.

The improvement bond issues voted in June and which will be held invalid are as follows: Issue of $3,000,000 water bonds, issue of $1,000,000 park and boulevard bonds, issue of $500,000 dock bonds, issue of $275,000 general bonds for fireboat and water mains.

The effect of the Circuit Court's decision will be to delay all action under the charter amendments. No bonds have yet been issued, and whenever possible the city authorities have declined to act under the provisions of the amendments. In several instances, however, this has been unavoidable; but the action taken will not now be binding, and until the question of legality has been finally settled by the State Supreme Court, the city authorities and legislative bodies must proceed as if the amendments had never been passed.

Without doubt the case will be carried to the Supreme Court in the hope that the city may ultimately win and the will of the electors be carried out. City Attorney Kavanaugh announces that as soon as possible after the decision of Judge Cleland has been handed down, he will prepare an appeal to the Supreme Court. He will also request that, in view of its extreme importance, the Appellate body expedite the appeal by a special hearing. No question of constitutionality is involved, and the case cannot, therefore, be carried beyond the State Supreme Court.

The immediate reason for requesting Judge Cleland to make known his decision at this time was to give the Water Board a definite basis on which to estimate its expenditures for the coming year. The water bond amendment provided also for assessing the cost of mains to abutting property. If this provision had become effective, a large item in the expense of the water system would have been met by direct assessment and the present water rates consequently could have been materially reduced at the first of the year.

* * * * * * * * * * * * *

There were two leading contentions in the case against the city. The first was that the Council had no authority to initiate legislation. It was contended in the complaint that the electors had no authority to pass on the amendment, "unless the same should be submitted to them upon an initiative petition as provided in the Constitution of the State of Oregon" by the various amendments applying to the case. It is upon this point that Judge Cleland has based his finding.

It was also represented that the amendments were invalid because the charter explicitly provides a manner in which the cost of public improvements shall be met, and that this method was not followed. Judge Cleland says that this contention was not sustained, and that he also did not take into consideration the further contention that the June election was not advertised in the manner provided by the charter.

The case of the city was fought by City Attorney Kavanaugh and Deputy City Attorney Grant.

## Bond Proposals and Negotiations this week have been as follows:

**Adrian School District (P. O. Adrian), Lenawee County, Mich.**—*Bond Sale.*—We are advised that $60,000 4% school bonds were recently awarded to local investors. The issue was oversubscribed to the amount of $15,000.

**Aitkin, Aitkin County, Minn.**—*Bond Sale.*—This village recently disposed of $30,000 4% funding bonds to the State of Minnesota at par. Denomination $3,000. Date Dec. 26 1907. Interest annually in July. Maturity $3,000 yearly on July 1 from 1913 to 1922 inclusive.

**Bayonne, N. J.**—*Bond Offering.*—Proposals will be received until 8 p. m., Jan. 7, by the City Council for the following bonds:

$160,000 5% gold school bonds. Maturity Jan. 1 1928.
90,000 5% gold tax bonds. Denomination not less than $100 nor more than $1,000. Maturity Jan. 1 1918.
184,000 5% gold "City of Bayonne Bonds." Interest semi-annual. Maturity Jan. 1 1928

The above bonds are dated Jan. 1 1908. W. C. Hamilton is City Clerk.

**Bellefontaine, Logan County, Ohio.**—*Bond Sale.*—On Dec. 30 1907 the $1,895 40 4% 5-10-year (serial) coupon North Detroit Street improvement bonds dated Sept. 1 1907 and described in V. 85, p. 1535, were awarded to J. R. Cushing at par and accrued interest. No other bids were received.

**Bellevue, Huron County, Ohio.**—*Bond Sale.*—On Dec. 20 1907 the $5,088 20 6% coupon High Street improvement assessment bonds maturing $508 82 yearly on Dec. 21 from 1908 to 1917 inclusive described in V. 85, p. 1415, were awarded to Otis & Hough of Cleveland for $5,244 20, the price thus being 103.065.

**Brownwood, Brown County, Texas.**—*Bonds Awarded in Part.*—Erath County has purchased $20,000 of the $43,000 5% 20-40-year (optional) water-works bonds registered on Oct. 24 by the State Comptroller (V. 85, p. 1353) at par. Denomination $1,000. Date Aug. 1 1907. Interest semi-annual.

**Canada.**—*Debenture Sale.*—On Dec. 14 1907 £1,500,000 4% 5-year debentures were awarded to the Bank of Montreal, London, England, financial agents for the Canadian Government. We are advised that the sale was at par, 5% on application, 25% Dec. 20 1907, 35% Jan. 2 1908 and 35% Feb. 3 1908. Debentures are dated Oct. 1 1907.

**Cohoes, Albany County, N. Y.**—*Bonds Not Sold—Bond Offering.*—On Dec. 28 1907 no bids were received for the $30,617 98 local-improvement and the $18,000 1-10-year (serial) First Branch of the Mohawk River Ontario Street bridge 4% registered bonds described in V. 85, p. 1535. Proposals are again asked for these bonds and will be received, this time, until Jan. 28.

**Colbert County (P. O. Tuscumbia), Ala.**—*Bond Sale Postponed.*—The sale of $16,000 6% jail-building bonds which was to have taken place Dec. 15 1907 (V. 85, p. 1535) has been postponed until Jan. 10.

**Covington County (P. O. Williamsburgh), Miss.**—*Bond Sale.*—On Nov. 1 1907 $20,000 6% court-house and jail-construction bonds were awarded to John Nuveen & Co. of Chicago at par. Denomination $1,000. Date Nov. 15 1907. Interest semi-annual. Maturity $1,000 yearly from 1927 to 1946 inclusive.

**Delaware, Delaware County, Ohio.**—*Bond Sale.*—On Dec. 2 1907 the $4,000 assessment and the $1,000 (city's portion) 5% 1-5-year (serial) coupon sidewalk-construction bonds described in V. 85, p. 1227, were awarded to the Delaware National Bank of Delaware at 100.30 and accrued interest.

**East St. Louis School District No. 189 (P. O. East St. Louis), St. Clair County, Ill.**—*Bond Offering.*—Proposals will be received until 8 p. m., Jan. 6, by J. S. Pidgeon, Secretary Board of Education, for $60,000 4% registered school-building-construction bonds. Authority, vote of 326 "for" to 60 "against," cast at election held Nov. 2 1907. Date March 2 1908. Interest semi-annually at the School Treasurer's office at East St. Louis. Maturity $20,000 on March 2 in the years 1918, 1923 and 1928. Bonds are exempt from all taxation. Certified check for $500, payable to the "Board of Education," is required.

**Eaton School District (P. O. Eaton), Delaware County, Ind.**—*Bond Sale.*—This district, on Dec. 28 1907, awarded the $13,000 5% 1-10-year (serial) coupon school-building bonds described in V. 85, p. 1536, to Breed & Harrison of Cincinnati for $13,025, the price thus being 100.192.

**Eatonton, Putnam County, Ga.**—*Bids Rejected.*—All bids received on Dec. 26 1907 for the $10,000 5% 30-year (coupon) additional sewerage bonds described in V. 85, p. 1600, were rejected. We are advised that these bonds will probably not be re-offered before March 1.

**Eau Claire, Eau Claire County, Wis.**—*Bond Offering.*—Proposals will be received until 6 p. m. Jan. 24 by J. C

Fennessy, City Clerk, for the $25,000 4% coupon refunding bonds mentioned in V. 85, p. 1536. Denomination $100 or multiple thereof. Date Jan. 1 1908. Interest semi-annually at the City Treasurer's office. Maturity Jan. 1 1928. Certified check for 5% of the bid, payable to the City Treasurer, is required. These bonds were offered but not sold on Dec. 18 1907.

**Edgeley, Lamoure County, N. D.**—*Bond Election.*—A proposition to bond this village in the sum of $3,000 to purchase two dynamos will, according to reports, be voted on at an election to be held Jan. 6.

**Elizabethton, Carter County, Tenn.**—*Bond Offering.*—Further details are at hand relative to the offering on Jan. 6 of the $15,000 school, $9,000 street-improvement and $8,000 Doe River Levee 5% coupon bonds mentioned in V. 85, p. 1659. Proposals for these securities will be received on that day by J. N. Edens, Mayor. Authority Chapters 186, 406 and 421 of the Acts of 1907. Denomination $1,000. Date Jan. 1 1908. Interest semi-annually in Elizabethton. Maturity Jan. 1 1928. Bonded debt, this issue. Floating debt $1,500. Assessed valuation $429,830.

**Floral Park, Nassau County, N. Y.**—*Bonds Not Sold.*—No bids were received on Dec. 30 1907 for $4,500 5% bonds offered on that day.

**Fort Pierre, Stanley County, S. D.**—*Bond Sale.*—On Nov. 15 1907 the $10,000 15-year court-house and city-hall construction bonds proposals for which were originally asked for until Oct. 31 (V. 85, p. 1102) were awarded to the Fort Pierre Bank of Fort Pierre at par and accrued interest for 6s. Securities are dated June 1 1907.

**Franklin County (P. O. Columbus), Ohio.**—*Bond Sale.*—On Dec. 19 1907 the $4,600 5% coupon North High Street improvement bonds, a description of which was given in V. 85, p. 1476, were awarded to the Worthington Savings Bank of Worthington at par and accrued interest. Maturity on March 1 as follows: $1,400 in 1909, $1,500 in 1910 and $1,700 in 1911.

**Gallup, McKinley County, N. M.**—*Bond Offering.*—Proposals will be received until Feb. 1 for $20,000 6% sewer-system, water-system and street-improvement bonds. Denomination $1,000. Date Jan. 10 1908. Interest semi-annually at the National Bank of Commerce in New York City. Maturity Jan. 10 1938, subject to call after Jan. 10 1928. Certified check for 2% of bid is required. R. F. Hall is Town Clerk.

**Garden Grove School District, Orange County, Cal.**—*Bond Sale.*—On Dec. 3 the $15,000 5% bonds offered but not sold on Nov. 6 (V. 85, p. 1416), were awarded to W. H. Zimmerman of Santa Anna for $15,017 (100.113) and accrued interest. Denomination $1,500. Interest semi-annually in January and July.

**Glassport School District (P. O. Glassport), Allegheny County, Pa.**—*Bond Sale.*—Pittsburgh papers state that the $50,000 school bonds offered without success as 4½s last August (V. 85, p. 616) have been disposed of as 5s.

**Greensboro, Guilford County, N. C.**—*Bond Offering.*—Proposals will be received until 2 p. m. Jan. 10 by the Mayor, L. J. Brandt, and the Board of Aldermen for the $125,000 5% coupon funding bonds voted Oct. 8. Denomination $1,000. Date Jan. 1 1908. Interest semi-annually at the City Treasurer's office. Maturity Jan. 1 1938. Certified check on some banking house within the United States for 2% of bonds bid for, made payable to the City Treasurer, is required. Purchaser to pay accrued interest. The validity of these bonds will be passed upon by James H. Caldwell of New York City and Thos. J. Shaw of Greensboro.

**Hamilton, Butler County, Ohio.**—*Bond Offering.*—In addition to the $20,000 4½% coupon electric-light-plant-improvement bonds to be offered at 12 m. Jan. 22 (V. 85, p. 1659), proposals will also be received at the same time and place by Thad. Straub, City Auditor, for $15,168 87 4½% coupon Park Avenue improvement assessment bonds. Date Dec. 1 1907. Interest semi-annual. Maturity part yearly on Dec. 1 from 1908 to 1917 inclusive. Certified check for 5% of the amount of the bid, payable to the City Treasurer, is required. Accrued interest to be paid by purchaser.

**Hancock, Houghton County, Mich.**—*Description of Bonds.*—We are advised that the $45,000 6% refunding bonds awarded to John Nuveen & Co. of Chicago on Dec. 16 1907 for $46,100 (102.444) and accrued interest (V. 85, p. 1659), are in denomination of $1,000 each and are dated Dec. 2 1907. Interest semi-annually in January and July. Maturity Dec. 2 1927.

**Harris County (P. O. Houston), Texas.**—*Bonds Awarded in Part.*—Of the $500,000 4% coupon road and bridge bonds which this county has been offering for sale (V. 85, p. 1291), $60,000 were disposed of on Dec. 1 1907 at par and accrued interest. Denomination $1,000. Date Oct. 10 1907. Interest semi-annual. Maturity forty years, subject to call after ten years.

**Harrisonville, Cass County, Mo.**—*Bonds Withdrawn from Market.*—We are advised that the $30,000 municipal-water-works-system-construction bonds voted on Nov. 5 "will not be issued."

**Hettinger County (P. O. Mott), N. D.**—*Bonds Not Sold.*—*Bond Offering.*—Up to Dec. 28 1907 the $20,000 5% funding bonds offered at private sale by this county (V. 85, p. 1354) were still unsold. Robert D. Bury, County Auditor, advises us that he is now offering these bonds at 6% interest. Securities mature Dec. 1 1917.

**Highland County (P. O. Hillsboro), Ohio.**—*Bonds Awarded in Part.*—Of the $5,400 5% coupon road-improvement No. 35 bonds offered on Nov. 30 and described in V. 85, p. 1163, $1,620, maturing $540 on March 1 1912 and $540 on Sept. 1 in each of the years 1911 and 1912, were awarded to Noah Road.

**Holland Patent, Oneida County, N. Y.**—*Bond Offering.*—Proposals will be received until 7 p. m. Jan. 11 by E. Willard Jones, Village Clerk, for $8,000 water bonds at not exceeding 5% interest. Denomination $500. Interest semi-annually on Jan. 1 and July 1. Maturity $500 yearly on July 1 from 1913 to 1928 inclusive. Certified check on a national bank, on a State bank or on a trust company for 2% of the bonds bid for, payable to the Village Treasurer, is required. Purchaser to pay accrued interest.

**Houston, Texas.**—*Bond Election.*—The City Council on Dec. 23 passed an ordinance providing for an election to submit to the voters the question of issuing $300,000 bonds for permanent-drainage-system-construction and $200,000 bonds for the extension of the water-works-system.

**Jackson, Jackson County, Mich.**—*Bond Sale.*—On Dec. 27 1907 $45,000 10-11-year (serial) refunding public-building bonds were awarded to Otis & Hough of Cleveland for $45,030 (100.060) and accrued interest for 5s. Bids were also received from Emery Anderson & Co. of Cleveland, the Harris Trust & Savings Bank of Chicago, W. J. Hayes & Sons of Cleveland, Provident Savings Bank & Trust Co. of Cincinnati, Seasongood & Mayer of Cincinnati and A. B. Leach & Co. of Chicago. Securities are in denomination of $1,000 each. Date Jan. 1 1908. Interest semi-annual. These bonds were offered as 4s on Oct. 7 but all bids received on that day were rejected. See V. 85, p. 1291.

**Jefferson County Common School District, Tex.**—*Bonds Registered.*—On Dec. 23 1907 the State Comptroller registered the $23,000 5% bonds mentioned in V. 85, p. 1536. Maturity April 10 1927, subject to call after fifteen years.

**Joplin, Jasper County, Mo.**—*Bonds Voted.*—By a vote of 1244 to 551, the issuance of $96,000 sanitary and storm-water-sewer-construction bonds at not exceeding 5% interest was authorized at an election held Dec. 23 1907.

**Kalamazoo, Kalamazoo County, Mich.**—*Bond Offering.*—Proposals will be received until 5 p. m. Jan. 13 by Sidney R. Ketchum, City Clerk, for the following bonds:

$21,000 5% sewer bonds. Denomination $500 and $200. Date Jan. 2 1908. Maturity $4,200 yearly on Jan. 1 from 1909 to 1913 inclusive.

50,000 4½% coupon street improvement bonds. These bonds are part of an issue of $155,000 bonds, $91,500 of which were sold in October. See V. 85, p. 1040.

**Kansas City School District (P. O. Kansas City), Jackson County, Mo.**—*Bonds Awarded in Part.*—On Dec. 20 1907 $200,000 more of the $520,000 bonds (the unsold portion of the $590,000 4% 20-year gold coupon school-building bonds offered but not sold on Aug. 1) were awarded to the Commerce Trust Co. of Kansas City at par and accrued interest. This makes a total of $304,000 bonds disposed of from Aug. 1 1907 to Dec. 27 1907. See V. 85, p. 1600.

**Knightstown, Henry County, Ind.**—*Bonds Voted.*—The election held here Dec. 28 1907 to vote on the question of issuing the $12,000 6% electric-light bonds mentioned in V. 85, p. 1659, resulted in favor of the proposition. The vote was 241 "for" to 44 "against."

**Lake Wilson School District No. 42 (P. O. Lake Wilson), Murray County, Minn.**—*Bond Sale.*—We are advised that the $12,000 4% 20-year school-building bonds voted on Nov. 9 1907 have been purchased by the State.

**Lakewood, Cuyahoga County, Ohio.**—*Bond Offering.*—In addition to the three issues of 5% improvement bonds to be offered at 12 m. Jan. 20 (V. 85, p. 1659), proposals will also be received at the same time and place by B. M. Cook, Village Clerk, for $3,780 5% Nicholson Avenue improvement assessment bonds. Denomination $756. Date day of sale. Interest semi-annually at the Cleveland Trust Company, Cleveland. Maturity $756 yearly on Oct. 1 from 1909 to 1913 inclusive. Certified check for 5% of the amount of bid is required.

**Lindenwald Special School District (P. O. Hamilton), Butler County, Ohio.**—*Bond Offering.*—Proposals will be received until 12 m. Jan. 14 by J. A. Morris, Clerk Board of Education, 208 Laurel Avenue, for $25,000 4½% bonds. Authority Sections 3991, 3992 and 3993, Revised Statutes. Denomination $500. Date Jan. 14 1908. Interest semi-annually at the First National Bank of Hamilton. Maturity $1,000 yearly on Jan. 14 from 1910 to 1934 inclusive. Certified check for 5% of the amount of bonds bid for, payable to the Board of Education, is required. Accrued interest to be paid by purchaser. Bonds are coupon in form, tax-exempt, and are issued for the purpose of purchasing a site and building a school house.

**Lindwood School District (P. O. Lindwood), St. Francois County, Mo.**—*Bonds Registered.*—Reports state that the State Auditor has registered $25,000 5% bonds in denomination of $1,000 each.

**Madison, Morgan County, Ga.**—*Bonds Not Sold.*—No sale was made of the $50,000 4½% water-works, sewerage and electric-light-system-improvement bonds offered on Dec. 31 1907. See V. 85, p. 1537, for description of these securities.

**Marion County (P. O. Marion), Ohio.**—*Bond Offering.*—Proposals will be received until 12 m. to-day (Jan. 4) by John H. Clark, Prosecuting Attorney, for $4,050 5% coupon White Oaks Free Tur pike Road bonds. Authority Section 4808 Revised Statutes. Date March 1 1908. Interest semi-annually at the County Treasurer's office. Maturity as follows:

| | | | |
|---|---|---|---|
| $100 Sept. 1 1908 | $140 Sept. 1 1911 | $180 Sept. 1 1914 | $210 Sept. 1 1917 |
| 100 Mch. 1 1909 | 140 Mch. 1 1912 | 180 Mch. 1 1915 | 210 Mch. 1 1918 |
| 110 Sept. 1 1909 | 160 Sept. 1 1912 | 190 Sept. 1 1915 | 220 Sept. 1 1918 |
| 110 Mch. 1 1910 | 160 Mch. 1 1913 | 190 Mch. 1 1916 | 220 Mch. 1 1919 |
| 120 Sept. 1 1910 | 170 Sept. 1 1913 | 200 Sept. 1 1916 | 225 Sept. 1 1919 |
| 120 Mch. 1 1911 | 170 Mch. 1 1914 | 200 Mch. 1 1917 | 225 Mch. 1 1920 |

Certified check on some bank in Marion for $100, payable to the Board of Road Commissioners, is required. Bonds will be delivered March 1 1908.

**Mitchell School District (P. O. Mitchell), Davison County, S. D.**—*Bond Election Proposed.*—The Board of Education, according to local papers, has passed a resolution requesting the Mayor to call an election to vote on the question of issuing $69,000 high-school bonds.

**Montgomery Independent School District (P. O. Montgomery), Montgomery County, Tex.**—*Bonds Registered.*—The State Comptroller on Dec. 27 1907 registered an issue of $4,000 5% school-house bonds of this district. Maturity Nov. 1 1927, subject to call after ten years.

**Mount Vernon, Westchester County, N. Y.**—*Bond Offering.*—Attention is called to the official notice elsewhere in this Department of the offering of the $63,000 5% 10-year refunding redemption bonds and the $25,000 5% 6-year assessment bonds, proposals for which are asked until 8 p. m. Jan. 14 by the Common Council. For details of bonds and terms of offering see V. 85, p. 1660.

**New Bremen, Auglaize County, Ohio.**—*Bond Sale.*—On Dec. 30 1907 the $20,000 5% coupon municipal-electric-light-plant-purchase bonds described in V. 85, p. 1477, were awarded to the First National Bank of New Bremen at par. Maturity $500 each six months beginning March 1 1909.

**New Buffalo, Berrien County, Mich.**—*Bonds Voted.*—Reports state that this city on Dec. 26 1907 authorized the issuance of $15,000 bonds for public improvements by a vote of 113 to 4.

**Newport, Campbell County, Ky.**—*Bond Sale.*—This city on Dec. 28 1907 awarded $5,100 Sewer District "C" bonds, $6,200 Sewer District "D" bonds and $3,400 Sewer District "B" bonds to Seasongood & Mayer of Cincinnati for $15,226 —the price thus being 103.578. Securities carry 5% interest and are dated Jan. 1 1908. Twenty-eight bonds are in denomination of $500 each and seven bonds are in denomination of $100 each. Interest semi-annual. Maturity Jan. 1 1929, part being subject to call after three years.

**Norwood, Hamilton County, Ohio.**—*Bond Offering.*—Proposals will be received until 3 p. m. Jan. 30 by W. E. Wichgar, City Auditor, for the following bonds:

$3,238 04 4½ % 1-5 year (serial) Kenilworth Avenue sanitary-sewer assessment bonds. Date Dec. 3 1907 Interest annual.
15,000 00 4½ % 20-year street improvement bonds (city's portion) offered but not sold Oct. 10 1907 (V. 85, p. 1103). Denomination $500. Date Nov. 15 1907. Interest semi-annual.
$12,196 72 4½ % 1-10-year (serial) Carthage Avenue improvement assessment bonds. Date Jan. 14 1908. Interest annual.
8,486 55 4½ % 1-10-year (serial) Regent Avenue improvement assessment bonds. Date Jan. 14 1908. Interest annual.

The three issues of assessment bonds to be offered will be reduced by the amount of assessments paid in cash prior to date of sale. Certified check for 5% of the amount of bonds bid for, payable to the City Treasurer, is required.

**Oneida, N. Y.**—*Bond Offering.*—Proposals will be received until 5 p. m. Jan. 7 by T. A. Dapson, City Clerk, for the following bonds:

$10,994 61 4½ % coupon or registered paving (Series "MM") bonds. Date Feb. 1 1907. Maturity one bond yearly on Feb. 1 from 1908 to 1917 inclusive.
1,967 09 4½ % coupon or registered sewer (Series "OO") bonds. Date Jan. 15 1908. Maturity one bond yearly beginning Jan. 15 1909.

Interest semi-annually in Oneida or in New York City, at option of purchaser. Certified check for 2½% of bid is required.

**City of Mount Vernon,**

**Westchester County, New York,**

**Redemption Refunding Bonds**

The Common Council of the City of Mount Vernon, New York, will, at the Lucas Building, Depot Place, in said city, on the 14TH DAY OF JANUARY, 1908, AT EIGHT O'CLOCK P. M., receive sealed proposals for the purchase of sixty-three (63) Refunding Redemption Bonds of said City of Mount Vernon, numbered consecutively as issued from 1 to 63, both inclusive, and the said sixty-three (63) bonds will be sold to the highest bidder at public sale to be held at said time and place. Said bonds are authorized to be issued under and pursuant to Section 155 and 200 of Chapter 182 of the Laws of 1892 as amended, and under and pursuant to the provisions of Section 7 of the General Municipal Law as amended. Said bonds are exempt from taxation for town, county, municipal and State purposes. They will be dated February 1, 1908, and payable on the first day of February, 1918. Each bond will be for the principal sum of $1,000 and will bear interest at the rate of five per cent per annum, payable semi-annually, and both principal and interest will be paid at the office of the City Treasurer of the City of Mount Vernon, New York. They will be delivered to the purchaser on the first day of February, 1908. Each bid for said bonds must be accompanied by a certified check for $1,000 as security for the performance of the bid if accepted. The Common Council will at said time and place open such proposals as may be received and accept the highest thereof, unless it be deemed for the best interests of the City to reject any or all of said proposals.

The bonds will be engraved under the supervision of and certified to as to their genuineness by the United States Mortgage & Trust Company of New York City, and their legality approved by J. H. Caldwell, Esq., of said city of New York, whose opinion as to legality will be furnished to the purchaser. The bonds cannot be sold for less than par and accrued interest.

By order of the Common Council.

BENJAMIN HOWE,
Mayor.

A. W. REYNOLDS,
City Clerk.

**Palestine, Anderson County, Texas.**—*Bond Offering.*—Proposals will be received until 4 p. m. March 20 by John H. Hearne, Mayor, for the $50,000 4% coupon street-paving bonds described in V. 85, p. 1042. Authority Chapter 49, Acts of the Legislature of 1899, and Article 486, Revised Statutes. Denomination $500. Date Jan. 2 1908. Interest semi-annually at the National Park Bank in New York City or at the First National Bank in Austin, or at the office of S. P. Allen, City Secretary, in Palestine. Maturity Jan. 2 1948, subject to call after Jan. 2 1918. Certified check for $2,000, payable to the Mayor, is required.

**Pincher Creek, Alta.**—*Debenture Offering.*—Proposals will be received until 12 m., Jan. 15, by E. J. Mitchell, Chairman Finance Committee, for $5,900 debentures. Maturity $1,180 yearly on Jan. 1 from 1909 to 1913 inclusive.

**Portsmouth, Scioto County, Ohio.**—*Bonds Awarded in Part—Bond Offering.*—Of the $20,000 4% 12-15-year (serial) coupon Kendall Avenue subway bonds offered on Dec. 27 1907 (V. 85, p. 1477), $5,000 maturing Dec. 1 1919 were awarded to Clara G. Foster at 100.90 and accrued interest—a basis of about 3.906%. A syndicate of local banks bid par and accrued interest for the entire issue. We are advised that the remainder of these bonds will be offered at private sale. Securities are dated Dec. 1 1907.

**Sharon Hill, Delaware County, Pa.**—*Purchaser of Bonds.*—The purchaser of the $5,500 4½% 30-year street-improvement bonds sold at par and accrued interest on Nov. 25 1907 (V. 85, p. 1662) was E. P. Timmons. Denomination $500. Interest semi-annual.

**Struthers, Mahoning County, Ohio.**—*Bond Sale.*—On Dec. 30 1907 the $5,000 6% 1-10-year (serial) street-improvement bonds described in V. 85, p. 1477, were awarded to the Struthers Savings & Banking Co. of Struthers at 103.26 and accrued interest—a basis of about 5.309%. Bonds are dated Nov. 15 1907.

**Troy, Miami County, Ohio.**—*Bond Sale.*—An issue of $1,900 5% improvement bonds was awarded on Dec. 28 1907 to O. W. Hathaway for $1,922 50 (101.173) and interest. A bid of $1,910 and interest was also submitted by the Troy National Bank. Denomination $100. Date Dec. 1 1907. Interest semi-annually in March and September. Maturity from 1908 to 1913.

**Upper Sandusky, Wyandot County, Ohio.**—*Bond Sale.*—On Dec. 28 1907 the $15,000 5% coupon sewer-construction bonds described in V. 85, p. 1478, were awarded to the Commercial National Bank of Upper Sandusky at 103.436 and accrued interest. The bids were as follows:

| | | | |
|---|---|---|---|
| Commercial Nat. Bank, Upper Sandusky | $15,515 50 | Provident Savings Bank & Trust Co., Cincinnati | $15,117 00 |
| Seasongood & Mayer, Cin. | 15,271 50 | W. R. Todd & Co., Cin. | 15,100 00 |
| First National Bank, Upper Sandusky | 15,238 50 | Otis & Hough, Cleveland | 15,085 00 |
| N. W. Harris & Co., N. Y. | 15,193 20 | Emery, Anderson & Co., Cleveland | 15,000 00 |

Maturity $5,000 on Dec. 1 1914 and $10,000 on Dec. 1 1915.

**Van Wert County (P. O. Van Wert), Ohio.**—*Bond Sale.*—On Dec. 28 1907 Lamprecht Bros. & Co. of Cleveland were awarded the $53,000 4% registered and refunding road-improvement bonds described in V. 85, p. 1419, at par and accrued interest. Maturity $1,500 each six months from March 1 1908 to Sept. 1 1911 inclusive, $2,000 each six months from March 1 1912 to Sept. 1 1915 inclusive and $2,500 each six months from March 1 1916 to Sept. 1 1920 inclusive.

**Westerville, Franklin County, Ohio.**—*No Action Yet Taken.*—No action has yet been taken in regard to issuing the $16,000 school bonds voted on Nov. 5 1907.

**West Unity Special School District (P. O. West Unity), Williams County, Ohio.**—*Bond Sale.*—This district has disposed of the $1,000 bonds for additional-school-grounds-and-improvements voted at the election held Nov. 5. See V. 85, p. 1357.

**Windsor Graded School District (P. O. Windsor), Bertie County, N. C.**—*Bonds Not Sold.*—No purchaser has yet been found for the $5,000 6% coupon graded-school-building bonds offered on Dec. 16 1907 and described in V. 85, p. 1478.

**Woodsfield, Monroe County, Ohio.**—*Bond Sale.*—We are advised that the $5,721 66 5% coupon North Street improvement assessment bonds offered without success on Nov. 18 1907 (V. 85, p. 1357) have been sold to the Monroe Bank of Woodsfield at par.

BONDS

To Whom It May Concern:
Take notice that the following numbers of the South Park Bonds of the issue of 1891, bearing interest at five per cent (5%), have been selected and retired by the South Park Commissioners in conformity with the law, for the annual Sinking Fund: 4, 8, 33, 43, 84, 108, 110, 121, 150, 172, 213, 226, 228, 231, 245, 299, 301, 311, 324, 345, 371, 388, 404, 415, 433.
Interest will cease on the above-numbered bonds February 1st, 1908.
Bonds and coupons are payable at the Illinois Trust & Savings Bank, Chicago, Illinois.

### *CLEARING HOUSE RETURNS.*

The following table, made up by telegraph, &c., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day have been $2,354,810,203, against $2,299,805,657 last week and $3,462,098,479 the corresponding week last year.

| *Clearings—Returns by Telegraph. Week ending January 11.* | 1908. | 1907. | *Per Cent.* |
|---|---|---|---|
| New York | $1,128,200,585 | $1,795,347,167 | —37.2 |
| Boston | 118,365,419 | 166,985,223 | —29.1 |
| Philadelphia | 95,607,661 | 123,372,809 | —22.5 |
| Baltimore | 20,344,004 | 25,440,686 | —20.0 |
| Chicago | 174,765,845 | 194,381,556 | —10.1 |
| St. Louis | 52,651,673 | 58,961,299 | —10.5 |
| New Orleans | 15,927,531 | 21,793,927 | —26.9 |
| Seven cities, 5 days | $1,605,862,718 | $2,386,282,667 | —32.7 |
| Other cities, 5 days | 349,974,861 | 442,476,923 | —20.9 |
| Total all cities, 5 days | $1,955,837,579 | $2,828,759,590 | —30.9 |
| All cities, 1 day | 398,972,624 | 633,338,889 | —37.0 |
| Total all cities for week | $2,354,810,203 | $3,462,098,479 | —32.0 |

The full details for the week covered by the above will be given next Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we got to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, Jan. 4, and the results for the corresponding week in 1907, 1906 and 1905 are also given. Contrasted with the week of 1907 the total for the whole country shows a loss of 30.9%. Outside of New York the decrease from 1907 is 19.9%.

| *Clearings at—* | *Week ending January 4.* | | | | |

## *THE FINANCIAL SITUATION.*

Two currency measures have made their appearance in Congress the present week. Senator Aldrich introduced his bill in the Upper House, while in the Lower House Congressman Fowler of the Banking and Currency Committee of that body submitted to the Committee a bill prepared by himself and which is understood to represent the result of the labors of a subcommittee which has had the matter of currency legislation under consideration since early in December. There seems to be a practical unanimity of opinion at Washington that the scope of the Fowler measure is so broad that there is not the remotest chance of its receiving Congressional approval. On the other hand, views are equally pronounced that the national legislative body can be got to endorse a measure on the order of the Aldrich bill. Indeed, the newspaper correspondents at the Capital intimate that the party leaders will concentrate all their energy in an effort to have the Aldrich bill pushed through both houses and made a law. We are told that in the House Speaker Cannon will lend his aid and influence to that end if the House Banking and Currency Committee should show undue devotion to its own scheme. Under these circumstances discussion must be limited to the Senate bill. In the matter of currency reform the question is not what we would like to have, but what we can get at the hands of our legislators.

It is to be said at the outset with reference to Senator Aldrich's bill that, unlike the Fowler bill, it is not an attempt to re-form or re-construct entirely our currency and banking system. That is the reason why it stands a much better chance of success. Its main purpose seems to be to make provision for special or emergency currency, available in times of stress or at special seasons of the year when the need for extra note issues is particularly urgent. With this purpose in mind, the bill provides for the creation of additional bank notes to a maximum of $250,000,000, to be secured in like manner as the existing notes, but by a different class of bond issues. United States bonds being clearly unobtainable, the national banks are to be allowed to take out these additional notes on a deposit with the Government of State and municipal bonds and of first mortgage bonds of dividend-paying railroads meeting certain requirements and conditions. None of our readers need be told that we regard a bond-secured currency as unscientific and opposed to sound principles of banking. But it is of no use arguing on that point. Our Congressmen seem to be unable to get away from the idea that to insure absolute safety the note issue must have tangible collateral behind it. This being so, there is nothing to do but accept the situation and determine whether the provisions for the issue of this additional currency are such as to insure the successful working of the scheme.

The issue of the additional notes will rest in the first instance in the discretion of the Comptroller of the Currency. He may approve the application—"if in his judgment business conditions demand such additional circulation and the condition of the association making the application warrants the issue." Obviously, this is vesting a large amount of discretion in that official and increases still further the almost despotic powers already possessed by the Treasury Department. He is also to determine the time of issue and fix the amount, within the limitations of the Act. The bonds to be deposited must "be approved in character and amount" by the Treasurer of the United States and the Secretary of the Treasury. And all acts and orders of the Comptroller and the Treasurer must have the approval of the Secretary of the Treasury. The notes are limited in amount to 75% of the market value of the bonds, as fixed by the Treasurer of the United States. A bank can only get the new notes if it has notes already outstanding secured by United States bonds to an amount of not less than 50% of its capital and has a surplus of not less than 20%. An innovation is that the total amount of notes of all kinds (both those based on United States bonds and those based on other securities) must not at any time exceed the amount of its unimpaired capital *and surplus*. At present, capital alone marks the limit.

But what provision is made for the retirement of the notes? Obviously that is a point of the highest importance and by which test the measure must stand or fall. The most serious defect in our existing bank-note arrangement is that it does not so work as to provide for contraction after there has been expansion. The Aldrich bill seeks to compel retirement of the new series of notes by levying a high tax on the same. The tax on the existing circulation is one-half of 1% per annum where based on 2% bonds and 1% per annum where based on United States bonds bearing more than 2% interest. The new notes provided for in the Aldrich bill are to be taxed one-half of 1% *each month*, which is at the rate of 6% per annum. Discussion of this part of the measure has developed two radically different shades of opinion. There are those who contend that there ought to be no tax at all. There are others who insist that only a high tax will insure quick return of the notes after they have served the special purpose for which they are to be issued. Among these latter persons, the only question is whether a 6% tax per annum will be sufficient to force retirement of the notes. Those who argue in favor of no tax at all contend that if this emergency currency is to be for use in crop-moving periods then the tax will fall ultimately upon the borrower.

But this objection cannot hold for a moment against the unassailable proposition that, except there be a tax, and a high one, the new notes would simply go out and stay out. Imagine a right granted to issue these added notes secured by city, State and railroad bonds without any tax being imposed for the privilege, or even with only a low tax imposed, such as now levied on existing notes. Even New York City is now issuing 4½% bonds and some of the securities to furnish a basis for the new bank-note circulation can be bought so as to net even higher returns. In the contingency mentioned every bank in the country would rush to get possession of some of the legalized securities and present them as a basis for new notes. With only a nominal tax, or no tax at all, there would be no inducement to call in the notes; for whatever interest the bank might be able to obtain by loaning out the notes would be just that much additional to the interest received on the bonds themselves deposited as security for the notes. It is even conceivable that new banks might be organized to avail of the new privileges granted. Thus there would be an enormous

expansion in the outstanding volume of notes, which could lead to nothing but a tremendous speculation in Wall Street and on the Stock Exchange, for there is where the additional notes would find ultimate employment. The following season, when the crop-moving period recurred, the interior sections of the country would be no better off than before; the additional notes having already gone out and remained out, would not again be available. To prevent such a possibility we should favor a graded tax, increasing with the length of time that the added notes were kept out. For instance, if the notes were used more than 60 days, it might be provided that the tax should be raised to 1% a month, and if more than 90 days to 1½% a month, and so on.

The Aldrich bill makes one other and highly important change. We mean that it removes all limit on the deposit of lawful money for the retirement of national bank notes. Prior to last March the aggregate amount of lawful money deposited by all the banks in the country for the retirement of notes could not in any month exceed $3,000,000. By the Aldrich financial bill of last year the limit was raised to $9,000,000 a month. It is proposed now to abolish the limit altogether. But does not this involve possibilities of some risks? And yet without such provision the whole scheme for a large emergency issue of notes necessarily falls to the ground. There are two ways of providing for the retirement of national bank notes. One is for the bank to present the notes itself and get back a proportionate amount of the bonds deposited as security for the same. The other is for the bank to deposit lawful money at Washington and thus get rid of the liability for the notes and secure a return of the bonds, the notes meanwhile remaining out. The latter is the usual process, since, the notes being scattered all over the country, it is not possible for the bank to gather them in. There has never been any limit upon the amount of notes that could be presented for redemption. The limit has been upon the deposit of lawful money, leaving the notes still outstanding.

Obviously, if we are to have an emergency issue of notes to an aggregate of $250,000,000, and desire that the notes should be driven back home after the special emergency which has called them into being has passed, it would be absurd to set a limit upon the retirement of the notes short of the aggregate amount put out. But suppose that 100 to 150 millions of these notes are issued in the autumn to help move the crops. When these notes have served their purpose, the banks, to get rid of the tax, will make provision for their retirement. They cannot get the notes themselves, for they may be in some hamlet 1,000 or 2,000 miles off; consequently, they deposit money instead for their redemption. Under existing law the deposit for the redemption of the notes must consist of "lawful money." In the case of the additional notes now provided, the deposit may be of "lawful money *or national bank notes*." but the effect in either event will be to add very largely to Treasury cash holdings. The Secretary of the Treasury will accordingly have further amounts of cash to put out in addition to his excess revenues, increasing still more his embarrassments and making him an even more important factor in the money market. It may be urged that the Secretary should retain the cash until the notes came in. We may be sure, however, that if he had so much cash, there would be a public clamor for him to put it out, especially as the redemption fund was, a few years ago covered into the Treasury as a miscellaneous receipt.

Furthermore, it must be remembered that some of the money deposited will necessarily consist of reserve money, and to the extent that it does it might prove embarrassing to our banking institutions. Precisely such a situation arose some years ago when the deposits of legal tenders reached such a large aggregate. It was this that induced the Legislature to fix a legal limit upon the aggregate of the deposits monthly. Obviously, if the Treasury should put the money out again after receiving it from the banks for the retirement of these special notes, then we would have the curious result that the special notes and the money for their retirement would both be out at the same time, and there would be no contraction at all. Evidently, this is a provision needing further safeguarding. The difficulty arises out of the absence of redemption bureaus. Even under our present system of note issues, greater elasticity might be possible if redemption bureaus existed, insuring prompt return of the notes to the issuers.

One other change proposed by this Aldrich bill we have room only to allude to. The last section of the measure provides that national banking associations located outside of reserve or central reserve cities, which are now required by law to keep a reserve equal to 15% of their deposits, shall hereafter hold at all times at least two-thirds of such reserve in lawful money. This would mean that banks of that class would be obliged to keep 10% of cash in their own vaults. At present it is obligatory to keep only two-fifths of the 15%, or 6%, in the shape of cash on hand.

---

The most important feature of the European situation this week was the easier tone for discounts at all the principal centres, with a reduction to 3½% in the official rate by the Bank of France. The open market or unofficial rates at London receded to 4½@4⅝%, at Paris to 3⅜% and at Berlin to 5@5¼%, against 5% at the British capital last week, 4@4⅛ at Paris and 6@6¼ at Berlin and Frankfort. Coincidently rates for call loans in the New York market declined to an average of 6%, with exceptional transactions as low as 2%; contracts for fixed periods on Stock Exchange collateral were more freely offered at nominal quotations for the season of the year, and there was an active inquiry for commercial paper, the market for which has been in a state of almost complete paralysis for nearly six months. The recession in discount rates abroad reflected the improvement in the situation in New York, as shown in the bank statement of last week, and the fall in money rates at this centre seemed to indicate the early extinction of all visible traces of the crisis of last year.

The fall in discount rates at London appeared to foreshadow an immediate further reduction in the official rate of discount by the Bank of England this week; no change was, however, made in such rate at the regular court of Governors on Thursday, though it is still expected that there will be a reduction at least to 5½% next week. Possibly then the Imperial Bank of Germany may reduce its rate, for the maintenance of its present figure of 7½% might so far affect the unofficial quotation as to militate against

the success of the new Prussian loan which will be offered this week.

The fact now foremost for consideration is that, as shown by the above statements, the European money markets have been almost restored to normal conditions; the question therefore is how will these markets be reimbursed for their enormous contributions to the requirements of our own. It seems to be expected, at least in London, that the gold which was so freely supplied to New York during the crisis will soon begin to return. A need for that gold appears to be indicated by the fact that in February the Bank of England will have to remit to Paris the $15,000,000 which the Bank of France advanced to that of England in November, when the situation became somewhat acute. This was due to the continued withdrawals of gold for shipment to New York. It is announced that the India Council will soon issue a loan of £5,000,000 bearing 3½% interest, presumably for internal improvements; the requirements of Egypt, South America and Chili may thereafter be large, and the absorptions of English capital for these and other purposes may be so great as to offset accretions from South Africa and the principal sources of supply. It seems quite conceivable that when applications for loans in the London market, which were deferred during our crisis, shall be renewed, there will be an urgent demand for capital, contributing to maintain rates for discounts in London at such figures as will attract gold from New York and thus realize present expectations of a reflux of the metal. If, coincidently, money rates in New York should rule low, or at figures which will make exports of gold to London profitable, there might be a free return movement of the metal. Therefore it would appear that relative money rates in New York and discounts abroad would be controlling factors in the international movement of the metal.

It is announced by the Prussian Minister of Finance that on Jan. 14 subscriptions will be invited to a new loan for 75 million dollars; the subscription price will be 98½. Interest for the first ten years will be at the rate of 4%; for the next five, 3¾%, and thereafter 3½%. Allotment certificates will not be negotiable until after Dec. 31 1908.

An incident of the week illustrative of the effects of the crisis upon the trade in luxuries was the temporary embarrassment of four of the largest diamond importers in this city, with liabilities of $4,500,000 and assets of $6,250,000, the latter consisting of diamonds and other gems, upon which realization was impossible, owing to the depression in this class of business. The affairs of the importers were placed in the hands of trustees for liquidation.

Another incident of a similar character was the reported extension of financial aid, amounting, it is said, to $3,000,000, to a New York dry goods establishment, thus, it is represented, averting a serious crisis in the mercantile situation through the opportunity which is now offered for the resumption of the active negotiation of mercantile paper.

---

The completed abstract of the condition of the national banks as of Dec. 3 1907 was recently issued by the Comptroller of the Currency. The aggregates make a much better showing than had been anticipated in many quarters. Currency derangement (now almost removed) and monetary tension fostered such discouraging ideas as regards almost all banking institutions that the returns of condition of the national banks was looked forward to with misgivings by many. Happily that forecast has not proved to be correct. Moreover, it has not been necessary to await the completed statement to be assured of that fact, the reports for individual cities and States made public from day to day during December having furnished quite convincing evidence of a generally sound condition.

In times such as those we have recently experienced, some less conservatively managed financial institutions are bound to feel the strain more than others, and be temporarily forced to the wall, and in isolated instances the result is permanent stoppage of business. But the banking system of the country as a whole, and especially that portion of it under national supervision, is undoubtedly sound. The recent disturbed conditions forced a few institutions to close their doors. In some cases this has been the means of bringing to light practices that never should have obtained in banking circles, and for the full elimination of which steps are now sure to be taken.

As already stated, the condition of the national banks on Dec. 3, as disclosed by the reports to the Comptroller, was better than generally expected, and to that extent has materially assisted the restoration of confidence in financial and mercantile circles. Naturally, the growth in number of banks since the date of the last previous call (Aug. 22) has not been as rapid as during any of the recent intervals between calls, but there has been noticeable growth, and mainly, if not wholly, in localities where banking facilities were most needed. In the volume of loans of all the banks there is a moderate contraction from the record total of Aug. 22, and the present aggregate is slightly lower than the total of May 20 1907; all earlier periods are, however, exceeded. It is to be noted at this juncture that, whereas in almost all sections outside of New York a greater or less pruning of loans has been in progress, the total reported by the banks of this city is appreciably greater than it was in August and shows a moderate excess over the May aggregate. Deposits of bonds with the Government to secure circulation show a decided increase over Aug. 22, or any prior date, the amount standing at over 619 millions of dollars, against which 611 millions of dollars in bank notes had been issued, of which 601¾ millions were in circulation Dec. 3. The increase in circulation since the date of the previous call has, therefore, been 50 millions of dollars, which in connection with the large importations of gold during the same period and the important increase in Government deposits in the banks has helped to restore normal monetary conditions. The larger Government deposits are reflected in the great increase ($115,000,000) in the amount of bonds turned in to secure them.

The greatest decrease shown from the aggregate of Aug. 22 is in the item of individual deposits, the total for all the national banks on Dec. 3 standing at $4,176,873,717, against $4,319,035,402 on the earlier date. But even that decline of approximately 142 millions is decidedly moderate considering the distrust prevailing during much of the interval. As in the case of loans, the New York City banks in-

creased their volume of deposits noticeably between August and December.

In actual banking capital the national institutions make a better showing than ever before in their history. Through the organization of new banks or increased capitalization of old institutions capital was augmented by 5 million dollars between Aug. 22 and Dec. 3 and at the same time surplus funds expanded about 1¼ millions and undivided profits 14 millions. These three items combined, therefore, stood at 1,652 millions on Dec. 3, which compares with 1,631 millions Aug. 22 1907 and 1,535 millions Nov. 12 1906.

Probably the greatest concern has been felt as to the condition of the reserves of the banks. It was to be expected that at many of the important centres the maintaining of reserves at or above the required percentage would be impossible. Such has been the case, but we are pleased to note that in no instance is the deficit reported so serious as to call for adverse comment. Of the reserve cities, where 25% of the net deposits is required, twenty-one report amounts under the requirements, but in most cases the deficit is small. The remaining cities held on the date mentioned reserves in excess of the amount required, and in some instances notably so.

---

The figures collected by a Chicago journal showing the most prominent private gifts to public purposes, and indicating that the past year has been the most remarkable yet in beneficence, are certainly pleasant reading after we have been so long regaled with exposures of the wickedness of accumulation. Yet these figures are liable to be too little noted, for human nature seems to be more attracted by ill news (or what appears to be such) than by good news. The total of these contributions is about 149 millions. Mr. Carnegie, renowned as a giver, is credited with a little over 13 millions; Mrs. Russell Sage, with as much more; and Mr. Rockefeller with about 44½ millions, in which the unprecedented gift of 32 millions to the General Board of Education stands as chief.

The largest donations in this list are veritable and were made public at the time. The list is not necessarily to be accepted as correct throughout, and it is certainly not complete; but the moral, speaking economically, is distinct. However lofty or lowly the motives may be, the fact is that holders of large wealth are more and more treating it as a trust and more and more inclined and endeavoring to do public good with it. It is certain that capital cannot be threatened and cajoled at the same time, for persuasion and force are incongruous; reliance may be placed upon either, but it will be vain to expect both to be operative together. To treat accumulation as a presumption of wrong and keep it on the defensive, or (as extreme hostility would like to have it) "on the run," tends to make that expression true, for capital—free capital at least, which is what we most need to persuade—always has two courses open to it; to hide or to run. Hostile legislation has given recent examples by driving fire insurance out of Arkansas and life insurance out of Texas and Wisconsin. No public policy could be worse than to press capital to look for hiding places at home or to fly from home to kinder lands. If the notion which has been so much taught of late, most honestly expressed by the blunt assertion that property is robbery, were not detrimental otherwise, the fact that it tends towards drying up the stream of private beneficence would be enough to condemn it.

---

The attempt to suppress by legislation the trading in futures or options on the Cotton Exchanges of the country has again been the subject of discussion the current week, owing to some pointed remarks on the matter by Mr. J. A. Taylor, President of the National Ginners' Association. Mr. Taylor, being a cotton grower himself, cannot be accused of being inimical to planters' interests, and his statement, therefore, should receive the close consideration of all those who have the material welfare of the South at heart. He reprehends strongly any legislation having for its purpose the prohibition of dealings in futures, and as an example of the harm possible to be worked by such a law cites the experience of German growers of grain under conditions similar to those the cotton planters would now bring about. His argument against the bill pending before Congress is so forceful and convincing that we give it space to-day in our cotton department.

It is not too much to say that no one thing has so thoroughly helped the cotton interests of the country as the Exchanges, which are now (and have been ever since the farmers' unions have gained prominence) the object of adverse attack. They have facilitated the movement of the crop from the producer to the consumer, and by the dissemination of news collected have enabled planters to keep in touch with the situation and secure full market value for their produce. As Mr. Taylor points out, speculation or dealing in options, far from being an evil, is a necessity, and the benefit is largely to the cotton grower. And yet there is a large element at the South which aims to shut up the Cotton Exchanges, thinking probably that with them out of the way, and important daily sources of information as to the crop and markets eliminated, it may be possible to fix prices wholly regardless of the supply and demand for it. While hostile legislation is not much apprehended at this session, those interested in cotton matters will be well repaid by a careful reading of what Mr. Taylor has to say.

---

As was expected, the "Iron Age's" figures of pig iron production show a tremendous falling off this time. Following the financial cataclysm in October and November there was a general blowing out of furnaces, and naturally this is reflected in the production statistics for December. Altogether, the make of iron in the 31 days of December reached only 1,234,279 tons, against 1,828,125 tons in November and 2,336,-972 tons in October. By far the larger part of this great contraction is accounted for by the decrease in the iron output of the steel companies. These steel companies, when the panic came, and the demand for the various products of iron and steel at once dwindled away, immediately practiced curtailment in all directions. They made altogether only 659,459 tons of iron in December, against 1,084,114 in November and 1,514,521 tons in October. The December product, it will be observed, was not much more than 40% of the October output. The merchant furnaces, of course, have also sharply curtailed their output. Altogether, the weekly capacity of the combined furnaces was only 232,652 tons Jan. 1 1908, against

511,397 tons per week Oct. 1 and 507,397 tons Jan. 1 1907. As the "Age" puts it, the capacity of the active furnaces Jan. 1 1908 was only about 45% of the average for the four months preceding November. Of course, these figures furnish no clue to the probable situation in the near future. As yet, there is no evidence of a return to normal conditions, but it may be that the revival will come sooner than generally expected. The policy thus far pursued by the iron makers has been that it is wiser to meet changed conditions rather than continue in the hope of early betterment and pile up stocks of iron. When the revival does come it will find the markets bare and recovery, consequently, will be rapid.

---

With the exception of the Bank of France, which reduced its rate to 3½%, there was no change in official rates of discount by any of the European banks this week, though the easier unofficial rates, at the principal centres, in the middle of the week, seemed, as already stated, to indicate a reduction in the official figures, at least at London. Some disappointment was felt, earlier in the week, at the failure of the Imperial Bank of Germany to reduce its rate in view of the fact that the Prussian loan negotiation was pending, which would seem to make desirable the establishment of a reduced official rate of discount in order to facilitate such negotiation; possibly, though, the German Bank rate will be reduced next week.

The striking feature of the statement of the New York Associated Banks last week was a reduction in the deficit by $8,660,800, to $11,509,550. Loans were contracted by $14,822,600, cash increased $8,045,900 and deposits were reduced $2,450,600. Excluding from the deposits $76,310,800 of public funds, a surplus reserve of $7,568,150 is shown.

---

The above disclosure by the statement of the associated banks of an important reduction, following that in the previous week, in the deficiency in reserve, seemed to encourage expectations of the speedy extinction of nearly all visible traces, in the New York money market of the late crisis. Money on call loaned at normal rates for the season; loans on time on stock collateral were effected at reasonable quotations as the result of liberal offerings, and there was a decided improvement in the demand for commercial paper. Banks in the New England States no longer required the stamping of checks "payable through the Clearing House"; in some of the smaller cities of the West, where banks had issued loan certificates, such certificates were retired, and it was expected that similar action would soon be taken by clearing houses at all the larger cities in the West, now that Chicago banks are settling balances in cash. There appeared to be evidence in the increase in cash shown by the preliminary estimates of the bank statement that considerable amounts of money had been remitted hither from the West and elsewhere during the week, and it was thought probable that the paralysis in inland exchange, which has prevailed since the crisis developed, would soon be entirely relieved.

Money on call, representing bankers' balances, loaned at the Stock Exchange during the week at 9% and at 2%, averaging about 6%; banks and trust companies loaned at 4% as the minimum. On Monday loans were at 9% and at 4% with the bulk of the business at 6%. On Tuesday transactions were at 9% and at 5½% with the majority at 6%. On Wednesday loans were at 7% and at 2% with the bulk of the business at 6%. On Thursday transactions were at 5½% and at 4% with the majority at 5½%. On Friday loans were at 6% and at 3½% with the bulk of the business at 5½%. Time loans on good mixed Stock Exchange collateral were more freely offered than has been the case since the crisis began to develop, and it is noteworthy that while the offerings were comparatively meagre by local institutions, they were quite liberal by those in the interior. The demand was, however, not urgent, partly because borrowers were disposed to await concessions in rates, and in part for the reason that commission houses are not encouraging operations by their clients on margin, and therefore their requirements for time money are small. Quotations are 6½% for sixty and 6% for ninety days and business at the last-named rate was effected for six months. There was a more active market for commercial paper, which fact is important because hitherto mercantile borrowers have been compelled to negotiate such paper at much disadvantage not only submitting to high discounts but being required in some cases to pay large commissions for effecting its disposition. The inquiry .this week seemed to be general and local institutions were not only in the market, but many of the banks in the interior were among the largest buyers. The rate quoted was 7½% for the best names, though there were many and important transactions at 6¾%; these were confined to single names running from four to six months. It is noteworthy that short-term collateral notes are not in demand, owing to the increase in railroad receiverships.

---

The Bank of England rate of discount remains unchanged at 6%. The cable reports discounts of sixty to ninety-day bank bills in London 4½@4⅞%. The open market rate at Paris is 3½% and at Berlin and Frankfort it is 5@5¼%. According to our special cable from London, the Bank of England gained £2,227,746 bullion during the week and held £34,771,408 at the close of the week. Our correspondent further advises us that the gain was due largely to receipts from the interior of Great Britain. The details of the movement into and out of the Bank were as follows: Imports £921,000 (of which £25,000 from Australia and £131,000 from Singapore and £765,000 bar gold bought); exports, *nil*, and receipts of £1,307,000 *net* from the interior of Great Britain.

---

The foreign exchange market was irregular this week, with long sterling firm, in consequence of lower discounts in London, and short sterling quiet and steady because of a light demand, owing to preference being given by remitters to Saturday's instead of to Thursday's mail steamer—the Lusitania, sailing on the first-named day, being expected to deliver her mails in advance of those by the French steamer, sailing on Thursday. After the demand for remittance by Tuesday's mail had been satisfied, the market was dull, growing a little more active on Wednesday and then becoming quiet until Friday. The inquiry for cables was small and the tone, therefore, was heavy. There was no evidence of speculative operations in exchange during the week, the uncertainty

regarding official discounts discouraging such ventures. The demand for remittance appeared to be chiefly on account of maturing obligations and also interest and dividends. There were a few transactions in loan bills to take advantage of the resumption of activity in the time loan branch of the money market.

The arrivals of gold from Europe during the week amounted to $3,600,000, making the total thus far on the movement 100 millions. No engagements of the metal for New York were effected; the Bank of England secured nearly the whole of the Cape gold that arrived in London on Monday, after which the price of gold bars fell to 77 shillings 9½ pence per ounce.

The market was dull and firm on Saturday of last week, and, compared with the previous day, long fell 35 points to 4 8035@4 8040, short rose 30 points to 4 8530@4 8540 and cables 20 points to 4 8630@4 8635. On Monday, after opening firm, there was a decline due to a light inquiry, but long closed 40 points higher at 4 8075@4 81, short 30 points at 4 8560@4 8565 and cables 5 points at 4 8635@4 8640. On Tuesday long rose 25 points to 4 81@4 81¼, short fell 10 points to 4 8550@4 8560 and cables 30 points to 4 8585@4 8610. On Wednesday long was unchanged, short was 10 points higher at 4 8560@4 8570 and cables rose 15 points to 4 86@4 8610. On Thursday long rose 25 points to 4 81¼@4 81½ and cables 5 points to 4 8610@4 8615. Short fell 20 points to 4 8540@4 8550.

The following shows daily posted rates for sterling exchange by some of the leading drawers:

| | | Fri., Jan. 3. | Mon. Jan. 6. | Tues., Jan. 7. | Wed., Jan. 8. | Thurs., Jan. 9. | Fri., Jan. 10. |
|---|---|---|---|---|---|---|---|
| Brown Bros. & Co | 60 days | 4 80½ | 80½ | 80½ | 80½ | 80½ | 82 |
| | Sght | 4 86½ | 86½ | 86½ | 86½ | 86½ | 86½ |
| Kidder, Peabody & Co | 60 days | 4 81 | 81 | 81 | 81 | 81 | 82 |
| | Sight | 4 87 | 87 | 87 | 87 | 87 | 86½ |
| Bank British North America | 60 days | 4 81 | 81 | 81 | 81 | 81 | 82 |
| | Sight | 4 87 | 87 | 87 | 87 | 87 | 86½ |
| Bank of Montreal | 60 days | 4 81 | 81 | 81 | 81 | 81 | 81 |
| | Sight | 4 87 | 87 | 87 | 87 | 87 | 87 |
| Canadian Bank of Commerce | 60 days | 4 81 | 81 | 81 | 81 | 81 | 81 |
| | Sight | 4 87 | 87 | 87 | 87 | 87 | 87 |
| Heidelbach, Ickelheimer & Co | 60 days | 4 80½ | 80½ | 80½ | 80½ | 80½ | 82 |
| | Sight | 4 86½ | 86½ | 86½ | 86½ | 86½ | 86½ |
| Lazard Freres | 60 days | 4 80½ | 80½ | 80½ | 80½ | 80½ | 82 |
| | Sight | 4 86½ | 86½ | 86½ | 86½ | 86½ | 86½ |
| Merchants' Bank of Canada | 60 days | 4 81 | 81 | 81 | 81 | 81 | 81 |
| | Sight | 4 87 | 87 | 87 | 87 | 87 | 87 |

The market closed on Friday at 4 8140@4 81½ for long, 4 8550@4 8560 for short and 4 8600@4 8610 for cables. Commercial on banks 4 80¾@4 81 and documents for payment 4 79¾@4 80¾. Cotton for payment 4 79¾@4 80; cotton for acceptance 4 80¾@4 81 and grain for payment 4 80⅝@4 80¾.

The following gives the week's movement of money to and from the interior by the New York banks.

| Week ending Jan. 10 1908. | Received by N. Y. Banks. | Shipped by N. Y. Banks. | Net Interior Movement. |
|---|---|---|---|
| Currency | $14,341,000 | $3,387,000 | Gain $10,954,000 |
| Gold | 3,100,000 | 679,000 | Gain 2,421,000 |
| Total gold and legal tenders | $17,441,000 | $4,066,000 | Gain $13,375,000 |

With the Sub-Treasury operations and gold imports the result is as follows.

| Week ending Jan. 10 1908. | Into Banks. | Out of Banks. | Net Change in Bank Holdings. |
|---|---|---|---|
| Bank's interior movement, as above | $17,441,000 | $4,066,000 | Gain $13,375,000 |
| Sub-Treas oper. and gold imports | 29,100,000 | 30,100,000 | Loss 1,000,000 |
| Total gold and legal tenders | $46,541,000 | $34,166,000 | Gain $12,375,000 |

The following table indicates the amount of bullion in the principal European banks.

| Bank of | Jan. 9 1908. Gold. | Silver. | Total. | Jan. 10 1907. Gold. | Silver. | Total. |
|---|---|---|---|---|---|---|
| | £ | £ | £ | £ | £ | £ |
| England | 34,771,408 | | 34,771,408 | 31,654,000 | | 31,654,000 |
| France | 106,973,529 | 36,621,460 | 143,594,989 | 106,295,840 | 39,555,240 | 145,851,080 |
| Germany a | 29,702,000 | 8,232,000 | 37,934,000 | 28,300,000 | 7,843,000 | 36,143,000 |
| Russia d | 117,235,000 | 5,443,000 | 122,678,000 | 117,580,000 | 4,685,000 | 122,265,000 |
| Aus.-Hun b | 45,808,000 | 11,729,000 | 57,537,000 | 46,433,000 | 11,780,000 | 58,213,000 |
| Spain | 15,663,000 | 25,692,000 | 41,355,000 | 15,428,000 | 24,186,000 | 39,614,000 |

| Tot. prev. | 403,048,105 | 98,163,389 | 501,211,494 | 389,997,239 | 99,605,427 | 489,602,666 |

a The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver; but we believe the division we make is a close approximation.

b The Austro-Hungarian Bank Statement is now issued in Kronen and Heller instead of Gulden and Kreutzer. The reduction of the former currency to sterling Pounds was by considering the Gulden to have the value of 80 cents. As the Kronen has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to Pounds has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20.

d The total of gold in the Bank of Russia includes the balance held abroad—that is, the amount held for Russian account in other Continental banks. The proportion so held and consequently duplicated in the above statement is about one-quarter of the total.

h Excluding foreign gold bills.

## *THE NEED AND OPPORTUNITY FOR AN OPPOSITION PARTY.*

The form in which the projectors of the dinner at the National Democratic Club on Wednesday evening cast their theme was perhaps not the most felicitous that could be, but the discussion itself was most timely and ought to be of value to all persons who have higher ends than mere selfish personal ones to serve. The question why the Democratic Party is divided can readily receive one of those answers which are none the less correct and helpful because they at once suggest counter questions; the plain reason for lack of union seems to be the lack of leadership and the recent habit of trailing after some man instead of being committed to some sane specific principles and going whither adherence to those carries it.

We feel sure that any intelligent man, whatever the stripe or intensity of his partisanship, will admit within himself (even if he shrinks from confessing it to others) that one of the most persistent misfortunes which can befall a country possessing representative government is the lack of a real Opposition. We write the word with a capital O, because such an Opposition is not factional or partisan; it does not merely "view with alarm" this and that, in the worn phraseology of campaign platforms; it consistently has policies of its own, instead of seeking its capital in the blunders of the other party; when out of power, it does not factiously try to put the other "in a hole," but seconds all measures of real public merit; and when the case is again made up for the electors, it offers some change of policies rather than a mere change of men and a housecleaning exposure.

When the party now so long dominant came into being, a half century ago, it was moved by the single policy of opposition to further slavery extension, the objects usually professed being subordinate. The admirable name chosen for it agreed with the unquestionable fact that, in the stress of a great emergency, it sought public ends unselfishly, as far as a political party can ever do so. It did begin, and for a term about which opinions might vary, it remained a party of great moral ideas. But long tenure and the lack of a calling to account are too much for human nature, whether individual or in association. The end and the means inevitably get transposed, and instead of viewing and keeping a party the instru-

ment for carrying out really public policies, the policies become the means for keeping the party in place. Name does not signify; the composition of the organization and the impulse that began it do not avail; if not held in check by an Opposition so humanly wise, so sane in conduct when out of power, and so nearly equal to the other in public estimation that the issue of the forthcoming elections is uncertain, a party in continuous power gradually gives to itself what belongs to the country and declines in public service. This becomes more true in a country growing as ours has been in size and wealth and where the Government has been vastly expanding its powers, the latter, doubtless, being itself largely a product of this long unbroken tenure.

The causes which kept the Democratic Party out after its downfall in 1860 took a long time to expend their force, and we need not dwell upon them. But it would be absurd to pretend that any such Opposition as above referred to has existed in the country in at least a quarter-century past, or that the dominant party, notwithstanding the surprise of interruption for two terms, has been greatly held in check in its conduct of the Government by fear of overthrow at the polls. Surely the man must be either very dull or bitterly partisan who will not admit, at least to himself, that in his letter read on Wednesday evening, Mr. Cleveland was largely, if not entirely, correct, and also moderate in language, when he declared that the country now "needs conservatism, recuperation from nervous prostration, reinstatement of constitutional observance, buoyant, but none the less safe and prudent, Americanism, scrupulous care of every person and every interest entitled to care, and 'a square deal' that means exact and honest equality before the law and under constitutional guaranty." If platforms are once more to express real principles instead of glittering generalities that can be interpreted as convenient, will any man deny that the above is a platform for the times, party names being put out of sight as empty trifles?

Men vary in aftersight as in foresight, meaning by the former term the ability to discern promptly and clearly the causes which have produced undesirable occurrences. But the undesirable events of the past few months and the outlook which succeeds them have come naturally out of certain courses of legislation and administration which have been pointed out over and over. The "Chronicle" has been predicting what required no gift of prophesy to foresee and no extraordinary prudence to avoid. Of course we shall not go over the ground again at present; those who do not see the lesson of events cannot be made to see. Suffice it that there is probably an increasing recognition of the need which Mr. Cleveland states, for if the uses of adversity are sweet, they can be so only because they make the vision keener, stir energy to action and give the reins to prudence. It seems just to doubt whether the rate-reduction laws which have been multiplied in the last two years would make any headway, much less run from State to State, if they came up now as a new proposition; indeed, there are signs of returning reason in this matter, shown, for example, in the call for a special session of the North Carolina Legislature for Jan. 21 expressly to repeal or review its hasty action. It is hardly a mere figure of speech to say that for several years past we have been attacking our own homes and wounding our own selves, in the delusion that we were battling against a devouring monster, and that we are now gradually discovering that the monster is imaginary and the attack is coming home. It is not too late to avert the consequences; and to suppose that we Americans, who have so often given evidence of ability to face about quickly in political matters, cannot realize a dangerous situation before it becomes fixed, would be undeserved reproach.

Nobody is keen enough to divine the possible turns in the next five months; yet it seems to us that the signs show an increasing opportunity and call for the note of conservatism. It is far from hopeless that the Chicago Convention will announce a policy which shall at least turn in the right direction and name a man who will himself be a platform that can be considerably trusted; but however that Convention may act after the cross-movements for persons have spent themselves, there is the loudest call for sanity and wisdom at Denver. If the opportunity for that is far behind the need, perhaps it will grow in the next few months. Therefore every intelligent man ought to hope that the meeting of Wednesday will prove to have sounded a note which shall draw wide response. Even Republicans who are not quite blinded by partisanship ought to concur in this hope, for if the dominant party continues so (as the outlook to-day indicates that it will), the well-being of that party, as well as of the country, will be served by having the Democratic Party, which has held its name and organization in such a phenomenal manner against reverses, rehabilitated and made into the Opposition so long needed.

## *A BRITISH STATESMAN ON INTERNATIONAL RELATIONS.*

The changing attitude of the great powers toward one another, to which we have made frequent reference in the past, has been set forth with great clearness in a recent public speech by Sir Edward Grey, Great Britain's Secretary of State for Foreign Affairs. Briefly summed up, the gist of Sir Edward's speech was that the Government is convinced of the people's cordial endorsement of its policy of friendliness to all other nations; that it entertains to-day no feeling of jealousy .towards any other State; that the Anglo-French treaty has created a friendship between the two peoples such as has not existed in two centuries; that the formal agreements already made by England with certain foreign Powers were not exclusive of other Powers, but on the contrary were designed as an indirect invitation to similar treaties of friendship with them; that the sacrifice of its own imagined policies made by Great Britain in its treaties with France and with Russia gave up nothing that was of any value, and that, in short, the prospect for international peace rests to-day on better grounds than at any time in the very long past.

In saying all this, the British Foreign Minister merely expressed a judgment which is familiar to readers of these columns. The speech suggests again, however, some reflections on the general question, not alone of why there should be no friction and no war between the different Powers at this time, but of why such conditions should exist at any time. International collisions of this sort are, and always have been, based, so far as we are aware, on two grounds—one, that the

interests of a given nation were imperiled by the policies of another, forcing defensive or offensive action; the other, that a state of armed hostility and constant quarreling was the natural condition of world-policies.

The second of these arguments has received support, conscious or unconscious, in very high quarters, notably in the constant and tiresome argument which has been heard in our own land regarding the individual virtues which are cultivated as a result of war. For our own part, we must confess our feeling that this assumption of fighting as the normal relation of civilized States reduces mankind to the level of the lower animals. Even in the canine species, one sometimes feels irritation at the constant disposition of the animal to attack neighbors or chance acquaintances of his own kind; but for dogs we make allowances. They at least have not been educated up to a higher plane of ideas by the influences of civilizations and of the Christian religion. But to apply .to mankind the same excuses as to the lower animals in a matter of this sort, and to apply them in such a way as to indicate that a policy of mutual attacks may be a merit, has always seemed to us to border on the preposterous. No doubt the manly virtues of courage and endurance may be cultivated in a military campaign as they would not be elsewhere; but the same argument was urged for the now obsolete duel, and we suppose that similar qualities might be cultivated by a collision of high-spirited young men with the police. We have sometimes wished that these other analogies might have been reasoned out by the advocates of war as an inspiration to nobility of character.

When, however, we consider the more serious question of war or international defiance as a result of invasion of one Power's rights or interests by another, there is a field for more intelligent discussion. It is our judgment that, when the whole world's situation at the present time is surveyed, it will be found that this motive for disturbed relations between the Powers is of slighter importance now than at any previous time in very many years. It is not long since the questions of the so-called partition of Africa and Asia threatened to create such formidable differences of opinion between the Powers as could be settled only through the arbitrament of war. To-day, both of these influences have disappeared through the force of events or through the operation of peaceable diplomacy. The same thing may be said of colonial enterprise in general, which not long ago was described as certain to bring on collision between the colonizing Powers. What now appears evident is that the several Powers have on their own hands about all that they individually care to undertake in such directions, and that they are only too glad to leave the responsibilities which now exist on the shoulders which sustain them. Nothing could more clearly have demonstrated the truth of this assumption than the recent attitude of Germany toward the dispatch of French troops to Morocco to preserve order in that unsettled protectorate. The irritation between England and Germany, which for half a dozen years ill-judged partisans on both sides have attempted to stir up through trade jealousies, has practically subsided. If it had not done so for other reasons, the movement of reaction which has overtaken the whole world's trade would have served the purpose.

England and France have come to recognize that their mutual hostility, long accepted as an inevitable state of things, is a tradition which, on analysis, has no better foundation than the fact that the two nations once fought for a couple of centuries over the hereditary rights of sovereigns, in which the people had but the slightest imaginable interest. England would not, if it could, bring back the period when the British kings claimed a slice of Northern France as their hereditary dominion, and we very much doubt if France has any longings left for the empire of Napoleon, which cost the French, in blood and treasure, an expenditure which they were half a century in recovering from. There is left, then, only America and Japan, regarding which States the same class of busybodies have been frantically endeavoring to persuade the world that a ground of inevitable conflict exists. To the argument that a nation which, like the United States, is sick of its colonial possessions, would hardly be disposed to encourage war for the sake of increasing them; and that a nation which, like Japan, is finding the greatest difficulty in reducing its own outlying possessions to order, would scarcely jeopardize its prestige and credit for the purpose of incurring fresh responsibilities of the kind, no answer can ever be obtained from such people. This being so, it certainly seems reasonable to rest one's conclusions on the official statement of the relations of the two States, as it comes from Washington and Tokio.

There is, besides, as we have heretofore intimated, an argument against international war which has not existed in the recent years of easy credit and abundant public revenue. If the two or three wars of the last decade have taught anything, it is that war is nowadays an enormously expensive business, and that the future may witness, if international fighting is to go on, some powerful State which will meet defeat and humiliation because it cannot raise the money to complete its campaigns, or some other which will win the victory and bankrupt itself in so doing. Such considerations as these might perhaps be easily dismissed if the money markets of the world were open to borrowing nations on the comfortable terms of a few years ago. When, on the contrary, the cry of the day is for retrenchment and reduction of both private and public expenditure, the argument has a weight which it could not enjoy under other conditions. We do not suppose that at the present time, in any of the greater commercial communities, there is an individual, a corporation or a city which is not considering with more or less concern the problem of retrenchment. It will hardly be imagined that similar pressure is not applied by existing circumstances to those who manage the affairs of nations. The time has long passed when a difficult fiscal problem could be solved by recourse to a foreign war. In these days credit resources must be insured before, not after, the outbreak of such a conflict, otherwise the victory is very apt to go to the State which has not neglected to provide itself with the means of conducting a long campaign. But this, in turn, means that the investor, the banker and the money market, whose interests lie wholly in the direction of maintaining peace, possess to-day a restraining power over hot-headed, scheming or ambitious statesmen, such as they have never before enjoyed in history.

*THE DECISION REGARDING THE FEDERAL EMPLOYERS' LIABILITY LAW.*

The decision rendered on Monday of this week by the U. S. Supreme Court at Washington in the cases involving the constitutionality of the Act of Congress approved June 11 1906, known as the Employers' Liability Act, and which undertakes to make railroads responsible in damages for injuries to employees, even where the accident is the result of the employees' own carelessness or that of fellow employees, appears to settle certain points clearly and satisfactorily. It, however, apparently also leaves still other points open and in doubt. The Act is declared unconstitutional, but by a divided court and by a narrow majority. The majority vote, holding the statute invalid, is made up of five members of the Court, and comprises Justice White, who wrote the majority opinion; Justice Day, Chief Justice Fuller, Justice Peckham and Justice Brewer. The minority vote embraces the other four members of the Court, namely Justices Moody, Holmes, Harlan and McKenna. The first two of these four members of the minority are appointees of President Roosevelt, who has been so strenuously advocating the principle embodied in this law; Justice Moody, moreover, as Attorney-General in Mr. Roosevelt's Cabinet, at the direction of Mr. Roosevelt actually intervened in the first case tried under this very statute.

To further complicate the situation, sharp differences of opinion are revealed among the members of both the majority and minority. Justice Day seems to agree with Justice White on all points, but Chief Justice Fuller and Justices Peckham and Brewer concur only in the result, and reach their conclusion as to the unconstitutionality of the Act by a different method of reasoning. Among the minority, Justice Moody is apparently the only one who upholds the constitutionality of the Act on all points, and such an outcome in his case cannot be deemed strange, considering how deeply he must have become imbued with President Roosevelt's ideas while a member of his Cabinet. Justices Harlan and McKenna unite in a dissenting opinion affirming the constitutionality of the Act, and Justice Holmes writes a separate dissenting opinion stating his own views. Altogether, no less than five opinions have been handed down in this matter, which undoubtedly constitutes one of the most important controversies that have come before the Court in a long while—two of these opinions coming from the majority of the Court and three from the minority.

Until all the opinions have been printed and there has been time to digest them, and to study the same in all their bearings, it will not be possible to form an altogether reliable judgment as to the standing of the Court on all phases of the great issues of the day that came up, directly or indirectly, for consideration in the present adjudication. At the moment we have only the newspaper digests to go by, and these deal mainly with the majority opinion. Still, though the extracts from this opinion are not very extended, they make it clear that certain points, as already stated, may be regarded as having been certainly and definitely established. The distinction, however, between the matters thus settled and those concerning which we are still left in doubt must be clearly borne in mind. In any consideration of the character of the measure, three points of objection came up. In the first place, the Act did not undertake to distinguish between services rendered in inter-State commerce and services connected with commerce wholly within a State. If the law had been upheld, it would have inevitably followed that a carrier on the whole of its traffic, both State and inter-State, would have been subject to the authority of Congress, simply because on a part of its traffic it might have been engaged in inter-State transportation.

A second point which came up was whether the commerce clause of the Federal Constitution, giving to Congress power to regulate inter-State commerce, could be construed as giving it the right to regulate the relations between the carriers and their employees. The Circuit Judges in the two cases which reached the U. S. Supreme Court on appeal—both holding the Act unconstitutional, and which judgment the Supreme Court now affirms (the Circuit Judges in three other cases declared the Act constitutional)—were strongly of the opinion that the commerce clause could not be stretched in that way. These two cases were those of the administratrix of the estate of Morris S. Brooks vs. the Southern Pacific Railroad Co. decided by Judge Evans in the Federal Court at Louisville, and that of Damselle Howard vs. the Illinois Central Railroad, decided by Judge McCall in the U. S. District Court at Memphis. Both decisions were rendered just about a year ago and commented upon by us at the time. In the one case damages of $20,000 were demanded from the railroad and in the other case $25,000.

There was a third objection to the statute, perhaps the most serious one of all. It changed entirely the old common-law rule of the relations between master and servant. Under this common-law principle—which still controls in most of the States, we believe, owing to the absence of legislation establishing different relations between employer and employee—the employer is not responsible in damages to the employee for injuries resulting from the carelessness or neglect of the employee himself or his fellow employees. The Act of Congress, therefore, was an attempt to override State practice and State rules in that respect. Through this week's Supreme Court decision this purpose has been defeated. Had the law been sustained the States would have lost complete control of the matter as far as railroad transportation was concerned. The State might be entirely satisfied to let the old common-law principle prevail, but this Federal enactment would have imposed a wholly new and totally different rule governing not merely inter-State traffic but all the immense volume of traffic carried on exclusively within State boundaries. The worst of it was no one could tell where the application of the principle was to end, since President Roosevelt made no secret of his intention to have the operation of the law extended to other fields of human activity, while it is of course well known that he is desirous that Congress should enlarge the scope of Federal authority so as to bring not only carriers in inter-State commerce but also corporations manufacturing the products which form the subject of inter-State traffic under the dominion of the National Government. Ultimately, therefore, the proposal embodied in the Employers' Liability Act would have been made to apply to the relations between employer and employee in all industrial pursuits. In his last message Mr. Roosevelt urged "the complete recognition of the principle

which places upon the employer the entire trade risk in the various lines of industry." Earlier—that is, last June—in one of his speeches at the Jamestown Exposition, adverting to the action of the railroads in attacking the validity of the law, he referred to the "extreme unwisdom of the railway companies in fighting the constitutionality of the National Employers' Liability Law." No law, he insisted, was more emphatically needed, and he declared "it must be kept on the statute books in drastic and thorough-going form." He also at that time demanded that the rule should be extended so as to apply to all those engaged in mechanical and industrial pursuits.

This week's decision makes it plain that that principle, if it is to be operative at all, cannot be made to apply, either directly or indirectly, to *all* commerce. It must be limited strictly to inter-State commerce. On that point the decision of the Court appears to be clear and unequivocal. Apparently, however, it goes no further than that. We cannot see anything in the majority opinion condemnatory of the idea that in regulating commerce Congress may regulate at the same time the relations between the railroads and their employees. The law is declared unconstitutional not on that ground, but on the other ground. In this last particular there is no cause for complaint in the opinion. The language used is unambiguous. The Court, speaking by Justice White, says most emphatically that an enactment which undertakes to impose a liability, upon a common carrier in favor of any of its employees without qualification as to the business in which the carrier or its employees may be engaged at the time of the injury, includes subjects wholly outside of the power of Congress to regulate commerce. We quote the following from Justice White's opinion bearing on that point:

The Act, then, being addressed to all common carriers engaged in inter-State commerce, and imposing a liability upon them in favor of any of their employees without qualification or restriction as to the business in which the carriers or their employees may be engaged at the time of the injury, of necessity includes subjects wholly outside the power of Congress to regulate commerce. Without stopping to consider the numerous instances where, although a common carrier is engaged in inter-State commerce, such carrier may, in the nature of things, also transact business not inter-State commerce, although such local business may indirectly be related to inter-State commerce, a few illustrations showing the operation of the statute as to matters wholly independent of inter-State commerce will serve to make clear the extent of the power which is exerted by the statute. Take a railroad engaged in inter-State commerce having a purely local branch, operated wholly within a State. Take again the same road having shops for repairs, and, it may be, for construction work, as well as a large accounting and clerical force, and having, it may be, storage elevators and warehouses, not to suggest, besides, the possibility of its having engaged in other independent enterprises. Take a telegraph company engaged in the transmission of inter-State and local messages. Take an express company engaged in local as well as in inter-State business. Take a trolley line moving wholly within a State as to a large part of its business and yet as to the remainder crossing the State line.

As the Act thus includes many subjects wholly beyond the power of Congress to regulate commerce, and depends for its sanction upon that authority, it results that the Act is repugnant to the Constitution, and cannot be enforced.

Justice White also disposed of the contention that since the statute says "carriers engaged in commerce between the States," &c., therefore the Act should be interpreted as being exclusively applicable to the inter-State business and none other of such carriers, and that the words "any employees" where found in the statute should be held to mean any employee when such employee is engaged only in inter-State commerce. He shows that this would require the Court to write into the statute words of limitation and restriction not found in it, while another effect would be to restrict the operation of the Act as to the District of Columbia and the Territories.

The further plea that the Act might be held constitutional although embracing subjects not within the power of Congress to regulate commerce, because one who engages in inter-State commerce thereby submits all his business concerns to the regulating power of Congress, is shown to be wholly and utterly untenable. To state the proposition, says Justice White, is to refute it. It assumes that because one engages in inter-State commerce he thereby endows Congress with power not delegated to it by the Constitution; in other words, with the right to legislate concerning matters of purely State concern. It rests upon the conception that the Constitution destroyed that freedom of commerce which it was its purpose to preserve, since it treats the right to engage in inter-State commerce as a privilege which cannot be availed of except upon such conditions as Congress may prescribe, even though the conditions would be otherwise beyond the power of Congress. "It is apparent," he continues, "that if the contention were well founded it would extend the power of Congress to every conceivable subject, however inherently local; would obliterate all the limitations of power imposed by the Constitution, and would destroy the authority of the States as to all conceivable matters which from the beginning have been and must continue to be under their control so long as the Constitution endures."

"Would destroy the authority of the States as to all conceivable matters"—no language could be stronger than this; none could more effectually put a limit upon the attempts to obliterate the distinction between commerce within the State and commerce between the States. To that extent, therefore, this decision is in the highest degree encouraging. Nor does the majority of the Court apparently stand alone in insisting that the rights of the States in this particular can not be invaded. For it would appear that Justices Harlan and McKenna, in ranging themselves on the minority side, and contending that the Act is constitutional, did so mainly on the ground that the Act could be so construed as to make it applicable only to employees engaged at the time in inter-State commerce and not to those engaged wholly in the State in which the accident happened—a view to which, as we have seen, Justice White did not find it possible to assent. The conclusion would seem to be authorized, therefore, that under other circumstances Justices Harlan and McKenna would also have been found strict upholders of the doctrine that the demarkation between the powers of the States and the powers of the Federal Government must be clearly observed. If this be a correct assumption, then seven of the nine Justices (not merely five) can be depended upon to adhere to the old doctrine of strict construction of constitutional provisions where there is a direct issue involving the rights of the States. There would, in that event, be

only two Justices on the opposing side, namely Moody and Holmes, both owing their appointments to President Roosevelt.

When we come, however, to the question whether the power to regulate commerce granted by the Federal Constitution may be construed to give the righ to regulate the internal affairs of the carriers, or more specifically their relations with their employees, there seems good reason to fear that most of the Justices have become converts to radical ideas. Judge Evans in the District Court a year ago said that creating new liabilities growing out of the relations of master and servant on the one hand and regulating commerce on the other "are two things so entirely different that confusion of the judicial mind upon them is hardly to be expected under normal conditions." Yet there is apparently little reference to this distinction in this week's opinions of the Supreme Court. The only allusion to this phase of the matter that we have observed is in a statement in one of the papers that, though Chief Justice Fuller and Justices Brewer and Peckham joined with Justice White in holding the Act unconstitutional, "they did not follow him in his assertion of the power of Congress to regulate the relation between master and servant." In Congress certainly the impression prevails that the unconstitutionality of the Act rests entirely on its failure to distinguish between State traffic and inter-State traffic; for Senator Knox has introduced a bill which would enact substantially the provisions of the condemned statute, except that it would be limited in its application to common carriers "to which the regulative power of Congress extends under the Constitution of the United States." In this way it is attempted to cure the defect in the 1906 law and get over the objections found against the same by the majority of the Court. No fears seem to be entertained that a new statute limited by the use of the words we have quoted would meet the fate of the old law, owing to refusal on the part of the Court to sanction the notion that the Federal Government can regulate the relations between the carriers and those employed by them.

## *WORK OF THE INTER-STATE COMMERCE COMMISSION.*

By setting forth in their twenty-first annual report the great increase of work which the Hepburn Act has caused the Inter-State Commerce Commission, the Commissioners have also disclosed something of the annoyance and expense which the same Act has created for the railroads of this country. In the year 1905 only 65 complaints were filed with the Commission, and these required the sending of 2,500 letters and notices. Since the twentieth annual report was issued no less than 5,156 complaints have been filed, which called for the sending out of 15,000 letters and notices. Such of these letters and notices as were sent to the several railroads interested had to receive the attention of the traffic officers and the legal department, thus involving the railroads in work which occupied much time and incurred large expense. One of the detrimental features is the fact that such matters divert the attention of the traffic and operating officers from their regular tasks, and thus interfere to a considerable extent in the proper work of the carrier. There were 276 hearings conducted, at which 88,000 folios of testimony were taken. The number of hearings under the Hepburn Act increased 350% over similar undertakings in former years. The Commission was able to handle this work because the number of its members was increased 75%, and there have been increased appropriations of public funds to enable it to conduct its business with reasonable dispatch. To a similar extent have the railroads been compelled to add to the staff of their legal department and devote a larger portion of their earnings to the purposes of defense against unjust attacks.

The Commission calls attention to the importance of the railroads in the following language:

"During the past decade the commercial condition of the country has been one of increasing prosperity. If business undertakings proportionately increase during future years, the railroads of the country must add to their tracks, cars and other facilities to an extent difficult to estimate. The ability of the carriers to transport traffic measures the profit production of this vast country, with its ninety millions of people, abundant capital and practically unlimited resources. Manifestly it is an economic waste for the farm, the mine or the factory to put labor and capital into the production of commodities which cannot be transported to market with reasonable dispatch. If the present output cannot in many instances be transported except after ruinous delays, it is not reasonable to presume that capital will readily seek investment in new undertakings. It may conservatively be stated that the inadequacy of transportation facilities is little less than alarming; that its continuation may place an arbitrary limit upon the future productivity of the land, and that the solution of the difficult financial and physical problems involved is worthy the most earnest thought and effort of all who believe in the full development of our country and the largest opportunity for its people."

The very same argument advanced as to why capital will be reluctant to invest in the mine, the factory and the farm applies with equal force to the railroads. If the laws do not encourage the transportation companies, but, on the other hand, throw around the railroads innumerable handicaps, so that the business cannot be conducted with reasonable profit, capital will not supply the additional funds needed to furnish the facilities for increased transportation which the Commission admits are very much needed. Thus in some respects the report of the Commission is a two-edged sword which cuts both ways.

It appears from the report that the Commission still craves greater powers. It is set forth that when a railroad advances a rate a complaint may be filed by some shipper, and the advanced rate will be suspended as to such complainant while the controversy is pending. The Commission therefore urges that it be given the power to suspend the advance in rates as to all shippers until the controversy may be finally determined. The Commission also asks Congress for power to compel railroads to promptly make detailed reports of accidents and for power to make investigations of accidents.

The report contains a review of the decisions which have been published as they were rendered, and it also recounts the work of the Commission respecting the framing of a uniform bill of lading providing for a uniform system of accounts, and an investigation of block signals and safety appliances. For each 1,000 cars inspected in 1906 there were 139.34 defects, while in 1907 there were but 94.14 defects per 1,000 cars inspected.

*PUBLIC UTILITIES AND THE NEW YORK DEBT LIMITATION.*

There is one passage in the annual message of Mayor McClellan of this city which has attracted considerable attention. Mr. McClellan refers to the proposition for a change in the constitutional limitation upon the creation of debt by municipalities in this State so as to authorize debts to be incurred in excess of 10% of the assessed value of real estate in case of productive property. His allusion seems to be to the recommendation of the Advisory Commission appointed by him three years ago rather than to the closely similar recommendation of the Charter Revision Commission created by the State Legislature, and upon whose report, rendered to Governor Hughes a few weeks ago, we commented at the time. The Advisory Commission recommended an amendment to the Constitution which would permit debt incurred for productive property to be excluded when the Board of Estimate and Apportionment should obtain the consent of the Appellate Division of the Supreme Court, upon proof that the return to the city from such property had been in excess of the interest upon such debt. Such determination of the Appellate Division, it is intended, should be effectual for no more than five years, when the application would have to be renewed.

Mayor McClellan entertains doubt as to the wisdom and advisability of such an amendment. Theoretically, he admits, it is attractive. From a practical standpoint, however, he urges, it may be found dangerous and ill advised. He fears that the possibility of extending the present constitutional debt limit might tempt the city into enterprises which in the end would result in shaking its financial stability, encouraging extravagance and injuring the value of its outstanding securities. In any event, he urges that the suggestion should receive the most careful consideration and the fullest discussion before any definite action is taken in the matter.

There can be no doubt that the Mayor here touches upon an element of danger attending the extension of the debt limit which, in certain contingencies, could not be regarded as wholly illusory. Particularly at the present time, when municipal ownership of all sorts of undertakings finds so many advocates, the possibility that the city might be tempted into ill-advised enterprises cannot be too strongly guarded against. May it not fairly be claimed, however, that in the way proposed proper provision is made to guard against a contingency such as that indicated? If the suggestion were that a debt once excluded from the debt limit because covering a productive and profitable undertaking must ever thereafter be excluded, the proposition would have to be strongly opposed; for it can readily be seen that, through legislative or municipal action, or through administrative incapacity or inefficiency—more likely to occur in the case of a plant conducted by officeholders than one under private ownership, the interests of the proprietors in this last instance serving to insure vigilance and watchfulness—profits might, with the lapse of time, be turned into a loss, rendering the undertaking a drain upon the city's resources instead of a source of income sufficient to provide the money needed to cover the interest on its cost.

As the Mayor states the proposition, however, the intention is in the first place to obtain the consent of a judicial tribunal—the Appellate Division of the Supreme Court—and then that this tribunal can grant the request for exclusion of any indebtedness from the debt limit only upon proof that the return to the city from such property has been in excess of the interest upon such indebtedness. Furthermore, the determination of the Appellate Division at any given time would hold only for the period of five years. At the end of the five years the application would have to be renewed. If in the interval the enterprise on which the excluded indebtedness has been issued had become unproductive, the indebtedness would no longer fall outside the debt limit, but would be treated the same as, and a part of, the regular city debt. Moreover, provision would be made for notice to the Governor, Attorney-General, the Mayor and taxpayers generally, any and all of whom could appear and be heard in the proceeding. We spoke of the necessity of restrictions of this kind in dealing with the report of the Charter Revision Commission, urging that unless restrictions were imposed it might happen that all sorts of municipal ownership schemes of doubtful merit and propriety would be tried, until finally the city got involved in financial disaster. Obviously, however, by the method proposed above, the danger feared would be reduced to a minimum.

In saying this we do not wish to be understood as expressing any liking for municipal ownership projects of any kind—even such as apparently meet the test of profitableness. We much prefer private ownership under some kind of an arrangement which shall insure to the municipality some return for the value of the franchises granted in the event of the enterprise proving a success. But as far as the construction of subways and rapid transit lines is concerned, no alternative of that kind seems to be open. Under existing laws we are shut in to municipal ownership entirely. It is that or nothing. Yet the need for additional rapid transit routes is urgent if not imperative. The situation is a most extraordinary one. With the terms so illiberal, private capital cannot be induced to come in, while on the other hand the margin of debt that can legally be incurred by the city is now so small that the idea of providing further subways built with city moneys on any extensive scale must be put out of mind for a considerable time to come. It is this state of things that has given rise to the proposal that, where an undertaking is returning interest on its cost, and more, too, as is the case with the rapid transit lines in this city, the debt representing the same ought to be excluded in determining the margin of debt remaining within the 10% limit fixed by the Constitution. In view of last year's experience, when the city failed to receive any bids on its new subway routes, it is of course a question whether, even where the city undertakes to raise the money for additional subways, parties can be found to construct and operate the roads unless the law as it now stands is amended and more liberal terms offered prospective bidders. But in any event, in existing circumstances we must look to the city for the additional transit facilities so urgently needed, and the only way out of the dilemma is to liberalize the constitutional limit of debt so that the city will be in legal position to go ahead.

The present position of the municipality with reference to new rapid transit roads is anomalous and incongruous to the point of absurdity. A State board

especially created to look after local needs in the matter of transit facilities—we mean the Public Service Commission for the First District—lays out and prescribes the additional roads to be built. The city authorities, whom the Public Service Commission is not bound to consult, are then told to go ahead. But the municipality is bound by the debt limit and when that limit is reached cannot incur any further debt even though it might have positive assurance at the very start, from responsible sources, of income sufficient to provide for interest and principal of the debt. The ludicrous position into which rapid transit matters are drifting was well shown last week. The Public Service Commission had laid out new rapid transit routes for Manhattan Borough involving an estimated cost of $60,000,000. Comptroller Metz demurred, saying that the city within the constitutional debt limit could not possibly provide the money for the purpose. According to the "New York Times" of last Friday Chairman Willcox of the Public Service Commission, when he heard of Mr. Metz's criticism, made the following remarks: "It is part of the duty of this Commission to plan new subways. If there is not money enough to build them, then it is for the Board of Estimate to say so and not for this Commission. This Commission is not supposed to know when the debt limit has been reached. The Comptroller and the Board of Estimate attend to such things." The accuracy of this statement is not open to question, for under the powers and duties that devolve upon the two Public Service Commissions of the State, these bodies simply go ahead and order things done irrespective of whether the means exist for doing them or whether it is possible to do them at all.

Practically the whole of the street railway mileage of Manhattan Borough is now in receivers' hands, and yet the Public Service Commission calmly goes ahead ordering additional facilities and service, not bothering itself in the least as to how a bankrupt concern is to obtain the funds with which to comply with the Commission's orders. With bland innocence the Commission merely issues its edict and then it is up to some one else to take the blame and responsibility. Where, however, one public body lays out rapid transit routes for another to construct and carry to completion, and this latter is obliged to state that means are not available for the purpose, and the first board rejoins with the remark that it is none of its business to raise money or to take into consideration such a little thing as a constitutional requirement with reference to the debt limit, does not the whole matter assume an opera bouffe character?

Why not go back to first principles? Why not amend the law and let private capital come in and do the work? Additional rapid transit lines are needed in Manhattan and in the Bronx, while Brooklyn Borough has none at all now but could support several. Private capital can be got provided only sufficient inducements are held out. The population is there to make such new rapid transit lines profitable. Capitalists and men of means know this and are ready to invest their money, but they want adequate compensation, fair treatment and assurance of security and stability for their investment. The city authorities could stipulate what the rates of fare were to be and even require assurance of adequate service; but beyond that what legitimate interest would suffer if the promoters of such enterprises were to make large profits—say a return of even 15 or 20% on their investment. The traveling public would get the needed new facilities and in providing such facilities the promoters would be conferring an inestimable boon upon the community.

There is no gainsaying the fact, however, that before such a state of things can be brought about a complete change will have to be worked in public sentiment. Capital is not going to come forward until it can feel assured of better treatment than has been accorded to the far-sighted men who took up the work of building the Rapid Transit road in Manhattan when for twenty years previously it had been found impossible to get any one else to embark upon the venture. In the absence of help from private sources the community must rely upon the city to provide the needed additional routes, and as the city cannot undertake the work so long as the constitutional limit leaves it an insufficient margin for the incurring of new debt, an amendment to the Constitution so as to exclude from the debt limit bond issues based on productive undertakings would seem to be the only way out of the difficulty. Mayor McClellan is right in urging that every precaution be taken to guard against the city's rashly entering into enterprises which might threaten its financial stability and encourage extravagance. If the restrictions suggested by the Advisory Commission, as outlined above, are not stringent enough to insure the full measure of safety, they can obviously be made still more stringent. Otherwise, however, there would appear to be little ground for apprehensions on that score.

## *CLEARINGS AND SPECULATION IN* 1907.

In reviewing the record of bank clearings for the calendar year 1907 it is necessary to differentiate sharply between the result disclosed at New York and the exhibit made by the aggregate for the remaining clearing houses of the country. The reason that this distinction has to be made has been clearly evident all through the year and the factor making it necessary has been operative to some extent at a few of the other important financial centres. We refer, of course, to the marked decline in the volume of stock transactions as compared with the previous year during all but one month (March) of 1907. Stock transactions play such an important part in swelling the aggregates of bank clearings that any important decrease in their volume is reflected in a marked shrinkage in the exchanges passing through the banks.

Thus it is that clearings at New York for 1907 record a quite large falling off from 1906, notwithstanding that the aggregate commercial transactions for the year must have been at least as great as in the preceding similar interval. Referring a year ago to the bank clearings for 1906, we stated that they told a story of continued growth and expansion, and that in the aggregate they were far ahead of the total for 1905. And outside of New York (and likely at this city, making due allowance for speculative transactions), in all sections of the country, the year 1907 has witnessed a further augmentation. Recently, of course, and largely due to the monetary troubles that set in in October, there has been a conspicuous let up in industrial and mercantile activity; but prior to that time the course of business affairs proceeded along favorable lines. Since the close of the year the result

of the efforts made in that direction have again brought monetary ease to the country, and there is a more hopeful disposition, many believing that a material revival in business activity is not far off.

For the whole country the aggregate of clearings for 1907 reaches 144,889 million dollars, against 160,020 millions in the calendar year 1906 and 143,909 millions in 1905; but only 112,450 millions in 1904. The decrease from 1906 is 9½%, but as compared with 1905 there is a gain of 0.7%, and contrasted with 1904 the increase is over 28%. At New York alone, and due, as remarked above, to the diminution in Stock Exchange activity, the 1907 total not only records a decrease from 1906 of 16.7%, but shows a decline from 1905 of over 7%. Outside of New York, however, the late year's aggregate, despite losses at Boston and Philadelphia ascribable to the decreased stock speculation, marks a new record, having been 57,706 million dollars, against 55,344 millions in 1906, 50,087 millions in 1905 and only 43,800 millions in 1904. Without further comment we present a compilation covering the exhibit of clearings for New York, the cities outside of New York and the country's aggregate for the twenty-five years 1883 to 1907 inclusive.

| Year. | New York Clearings. | Inc. or Dec. | Clearings Outside New York. | Inc. or Dec. | Total Clearings. | Inc. or Dec. |
|---|---|---|---|---|---|---|

Stock Exchange speculation is, of course, an important factor in bank clearings at New York. And during 1907, as already intimated, the share dealings on the Stock Exchange were appreciably less than in either 1906 or 1905. While the major portion of the dealings in share properties on the Exchange, it is true, are now regularly cleared through the official Clearing House of that body and do not therefore enter directly into the volume of bank exchanges, their indirect effect is very material. For the purpose of indicating the course of Stock Exchange speculation for a long series of years past, we present the following table:

NUMBER AND VALUE OF SHARES SOLD AT NEW YORK STOCK EXCHANGE.

| Year. | Stocks, Shares. | Aver. Price. | Values (approximate) | Year. | Stocks, Shares. | Aver. Price. | Values (approximate) |
|---|---|---|---|---|---|---|---|
| | | | $ | | | | $ |
| 1907 | 196,438,824 | 85.8 | 14,757,802,189 | 1897 | 77,324,172 | 67.0 | 4,973,553,065 |
| 1906 | 284,298,010 | 94.2 | 23,393,101,482 | 1896 | 54,654,096 | 65.2 | 3,329,969,940 |
| 1905 | 263,081,156 | 87.3 | 21,295,723,688 | 1895 | 66,583,232 | 60.3 | 3,808,338,604 |
| 1904 | 187,312,065 | 69.9 | 12,061,452,399 | 1894 | 49,075,032 | 64.2 | 3,094,942,769 |
| 1903 | 161,102,101 | 73.2 | 11,004,083,001 | 1893 | 80,977,839 | 60.3 | 4,550,260,916 |
| 1902 | 188,503,403 | 79.9 | 14,218,440,083 | 1892 | 85,875,092 | 63.5 | 4,874,014,262 |
| 1901 | 265,944,659 | 79.0 | 20,431,960,551 | 1891 | 69,031,689 | 57.1 | 3,812,247,419 |
| 1900 | 138,380,184 | 69.2 | 9,249,285,109 | 1890 | 71,282,885 | 60.2 | 3,977,664,193 |
| 1899 | 176,421,135 | 78.6 | 13,429,291,715 | 1889 | 72,014,600 | 61.0 | 4,059,231,891 |
| 1898 | 112,699,957 | 72.7 | 8,187,413,985 | 1888 | 65,179,106 | 62.5 | 3,539,519,143 |

The above speaks for itself in no uncertain terms. It is eloquent of a decreased desire of the public to invest in railroad and other share properties, and is, moreover, a silent tribute to the harm done to transportation and industrial interests by the indiscriminate and largely unwarranted attacks from Governmental sources. As against sales of 284,298,010 shares in 1906 and 263,081,156 shares in 1905, the past year's dealings aggregated only 196,438,824 shares. Moreover, the 1907 transactions were at declining values, the average price per $100 share in the latest year having been below $86, whereas for 1906 the average price was in excess of $94. It is not necessary for us to follow the course of the decline in any special stocks to give point to the losses in value that have occurred. It should be sufficient to say, what our regular weekly Stock Exchange tables have shown, that, almost without exception, the high prices of the year were recorded in January and the low level was reached generally in November or December. Not only were share transactions on the Exchange materially less than in either of the two preceding years, but dealings in bonds recorded a serious diminution, the aggregate of railroad and industrial issues having been but 456 million dollars, against 605½ millions in 1906 and 815 millions in 1905. The subjoined table shows the details of the stock and bond sales for the last two years.

| Description. | Twelve Months 1907. | | | Twelve Months 1906. | | |
|---|---|---|---|---|---|---|
| | Par Value or Quantity. | Actual Value. | Aver. Price. | Par Value or Quantity. | Actual Value. | Aver. Price. |
| St'k Shs. | 196,438,824 | | | 284,298,010 | | |
| Val. | $17006,377,125 | $14757,802,189 | 86.8 | $24843,524,975 | $23393,101,482 | 94.2 |
| RR. bonds | $456,116,300 | $396,464,512 | 86.9 | $605,554,200 | $590,833,750 | 97.6 |
| Gov't bds. | $858,050 | $948,626 | 110.6 | $1,809,800 | $1,988,334 | 109.9 |
| State bds. | $69,196,100 | $66,173,334 | 95.6 | $67,588,850 | $61,694,258 | 91.3 |
| Bank stks | $418,700 | $813,153 | 194.2 | $728,500 | $1,405,953 | 193.0 |
| Total | $17532,966,275 | $15222,201,814 | 86.8 | $25519,206,325 | $24049,023,777 | 94.2 |
| Grain, bu. | 645,353,800 | 636,964,287 | 98.7c | 448,109,250 | 367,824,860 | 82c. |
| Total. val. | | $15859,166,101 | | | $24416,848,337 | |

A noticeable feature of the year's dealings in stocks was the fact that greatest activity was centred in the early months. This appears clearly in the table which we now append.

SALES OF STOCK AT THE NEW YORK STOCK EXCHANGE.

At Stock Exchanges outside of New York we also find that dealings in 1907 were appreciably less than in 1906. Chicago, for instance, reports total transactions for last year of 806,127 shares and $4,342,802 bonds, which compares with 1,234,537 shares and $5,858,050 bonds in 1906. The Pittsburgh Stock Exchange has been closed since Oct. 23, but up to that time the monthly totals of sales (mainly mining stocks) were generally less than in the previous year, and the aggregate for 1907 is given at 3,094,135 shares, against 3,976,124 shares for 1906. On the Boston Stock Exchange the dealings comprised 14,656,734 shares and $7,683,350 bonds, which compares with 18,297,818 shares and $18,695,310 bonds in 1906, while in Philadelphia 8,126,338 shares and $12,515,365 bonds were reported traded in in 1907, against 10,589,993 shares

and $20,839,945 bonds in 1906, and in Baltimore 153,912 shares and $15,649,010 bonds made up the year's total, against 524,286 shares and $31,688,513 bonds the preceding year.

As we have already shown, the aggregate of bank clearings for the country outside of New York for 1907 exceeded those for any previous year, and it is worthy of note that the different cities and sections nearly all shared in the excess. This is partially shown in the following table, which indicates the course of bank clearings at the leading cities for the last four years—both for the full 12 months and for December, the final month.

BANK CLEARINGS AT LEADING CITIES FOR DECEMBER AND THE YEAR

We cannot better illustrate the generally favorable situation of affairs during 1907 (down, of course, to the occurrence of the monetary troubles) than by stating that of the 110 cities included in our comparative record, only seventeen, including New York, report decreases from 1906, and those generally unimportant. A detailed statement showing the clearings for the last two years appeared in the "Chronicle" of Jan. 4 1908, page 1.

The clearings month by month for two years for the whole country and outside of New York, and the totals by quarters, is shown in the subjoined compilation, which also indicates the ratios of gain or loss for each period.

Considering the clearings for the year by groups, there is not much to be said that has not already been stated. The Middle and Eastern groups each exhibit declines from 1906, the one in consequence of the rather large loss at New York and the other on account of the decrease at Boston. On the other hand, the Far Western section exhibits an important increase, in which each city included shares; the Middle West and Pacific show satisfactory percentages of gain, and the South records a fair excess. The table we now present gives the clearings by groups for each quarter of the last six years.

| Clearings Reported. (000s omitted.) | | First Quarter. | Second Quarter. | Third Quarter. | Fourth Quarter. | Total Year. |

With regard to speculative transactions on the various mercantile exchanges, but little reliable data is obtainable. The New York Cotton Exchange furnishes no record of transactions, and the Produce Exchange is somewhat in the same category. But for the latter Exchange we have, as in former years, made up a compilation based upon the figures published from day to day in the daily papers which should furnish fairly close approximate results. From this compilation it would seem that sales of grain (spot and option) in 1907 were heavier than in any recent year, having reached 645,353,800 bushels, against 448,109,250 bushels in 1906, 478,432,825 bushels in 1905 and 627,379,500 bushels in 1904. A summary of the dealings by quarter-year periods is herewith appended.

SALES OF FLOUR, WHEAT, &c., AT NEW YORK PRODUCE EXCHANGE.
(Two ciphers (00) omitted from figures for Wheat, Corn, Oats, Barley and Rye.)

—The premium on currency or cash money which had been maintained since the origin of the banking troubles in October has finally disappeared. Since Monday, when some few sales were reported at ⅛ to ¼ of 1%, there appears to have been no further transactions at a premium.

—The banks generally throughout the country are gradually returning to a cash basis, announcement of the withdrawal of Clearing-House certificates as a medium of currency coming from many of the important cities. The Boston "Transcript" on the 3d inst. stated that on that day, for the first time since Oct. 28, no Clearing-House certificates were used in the settlement of balances by the local banks. The total of such certificates outstanding in Boston is $11,995,000.

The Philadelphia "Ledger" in its issue of the 5th inst. says that, while no official action as to retiring the certificates has been taken by the Philadelphia Clearing-House Association, it is claimed that nearly all the banks are ready to pay their balances in cash. The amount of the issue, it states, is between $12,000,000 and $13,000,000; some banks, it is added, have made small cancellations, while others are prepared to do so when called upon by the Clearing House.

According to advices from Baltimore, the banks there are said to have retired $794,000 of the certificates up to Jan. 8. The total amount issued is said to have been $3,094,000, leaving $2,300,000 still outstanding.

Currency payments, it is reported, have been resumed by the Pittsburgh banks, and the issuance of pay checks discontinued. It is possible that dealings on the Stock Exchange will be resumed the coming week.

The Columbus (Ohio) banks are also, it is reported, gradually taking up their Clearing-House certificates, the indications being that they will be retired earlier than had been anticipated.

The Cincinnati Clearing-House has commenced the retirement of scrip, having decided to recall 25% of the $2,500,000 issued. A similar proportion, it is stated, will be retired each week.

The Cleveland Clearing House Association has likewise decided to call in 25% of the emergency scrip issued by it.

Detroit banks are reported to be again conducting business on a cash basis, the last of the Clearing-House certificates having, according to dispatches from that point, been retired on the 7th inst.

The Chicago Clearing-House is rapidly redeeming the scrip currency issued for general use; of the $7,618,300 issued to the banks, $6,000,000 had been canceled up to the 7th inst.

In a resolution adopted by the Milwaukee Clearing-House Association on the 6th inst., it was decided that the banks would not pay out any additional Clearing-House checks; and, further, that all such checks still outstanding would be redeemed on presentation. Altogether, the Milwaukee "Sentinel" states, the banks issued only $1,400,000 of Clearing House checks, and of this amount it is doubtful if much more than $1,000,000 was in active circulation.

The banks of Minneapolis and St. Paul have resumed currency payments, having been the first, according to the "Commercial West," to make the move.

A resolution calling in all Clearing-House certificates and Clearing-House checks by Jan. 18 was adopted by the Kansas City Clearing-House Association on the 3d inst. The only banks in the city having certificates outstanding are said to be the National Bank of Commerce, now in receivers' hands, and one or two other institutions which are about to settle. The Bank of Commerce was reported on the 3d inst. to have retired about two-thirds of its certificates.

From St. Louis reports state that the cashiers' checks are being rapidly canceled, the amounts now outstanding being very small.

The Omaha and South Omaha banks are now making all settlements in cash; the loan certificates issued during the recent financial disturbances have been retired, and but $51,529 of cashiers' checks remain outstanding; the banks are ready to retire these as soon as they are presented for cancellation. The Omaha "Bee" states that the Clearing-House has not made known the exact amount of cashiers' checks issued by the Omaha banks, but it is estimated at between $650,000 and $700,000; less than 75% of the amount issued was put in circulation, a large amount being held at the banks.

The Oklahoma banks expect to follow the action of the St. Louis and Kansas City banks with regard to retiring Clearing-House certificates about the 15th inst.

The retirement of certificates by the Seattle banks has been under way for the past week, more than $100,000 having been withdrawn up to the 4th inst. Between a million and a million and a half dollars of certificates are reported to have been issued by the Seattle Clearing House.

It was stated (Dec. 28) that in Portland, Ore., not more than $500,000 of the original issue of Clearing-House certificates, aggregating $1,100,000, remained in circulation. The "Commercial West" states that it is expected that the outstanding amount will be retired before the expiration of the time set for its redemption, namely, Feb. 1. The 30-day loan certificates amounting to $750,000 issued by the loan committee of the Portland Clearing-House Association for exchange purposes in liquidation of clearing-house balances are being retired as rapidly as they become due; it is estimated that not more than $400,000 of these are now outstanding.

The Memphis "Appeal" on the 1st inst. stated that there had been no new issues of cashiers' checks for over a week, and the amount in circulation was being retired as expeditiously as possible.

—The Los Angeles "Financier" pointed out in its issue of Dec. 28 that the Clearing-House Association of that city had taken action on Dec. 20 toward removing the impression in the public mind that specie payments would be resumed there with the termination of the holidays on Dec. 21. Resolutions were adopted by the Association asking the public to bear with the situation until the banks generally throughout the country had redeemed scrip and resumed specie payments, and the banks were requested to continue the use and circulation of scrip until it could be retired with safety to the public and banks.

—Few of the depositors who sixty days ago gave notice to the Chicago savings banks are availing themselves of the opportunity to withdraw their funds. The evident willingness and ability of the banks to pay out cash in any sums was sufficient to satisfy all depositors.

—The insurance companies of New York State have been notified by Otto Kelsey, State Superintendent of Insurance, that possession must be regained at once of all bonds loaned to national banks to be used as collateral for Government deposits or increased bank-note circulation. The Department refuses to approve such loans, and unless the above order is complied with the bonds will not be allowed as assets in the forthcoming annual statements to the Department.

The Superintendent's circular reads as follows:

> Consideration has been given to a proposition submitted to the Insurance Department of whether an insurance company may, under the insurance law, after having made a legal investment of its funds in good securities, deliver such securities to a national bank or other institution, taking the note of the borrower for their value together with collateral of such a character as insurance corporations are authorized to invest in, for the purpose of enabling such bank or other institution to pledge such securities as a basis for Government deposits or increased bank-note circulation.
>
> The view which the Department takes of the provisions of law regulating investment of funds of insurance companies prevents an approval of such a proposition. Even if absolutely safe from loss in instances is does not relieve doubt as to approving such a practice by the Department.
>
> The insurance law contemplates only a straight investment of funds in prescribed classes of securities. To first invest and then loan the investment, and perhaps again loan the second loan so held, might prove a dangerous practice in the contingency of a default and consequent forfeiture of the collateral and inevitable litigation thereupon. An indemnity bond would not remove the objection, as such hypothecated assets could not be available to the company in an emergency.
>
> Numerous applications have from time to time been made containing the substance of the foregoing proposition, and have been denied. The position taken by the Department in separate cases will be adhered to as above stated.
>
> Any company whose bonds are loaned in this manner must immediately withdraw these bonds and reduce them to possession at once, or such bonds will not be allowed as assets in the annual statement.

Supt. Kelsey has also notified the insurance companies of this State that they may make up their security valuations

on the basis of an average for the thirteen months. This is following the method of valuation adopted by Superintendents at a recent meeting at Louisville. It may be remembered that it was decided at a meeting of Insurance Commissioners in this city on Nov. 21 (representing eleven States) that the market price of securities as of Dec. 31 1906 be used by insurance companies in determining the value of their assets the present year—the 1906 valuations, it being contended, more nearly representing the true values of such securities under normal conditions. Under the basis adopted at the Louisville meeting, it is proposed to value securities for reports of Dec. 31 1907 according to what is termed the "rule of thirteen." The market value on the first day of every month during the year will be taken and added to the market value on Dec. 31, and then an average obtained by dividing by thirteen. The New York Insurance Department, according to its announcement, will accept this plan of valuation, except where in individual cases there may be reasons why other valuations should be taken. It is said that the State Superintendents at their next annual meeting will endeavor to work out some new basis of valuation which may be uniformly adopted for future years.

—The admission of trust companies to membership in the New York Clearing House Association was discussed by the Clearing House Committee this week. Further consideration will be given the matter at a special meeting of the Association on Monday next, when, it is understood, action will be taken on a proposition to admit to full membership companies carrying a certain cash reserve of deposits, and to admit as associate members those holding a certain lesser percentage of reserves

—The annual report of Clark Williams, as Superintendent of Banks, was presented to the Legislature on the 1st inst., and that portion of it concerning his intention to call for an average summary statement of condition each week from all State banking institutions was referred to in this department last Saturday. Mr. Williams also touches upon the causes contributing to the suspension of the banking institutions which closed during the recent financial troubles. He classes among these causes a lack of supervisory power in the Superintendent. In some cases, he states, the Department had called attention to practices which were considered to be unsafe, but without avail; if the Superintendent had had the authority to enforce a discontinuance of such practices, several of the State institutions now closed would not, he believes, have found it necessary to suspend. Mr. Williams recommends, therefore:

> That the Superintendent of Banks be given authority to direct the discontinuance of objectionable practices on the part of institutions under his supervision, with an opportunity to the institution subjected to criticism to show cause why the practices complained of should not be discontinued; and, in the case of a failure so to show cause to the satisfaction of the Superintendent, that he should either make public the facts in the premises or assume charge of the institution on the ground of its being in an unsafe and unsound condition, if such be the case.

In his treatment of the subject of reserves, Mr. Williams declares that "the scheme of the law has been to divide corporations into classes with varied and distinctive powers. We have our banks of discount, our trust companies and our savings banks, but it would be absurd to require them to carry in their vaults the same percentage of cash reserve merely because they are all banking corporations. Reflection makes clear that our aim should be not to equalize the powers and limitations of corporations designed in their creation to differ, but in the matter of reserve to require what the character of the business of each demands." It is recommended by the Superintendent that every bank or individual banker in any city in the State having a population of over 800,000 shall have a reserve equal to 25% of the aggregate deposits; at least three-fifths of which must consist of either lawful money of the United States, gold certificates, silver certificates, or notes or bills issued by any lawfully organized banking association, and the balance thereof must consist of moneys on deposit, subject to call, with a reserve agent approved by the Superintendent of Banks. State banks in such cities are now required to keep a reserve of 15%. Elsewhere in the State a reserve of 10% is required of State institutions; in each case one-half must be cash in their possession. Mr. Williams, however, would make the reserve in other cities 15%, at least two-fifths to consist of cash on hand. For trust companies in cities having a population of over 800,000 Mr. Williams recommends a reserve fund equal to at least 15% of its aggregate deposits (the deposits, however, to be subject to the reductions mentioned below) —all of which reserve fund should, he thinks, consist of lawful money as aforesaid; in other cities a reserve of 10% is recommended, of which at least 50% must consist of lawful money, and the balance of money on deposit, subject to call, with a reserve agent approved by the Superintendent. The reserves of trust companies in cities having a population of 800,000 or more are at present fixed at 15%, all of which may be, and at least 5% of which must be, cash on hand; 5% may be kept in United States, State or municipal bonds of New York State, and the remainder deposited with other banks or trust companies in the State approved by the Superintendent; elsewhere in the State the companies are required to maintain a reserve of 10%, of which 3% must be in cash, 3% in bonds as above, and the remainder deposited with an institution approved by the Superintendent. In calculating the deposits of the trust companies on which the reserves recommended by Mr. Williams must be maintained, he would allow the following deductions:

> First—Any moneys held by it in trust, the disposition whereof is wholly within the control of the trust company as executor, administrator, receiver, trustee or otherwise.
> Second—Time deposits not payable within thirty days, represented by certificates showing the amount of the deposit and the date of issue and maturity.

Ample time, he states, should be given for the establishment of the additional reserves suggested. He recommends also that the banking law be amended, as suggested by the advisory committee, so as to place the maximum of any secured loan to a single interest at 25%, instead of 40%, of the capital and surplus of a bank or trust company.

—The Kansas City Clearing House Association has taken action toward the establishment of the office of Clearing House Auditor, whose duties will be along the lines of those of the Clearing House Examiner in Chicago. The Kansas City Association has named as a committee H. C. Flower, J. F. Downing and F. P. Neal, who are to report a plan for establishing such office. The requirements of the position of Auditor will partake of the nature of those of a private examiner, and he will be called upon to institute proper steps to prevent irregularities, his duties begin regulated by rules to be adopted by the Association. E. F. Swinney, President of the First National Bank, has been elected President of the Association, succeeding W. H. Winants, Vice-President of the failed National Bank of Commerce. Mr. Swinney consented to accept the office until the next annual meeting, in April.

—A new plan for the examination of State banks, trust companies and building and loan associations of Pennsylvania has been arranged by State Banking Commissioner Berkey, according to the Philadelphia "Ledger." Under the new method, which is to become effective at once, it is hoped to examine each banking concern twice a year, and each building and loan association once a year. This is to be accomplished through the division of the State into nine districts, sixteen examiners being assigned to them; Philadelphia, with about 130 banks and trust companies, is one district, with five examiners; Allegheny County, with about 132 institutions, is another district, with four examiners; the rest of the State is divided into seven districts, with one examiner each, and each having an average of 45 institutions. Four other examiners will look after the 1,300 building and loan companies in the State; they will work under the direction of the Department, and will be assisted by the bank examiners whenever feasible.

—The People's Savings Bank of Brownsville, Tenn., was placed in voluntary liquidation on Dec. 31. It is stated that the depositors will be paid through the Brownsville Bank, ample deposit having been made with the latter for that purpose. The People's Savings Bank had a capital of $25,000; it had, it is said, contemplated liquidating for a year past, and its action to that end, it is asserted, is in no wise due to the financial conditions.

—Announcement of the disposal of the holdings (2,000 shares) of Charles W. Morse in the New Amsterdam National Bank of this city was made this week. The purchaser is F. M. Peet, President of the National Deposit Bank of Philadelphia. Mr. Morse resigned as Vice-President and director of the institution in October, the Clearing House having at that time, it will be recalled, insisted upon the elimination of the Heinze-Morse-Thomas interests from this, the Mercantile and the National Bank of North America before extend-

ing to the institutions any support that might be needed. The New Amsterdam, it is said, has gradually taken up the loan certificates given by it to the Clearing House during the time aid was received from the association, and has generally strengthened its position within the past few months. At the annual meeting next week it is possible that the new interests will be given representation on the board, the following also becoming directors of the bank: F. K. Sturgis of Strong, Sturgis & Co., J. Romaine Brown, and John G. Hemerich, Vice-President of the institution. Five vacancies exist in the board, four through the resignation of the following: Charles W. Morse, Miles M. O'Brien, H. F. Morse and F. G. Kinsman, and the other through the death of Charles T. Barney. The following, it is expected, will be re-elected at the coming meeting: Louis Stern of Stern Brothers; Gen. Warren M. Healey of Healey & Co.; R. V. Lewis of Lewis & Conger; George W. Wilder, President of the Butterick Co.; Frederick W. Kinsman, President of the bank; John F. Carroll, Vice-President of the Fourteenth Street Bank; and John D. Carroll, of the Fiss, Doerr & Carroll Horse Co.

—Mr. Morse, who resigned from the directorate of the Fourteenth Street Bank of this city, is said to have sold his stock interest in that bank to President R. Ross Appleton.

—F. Augustus Heinze, former President of the Mercantile National Bank, this city, pleaded "not guilty" to a Federal grand jury indictment charging him with over-certifying fifteen checks drawn by his brother's concern, Otto Heinze & Co., on that institution, to the amount of $407,000, Oct. 14th. The case has been set by Judge Chatfield of the United States Circuit Court for trial Jan. 20th. F. A. Heinze was President of the Mercantile National from Jan. to Oct. last year, when he was obliged to relinquish his office by the Clearing House Committee. Mr. Heinze's stock-holdings in the Mercantile National Bank, amounting to about 8,000 shares, reverted on Wednesday to the former owners, Edwin Gould and his counsel, Wm. Nelson Cromwell. When Mr. Heinze competed for control of the bank in conjunction with the Morse interests, he paid to Mr. Gould but $50 per share cash ($400,000) and for the balance gave his note for about $2,200,000, payable in January, which, he was not able to take up. Mr. Cromwell would not say whether Mr. Gould would assume the presidency or who will be his representatives on the board. These matters are to be settled at the Jan. 14 stockholders' meeting. Seth M. Milliken, who has brought the bank through its troubles, is anxious to be relieved of executive direction, and give his entire time to his larger private interests. The following statement was given out by Mr. Heinze last Monday: "Owing to pending negotiations the call of the stockholders' meeting of the Mercantile National Bank of the City of New York to consider the liquidation of the bank is hereby revoked. This announcement foreshadowed the later developments which resulted in Mr. Heinze's complete elimination from the institution's control.

—William H. Erhart has been elected to replace the late Trenor L. Park as a director of the Jefferson Bank of this city.

—Action on the motion to make permanent the receivership of the Knickerbocker Trust Co. of this city, which has been postponed several times, was again adjourned last Saturday for two weeks, or until the 18th inst. A statement issued last week by the Parsons Committee in answer to inquiries of depositors as to the assets of the company says that "it can be generally stated that if the depositors will act together and enable the company to resume in the near future, the total assets will have the value of about $53,165,000, made up of:

| | |
|---|---|
| Cash | $3,000,000 |
| Demand loans | 10,000,000 |
| Time loans | 26,000,000 |
| Bills receivable | 850,000 |
| Bonds and mortgages | 3,150,000 |
| Investments | 8,000,000 |
| Real estate | 2,165,000 |
| Total | $53,165,000 |

The foregoing figures are only approximate and are not in any sense official." The stockholders, it is said, have completed their subscription of $2,400,000 in cash toward resumption, and it is also reported that deposits aggregating over $26,000,000 (or about 60%) have assented to the plan. Two claims against the company for money on deposit were sold at auction on the 2d inst—one, amounting to $1,148 06, being disposed of at 60% of its face value, and the other, $2,675 56, at 65%. Several accounts were previously sold, it is reported, at 60%.

—Schedules in bankruptcy of Kessler & Co. of this city were filed on the 26th ult. They show liabilities of $9,625,-624, of which $2,414,538 are secured, $1,403,723 unsecured and $5,807,363 contingent bills, notes and acceptances which ought to be paid by others; in the event that they are not paid at maturity by the maker or acceptor, a contingent liability ensues for the petitioner. This amount also figures in the assets of the company. The total assets are given as $9,359,100 and include stocks and bonds, $2,273,715 estimated value, some pledged for loans or deposited in escrow accounts, $998,601; notes, $152,499; cash, $20,502; real estate, $35,000; mortgage, $9,000; membership New York Stock Exchange, $65,000; notes, bills and acceptances, $5,807,363, &c., &c. The firm assigned on Oct. 30 and was adjudicated bankrupt on Nov. 22.

—At a directors' meeting of the Hamilton Bank of this city on the 1st inst., W. R. Montgomery retired as President and Frank L. Grant, Vice-President and director of the Carnegie Trust Co., was elected to replace Mr. Montgomery. Frank W. Kinsman Jr. has withdrawn as director. Large amounts have been pledged to the assistance of the reorganized bank, a considerable portion being furnished by the Carnegie Trust interests; the National Copper Bank and another institution are also said to have contributed to its relief. The new directors, it is understood, hold 1,334 shares of the bank's $200,000 capital, all of which were obtained from the Thomas interests. The order formally discharging Frank White as receiver was signed by Justice Betts on the 2d inst; the time for the removal of the receiver, originally fixed for Jan. 15, has been extended to Jan. 20.

—The Harris Exchange Bank of Tyler, Texas, failed to open on Dec. 30. Since Nov. 1, it is stated, there had been a steady drain on the institution and it was decided to place its business in the hands of the Court. The deposits are said to be $100,000 and the assets $80,000. Two business concerns, reported to be owned by the bank, the Tyler Novelty Co. and the Tyler Paint Co., have also closed.

—The State Bank of Rocky Ford, Colo., is reported to have closed its doors on the 2d inst., following a run. The institution has a capital and surplus of $30,000 each; its liabilities are placed at over $400,000, while its assets are said to exceed $525,000.

—The Nye & Ormsby County Bank of Carson City, Nevada, with branches at Goldfield, Reno, Manhattan and Tonopah, which closed on Oct. 23, resumed business on the 2d inst. It is stated that it has issued certificates to its depositors, payable in three, six and nine months. The bank had re-opened on Oct. 28, but on account of the demands on its Goldfield branch, immediately closed its doors again, the suspension continuing until last week.

—The Union National Bank of Oakland, Cal., which closed its doors on Nov. 11, resumed business on the 2d inst. A reorganization of the institution was effected on Dec. 30, when James L. de Fremery was elected President, succeeding Charles E. Palmer, resigned. The other officers elected with the new President are: George D. Gray and George Roeth, Vice-Presidents; and E. F. Jordan, Cashier. As part of the plan toward resumption 90% of the depositors assented to an agreement restricting the withdrawal of their funds. The rehabilitation of the institution, it is understood, also involves an increase in the capital from $150,000 to $300,000.

—Zoheth S. Freeman, Secretary of Group VIII, New York State Bankers' Association, announces the names of the speakers who will address the bankers of this city at their annual banquet, Waldorf-Astoria Hotel, Monday evening, Jan. 27. The program includes: Nicholas Murray Butler, President of Columbia University; David R. Forgan, President National City Bank, Chicago; Dr. Aked, the new English minister of the Fifth Avenue Baptist Church; and Patrick Murphy, President Mark W. Cross Co., one of our wittiest and funniest after-dinner orators. Alexander Gilbert, President of Group VIII, will be toastmaster and will also make some remarks. Secretary of the Treasury Cortelyou, Secretary of War Taft and Gov. Hughes had also been invited, but found it impossible to attend, owing to conflicting engagements.

—At the annual meeting of the stockholders of the Chelsea Exchange Bank of this city on the 14th inst. a resolution to reduce the number of directors from seventeen to fifteen members will be introduced.

—Action on the proposition to reduce the number of directors of the West Side Bank from fourteen to thirteen will be taken at the bank's annual meeting on the 14th inst.

—The Nassau Bank of New York makes a striking showing for Dec. 19 last, when its deposits were $5,004,539, a gain of $932,272 in this item since the previous bank call, Aug. 22. The institution's specie amounts to $269,709, legal tenders $285,140, cash items $249,346, besides Clearing House certificates of $370,000. William H. Rogers is President and Edward Earl Cashier.

—The usual volume containing the detailed proceedings of the thirty-third annual convention of the American Bankers' Association has appeared. The present edition, treating of the meeting held at Atlantic City in September last, is in its customary comprehensive shape, giving in addition to a full report of the proceedings the constitution and by-laws of the Association, a list of its officers and members, the minutes of the meetings in Nov. 1906 of the Credit Currency Commission appointed by the Association, &c.

—The Fifth Avenue Bank, at 44th St. and Fifth Ave., has added many new accounts since the recent banking disturbance, as its statement to the Banking Department plainly reveals. Deposits have increased from $10,640,975 Aug. 22 to $13,730,244 on Dec. 19. The institution is well known for its strict requirements in accepting only desirable deposits as well as because of its conservative management. A. S. Frissell is President and B. H. Fancher Cashier.

—The Bryant Park Bank, 42d St. between Broadway and Sixth Ave., made its initial statement to the State Banking Department two week ago, disclosing a total of $572,953 deposits and $872,513 resources for Dec. 19. Its cash on hand was $113,283 in addition to $96,876 due from approved reserve depositories. W. W. Warner is President.

—P. C. Costello was elected to fill a vacancy on the board of the Bowling Green Trust Co. of this city at Wednesday's meeting of the stockholders.

—Hugo Baring, of the recently dissolved firm of Baring & Co., retired from the board of the Equitable Trust Co. this week.

—According to the "Brooklyn Eagle" a protective committee of depositors of the Williamsburgh Trust Co. of Brooklyn is working out a plan of resumption which contemplates the purchase of the institution by a syndicate of Manhattan financiers. The institution is one of those which closed its doors on Oct. 25. On Nov. 15 Frank L. Bapst was appointed permanent receiver and Augustus Van Wyck was named to act with him. It is stated that counsel for the depositors will shortly institute proceedings to have the receiverships set aside. The Corn Exchange Bank of this city denies the report that it has secured or is seeking control of the institution, or is interested in any arrangement affecting its future.

—The Ocean County Trust Company of Tom's River, Ocean County, N. J., referred to in this department Aug. 3, is preparing to begin business the present month. The officers of the institution are: President, George H. Holman, County Clerk; Vice-Presidents, Circuit Court Judge James F. Minturn and ex-Senator A. C. B. Havens; Treasurer, William E. Simmons.

—At the annual meeting of the American Trust Co. of Boston on Tuesday T. Jefferson Coolidge Jr. was elected a director to succeed Eugene N. Foss, resigned, and E. V. R. Thayer was chosen to replace his father, the late Eugene V. R. Thayer, on the board. The by-laws of the company were amended so as to provide for the election of an examining committee of not less than three stockholders, which will be required to make at least two examinations of the affairs of the institution during the year.

—The Mutual Trust Co. of Philadelphia, whose proposed organization was first referred to a year ago in these columns, began business on the 2d inst. The institution has an authorized capital of $750,000. It is quartered in the Bourse Building, and has among its active officers and stockholders members of the Commercial Exchange of Philadelphia, identified with the grain business. The officers of the company are William J. Koch, President; E. L. Rogers, Vice-President, and J. S. Truitt, Secretary and Treasurer.

—The Baltimore "American" states that Grier Hersh will retire from the presidency of the Maryland Trust Co. of Baltimore at the annual meeting on the 21st inst. His resignation was tendered some months ago on account of the pressure of private affairs, but he was finally induced to remain. Mr. Hersh has large personal interests at York, and he now finds that in justice to these he can no longer continue in the presidency of the trust company.

—The Commercial National Bank of Columbus, Ohio, last month increased its capital from $200,000 to $300,000, having, with the unanimous consent of its shareholders, declared a 50% stock dividend out of its surplus and undivided profits of $315,000. The latter item now stands at $215,000. The bank is under the management of W. F. Hoffman, President; D. E. Putnam and J. A. Jeffrey, Vice-Presidents, and G. A. Archer, Cashier.

—Complimentary copies of "Hyman's Hand-Book of Indianapolis" are being distributed by the Merchants' National Bank of that city. The book is edited by Max R. Hyman, and gives a comprehensive but condensed history and description of the city, as well as of every notable public institution and feature of special interest, and is profusely illustrated. The bank's latest statement (Dec. 3) shows deposits of $5,899,509 as compared with $5,525,623 on Aug. 22; surplus fund and profits are now $839,256, against $810,640 in August, while total assets have increased from $8,818,763 to $9,391,265.

—The Chicago City Council at its last meeting selected the local banks which are to be the depositaries of city funds in 1908. The award was under the new law, which provides that the money be apportioned, with a provision that the average monthly deposit in each bank shall not exceed its apportionment. As interest on these deposits the banks pay the amount of their bids. All of the banks named 2½% as the interest they would pay except the First National Bank of Englewood, which offered 3%. The banks selected, with the average monthly balances allowed each, are as follows:

| | | | |
|---|---|---|---|
| Bankers' | $500,000 | Colonial Trust & Savings | $500,000 |
| Continental | 1,000,000 | First Trust & Savings | 1,000,000 |
| Commercial | 750,000 | Foreman Brothers | 500,000 |
| Fort Dearborn | 500,000 | North Ave. State Bank | 125,000 |
| Hamilton | 312,500 | Metropolitan Trust & Sav. | 500,000 |
| National Bank of the Repub | 700,000 | Northwestern Tr. & Sav. | 100,000 |
| National City Bank | 500,000 | State Bank of Chicago | 500,000 |
| Prairie National | 100,000 | Union Bank of Chicago | 50,000 |
| First National of Englew'd | 125,000 | Western Trust & Savings | 500,000 |
| Illinois Trust & Savings | 1,000,000 | Hibernian | 500,000 |
| American Trust & Savings | 750,000 | Prairie State | 100,000 |
| Central Trust Co | 750,000 | Cook County State Savings | 20,000 |
| Chicago Sav. Bk. & Tr. Co. | 275,000 | Stockmen's Trust & Sav. | 100,000 |

—The directors' annual report of the condition of the First National Bank of Chicago, issued at the close of business Dec. 31, shows net earnings for the year 1907 as $1,709,628, or 21.36% on $8,000,000 capital stock. This compares favorably with 18.2% earnings in 1906. After paying dividends at the rate of 12%, there was a balance of $1,352,727, and of this $1,000,000 was carried to surplus account, making the latter fund $7,000,000. Its affiliated institution, the First Trust & Savings Bank (whose stock is entirely owned by stockholders in the First National Bank, and whose directors must be chosen from the directorate of that institution), closes a remarkably successful year, with a capital stock paid in of $2,000,000; surplus fund of $1,000,000; undivided profits of $355,043 53, and total resources of nearly $36,000,000. James B. Forgan is President of both banks.

—It is stated that the Corn Exchange National Bank of Chicago is considering the issuance of $1,000,000 of new capital—for the purpose of reimbursing its surplus for expenditures in connection with it new building. The institution has combined capital and surplus of $6,000,000, or $3,000,000 each, and it has in addition undivided profits of $1,850,000. The new stock, it is said, is not likely to be authorized until after April 1.

—A unique mode of bank advertising is that employed by the Northern Trust Company of Chicago to exploit the merits of its safe deposit vaults. The company is sending out to a select list names (not at the present time patrons) a large number of iron keys which are exact fac-similes of the original key to Independence Hall, Philadelphia; and in connection with this a quarto pamphlet on "Ancient and Modern Safe Depositories," which is a

triumph of the printers' and engravers' arts. The idea of the souvenir key is "for use as a paper-weight on your desk or to carry home for its historic associations"; and a gilded tablet on the body of the key reminds you that it is "presented with the compliments of the Northern Trust & Safe Deposit Company." The monologue on "safe depositories" begins with primitive man, "who concealed his treasures in a hole in the ground, a cave or a hollow in some tree." It traces, step by step, through history the various measures adopted for greater security for valuables—"the rude hut, the door of which was fastened by cords tied in intricate knots. After the cord came the wooden bar; after that the bolt, and then the lock"—which was apparently first used in the early days of Egypt. Phoenician traders are said to have brought the first locks into England, and locks were first manufactured there in the reign of Alfred (871-901 A.D.). Not until 1801 was the fire-proof safe patented in England. "The safe deposit vault, as we know it, originated in New York about 1865." The gradual development of this wonderful modern safeguard is told in a most interesting manner.

—Francis Bolles Peabody, the head of the banking, bond and mortgage firm of Peabody, Houghteling & Co., Chicago, died on the 2nd inst. after several weeks' illness. Mr. Peabody was born in Milford, N. H., Oct. 27 1827, and was graduated from Trinity College, Hartford, in 1848. Afterwards he studied law under Franklin Pierce, who subsequently became President of the United States. Admitted to the New Hampshire bar in 1850, Mr. Peabody practiced law first with his brother-in-law, Nathaniel B. Baker, who afterwards was Governor of New Hampshire, and subsequently with William E. Chandler, who later became Secretary of the Navy. In 1857 Mr. Peabody removed to Chicago, taking up at first the practice of law; in 1875 he organized the firm of Francis B. Peabody & Co. and engaged in mortgage loans and investments. This firm was succeeded by the present one of Peabody, Houghteling & Co. in 1885.

—It is announced that the Mutual Bank of Chicago, in pursuance of its policy of distributing profits, will pay to depositors 4% interest on their balances for 1907. The bank commenced business Oct. 2 1905. Its plan is to pay 3% on savings accounts, 2% on commercial accounts and 3% to the stockholders, and to divide equally between the depositors and stockholders all profits remaining after these payments. In Jan. 1906 the savings depositors received extra interest amounting to ¼ of 1%; a year ago they were paid ½% extra interest, and the present month they are allotted 1% extra, or 4% in all.

—Notwithstanding the general financial depression the Harris Trust & Savings Bank of Chicago announces that its bond sales for 1907 were the largest of any year of its history, and exceeded by $3,586,000 the sales for 1906. The increase in the number of new customers purchasing bonds, it states, was more than 50% over that of 1906. At the annual meeting of the bank the retiring directors were re-elected as follows: James T. Harahan, Allen B. Forbes, Albert W. Harris, Bernard A. Eckhart, Albert G. Farr, Isaac Sprague, John B. Lord, George P. Hoover, Norman W. Harris. The officers were also re-elected.

—At the annual meeting of the directors of the Illinois Trust & Savings Bank of Chicago this week, Henry A. Blair was elected a Vice-President to succeed W. H. Reid, who retires on account of ill-health. The sum of $1,000,000 was transferred from undivided profits to surplus, making the latter $7,500,000. The bank still has undivided profits of $500,000.

—The officers and directors of the Commercial National Safe Deposit Co. of Chicago announce the opening on the 9th inst of the Harveyized nickel-steel armor-plate vaults in the Commercial National Bank Building, corner of Adams and Clark streets.

—John D. Robertson, President of the Inter-State National Bank of Kansas City, Mo., died on the 7th inst. He had served as the bank's presiding officer since 1896.

—The Badger State Bank of Milwaukee, which commenced business on Nov. 4, issued its first statement under date of Dec. 21, showing capital paid in of $50,000; surplus of $725; deposits of $52,366; and total resources of $103,091. The bank is located at Fond du Lac and North avenues, and is under the management of Gustav Reinke, President; William A. Tharinger, Vice-Presdent, and F. E. Wallber, Cashier.

—The Citizens' & Southern Bank of Savannah, Ga., in its statement of Dec. 3 shows a surplus and net profits of $722,779, as against $671,908 on Oct. 14. The bank's latest report gives deposits as $5,426,336, while its resources aggregate $7,209,890. The institution was formed in February 1906 through the consolidation of the Citizens' Bank and the Southern Bank of the State of Georgia; it has a capital of $700,000. The officers are Mills B. Lane, President; John Flannery and Horace A. Crane, Vice-Presidents; George C. Freeman, Assistant to President; Gordon L. Groover, Cashier, and R. L. Rockwell, Assistant Cashier.

—The New Farley National Bank of Montgomery, Ala., in its first annual statement of date Dec. 31 1907, has total resources of $753,080. The bank's deposits amount to $360,261, against which it reports cash in other banks of $112,202 and in its own vaults of $166,815. The capital is $200,000, surplus $20,000 and undivided profits $17,819. The bank has been in operation since Dec. 10 1906.

—In a circular letter issued under date of Dec. 31 by the Alabama Bank & Trust Co. of Montgomery, Ala., the institution announces that it is conducting business according to the old and regular banking customs, receiving and paying such deposits made with it on demand. No interest, it is stated, is paid on deposits. The company states also that since its opening on Nov. 4 it has maintained in its vaults cash to the extent of more than 100% of its deposits, and it is its purpose to keep on hand, as long as the money stringency lasts, sufficient funds to discharge every obligation on call. The institution has a capital of $300,000 and surplus of $30,000.

—An application to convert the People's Bank of Pensacola Fla., into the People's National Bank was approved by the Comptroller of the Currency on the 3d ult. The institution's capital will remain at $100,000.

—The date of the meeting of the stockholders of the State National Bank of New Orleans, when action on the question of placing the institution in voluntary liquidation is to be taken, has been changed from Jan. 28 to 30, owing to the fact that the date originally set is a legal holiday in the State. The institution is said to have experienced large withdrawals since the resignation of William Adler from the presidency, and this notwithstanding the fact that it was shown to be in an absolutely solvent condition by the New Orleans Clearing House Committee on the 22d ult, after an examination made by the latter of its affairs. The statement concerning the bank's solvency was later confirmed by J. H. Fulton, Charles Godchaux and Charles Janvier, who, assisted by National Bank Examiner S. H. L. Cooper, made a further critical examination of its affairs on the 24th ult. The State of Louisiana has withdrawn its deposit of $366,000, and the United States and city funds, it is reported, have likewise been withdrawn.

—It is reported that a consolidation has been arranged between the Citizens' National Bank and the Farmers' & Merchants' National Bank of Tyler, Texas, both of which have a capital of $100,000 each.

—John C. Harrison, Cashier of the State National Bank of Fort Worth, Texas, died on the 29th ult. Mr. Harrison was forty-nine years of age. He had been identified with the State National for over twenty years.

—The Traders' Bank & Trust Co. of Dallas, Texas, lately incorporated with $50,000 capital, commenced business on the 4th inst. at 551 Elm St. The ofifcers are Herbert D. Ardrey, President; J. R. McFarland, Vice-President, and J. Dabney Day, Cashier.

—The usual semi-annual dividend of 6% was declared by the Seattle National Bank of Seattle, Wash., on Dec. 31. The bank increased its capital from $300,000 to $500,000 in September.

—The Los Angeles "Financier" states that William Mead has retired as President of the Central National Bank of Los Angeles, his interests having been acquired by George Mason, who succeeds to the presidency.

—The Security Savings Bank and the Southern California Savings Bank of Los Angeles were consolidated on the 16th

ult. under the title of the first-named institution. The consolidation was not unexpected, as more than a year ago the purchase of a large amount of stock of the Southern California bank was effected by interests in the Security Savings Bank. The latter institution increased its authorized capital last December from $500,000 to $1,000,000, and now reports a paid-in capital of $850,000. With its surplus of $400,000, it has a working capital of $1,250,000. The Southern California Savings Bank had a capital of $100,000 and deposits of nearly 7¾ million dollars. The consolidated institution is located in the Security Building at Fifth and Spring streets. The bank calls attention to the fact that the building is not, as might be inferred from the name, owned by it, nor has it any interest in it.

—The Bank of Toronto (head office Toronto) reports net profits for the year ending Nov. 30 1907 of 586,635, as against $544,296 the previous year. After the usual distributions there has been carried forward a balance of $150,708 —an increase of $77,660 over last year's amount. The deposits now (Nov. 30) at $25,407,593 compare with $24,737,124 a year ago. The bank has a paid-in capital of $4,000,000. D. Coulson is General Manager and J. Henderson, Asst. General Manager.

## Monetary and Commercial English News

(From our own Correspondent.)

*London, Saturday, December* 28 1907.

Business naturally has been very restricted on the Stock Exchange this week, as both Wednesday and Thursday were close holidays and on Wednesday next the Stock Exchange will again be closed. Furthermore, the last fortnightly settlement of the year began on Tuesday and will not end until Monday evening. The account open for the rise is small, for brokers and jobbers are still afraid to incur large risks on account of clients.

Over and above this, the demand for money is very strong. Our joint-stock banks are in the habit at the end of each month of calling in loans for the improper purpose of making it appear that they usually hold larger reserves than they actually do. The withdrawals of these loans are going on this week and will continue until Tuesday evening. Consequently, money in the open market is scarcer than usual and many borrowers are driven to the Bank of England, where from 7% to 7½% is charged.

In spite of all, however, the feeling in the Stock Exchange is distinctly hopeful. Prices are well maintained, and notwithstanding the state of affairs in so many other countries, there is more inclination to speculate than there has been up to the present. During next week business will again be inactive. Monday will be pay-day on the Stock Exchange. Tuesday the banks will all be making up their annual accounts. Wednesday the Stock Exchange will be closed. Thursday and Friday money will continue to be dear and scarce. On the following Monday, however, the interest upon the national debt will be paid and will add very largely to the supply of money in the open market. For some weeks afterward money will continue comparatively cheap and plentiful, and in the present temper of the city it seems safe to predict that there will be a very considerable increase in business on the Stock Exchange.

In the Stock Exchange the feeling is undoubtedly optimistic. It is hoped that the crisis in the United States is practically over. The general expectation is that business in New York will continue quiet and restricted for a considerable time, but that the period of convalescence will almost immediately set in. Furthermore, the fears entertained respecting Germany are being dissipated. Money is exceedingly stringent throughout Germany, and no doubt can be entertained that the Imperial Bank will have to give accommodation on an almost unprecedented scale. At the same time, there is no ground for doubting that the Bank will be in a position to accommodate everybody who has good security to offer. Up to the present no trouble has occurred and the best opinion in Europe is that serious trouble will not occur. If these views are correct London will recover courage. It will feel that it will not suddenly be surprised by enormous selling from abroad, and, therefore, everybody will think it safe to engage in new enterprise once more.

Money, as already said, is scarce and dear this week and will continue so next week, but the fear of long-continued dear money has died out. Everybody in the city believes that on Monday week money will become comparatively cheap and that all danger of surprises will then be over. The general expectation here is that the gold shipments to New York will now soon cease and that in the course of a month or six weeks some of the gold sent out will come back. Furthermore, there are expectations that gold will begin to return from Egypt before long. Although the Egyptian cotton crop is wonderfully good, Egypt has taken much less gold than was expected, and the present belief of those best acquainted with Egypt is that gold will soon return from that country. Owing to the drought throughout the greater part of Northern and Central India, business in that country is restricted. Gold demands have not arisen, and it is feared that business will shrink further. Even yet there may be good rains, in which case the spring crops will turn out well. Furthermore, it is hoped that sufficient rain has fallen in Burmah to prevent any serious damage to the rice crop, and the cotton crop is fairly good. Upon the whole, however, the prospect now is that no gold will be shipped from this country to India. On the contrary, the greater likelihood is that gold will come from India here. If the crisis is practically over in the United States, and if neither India nor Egypt is in a position to take Australian gold, the Australian supply will come to London. So, also, will the South African, and hence the supply of new gold in London ought to be very large during the next few months. The only considerable demand for gold is from South America, and chiefly from Argentina. But it is hoped that arrangements may be made which will enable Argentina to deposit gold in the Bank of England instead of taking it out to Buenos Ayres.

The India Council offered for tender on Tuesday 25 lacs and the applications exceeded 138¼ lacs at prices ranging from 1s. 3 29-32d. to 1s. 3 31-32d. per rupee. Applicants for bills at 1s. 3 29-32d. and for telegraphic transfers at 1s. 3 15-16d. per rupee were allotted about 14% of the amounts applied for.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last four years:

Messrs. Pixley & Abell write as follows under date of Dec. 24.

GOLD.—With somewhat less demand for America, the price has slightly fallen and is now quoted at 77s. 11d. At this rate the week's arrivals have been about equally divided between New York and the Continent. £278,000 has been received at the Bank, while £175,000 has been withdrawn, £133,000 of which is in bars. Next week we expect £981,000 from the Cape. Arrivals—Cape, £482,000; Australia, £317,000; New Zealand, £46,000; total, £845,000. Shipments—Bombay, £48,500; Malta, £20,000; New York, £619,700; total, £688,200.

SILVER.—Our last circular was dated the 19th inst. On the 20th and 21st the market, in the absence of any support, fell sharply, the quotation falling to 24¼d. Yesterday and to-day, on some orders from the Indian Bazaars, we have recovered to 24 9-16d., and the market is quiet at the close. The United States Government continues to buy freely. Forward silver has been quoted at ¼d. and 5-16d. over spot, closing at the former difference. The Indian price is Rs. 63 7-16 per 100 Tolahs. Arrivals—New York, £96,000; Straits, £70,000; total, £166,000. Shipments—Bombay, £50,200; Colombo, £2,500; Shanghai, £40,000; Madras, £600; Singapore, £17,500; total, £110,800.

MEXICAN DOLLARS.—There have been no transactions to report in these coins.

The quotations for bullion are reported as follows:

| | Bank Circulation. | Public Deposits in Banks. | Total Held. |
| 2 per cents, Panama Canal | $32,518,810 | $20,519,300 | $53,038,110 |
| 4 per cents, 1895, due 1925 | 18,181,600 | 4,998,500 | 23,180,100 |
| 3 per cents, 1908-1918 | 12,211,680 | 5,065,000 | 17,276,680 |
| 2 per cents, consols of 1930 | 568,926,410 | 36,209,950 | 605,136,360 |
| 3 per cent certificates of indebtedness | 14,944,500 | 492,000 | 15,436,500 |
| 3.65s, District of Columbia, 1924 | | 1,324,000 | 1,324,000 |
| State, city and railroad bonds | | 215,984,667 | 215,984,667 |
| Hawaiian Islands bonds | | 2,027,000 | 2,027,000 |
| Philippine Loan | | 8,938,000 | 8,938,000 |
| Porto Rico | | 780,000 | 780,000 |
| Total on deposit Dec. 31 1907 | $646,783,000 | $296,338,417 | $943,121,417 |

The foregoing does not include the bonds held in the New York Sub-Treasury against deposits in banks.

The following shows the amount of national bank notes afloat and the amount of legal-tender deposits Dec. 1 and Jan. 1 and their increase or decrease during the month of December.

| | | |
|---|---|---|
| *National Bank Notes—Total Afloat—* | | |
| Amount afloat December 1 1907 | | $656,218,196 |
| Amount issued during December | $36,604,499 | |
| Amount retired during December | 2,691,800 | |
| | | 33,912,699 |
| Amount of bank notes afloat January 1 1908 | | $690,130,895 |
| *Legal-Tender Notes—* | | |
| Amount on deposit to redeem national bank notes December 1 1907 | | $46,062,188 |
| Amount deposited during December | $1,497,375 | |
| Amount of bank notes redeemable in December | 888,567 | |
| | | 608,808 |
| Amount on deposit to redeem national bank notes January 1 1908 | | $46,670,996 |

The portion of legal-tenders deposited (1) by banks becoming insolvent, (2) by banks going into voluntary liquidation and (3) by banks reducing or retiring their circulation was as follows on the first of each of the last five months:

| Legal-Tenders. | Sept. 1. | Oct. 1. | Nov. 1. | Dec. 1. | Jan. 1. |
|---|---|---|---|---|---|
| *Deposits by—* | $ | $ | $ | $ | $ |
| Insolvent banks | 901,171 | 865,021 | 804,471 | 768,473 | 719,804 |
| Liquidating banks | 15,008,230 | 15,021,880 | 14,352,085 | 14,018,894 | 13,831,905 |
| Reducing under Act of 1874* | 31,201,033 | 31,998,884 | 32,096,296 | 31,274,821 | 32,119,287 |
| Total | 47,110,434 | 47,885,785 | 47,252,852 | 46,062,188 | 46,670,996 |

*Act of June 20 1874 and July 12 1882.

STOCK OF MONEY IN THE COUNTRY.—The following table shows the general stock of money in the country as well as the holdings by the Treasury, and the amount in circulation, on the dates given. *The statement for January* 1 1907 *will be found in our issue of January* 12 1907, *page* 83.

| | Stock of Money Jan. 1 1908. In United States. | Held in Treasury.d | Money in Circulation— Jan. 1 1908. | Jan. 1 1907. |
|---|---|---|---|---|
| | $ | $ | $ | $ |
| Gold coin and bullion | *1,604,530,493 | 188,951,451 | 648,573,173 | 692,623,564 |
| Gold certificates *a* | | 60,393,520 | 706,612,349 | 580,395,199 |
| Standard silver dollars | 562,770,982 | 42,554 | 91,312,428 | 85,377,835 |
| Silver certificates *a* | | 3,684,653 | 467,731,347 | 467,817,025 |
| Subsidiary silver | 139,630,994 | 4,650,135 | 134,980,859 | 124,120,938 |
| Treasury notes of 1890 | 5,479,000 | 9,944 | 5,469,056 | 6,600,829 |
| United States notes | 346,681,016 | 1,405,594 | 345,275,422 | 341,908,353 |
| National bank notes | 690,130,895 | 11,096,231 | 679,034,664 | 585,056,58[illegible] |
| Total | 3,349,223,380 | 270,234,082 | 3,078,989,298 | 2,883,900,328 |

Population of the United States January 1 1908, estimated at 86,784,000; circulation per capita, $35 48.

*A revised estimate by the Director of the Mint of the stock of gold coin was adopted in the statement for Aug. 1 1907. There was a reduction of $135,000,000.

*a* For redemption of outstanding certificates an exact equivalent in amount of the appropriate kinds of money is held in the Treasury, and is not included in the account of money held as assets of the Government.

*d* This statement of money held in the Treasury as assets of the Government does not include deposits of public money in National Bank Depositaries to the credit of the Treasurer of the United States, amounting to $245,556,944 45.

FOREIGN TRADE OF NEW YORK—MONTHLY STATEMENT.—In addition to the other tables given in this department, made up from weekly returns, we give the following figures for the full months, also issued by our New York Custom House. The first statement covers the total imports and exports of merchandise and the Customs receipts for the eleven months of the last two seasons:

| Month. | Merchandise Movement to New York. | | | | Customs Receipts at New York. | |
|---|---|---|---|---|---|---|
| | Imports. | | Exports. | | | |
| | 1907. | 1906. | 1907. | 1906. | 1907. | 1906. |
| | $ | $ | $ | $ | $ | $ |
| January | 75,330,156 | 65,414,702 | 54,687,930 | 57,601,992 | 19,970,981 | 18,703,721 |
| February | 73,357,400 | 63,034,102 | 51,324,211 | 48,721,595 | 18,096,641 | 16,322,548 |
| March | 82,462,921 | 67,654,570 | 55,793,585 | 53,287,747 | 18,595,668 | 18,038,705 |
| April | 76,197,876 | 65,427,317 | 58,435,883 | 51,746,580 | 18,453,762 | 15,191,258 |
| May | 71,928,155 | 61,183,930 | 43,263,112 | 52,512,865 | 16,920,907 | 15,243,987 |
| June | 66,852,548 | 59,275,738 | 55,609,847 | 49,134,772 | 17,214,679 | 15,519,921 |
| July | 75,554,451 | 67,679,926 | 58,503,816 | 44,601,649 | 19,368,068 | 17,955,839 |
| August | 70,293,096 | 62,182,896 | 56,833,707 | 56,153,299 | 19,205,736 | 19,081,928 |
| September | 58,833,023 | 58,644,148 | 54,712,748 | 49,638,991 | 17,002,293 | 17,161,861 |
| October | 62,250,933 | 69,513,990 | 62,739,894 | 55,658,846 | 18,859,698 | 18,948,438 |
| November | 63,599,163 | 70,307,143 | 64,981,878 | 52,503,126 | 14,287,871 | 17,792,149 |
| Total | 776,659,722 | 710,318,462 | 616,886,611 | 571,561,462 | 197,976,304 | 189,960,355 |

The imports and exports of gold and silver for the eleven months have been as follows:

| Month. | Gold Movement at New York. | | | | Silver—New York. | |
|---|---|---|---|---|---|---|
| | Imports. | | Exports. | | Imports. | Exports. |
| | 1907. | 1906. | 1907 | 1906. | 1907. | 1906. |
| January | 388,410 | 290,015 | 1,367,113 | 1,043,875 | 431,575 | 2,575,282 |
| February | 1,230,143 | 266,134 | 335,588 | 2,589,500 | 251,933 | 3,556,548 |
| March | 1,514,662 | 1,699,643 | 7,156 | 134,046 | 318,195 | 4,592,814 |
| April | 2,321,848 | 11,806,868 | 72,395 | 1,158,601 | 201,234 | 3,779,379 |
| May | 269,610 | 29,455,503 | 2,902,213 | 732,500 | 245,482 | 405,836 |
| June | 438,390 | 669,438 | 21,792,992 | 48,400 | 415,115 | 3,893,673 |

*a* Transfer books not closed. *b* Payable in stock.

**New York City, Boston and Philadelphia Banks.**—The New York City Clearing House has discontinued, for the present, issuing its detailed statement showing the weekly averages of condition of the separate banks, both the member and the "non-member" institutions. The publication of these figures, it is stated, will not be resumed until all outstanding Clearing-House loan certificates are retired. The last statement issued, that for Oct. 26 1907, will be found in the "Chronicle" of Nov. 2, on page 1124.

The Philadelphia and Boston Clearing Houses have also adopted the course of not making public the returns of the individual banks. The New York Clearing House does not give out any figures regarding the volume of the outstanding loan or Clearing-House certificates, nor does the Philadelphia Clearing House; but at Boston $11,995,000 of such certificates were outstanding Saturday, Jan. 4.

Below is a summary of the weekly totals of the Clearing-House banks of New York City, Boston and Philadelphia. The New York figures do not include results for non-member banks.

*We omit two ciphers in all these figures.*

| Banks. | Capital and Surplus. | Loans. | Specie. | Legals. | Deposits. a | Circulation. | Clearings. |
|---|---|---|---|---|---|---|---|
| New York | $ | $ | $ | $ | $ | $ | $ |
| Dec. 7 | 293,498,3 | 1186,395,6 | 173,888,7 | 48,613,8 | 1074,851,4 | 65,658,1 | 1,434,538,2 |
| Dec. 14 | 292,496,9 | 1175,027,9 | 177,165,3 | 49,450,0 | 1066,865,9 | 68,997,9 | 1,305,346,8 |
| Dec. 21 | 292,496,9 | 1165,446,8 | 181,503,1 | 51,619,4 | 1059,494,0 | 70,659,6 | 1,230,967,0 |
| Dec. 28 | 292,496,9 | 1147,694,4 | 187,874,3 | 54,686,7 | 1050,925,4 | 71,736,6 | 983,675,6 |
| Jan. 4 | 292,496,9 | 1132,871,8 | 192,120,9 | 58,486,0 | 1048,465,8 | 72,316,3 | 1,335,387,8 |
| Boston. | | | | | | | |
| Dec. 14 | 44,036,0 | 190,638,0 | 15,055,0 | 3,080,0 | 211,338,0 | 9,734,0 | 124,352,7 |
| Dec. 21 | 44,036,0 | 189,459,0 | 16,258,0 | 3,023,0 | 209,425,0 | 10,259,0 | 122,921,4 |
| Dec. 28 | 44,036,0 | 190,056,0 | 17,187,0 | 3,268,0 | 210,022,0 | 10,587,0 | 98,333,2 |
| Jan. 4 | 44,036,0 | 191,092,0 | 18,235,0 | 3,665,0 | 218,911,0 | 10,806,0 | 146,852,4 |
| Phila | | | | | | | |
| Dec. 14 | 54,440,0 | 224,776,0 | 42,995,0 | | 230,514,0 | 17,587,0 | 110,402,2 |
| Dec. 21 | 54,440,0 | 224,831,0 | 43,085,0 | | 229,509,0 | 17,912,0 | 117,969,4 |
| Dec. 28 | 54,440,0 | 225,122,0 | 43,301,0 | | 231,112,0 | 18,015,0 | 95,681,6 |
| Jan. 4 | 54,440,0 | 224,562,0 | 45,734,0 | | 235,305,0 | 17,987,0 | 117,181,5 |

a Including Government deposits and for Boston and Philadelphia the item "due to other banks." At New York Government deposits amounted to $76,310,800 on Jan. 4, against $78,889,100 on Dec. 28; at Boston on Jan. 4 to $6,420,000, against $6,423,000 on Dec. 28.

**Imports and Exports for the Week.**—The following are the imports at New York for the week ending Jan. 4; also totals since the beginning of the first week in January:

FOREIGN IMPORTS AT NEW YORK.

| For the week. | 1908. | 1907. | 1906. | 1905. |
|---|---|---|---|---|
| Dry Goods | $3,591,357 | $3,827,756 | $3,712,594 | $3,127,174 |

| Total | $12,673,199 | $15,767,227 | $14,708,307 | $13,409,550 |
| *Since January 1.* | | | | |
| Dry Goods | $3,591,357 | $3,827,756 | $3,712,594 | $3,127,174 |
| General Merchandise | 9,081,842 | 11,939,471 | 10,996,013 | 10,282,376 |
| Total 1 week | $12,673,199 | $15,767,227 | $14,708,607 | $13,409,550 |

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Jan. 4 and from Jan. 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

| | 1908. | 1907. | 1906. | 1905. |
|---|---|---|---|---|
| For the week | $10,451,853 | $11,231,310 | $12,458,650 | $9,225,597 |
| Previously reported | | | | |
| Total 1 week | $10,451,853 | $11,231,310 | $12,458,650 | $9,225,597 |

The following table shows the exports and imports of specie at the port of New York for the week ending Jan. 4 and since Jan. 1 1908, and for the corresponding periods in 1907 and 1906:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

| Gold. | Exports. | | Imports. | |
|---|---|---|---|---|
| | Week. | Since Jan. 1 | Week. | Since Jan. 1 |
| Great Britain | $30 | | $3,152,600 | |
| France | | | 687,080 | |
| Germany | | | 72,998 | |
| West Indies | 14,000 | $14,000 | 523,954 | |
| Mexico | | | 909 | |
| South America | | | 872,622 | |
| All other countries | | | 1,738 | |
| Total 1908 | $14,030 | $14,000 | $5,311,901 | |
| Total 1907 | 6,000 | 6,000 | 109,247 | $106,980 |
| Total 1906 | 518,000 | 518,000 | 26,276 | 26,276 |
| **Silver.** | | | | |
| Great Britain | $636,642 | $197,050 | | |
| France | 336,000 | | $2,200 | |
| Germany | | | | |
| West Indies | 868 | | 37,898 | |
| Mexico | | | | |
| South America | | | 45,557 | |
| All other countries | | | 2,890 | |
| Total 1908 | $973,510 | $197,050 | $88,545 | |
| Total 1907 | 531,981 | 278,671 | 100,384 | $100,329 |
| Total 1906 | 1,109,494 | 1,109,494 | 42,947 | 42,947 |

Of the above imports for the week in 1908, $1,403,110 were American gold coin and $29,957 American silver coin. Of the exports during the same time 14,030 were American gold coin and _____ were American silver coin.

## Banking and Financial.

We shall be pleased to mail to institutions and investors copies of our Bond Circular entitled "INVESTMENT OPPORTUNITIES," in which we review past events and existing conditions in the financial and business worlds.

# Bankers' Gazette.

*Wall Street, Friday Night, Jan.* 10 1908.

**The Money Market and Financial Situation.**—The security markets have responded to the more favorable financial situation by increasing activity and a substantial advance in prices. The upward movement in shares has not progressed without interruption, however, as on two days of the week there has been a decided reactionary tendency; but nearly the entire Stock Exchange list is several points higher as a result of the week's operations. In the bond market, also, the dealings have been on a larger scale than for many months past, at steadily advancing prices.

Evidences of the improved financial situation referred to are seen in the decidedly lower rates for call loans now prevailing, in more liberal offerings of money on time and a more active interest in commercial paper. The same improvement is shown abroad by a reduction of the Bank rate at Paris from 4% to 3½% and by the strong position of the Bank of England as set forth in the weekly statement.

Not all the events of the week had a corresponding effect. The announcement of the passing of the Chicago Great Western Railway into the hands of receivers checked the upward movement in shares for the time being, and the well known needs of other railroad systems is keeping some stocks on the inactive list.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2% to 9%. To-day's rates on call were 3½@6%. Prime commercial paper quoted at 6¾@7% for endorsements and 6¾@7% for best single names, but all transactions subject to special agreement.

The Bank of England's weekly statement on Thursday showed an increase in bullion of £2,227,746, and the percentage of reserve to liabilities was 48.15, against 35.62 last week.

The discount rate remains at 6%, as fixed Jan. 2. The Bank of France shows a decrease of 1,850,000 francs gold and 2,025,000 francs silver.

The New York City Clearing-House banks in their statement of Jan. 4 showed an increase in the reserve held of $8,045,900 and a deficit of $11,509,550 under the required reserve, against a deficit of $20,170,350 the previous week.

| | 1908. Jan. 4. | Difference from previous week. | 1907. Jan. 5. | 1906. Jan. 6. |
|---|---|---|---|---|
| | $ | $ | $ | $ |
| Capital | 129,100,000 | ---------- | 123,150,000 | 116,472,700 |
| Surplus | 163,396,900 | ---------- | 156,632,300 | 140,800,500 |
| Loans and discounts | 1,132,871,800 | Dec. 14,822,600 | 1,049,667,500 | 1,004,658,300 |
| Circulation | 72,316,300 | Dec. 579,700 | 53,664,200 | 52,912,900 |
| Net deposits | *1,048,465,800 | Dec. 2,459,600 | 1,000,578,300 | 983,742,800 |
| Specie | 192,120,900 | Inc. 4,246,600 | 172,951,400 | 167,336,000 |
| Legal tenders | 58,486,000 | Inc. 3,799,300 | 77,341,000 | 79,170,700 |
| Reserve held | 250,606,900 | Inc. 8,045,900 | 250,292,400 | 246,506,700 |
| 25% of deposits | 262,116,450 | Dec. 614,900 | 250,144,575 | 245,935,700 |
| Surplus reserve | def. 11,509,550 | Inc. 8,660,800 | 147,825 | 571,000 |

* $76,310,800 United States deposits included, against $78,889,100 last week and $16,401,600 the corresponding week of last year. With these United States deposits eliminated, the surplus over the required reserve would have been $7,568,150 on Jan. 4, against a deficit of $448,075 Dec. 28.

**Foreign Exchange.**—The market was dull and irregular this week, with long firm, short steady and cables lower; gold arrivals for week, $3,600,000. The Bank of France reduced its official rate of discount this week to 3½% and there was a fall in open market rates at all the chief cities.

To-day's (Friday's) nominal rates for sterling exchange were 4 80½@4 82 for sixty day and 4 86½@4 87 for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8140@4 81½ for long, 4 8550@4 8560 for short and 4 86@4 8610 for cables. Commercial on banks 4 80¾@4 81 and documents for payment 4 79¾@4 80¾. Cotton for payment 4 79¾@4 80, cotton for acceptance 4 80¾@4 81 and grain for payment 4 80⅝@4 80¾.

To-day's (Friday's) actual rates for Paris bankers' francs were 5 21¼@5 20⅝*a* for long and 5 18⅛@5 18⅛*d* for short. Germany bankers' marks were 94@94 1-16 for long and 94 11-16@94¾ for short. Amsterdam bankers' guilders were 40 12@40 14 for short.

Exchange at Paris on London to-day 25f. 17½c.; week's range, 25f. 17½c. high and 25f. 16c. low.

The week's range for exchange rates follows:

| | Long | | Short | | Cables | |
|---|---|---|---|---|---|---|
| *Sterling, Actual—* | | | | | | |
| High | 4 8140 | @4 81½ | 4 8560 | @4 8570 | 4 8635 | @4 8640 |
| Low | 4 8035 | @4 8040 | 4 8530 | @4 8540 | 4 8585 | @4 8610 |
| *Paris Bankers' Francs—* | | | | | | |

| *Amsterdam Bankers' Guilders* | | | | | | |
| High | ---------- | | 40 12 | @ 40 14 | ---------- | |
| Low | ---------- | | 40 | @ 40 1-16 | ---------- | |

Less: *a* 1-16 of 1%. *d* 1-32 of 1%. *h* 3-32 of 1%.
Plus:—*k* 1-16 of 1%. *x* 1-32 of 1%. *y* 3-32 of 1%.

The following were the rates for domestic exchange on New York at the undermentioned cities to-day: Savannah, buying, 50c. per $1,000 discount; selling, 75c. per $1,000 premium. Charleston, selling, $1 per $1,000 premium. New Orleans, bank, 75c. per $1,000 discount; commercial, $1 per $1,000 discount. Chicago, 40c. per $1,000 discount. St. Louis, 75c. per $1,000 premium. San Francisco, par.

**State and Railroad Bonds.**—Sales of State bonds at the Board are limited to $7,000 at 24 to 24¾.

The market for railway and industrial bonds has, as noted above, been more active, the transactions at the Exchange averaging nearly $4,000,000, par value, per day. Prices have generally advanced, several issues closing with a gain of from 1 to 4 points.

Some of the industrial bonds have been notably strong, including United States Steel, American Tobacco and Central Leather issues, the former on an active demand. Brooklyn Rapid Transit ref. con. 4s have been very active, and show a fractional net gain. Interboro-Metropolitan 4½s have advanced 2 points.

**United States Bonds.**—Sales of Government bonds at the Board include $20,000 2s reg., 1930, at 104½ and $14,000 4s coup., 1925, at 120¾ to 121¾. The following are the daily closing quotations; *for yearly range see third page following.*

| | Interest Periods | Jan. 4 | Jan. 6 | Jan. 7 | Jan. 8 | Jan. 9 | Jan. 10 |

* This is the price bid at the mornng board; no *sale* was made.

**Railroad and Miscellaneous Stocks.**—The stock market has continued more active and prices have further advanced. There was a tendency to reaction on Tuesday, on Wednesday, and again to-day, but the market was notably strong on Monday and Thursday, with the result that a considerable portion of the active list is from 1 to 5 points higher than last week.

The anthracite coal shares have been exceptionally strong and were leaders of the upward movement. Lackawanna, on sales of a few shares, advanced 90 points; Delaware & Hudson 12 points; Central of New Jersey 10 points, and Reading, by far the most active stock on the list, has covered a range of over 9 points' closing near the highest.

On the other hand, Chicago Great Western issues declined sharply on the appointment of receivers for the company and Canadian Pacific and Missouri Pacific are from 1 to 3 points lower. Atchison and Louisville have been weak to-day and close with a fractional net loss.

General Electric has advanced 4½ points, Consolidated Gas 5, Smelting & Refining 3, Steel preferred 2½ and other industrial stocks are from 1 to 2 points higher.

*For daily volume of business see page* 102.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

| STOCKS. Week ending Jan. 10. | Sales for Week. | Range for week. Lowest. | Range for week. Highest. | Range Year 1907. Lowest. | Range Year 1907. Highest. |

**Outside Market.**—The improved feeling which characterized trading in outside securities last week has continued, the strength on the Stock Exchange on the closing days contributing to a further general improvement in values on the "curb." Copper shares were firm. Boston Consolidated Copper, after a fractional loss to 11¾, moved up to 13¾. British Columbia Copper sold up from 4⅛ to 4⅞ and to-day jumped to 5¼. Butte Coalition from 16¼ advanced to 16⅝, dropped to 15¼ and recovered again to 16⅝. Cumberland Ely fell from 7 to 6⅞ and ran up to 7¾, ending the week at 7¼. Greene Cananea from 7 rose to 7½, the close to-day being at 7¼. Nevada Consolidated Copper sank from 9½ to 9, moved up to 9⅞ and back finally to 9½. Nevada Utah advanced from 3⅞ to 4⅜. Trinity Copper registered a gain of 2 points to 17½. Nipissing ranged between 7 and 7½. Among the specialities, Consolidated Steamship 4s were prominent by reason of a sharp rise in the price on active trading. After fluctuating between 8⅝ and 9⅜, it jumped to 10½ on Thursday, the close to-day being at 10. American Tobacco advanced to-day 8½ points to 258½. Standard Oil rose from 474 to 480, sank to 470 and to-day moved up to 479. The close was at 478. Manhattan Transit went up from 2⅞ to 3¼ and back to 3. Chicago Subway ran up from 16¾ to 18 and ends the week at 17¾. N. Y. N. H. & Hartford conv. 6s gained a point to 113¼ and to-day rose to 115, the close being at 114¾. Adams Express rose from 80½ to 83.

Outside quotations will be found on page 102.

# Investment and Railroad Intelligence.

## RAILROAD GROSS EARNINGS.

**The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained.** The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from **July 1** to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. *The returns of the street railways are brought together separately on a subsequent page.*

| ROADS. | Latest Gross Earnings. | | | July 1 to Latest Date. | |

a Net earnings here given are after deducting taxes.
b Net earnings here given are before deducting taxes.
c Figures revised for previous year so as to accord with the new classification of earnings and expenses now required by the Inter-State Commerce Commission.
r For November 1907 net from Coal Department was $58,364, against $82,781 last year, and from Jan. 1 to Nov. 30 was $308,569 in 1907, against $833,308 last year.
v Many special items have helped to increase the expenses this month.

## Boston Elevated Railway.

*(Report for Fiscal Year Ending Sept. 30 1907.)*

President William A. Bancroft under date of Boston, Dec. 31 1907, says in substance:

*Capitalization of Properties Owned and Leased.*—The capital stock of the West End Street Ry. Co. on Sept. 30 1907 consisted of preferred, $6,400,000, and common, $10,109,250. The preferred stock was authorized by the Legislature in 1887 for the purchase of the horse railroads which made up the system, and was considered only the value of these properties. Of the common stock $7,150,000 was paid in in cash at par, and the balance was sold under orders of the Railroad Commission for cash at from 45 to 80 % in excess of par value, realizing a premium of $1,696,656.

Of the $13,300,000 stock of the Boston Elevated Ry. Co., the first $10,000,000 was paid in in cash at par, and the balance was sold under orders of the Railroad Commission for cash at 55 % premium or $1,815,000 above the par value. The present capitalization of the two companies, therefore, represents an actual payment in cash of $3,511,656 above the par value of the outstanding stock. There is, therefore, not only no capital inflation, but much more has been invested in the property than is represented by the par value of the stocks. The dividends and interest paid make an average return to the capital invested of something less than 5.13 % per annum. It is not true, therefore, that "excessive dividends are paid on watered stock."

*Taxes, &c.*—Besides its ordinary taxes the company's contribution to the public during the last fiscal year amounted to at least $489,548, made up as follows:

| | | | |
|---|---|---|---|
| Tax for use of streets | $123,276 | Taxes on real estate | $265,501 |
| 4 % on cost to Co. of paving streets | 167,897 | Taxes on capital stock | 578,198 |
| Maintaining street paving | 130,907 | Balance of subway rental | 159,805 |
| Subway rental (sink. fund) | 47,468 | Rental East Boston tunnel | 51,371 |
| Removing snow from sidewalks, &c. (est.) | 20,000 | | |
| Tot. extraord. payments to public | $489,548 | Total ordinary taxes and rentals | $1,054,875 |

Grand total, which is nearly 11 % of the gross revenue for the year $1,544,423

*Stockholders.*—From the stock record Oct. 1 1907 it appears that the total number of shareholders is 3,438, holding 133,000 shares of stock; 114,347 shares, or 86 % of the stock, is held in Massachusetts.

*Power Stations.*—Since the last report, two 2,700 kilowatt generators have been installed in the Lincoln Station, one of the same size in the Charlestown Station, and a fourth in the Harvard Station, making a total installation of 10,800 kilowatts—an increase of about 27 %.

*Track.*—The company has maintained the excellent character of its surface tracks, $562,758 having been spent thereon during the year in renewals and repairs. The extent of additions to the surface tracks, including a new line to Linden, a section of the city of Malden, is 5.807 miles. A lease has been taken of a short piece of track heretofore controlled by the Boston & Northern Street Ry. Co. at Orient Heights, East Boston. The total length of surface tracks controlled by the company, including these tracks, is now 445.897 miles. This, with the elevated mileage of 16.015 miles, makes a total mileage of 461.912.

*Wages.*—The aggregate sum of increased payments to employees, under the provisions adopted four years ago, amounted during the year to $203,768. The provisions of last year raising the rate of wages increase this amount by $97,726, making a total of $301,494.

*New Elevated Road.*—The elevated structure to Forest Hills has been substantially completed, with the exception of a station at Forest Hills.

*Washington Street Tunnel.*—The construction of the Washington Street Tunnel is so far advanced that we have begun to install its equipment, but at the date of this report much remains to be done, and although the Transit Commission is steadily prosecuting its work, it is not now certain at what time during the year 1908 the tunnel can be

*Enlargement of Platforms.*—The company is about to undertake the extension of its elevated station platforms for the future operation of eight car trains in place of five-car trains, the longest trains which it can now use.

*New Legislation.*—Chapter 573 of the Acts of 1907 was accepted by the Board of Directors on July 11 1907. This Act modifies Chapter 534 of the Acts of 1902 with reference to the Washington St. tunnel and does away with the authority for the building of a subway especially adapted to surface cars. Under the Act the Boston Transit Commission may construct a tunnel or subway, to be known as the Riverbank Subway, from a point or points in or under the existing Park St. Subway Station, Boston Common, in or under the so-called Charles River Embankment, to a point or points in said embankment west of Harvard Bridge; or to a point or points in Beacon Street at or near the Back Bay Fens; or to a point or points in Commonwealth Ave. or Beacon St. east of the junction of Commonwealth Ave., Beacon St., Brookline Ave. and Deerfield St. The company may have a lease of this subway for twenty five years from the beginning of the use thereof at an annual rental equal to 4½ % of the net cost thereof.

By Chapter 497 of the Acts of 1907, accepted by the board of directors and by the cities of Everett and Malden, the company is authorized to construct an elevated railway from Sullivan Square, Charlestown, in the City of Boston, through the cities of Everett and Malden, to such point or points in the city of Malden, southerly of Pleasant Street therein, as may be convenient for a terminus.

*Cambridge Subway.*—Under the Act of 1906, relating to the Cambridge Subway, the company complied with the initial steps relating thereto, but the Mayor of Cambridge has applied to the courts upon a question as to the number of stations, delaying the provision of rapid transit for that municipality and the communities beyond for the present.

*East Cambridge Elevated.*—Progress has been made upon the plans for the East Cambridge elevated extension and in the acquisition of land for the thoroughfare. The design for the structure in Boston and for the viaduct across the Charles River, and for the structure and surface tracks in Cambridge, has been approved by the authorities. Lands and buildings have been taken between Causeway St. and Brighton St., and buildings have been torn down.

*Volume of Business for the Year.*—Total revenue passengers carried, 271,084,815; increase over business of previous year, 8,817,575, or an increase of about 3.36 %.

*RESULTS FOR YEARS ENDING SEPT. 30 1907.*

There are 4,761 guaranteed loans outstanding (see "operations" above), the average loan in Manhattan amounting to $30,000, in Brooklyn to $5,800 and in the Bronx to $11,000.—V. 85, p. 155.

## Swift & Company (Packers), Chicago, Ill.

*(Report for Fiscal Year ending Sept. 28 1907.)*

At the annual meeting in Chicago on Jan. 2 President L. F. Swift said:

The last year has been one of our largest as relates to volume. The profits, as you will note by figures given later, are quite up to the average. Our plants are in better physical condition than ever before. We have been and are now doing a profitable business, and the prospects for the coming year are favorable.

In sympathy with the general decline in all railroad and industrial stocks, the shares of Swift & Co. have been sold lower in the open market than for a number of years. However, I call your attention to the fact that the price at which the shares are selling does not affect the actual business of the company nor diminish its earning power or its capital. The recent decline in market quotations has resulted in an increased demand from investors for shares. The number of stockholders during the last three months has increased considerably over 1,000, and at the present time we have over 9,000 stockholders, nearer 10,000.

During the last year there has been started for the benefit of our employees and employees' benefit association, for insurance against death, sickness or accident, towards which the company gives assistance and all encouragement. We have insured over 5,000 employees, and our Superintendent, Young, informs me our people appreciate the same.

Treasurer L. A. Carton comments as follows:

Besides paying you 7% on the stock during the year and adding an additional property value of over $5 to each share, we have charged off to depreciation over $1,600,000. The turnover was accomplished by our packing plants, supplemented by 340 branch or distributing houses in the United States and 54 distributing houses in foreign countries. This turnover exceeds $250,000,000 in value, and was greater, both in tonnage and value per unit, than any previous year of our company.

## Westinghouse Machine Co., Pittsburgh, Pa.

*(General Balance Sheet October 23 1907.)*

The following balance sheet of Oct. 23 1907 is made public in connection with the reorganization plan which appears on a following page.

| *Assets*— | |
|---|---|
| Property and plant, as shown on co's books, at cost, less deprec.: | |
| Real estate and buildings | $1,839,454 |
| Machinery, tools and fixtures | 3,148,843 |
| Patterns and flasks | 148,129 |
| Stocks—Westinghouse Foundry Co | 892,834 |
| Westinghouse Inter Works Ry. Co | 126,996 |
| Cash ($431,320) and cashier's funds ($35,840) | 467,160 |
| Accounts receivable Available | 1,123,952 |
| Do do Not immediately collectible | 99,459 |
| Accounts receivable, co's in hands of receivers—Westinghouse Electric & Mfg. Co. ($368,107), Security Investment Co. ($144,623) and Nernst Lamp Co. ($30,395) | 543,125 |
| Notes receivable | 78,634 |
| *Working assets, as shown on co's books, materials and supplies at cost; finished or partially finished product, at factory cost: | |
| Foundry—Trafford City, Pa., castings, pig iron, metals, supplies, &c | 90,887 |
| Stoker department—Attica, N. Y., finished stokers and parts, pig iron, supplies, &c | 99,296 |
| East Pittsburgh, Pa., finished engines, parts and store room stocks | 2,317,132 |
| Consignments | 33,578 |
| *Investments, as shown on books of the company: | |
| Stocks—Subsidiary manufacturing companies | 4,350,000 |
| European Westinghouse companies | 727,410 |
| Electric Properties Co | 5,000,000 |
| Trafford Improvement Co. | 239,716 |
| Railway Electric Power Co | 81,539 |
| East Pittsburgh Casino | 10,805 |
| Capital stock acquired | 75,150 |
| Debenture certificates purchased for retirement | 12,000 |
| *Other assets, as shown on books of the company: | |
| Patents | 1,800,673 |
| Insurance, taxes, freight, expressage, &c., paid in advance | 33,794 |
| Telephone coupons | 2,859 |
| Total | $23,343,425 |
| *Liabilities*— | |
| Capital stock | $7,373,450 |
| First mortgage bonds | 245,000 |
| Debenture certificates | 1,020,000 |
| Notes payable | 5,943,528 |
| Current accounts (including pay-rolls, &c., amounting to about $225,000) | 1,874,143 |
| Reserves—For inventory depreciations and extraordinary adjustments | 200,000 |
| Profit and loss—surplus | 6,687,304 |
| Total | $23,343,425 |

* No appraisal has been made by the receiver.

*Memoranda.*—On Oct. 23 1907 the company had paid in advance interest charges amounting to $103,142, being the interest from Oct. 23 until maturity on notes discounted. This amount has been deducted from the surplus account in the above statement.

Current liabilities as above, $7,817,671, will be reduced to an amount less than the $7,200,000 of 3-year notes proposed to be issued by "set-offs" in accounts receivable and the payment by the receivers of preferred claims in the nature of pay-rolls, &c.

The receivers regard the working assets or inventories of $2,540,892, since they have set aside the reserve fund of $200,000, as conservative, and believe the amount set aside will cover any probable shrinkage.

Compare reorganization plan on a preceding page.—V. 86, p. 55.

## Realty Associates, Brooklyn, N. Y.

*(Report for Fiscal Year ending Oct. 31 1907.)*

The report submitted under date of Nov. 25 says:

The company has bought during the year properties costing $1,443,650, comprising 18 dwellings, 5 store and flat buildings, 14 stores, 3 building plots; the more important purchases were business properties in the vicinity of the junction of Fulton St. and Flatbush Ave., aggregating about $1,000,000. Sales have been made aggregating $1,321,950, namely, 76 dwellings, 15 flat buildings, 13 store and flat buildings, 14 plots of building lots. Of the total sales, building lots furnished about $500,000. The holdings now consist of 357 dwellings, 112 flat buildings, 97 store and flat buildings, 47 stores, 7 stables, 31 unimproved plots.

The company has invested during the year $101,950 in mortgages and the total mortgage investments are now $445,589, exclusive of purchase-money mortgages. The company owns purchase money mortgages amounting to $927,142, and of this amount has deducted from asset value $137,296 as a reserve to cover any possible deficiency in the final payment of these mortgages. Interest and installments now in arrears amount to $1,411. Mortgages sold with the guaranty of the company and now outstanding amount to $1,481,260.

The net income for the fiscal year after settlement with the profit sharers amounts to $590,337, out of which $319,989 has been paid out in dividends and the balance added to undivided profits. The income from rents, interest and dividends paid all operating expenses and netted a return of 5½% on the capital, the profits on sales making up the total as above stated.

The improved property is now 90% rented, while one-third of the vacancies are in properties built by the company during the year and only just completed. The rent receipts average about $38,000 per month, and the losses from unpaid rents during the year were less than 1%. November rents are being paid promptly.

The sales for the past three years have amounted to $5,742,921, and have showed an average profit of 30% over the cost of the properties. We own real estate costing over $7,000,000 and mortgaged for less than 50% of the cost. Twenty parcels are owned free and clear, which, if mortgaged on a 50% basis, would produce over $300,000 as additional working capital. There are no contracts pending for the purchase of real estate.

Real estate is carried at cost and it will be seen that the company has $3,729,087 invested in real etsate over and above the mortgages. Of this amount, $2,335,267 is invested in income property in the Borough of Brooklyn; $729,492 is invested in building sites in Brooklyn having buildings on them, the rents from which more than pay interest, taxes and repairs; $664,328 is invested in vacant land, 80% of which is in Brooklyn, and this sum includes the cost of street improvements which have been made by this company.

The company owned 14 parcels required for the Flatbush Avenue extension to which the city has taken title, and for which the company expects to receive awards of over $200,000. The awards draw interest at the rate of 6% per annum from March 1 1906. The profits and interest on awards in these cases have not been taken into account in computing he assets of the company.

*STATEMENT FOR YEARS ENDING OCT. 31.*

# GENERAL INVESTMENT NEWS.

## RAILROADS, INCLUDING STREET ROADS.

**Arkansas Louisiana & Gulf Ry.**—*New Enterprise.*—This company, incorporated in Arkansas in 1906, and having outstanding $3,000,000 of capital stock, has made a mortgage to the Colorado Title & Trust Co. of Colorado Springs, as trustee, to secure $6,000,000 of 5% gold bonds of $1,000 each, dated July 1 1907 and due July 1 1957, interest payable Jan. 1 and July 1 at the office of the trustee, and also at the Morton Trust Co., New York. Of these bonds, $3,140,000 are reserved for future extensions and $2,860,000, we are

informed, have been subscribed for on account of 143 miles of railroad in course of construction, with terminals and equipment. The company, it is stated, is an independent enterprise, no other corporation controlling the stock or guaranteeing the bonds. Alfred Cowles, Chicago, is President, and E. A. Sunderlin, Colorado Springs, Secretary and Treasurer. J. M. Parker is General Manager of the Southern Development Co., which is building the road. A statement officially revised for us says:

Twenty-eight miles of the road has been built, from Monroe, La., at a connection with the St. Louis Iron Mountain & Southern and V. S. & P. Ry., to Bastrop, La. Grading is completed from Bastrop, La., to Hamburg, Ark., 28 miles more; also on the branch from Rolfe Junction to Crossett-Ark., 7 miles, at a connection with the Chic. R. I. & Pac. Ry., and tracklaying is in progress. An extension is projected from Hamburg to Pine Bluff, on the Arkansas River, 80 miles.

The company has purchased and received 3 locomotives, 5 passenger cars, 158 freight cars, 1 steam shovel, 1 spreader car, 1 Lidgerwood unloader, 1 centre plow, 1 Stover motor car and 1 American log loader for equipping the line, which is building toward Pine Bluff, Ark.

(Compare map on page 938 of the "Official Guide," issued by the National Railway Publication Co., 24 Park Place N. Y. City.)

**Arkansas Oklahoma & Western RR.**—*Bonds Offered.*—Merriam, Smith & Co., 10 Wall St., New York, are offering at par first mortgage 40-year 6% gold bonds dated Jan. 1 1907, maturing Jan. 1 1947, without option of earlier redemption. Denomination $1,000. Interest payable Jan. and July at United States Mortgage & Trust Co., New York, trustee. Authorized bond issue limited to $1,250,000 at not exceeding $10,000 per mile of completed road, the cost of which, when built as proposed from Eureka Springs, Ark., to Pryor Creek, Okla., 125 miles, it is stated, will be about $18,000 per mile. A circular says in substance:

The road is built and in operation from Rogers, Benton County, Ark., to Siloam Springs, Ark., a distance of 30 miles, where a connection is made with the Kansas City Southern. Net earnings are more than double the amount sufficient to care for the interest on the bonds at present outstanding on this part of the road. From Siloam Springs it will extend westerly to Pryor Creek, Okla., about 65 miles, and from Rogers, Ark., easterly to Eureka Springs, Ark., about 30 miles, and will be built as rapidly as possible.

*Estimated Earnings of Entire 125 Miles of Road When Completed.*

| | | | |
|---|---|---|---|
| Gross earnings | $659,375 | Int. on $1,250,000 1st M 6s | $75,000 |
| Net earnings | 263,750 | Net surplus | 188,750 |

*Abstract of Letter from President W. R. Felker, Rogers, Ark., Nov. 8 1907.*

The company is incorporated under the laws of Arkansas with an authorized capital of $3,000,000 (par of shares $100). The above first mortgage bonds are limited to $10,000 per mile and can be issued only on completion of each five miles, as certified to by the engineer of the railroad, or by an official under the seal of the company, to the United States Mortgage & Trust Co., trustee.

The road will extend westerly from Eureka Springs, Ark., to Pryor Creek, Okla., 125 miles, connecting at Eureka Springs with the Missouri & North Arkansas, crossing the main line of the St. Louis & San Francisco RR. at Rogers, Ark., the Kansas City Southern at Siloam Springs, Ark., and connecting at Pryor Creek, Okla., with the Missouri Kansas & Texas RR. The first 30 miles, from Eureka Springs to Rogers, Ark., will extend through a section most of which is covered with a virgin forest of timber, the first 10 miles being short-leaf yellow pine, while the remaining 20 miles will tap one of the finest uncut bodies of hardwood timber in the State, containing large quantities of white oak. This land, when cleared, is adapted to the raising of wheat, oats and corn, as well as all kinds of fruit. Rich deposits of marble, shale and limestone abound. There are no railroad facilities at present in this section. Our road into Eureka Springs will shorten the distance very materially to this well-known health resort from all points south and west.

On the portion of the company's road which is now in operation from Rogers to Siloam Springs, 30 miles, the country is made up of small farms devoted to the raising of corn, oats, wheat and large quantities of fruit and berries; also cattle, hogs, horses and poultry. Population all white. The nearest railroad to the north is an average distance of about 16 miles and to the south about 22 miles. From Siloam Springs to Pryor Creek, Okla., about 65 miles, is a section consisting of fertile, rolling prairie and forests of valuable hardwood, some 1,500 square miles of oak timber being directly tributary to our road. It produces abundant crops of corn, wheat, oats, alfalfa, some cotton, and is one of the finest cattle countries in the Southwest. Rich deposits of coal have been discovered.

The road is substantially built with new steel rails laid on new white oak ties of standard dimensions, 4,000 to the mile; bridges of native oak and Southern pine timber.

On the part of the road now in operation between Rogers and Siloam Springs the net earnings are more than double the amount required to care for the interest on the outstanding bonds at present. In my opinion the road will earn gross on the 125 miles annually an average of $5,275 per mile and can be operated, including taxes, for at least 60 % of the gross earnings.

Morris Bros., Philadelphia, are also offering the bonds. The company is successor to the Rogers Southwestern RR. (V. 83, p. 272). The directors (and officers) of the road are:

W. R. Felker, President, Rogers, Ark.; Alf. L. Williams, Vice-President, Fayetteville, Ark.; F. F. Freeman, Secretary, Rogers, Ark.; J. E. Felker, Treasurer, Rogers, Ark.; J. S. McLeod, Rogers, Ark., and H. Van Smith, Muskogee, Okla.

**Broadway & Seventh Avenue RR., New York.**—*Payment of Overdue Dividend.*—See New York City Ry. below.—V. 86, p. 51.

**Brooklyn Queens County & Suburban RR.**—*Bonds Listed.*—See Brooklyn Rapid Transit Co. below.

*Earnings.*—For fiscal year ending Oct. 31 1907:

| | | | |
|---|---|---|---|
| Gross earnings | $1,633,442 | Deductions—Taxes | $63,483 |
| Operating expenses | 1,012,527 | Interest on bonds | 331,200 |
| | | Int. on cert. of indebt'ess | 49,092 |
| Net earnings | $620,915 | Special appropriations | 12,102 |
| Other income | 26,553 | | |
| Total net income | $647,468 | Balance, surp. for year | $191,590 |

—V. 67, p. 1262.

**Brooklyn (N. Y.) Rapid Transit Co.**—*Listed.*—The New York Stock Exchange has listed:

| | *Now listed.* | *Tot. listed.* |
|---|---|---|
| Brooklyn Queens County & Suburban RR. additional first consol. guaranteed 5s, due 1941 | $629,000 | $2,884,000 |
| First mortgage 5% bonds, due 1941 | 3,500,000 | 3,500,000 |
| Brooklyn City RR. additional first M. 5% bonds, due 1941 | 1,860,000 | 6,000,000 |
| Brooklyn Rapid Transit Co. additional 5% 50-year mortgage bonds, due 1945 | 375,000 | 7,000,000 |

All of these bonds were sold some years ago, but, being inactive securities, they are only now listed, the stock Exchange desiring that the amount on the list conform with the amount outstanding.

*Earnings of Subsidiary.*—See Brooklyn Queens County & Suburban RR. above.—V. 85, p. 1517.

**Buffalo & Susquehanna Ry.**—*New Equipment.*—The company's requirements for additional rolling stock are now being met, as appears from the following statement:

Final deliveries are being made of the equipment ordered some months ago, consisting of 800 all-steel cars, each of 100,000 lbs. capacity; 200 steel under-frame box cars of 80,000 lbs. capacity and 20 heavy consolidated locomotives, at a cost of $1,400,000. As rapidly as received the new equipment is being utilized to handle the through traffic with connecting lines. Notable increases in manufacturing tonnage on the northern lines of the company and in coal tonnage on the southern extensions made the purchase of additional rolling stock imperative. (Compare V. 85, p. 1265, 525.)—V. 85, p. 283.

**Chicago Great Western Ry.**—*Receivership.*—The United States Circuit Court at St. Paul on Jan. 8, upon application of the company, placed the property in the hands of President Stickney and C. H. F. Smith of St. Paul as receivers.

The company, owes $10,653,414 on notes and bills payable (of these $545,000 have gone to protest), and on short-term notes due from Jan. 1908 to 1912, of which $1,500,000 mature this month and an additional $1,842,545 before the end of the year. Some $10,000,000 of new money, it is stated, is required to complete the extensive improvements in the way of double-tracking, new terminals, &c., on which $15,000,000 or $20,000,000 has already been expended during the past decade. President Stickney for some months past has been urging upon the leading English interests the necessity of a comprehensive financial plan. The property is unmortgaged, and it is now proposed to place the company on its feet, providing both for the maturing notes and for future capital requirements by making a mortgage for, perhaps, $20,000,000 or $25,000,000.

President Stickney made the following statement in London on Jan. 8 at the conclusion of the meeting of the finance committee at which the receivership proceedings were approved:

The Chicago Great Western, fortunately, has no mortgage. It issued a lot of notes which matured during a time of financial depression, as usually is the case, and consequently we could not pay them. A great majority of the note-holders were perfectly willing to extend the time of the notes, but some of the holders could not be reached, and it was uncertain what they might do. The committee thought it best under the circumstances to place the property in control of the court during the time necessary to issue first mortgage bonds and sell them. In ordinary times it would take three months to issue and sell these bonds, but how long it will take to sell them under present conditions is problematical.—V. 85, p. 1517, 1528.

**Chicago & Illinois Western RR.**—*New Mortgage.*—A mortgage has been filed to the American Trust & Savings Bank of Chicago, as trustee, to secure an issue of $4,000,000 general mortgage 6% gold bonds, dated July 1 1907 and due July 1 1947. In 1905 the company made an issue of $500,000 first mortgage 5s, dated July 1 1905, and subject to call after three years at par (V. 82, p. 48). An extract from the new mortgage says in substance:

"The railway company deems it necessary to issue its bonds for the purpose of finishing, completing and putting in operation its lines of railroad from a connection with the Pittsburgh Cincinnati Chicago & St. Louis RR. company's tracks, running north and south between Rockwell Street and Western Ave., at or near its intersection with Douglas Park Boulevard, in the City of Chicago, and extending thence southwesterly and westerly along or near the right of way of the Chicago Madison & Northern division of the Illinois Central RR. to a point at or near 48th Ave. in the town of Cicero; thence southerly and westerly to a point in the village of Hodgkins at or near Gary Station on the Atchison Topeka & Santa Fe Ry., and also those certain branches, to wit: From its main line from 48th Ave. northward to a connection with the Chicago Burlington & Quincy RR. and the Manufacturers' Junction RR., and from the Gary Station of the Atch. Top. & S. Fe Ry. to Willow Springs, Cook County, Ill."

W. E. Phillips is President. See V. 83, p. 491; V. 85, p. 404.

**Chicago & Milwaukee Electric RR.**—*Correction.*—In our statement last week (page 51) regarding the settlement of the trouble growing out of Judge Tuthill's temporary mandate for a receivership for this road, it seems that we were in error as to one or two points in the compromise agreement. No trustees have been appointed and no trusteeship is contemplated. We have received the following detailed statement:

A. C. Frost, to vindicate himself of the charges made in the bill—which he claims are absolutely untrue and unfounded—has executed a document to Charles G. Dawes, President of the Central Trust Co. of Illinois, giving him the right to investigate the charges and the stipulation that if he finds any of the funds or securities of the company have been invested in outside enterprises, they shall be returned to the company.

The funds for the payment of interest had all been provided last year, and were available for meeting the company's interest on Jan. 1, as also an additional $300,000 with which to complete the road and pay off the company's floating debt.

The receivership lasted only two days and the company is now again in full possession of its property. Albert C. Frost has full control as heretofore. The road is now practically completed into Milwaukee, and will be open for traffic early next spring.—V. 86, p. 51.

**Chicago Rock Island & Pacific Ry.**—*Sale of Bonds.*—The sale was announced on Thursday of a block of "first mortgage and refunding" 4% 30-year gold bonds to Speyer & Co. While the amount involved is not made public, the sale, it is understood, puts the company in a position to take up at maturity the $6,000,000 of 2-year 4½% notes which fall due on April 1. (Compare V. 82, p. 803, 101).—V. 85, p 1013, 1000.

**Chicago Terminal Transfer RR.**—*Circular—Further Particulars.*—Reference was made last week to the general call for deposits of stock by the stockholders' protective committee, consisting of George I. Malcom, Chairman; George D. Mackay, Edward A. Morgan, Edward L. Oppenheim and James L. Laidlaw, with H. S. Mott as Secretary, 100 Broadway, New York City, and Hornblower, Miller & Potter as Counsel. The committee's circular further says under date of Jan. 2

The most recent appraisals of the properties of the company have shown them to be of a value of upwards of $27,000,000, against which there is a judgment in the foreclosure suit for $16,824,689 78, which, together with underlying liens, receivers' certificates, accumulated interest, &c., makes a total liability of something less than $19,000,000, leaving an equity in the property of upwards of $8,000,000.

The foreclosure decree as entered would have permitted the properties to have been sold free of the onerous lease to the Baltimore & Ohio Co., but on March 30, and while the notice of the foreclosure sale was being published, the Baltimore & Ohio Co. petitioned the Court to be allowed to protect its lease by advancing funds to take up the bonds in foreclosure and being subrogated to the rights of the bondholders and the judgment entered in their behalf. This petition was heard on April 16 1907, the committee

appearing by counsel and objecting to any order or decree expressly or impliedly affirming the validity of the lease, and in deference to the objections made by the committee, the order as entered provides: "This order is expressly made without prejudice to the rights of the Chicago Terminal Transfer RR. Co. or the receiver of said company, or of any stockholder of said company, hereafter permitted by the Court so to do to contest the validity or effect of the lease of April 1 1903 between the Chicago Terminal Transfer RR. Co. and the Baltimore & Ohio & Chicago RR. Co. and the Baltimore & Ohio RR. Co., as fully and freely in all respects as if this order had not been made."

It is that alleged lease, dated April 1 1903, to the Baltimore & Ohio Co., at the ruinously low rental of approximately $160,000 per annum, which brought the Terminal Co. to foreclosure, the property leased to the Baltimore & Ohio Co. being worthy of a rental of not less than $600,000 per annum. The properties leased to the B. & O. are of the most valuable owned by the Terminal Co., and unless the rights of the stockholders of the Terminal Co. are asserted and sustained, and the properties sold free and clear of said lease, or the said lease declared void or canceled, it can hardly be expected that the properties will bring more at the foreclosure sale than just about sufficient to pay the mortgage debt, the prior liens and the receivers' certificates, &c. With the Baltimore & Ohio Co. in possession of such a large block of the Terminal Co.'s properties, there would not seem to be sufficient left for another large railroad company.—V. 86, p. 52.

**Cincinnati Hamilton & Dayton Ry.**—*Proposed 4% Note Issue for $14,286,000 to Retire Refunding 4% Bonds Dated 1904.*—The shareholders will vote Feb. 7 on the following propositions:

(*a*) To authorize the execution of a supplement to the refunding mortgage dated July 1 1904 made to the United States Mortgage & Trust Co., as trustee, among other things limiting the amount of refunding bonds which may be hereafter issued under said refunding mortgage, and providing that the principal of the refunding bonds shall mature on July 1 1913, or earlier, upon the happening of certain specified events of default;

(*b*) To authorize the purchase of the refunding bonds now outstanding or which may hereafter be issued under said refunding mortgage and said proposed supplement thereto; and

(*c*) To authorize the issue, for the purpose of making payment for said refunding bonds, of the purchase-money notes of said company, to be limited to the principal amount of $14,286,000, to mature July 1 1913 and to bear interest at the rate of 4 % per annum; and to authorize the pledge, to secure said purchase money notes, of the refunding bonds held or acquired by said company, and to the execution and delivery by said company of a trust agreement with the Central Trust Co. of New York, as trustee, providing for such pledge.

*Description of New Note Issue—Circular to Holders of Certificates of Deposit of Central Trust Co. of New York for 4% Gold Refunding Bonds Deposited under Bondholders' Agreement of Dec. 9 1905.*—As explaining the foregoing notice to the shareholders, we have the following circular, signed by James N. Wallace, Frederick Strauss and Mark T. Cox, under date of New York, Jan. 7:

The undersigned committee under the bondholders' agreement of Dec. 9 1905 has, after prolonged negotiations, effected an arrangement with the Cincinnati Hamilton & Dayton Ry. Co., and that company has agreed to buy such of the refunding bonds as may be tendered for that purpose by the committee, paying therefor, dollar for dollar, in the 5½-year purchase-money collateral trust 4 % gold notes of the railway company, to mature July 1 1913, to bear interest from Jan. 1 1908 at the rate of 4 %, per annum payable semi-annually, Jan. 1 and July 1, and to be redeemable at the option of the railway company on any half-yearly interest day at par; the note to be payable, both as to principal and interest, in New York, in United States gold coin of or equal to the present standard of weight and fineness, free from any tax which the railway company may be required to pay thereon or retain therefrom under any present or future law of the United States or of any State, county or municipality therein; the refunding bonds so purchased to be deposited with Central Trust Co. of New York, under a trust agreement between the railway company and said Trust Company, as trustee, a draft of which has been lodged with said Trust Company and is open to your inspection.

Under the proposed trust agreement, the aggregate amount for which the purchase-money notes may be issued is to be limited to $14,286,000. Of this amount $11,558,000 notes are to be reserved for issue to purchase the $11,558,000 refunding bonds outstanding. The remaining $2,728,000 notes are to be reserved to be used only to take up, on their issue, $2,728,000 additional refunding bonds which may be issued to refund a like amount of consolidated mortgage 5 % bonds of the Dayton & Michigan RR. Co., maturing Jan. 1 1911, and, except for this purpose, it is contemplated that the refunding mortgage shall be closed.

In the opinion of the committee, the arrangement proposed is highly advantageous to the holders of the refunding bonds, and the committee recommends its acceptance.

For this purpose a form of authorization is enclosed, to be signed and returned to the depositary by holders of certificates of deposit desiring to avail of said offer of the railway company, who must, at the time of filing such authorizations, pay to the depositary the sum of $9 per bond represented by their certificates of deposit for the expenses and compensation of the committee.

(A supplemental mortgage, we are informed, will provide that the term of the bonds shall be shortened so as to have the bonds mature on the same date as the notes, on July 1 1913, and also that both shall have the same foreclosure rights in case of default, the right to begin foreclosure accruing in 60 days instead of six months. The notes will be secured by the deposited bonds.—Ed.)

The arrangement has already received the approval of three-fourths of the stock, and it is expected that the notes will be ready for delivery during February 1908. Holders of refunding bonds who have not deposited their bonds with the committee may also take advantage of the provisions of this circular.—V. 85, p. 1003, 921.

**Cripple Creek Central RR.**—*No Dividends at Present.*—The directors have decided to omit the dividends due this month on both the common and preferred (non-cumulative) stocks, largely, it is explained, because the cash assets of the company are involved in the failure of Kessler & Co. See V. 85, p. 1209, 1397.

**Cuba Eastern RR.**—*New President.*—Edgar Van Etten on Jan. 1 severed his connection with the New York Central & Hudson River RR., of which he was Second Vice-President, and became President of the Cuba Eastern. Compare V. 82, p. 160.

**Eighth Avenue RR., New York.**—*Payment of Overdue Dividend.*—See New York City Ry. below.—V. 86, p. 52.

**Indiana Harbor Belt RR.**—*Status.*—We have been favored with the following:

Capital stock outstanding, $2,450,000. On Nov. 1 1907 the company executed its mortgage covering the properties owned or operated by it to secure an authorized bond issuance of $25,000,000; said bonds to bear interest at not to exceed 5 % per annum. $2,500,000 of these bonds have been issued and are outstanding. The mortgage provides for the issuance of $2,500,000 of bonds to take up at or before maturity $2,500,000 of 6 % bonds of the Chicago Hammond & Western RR. Co. (mortgage of Jan. 1 1897), which are outstanding upon the property now owned by the Indiana Harbor Belt RR. Co. The mortgage also provides for the issuance of $725,000 bonds to take up at or before maturity a like amount of 4 % bonds of the Michigan Central RR. Co., (joint mortgage of July 1 1896 of M. C. RR. Co. and Terminal RR. Co.), now owned by the Indiana Harbor Belt RR. Co.

The new bonds mature July 1 1957, interest being payable Jan. 1 and July 1. The Lake Shore & Michigan Southern and Michigan Central own all the stock and have guaranteed the bonds outstanding. The $725,000 of Michigan Central Terminal bonds should not be taken out of the Michigan Central bonded debt at present, as the exchange for Indiana Harbor Belt bonds has not actually been made.

*Properties Owned and Operated by Indiana Harbor Belt RR. from Nov. 1 1907.*

| | Miles. |
|---|---|

—V. 85, p. 1270, 1209.

**Interborough Rapid Transit Co., New York.**—*Line to Borough Hall, Brooklyn, Opened for Business.*—The East River tunnel road, extending from Bowling Green, Manhattan, to Borough Hall, Brooklyn, was opened for business early Thursday morning, the trip between the points named taking about 3½ minutes. The entire line to the Flatbush Avenue station of the Long Island RR. is expected to be completed by May 1.—V. 85, p. 1461.

**Metropolitan Street Ry., New York.**—*Dividends on Leased Lines Stocks.*—See New York City Ry. below.

*Separate Receiver for Third Avenue RR.*—See that company.

*Minority Stockholders' Committee.*—A committee has been formed in behalf of minority stockholders, consisting of:

William F. King, ex-President of the Merchants' Association, Chairman; George L. Degner, William Maas, I. Blum, Nathan H. Heyman and John D. Parsons, with Griggs, Baldwin & Pierce, 27 Pine St., and Eugene G. Kremer, as Counsel.

An assessment of $1 per share has been levied. The committee announces as its purpose the prosecution of civil suits to recover moneys wrongfully diverted from the company and the securing of legislation to protect stockholders in public service corporations from improper acts of directors.

*Applications Denied.*—Judge Lacombe in the United States Circuit Court on Tuesday denied the applications of the Fidelity Trust Co. of Philadelphia and Solomon H. Kahn to intervene in the receivership suit (V. 85, p. 1462).

*Examination of Directors Refused.*—Justice Davis in the Supreme Court in this city on Jan. 9 vacated the order previously obtained by Attorney-General Jackson for the examination of officers and directors of the company to enable him to obtain information for use in actions to be brought by him.

The court holds that no proof of collusion, as alleged, can affect the State's right to dissolve the corporation as proposed if it really was insolvent for more than a year, and that therefore the matters on which it is sought to examine the directors are immaterial.—V. 86, p. 52.

**Metropolitan West Side Elevated Ry.**—*New Bonds—Further Facts.*—The $50,000 collateral trust gold bonds offered at par by the Chicago Savings & Trust Co., the trustee for the issue, as stated last week, are part of an issue of $100,000 authorized and outstanding, which is further described

Dated Dec. 2 1907; due $10,000 semi-annually (June 1 and Dec. 1) 1908-1912. Interest payable June 1 and Dec. 1 at office of trustee, Chicago. Denomination $500 c*. Redeemable at 101 and interest on any interest day upon thirty days' notice. Authorized and outstanding, $100,000. A direct obligation of the Metropolitan West Side Elevated Ry. Co., secured by Metropolitan West Side Elevated extension mortgage 4 % bonds at the rate of $2,000 of extension bonds for every $1,000 of this issue. Altogether, $200,000 of extension bonds are deposited, there being an outstanding issue of $3,321,000 on property conservatively valued at $5,500,000.—V. 86, p. 52.

**Michigan Central RR.**—*Provision for Joint 4% Bonds.*—See Indiana Harbor Belt RR. above.—V. 85, p. 1577.

**New York City Ry.**—*Payment of Overdue Rentals.*—The receivers on Saturday Jan. 4 paid the rentals due by way of dividends on the stocks of the Broadway & Seventh Avenue RR., Eighth Avenue RR., Ninth Avenue RR. and Sixth Avenue RR. Compare V. 86, p. 53.

**New York New Haven & Hartford RR.**—*Status of New York & Port Chester Railway Projects.*—President C. S. Mellen last week sent to Secretary Haag of the New York Board of Estimate substantially the following letter relative to the company's control of the Millbrook Company, New York Westchester & Boston Ry. Co. and the New York & Port Chester RR. Co. (compare V. 85, p. 1143), and of its intentions in regard to the construction and operation of the lines of the two last-named companies:

*Securities Owned.*—This company owns all the stock of Millbrook Company, a corporation organized under the laws of the State of New York on or about Nov. 5 1906. The total authorized issue of stock of that company is $100,000 in shares of $100 each. Millbrook Company in turn since a date prior to July 1 1907 has owned and now owns 91,581 shares of the stock of the New York & Port Chester RR. Co., being all the stock of that company issued and outstanding, excepting that nine qualifying shares are held by the directors of the company. New York & Port Chester RR. Co. since a date prior to July 1 1907 has owned, and now owns, the following securities of New York Westchester & Boston Railway Co.

(a) 5,639 shares of the stock, par value $100 a share.

(b) The beneficial interest in 23,489½ shares of the stock, evidenced by voting trust certificates.

(c) $13,490,000 out of $13,500,000 of a certain underwriting agreement calling upon conditions therein stated for $15,000,000 of bonds and 45,000 shares of stock of New York Westchester & Boston Ry. Co., evidenced by voting trust certificates now held by Knickerbocke Trust Co. under the said syndicate agreement of underwriting. All of said underwriting interests, with the exception of $10,000, are now held by this company, but the same have not yet been paid in full. Upon completion of payments to said underwriting this company will be entitled to 44,967 shares

of stock of New York Westchester & Boston Ry. Co., evidenced by voting trust certificates.

*Plans for Construction.—Litigation.*—It is the intention of the New York New Haven & Hartford RR. Co. to cause to be constructed a railroad from the Harlem River to Port Chester, consisting of two tracks from the Harlem River to 177th St., four tracks from 177th St. to the city line, and two tracks from the city line to Port Chester; such road to be high-speed electric railroad, in compliance with the provisions of the franchises heretofore granted by the city of New York to the Port Chester Company and the Westchester Company. The purpose is to construct such railroad upon the best available route between the Harlem River and Port Chester, whether the route already laid down by the New York & Port Chester RR. Co. or the New York Westchester & Boston Ry. Co. or the New York New Haven & Hartford RR. Co.

The plan under which this construction is to be made has not taken final form only because of the resistance by property owners disputing in the courts the validity of the charter of the New York Westchester & Boston Ry. Co. It was hoped that, pending a decision upon this charter, the work of construction might proceed, in so far as it covered that portion of the route from 177th St. to the city line, by the New York & Port Chester company under an agreement with the New York Westchester & Boston Ry. Co. For such purpose application was made for leave to cross the streets in the borough of the Bronx upon the route of the New York & Port Chester RR. Co. as amended. This attempt to construct promptly has encountered the opposition of one of the stockholders of the Westchester Company, in whose suit an injunction has been granted preventing your board, at least for the present, from granting the application of the New York & Port Chester RR. Co. The New York New Haven & Hartford RR. Co. has no preference as to the charter finally to be adopted, its only desire being that the road shall be built under the charter of the company which shall be free from legal question. The route selected between 177th St. and the city line is that which this company desires finally to construct, and upon which railroad a considerable amount of work has already been done

Since the filing of the application for change of route by the Portchester Company, additional property has been purchased between 177th St. and the city line, and the company has now bought, or arranged to buy, substantially all property between those two points, with the exception of a few pieces, as to which it will be necessary to commence condemnation proceedings, in order to acquire the necessary right of way. Until either the Westchester Company, by reason of a final decision by the Court of Appeals sustainig the validity of its charter rights, is in a position to condemn, or the Port Chester, by reason of the consent of the board to cross the streets on its amended route, is in like position, little progress can be made in this regard.

On Dec. 27 1907 Judge Charles F. Brown, the referee before whom the proceedings to determine the validity of the Westchester charter were pending in the form of a condemnation proceeding to acquire property of Mrs. Arabella D. Huntington, rendered an opinion sustaining the validity of the charter of that company. If this charter is finally sustained, it is the intention and desire of this company that the New York & Port Chester RR. Co. and the New York Westchester & Boston Ry. Co. shall be consolidated or merged in accordance with the the provisions of law so as to form one company. Should, however, the decision of Judge Brown be reversed, and the Court of Appeals adjudge the charter of the Westchester Company to be invalid, the construction of the road will be completed under the Port Chester charter—V. 85, p. 1647.

**New York & Port Chester RR. Co.**—*Status.*—See New York New Haven & Hartford RR. above.

*Favorable Decision.*—The Appellate Division of the Supreme Court, First Department, yesterday sustained the company in its appeal from the order of the lower court in the action brought by Robert E. Robinson, restraining the Board of Aldermen from approving the proposed change of route in the Borough of the Bronx, and also the use by the company of a part of the located line and roadbed of the New York Westchester & Boston. Compare V. 85, p. 794.—V. 85, p. 1144.

**New York Westchester & Boston Ry. Co.**—*Status.*—See New York New Haven & Hartford RR. above.—V. 83, p. 1291.

**Norfolk & Western Ry.**—*Syndicate Dissolved.*—The syndicate which underwrote the $14,576,000 convertible bonds has been dissolved, the syndicate agreement having expired by limitation on Dec. 31. Comparatively few of the bonds, it is understood, were sold, the greater part remaining for distribution among the members of the syndicate. Compare V. 83, p. 1412, 1471; V. 84, p. 1248; V. 85, p. 469, 1647.

**Passenger Fares.**—The following changes in passenger rates have been recently proposed or taken place:

*North Carolina.*—Governor Glenn of North Carolina on Wednesday called a special session of the Legislature Jan. 21 to consider a change in the passenger rate from 2¼ cents a mile, as fixed at the last session. The step is understood to be in pursuance of a plan for a uniform rate of 2½ cents a mile in a number of Southern States. Compare Southern Ry. item, V. 85, p. 1578.

*South Carolina.*—The Southern Ry. on Jan. 3 announced a voluntary reduction in passenger rates to 2½ cents a mile, 1,000 and 2,000-mile books at 2 cents and 500-mile books at 2¼ cents a mile.—V. 85, p. 1402.

**Railroad Taxation in New Jersey.**—*Laws Increasing Taxes Upheld.*—The Court of Errors and Appeals on Jan. 7 (Chief Justice Gummere writing the opinion) unanimously affirmed the decision of the Supreme Court in August last, which upheld the Perkins main-stem tax Act of 1906 (Chap. 280).

The lower court is reversed in regard to the taxation of second-class property, in which, it is held, the assessment must be made by the State Board of Assessors and not by local assessors. The decision, it is said, will have no substantial effect on the amount of taxes to be paid by the railroads except in Jersey City, where the local assessors placed the valuation of railroad far above that of other property. Compare V. 85, p. 347.

**Rochester Ry. & Light Co.**—*First Dividend.*—An initial dividend of 5% ($5 per share, par $100, $70 paid in) has been declared on the $6,500,000 common stock, payable Jan. 15 to holders of record Dec. 31. The company is controlled by the Mohawk Valley Co.—V. 84, p. 509.

**Rogers Southwestern RR.**—*Successor.*—See Arkansas Oklahoma & Western RR. above.—V. 83, p. 272.

**Seaboard Air Line Ry.**—*Protective Committee for Extended Three-Year 5% Bonds.*—A committee has been formed in Baltimore, consisting of

B. N. Baker (Chairman), James A. Gary, A. H. S. Post, Douglas H. Gordon, Gustavus Ober, Frank S. Hambleton and John D. Howard, with Venable, Baetjer & Howard and Ritchie & Janney as counsel,

to protect the holders of the $4,665,000 collateral trust and general lien" 3-year 5% bonds issued in 1904 and extended in 1907 until 1911 (V. 78, p. 104, 229, 821, 989; V. 84, p. 340.) An advertisement says:

The members of the committee own and directly control more than $1,500,000 of the total issue of these bonds. The deposit agreement which has been prepared provides that the committee shall serve without compensation, and that the total expense to the bondholders for counsel fees and other disbursements shall not exceed $5 per bond. The holders of these bonds are requested to promptly deposit their bonds with the depositary, the Mercantile Trust & Deposit Co. of Baltimore, in exchange for negotiable receipts.

Holders of first mortgage bonds are requested to deposit these bonds with the Continental Trust Co. of Baltimore as depositary.

*First Mortgage Bondholders' Committee.*—At Baltimore on Jan. 9 the following committee was formed to protect the first mortgage bonds:

C. Sidney Shepard, of New Haven, N. Y., Chairman; William H. Grafflin, of Baltimore, Vice Chairman; Norman B. Ream, Walter S. Rosen, Samuel J. Lanahan, J. William Middendorf, Van Lear Black, Owen Daly, H. A. Orricle and Townsend Scott.—V. 86, p. 53.

**Sixth Avenue RR., New York.**—*Payment of Dividend.*—See New York City Ry. above.—V. 86, p. 53.

**Southern Pacific Co.**—*Explanation of Increased Operating Expenses in November.*—In connection with the Nov. earnings given on a preceding page, an official statement says:

About $866,000 of the increase was for maintenance of way, structures and equipment. The continuous rains of the spring of 1907, lasting longer than ever before known since the construction of the lines, softened the roadbed of the entire mileage in the States of California, Nevada and Oregon, so that under the exceptionally heavy traffic the track deteriorated very rapidly, and it was found, after temporary repairs necessarily put upon the line were made, that practically all of the above mileage had to be re-surfaced, ballasted and re-tied, and these causes have affected expenses in every month of the present fiscal year. They have added $494,000 to the expenses, of which $320,000 was for roadbed repairs and $174,000 for renewal of ties. The company also operates about 175 miles of main track more than it did last year.

Renewals of equipment increased about $190,000, due to increases in wages and heavier repairs required. Expenses for conducting transportation increased $665,000. Of this increase, $295,000 is due to the higher prices of coal and fuel oil, and a larger consumption. The remaining expenses resulted mainly from an increase of 78,000,000 tons one mile, of about 11%.—V. 85, p. 1519, 406.

**South Side Elevated RR.**—*New President.*—Charles Valentine Weston, a director, has been elected President to succeed the late Marcellus Hopkins.—V. 85, p. 1519.

**Syracuse Rapid Transit.**—*First Dividend on Common Stock.*—This company, controlled by the Mohawk Valley Co., has declared a first dividend of 3% on its $2,750,000 common stock, payable Feb. 1 on stock of record Jan. 10; also the regular dividend of 6% on the $1,250,000 preferred stock payable 1½% quarterly, the first payment being made this month.—V. 81, p. 1045.

**Tallulah Falls Ry.**—*Receivership.*—At Cornelia, Ga., on Jan. 6 Judge J. J. Kimsey of the Northeastern Circuit Court of Georgia appointed W. S. Erwin, former General Manager of the company, and L. R. Adams, Chief Clerk to the Superintendent, temporary receivers for the company upon application of H. H. Dean of Gainesville, representing a number of creditors. The company, it is understood, has outstanding $374,000 1st M. bonds, $500,000 first consols and a floating debt of about $45,000. The road extends from Cornelia, Ga., to Orlando, N. C., 75 miles. The question of making the receivership permanent will come up Jan. 25.—V. 75, p. 241.

**Toledo & Ohio Ry.**—*Guaranteed Car Trusts.*—See Zanesville & Western Ry. below.—V. 85, p. 789.

**Tonopah & Goldfield RR.**—*Earnings, &c.*—The "Philadelphia Ledger" of Jan. 7 said.

The gross earnings of the Tonopah & Goldfield RR. up to Dec. 21 of the current fiscal year, which ends on June 30 next, amounted to $1,001,421, as compared with $988,538 for the same period of last year, an increase of $12,885. Of the company's recent purchase of six locomotives from the Baldwin Locomotive Works, four have been resold, so that the company's immediate indebtedness has been reduced by more than $100,000.—V. 85, p. 1463, 1396.

**Third Avenue RR., New York City.**—*Separate Receiver.*—This road, leased in 1900 to the Metropolitan Street Ry., and recently operated by the receivers of that property and the New York City Ry., was on Jan. 6 placed by Judge Lacombe of the United States Cricuit Court in the hands of Frederick W. Whitridge, of Carey & Whitridge, the well-known law firm of 59 Wall St., as separate receiver, on application of John M. Bowers, Counsel for the Central Trust Co. of New York, the new trustee under the first consolidated mortgage.—V. 86, p. 53.

**Wasatch & Jordan Valley RR.**—*Receivers' Sale.*—Receiver Chester Martin, 229 Broadway, New York, advertises the sale of this company's property at auction on Feb. 8 at 16 Vesey Street under an order of the District Court of the Third Judicial District County of Salt Lake, Utah.—Compare V. 84, p. 1053.

**West End Street Ry., Boston.**—*Subscriptions.*—The shareholders, it is said, subscribed for about $920,000 of the $1,010,900 new stock recently offered for subscription. Compare V. 86, p. 53.

**Wisconsin & Northern RR.**—*New Enterprise—Bonds.*—This company, organized May 31 1906, to build a railroad 210 miles in length, extending from Menasha, Wis., northerly via the cities of Appleton and Shawano, Wis., and through the Stockbridge and Menominee, Indiana, reservations to Mass, Mich., with a 24-mile branch to Antigo Langdale, Wis., and possibly extensions, &c., has now in operation between Shawano and Van Ostrand, 36.3 miles of road, and between Crandon and W. & N. Junction, the point of connection with Soo Line, 6.4 miles. A mortgage made to the United States Trust Co. of New York as trustee, under date of April 22 1907, provides for the issuance of not exceeding $10,000,000 of 4% gold bonds dated July 1 1907 and due July 1 1932. Of these bonds $7,000,000 are issuable to provide for the construction and equipment of aforesaid 234 miles of main line and branch, and the remainder is reserved under stringent provisions for additional road at $15,000 per mile, and for new equipment, terminal

facilities, &c. President, H. F. Whitcomb; Secretary, F. H. Josselyn; Treasurer, R. H. Edwards. Office, Oshkosh, Wis.—V. 85, p. 223, 1463.

**Vandalia RR.**—*Payment of Maturing 7% Bonds.*—Notice is given that the $1,676,000 first mortgage 7% bonds of the Indianapolis & Vincennes RR. Co., maturing Feb. 1 1908, will be paid on presentation on or after that date at the Farmers' Loan & Trust Co., 16-22 William St., New York City.—V. 84, p. 1178.

**Zanesville & Western Railway.**—*Offering of Guaranteed Car Trusts.*—The Ohio Savings Bank & Trust Co. of Toledo is offering, at prices to yield the investor 6½%, the unsold portion of an issue of $500,000 4% car-trust gold notes, guaranteed by endorsement as to principal and interest by the Toledo & Ohio Central Railway. An advertisement says:

These notes mature semi-annually June 1908 to December 1917 inclusive. They are issued for the purchase of 500 steel underframe drop-bottom gondola cars 100,000 lbs. capacity each. The value of the cars exceeds by over 25% the total par value of the notes. The Toledo & Ohio Central which owns the entire Zanesville & Western Railway Co. capital stock earned over 3½ times its fixed charges in 1907. (Besides the $2,500,000 capital stock the T. & O. C. owns the road's entire bonded debt, $2,000,000. Ed.)—V. 75, p. 908.

## INDUSTRIAL, GAS AND MISCELLANEOUS.

**American Cement Co., Philadelphia.**—*No Extra Dividend.*—The directors on Dec. 16 declared a regular semi-annual dividend of 3%, payable Jan. 23 on stock of record Jan. 11, but omitted the extra distribution of 1% usually paid in January. However, an extra 1% was paid last July, the last previous extra distribution in that month having been made in 1904. President Lesley is quoted as saying: "Earnings for 1907 were in both gross and net the second largest in the history of the company. This was after unusually large deductions for repairs, renewals and depreciation."

*Dividend Record (Total Per Cent Paid During the Calendar Year).*

| Per Cent. | 1900. | 1901. | 1902. | 1903. | 1904. | 1905. | 1906. | 1907. | 1908. |

| Extra | 2 | 2 | 2 | 2 | 2 | 0 | 0 | 2 | None |

—V. 85, p. 282.

**American Cotton Oil Co.**—*Payment of Deferred Dividend at Increased Rate.*—The directors on Jan. 7 took action on the annual dividend upon the $20,237,100 common deferred last November (V. 85, p. 210), and declared a 4% distribution out of the earnings for the year ended Aug. 31 1907, payable March 2 1908, at the office of Winslow, Lanier & Co., 59 Cedar St., N. Y. City, to holders of record Feb. 15.

*Previous Annual Dividend Record.*

| | 1898. | 1899. | 1900. | 1901. | 1902. | 1903. | 1904. | 1905. | 1906. |

* Includes 2 % paid in the following June.—V. 85, p. 1280, 1268.

**American Farm Products Co., New York.**—*New Officers, &c.*—This company, which was formerly known as the American Butter Refining Co., it appears, recently reduced its authorized capital stock from $17,000,000, of which $2,000,000 was 7% non-cumulative preferred, to $3,500,000, by marking down the common stock from $15,000,000 to $1,500,000. Several changes have also been made in the management, the directors (and officers) being now as follows:

H. W. Henshaw, President; James R. Morse, Thomas Sturgis and H. L. Wiley, Vice-Presidents; F. W. Lafrentz, Treasurer; and William W. Owen, Secretary; L. H. Amy, H. D. Cooke, J. H. Flagler, Francis Henderson, Thomas B. Adams and G. H. Browne.

The present daily capacity of the company's properties is said to be not less than 100,000 pounds.—V. 83, p. 816.

**American Ice Securities Co.**—*Attorney-General's Application Refused.*—District Attorney Jerome on Jan. 2 notified Attorney-General Jackson of his refusal to comply with the latter's request to submit to the grand jury evidence designed to support the charge of violation of the Donnelly (State) anti-trust law by the American Ice Co. on the ground that the contracts referred to are as consistent "with the innocent purpose to acquire as large a business as possible" as with a criminal intent. The grand jury, it is stated, a year ago refused to indict on similar proofs. Civil proceedings are contemplated by the Attorney-General. Compare V. 85, p. 602.—V. 85, p. 1578, 1520.

**American Smelting & Refining Co.**—*Called Bonds.*—One hundred and seven of the Omaha & Grant Smelting Co. first mortgage 6% bonds drawn for the sinking fund will be paid at the Central Trust Co. of New York on March 2 1908 at 105 and accrued interest.—V. 85, p. 795.

**American Stogie Co.**—*Dividend.*—This company, controlled by the American Cigar Co., has declared a dividend of 5% on the $976,000 preferred stock, payable Feb. 1 to holders of record Jan. 15. Compare V. 85, p. 1464.

**American Sugar Refining Co.**—*Annual Meeting.*—At the annual meeting, which was held in Jersey City on Jan. 8, W. B. Thomas, who was recently elected President, succeeding the late H. O. Havemeyer, said in substance:

*Advantages of Consolidation.*—Mr. Havemeyer pointed to the fact that during the 20 years which preceded the organization of the American Sugar Refining Co., over 20 sugar refining companies or partnerships had failed in business, with loss to themselves, loss to their creditors, loss to employees, and loss to consumers, in that every failure furnished an occasion for an increase of price by the refineries which remained. He contended that a combination of capital and business enabled sugar to be sold at a reduced price, and that the shareholders, consumers and employees all were benefited.

*Publicity.*—Upon the subject of publicity Mr. Havemeyer's position was that every statement required by law should, of course, be published, but that in the case of private corporations concerned in competitive business the question of what more should be done was one to be determined by the stockholders; if they are satisfied that publicity puts the business at a disadvantage, their wishes should control.

As to the benefit from such statements, Mr. Havemeyer also had a somewhat positive opinion. They involve a statement of assets, the valuation of which is largely a matter of opinion. To fix such a valuation is difficult for the management; and for others to reach an opinion about its accuracy may be regarded as impossible. It is not inappropriate to recall, as part of the financial history of the last ten years or more that disasters to corporations and their stockholders have not been prevented by the fact that the companies involved have made more or less full financial statements. Such statements are relied and acted upon, but in many cases when a crisis has come, they have been proven to be misleading, although made in good faith.

The foregoing suggestions do not mean that the directors think that the question of statements to be published by the company is settled or determined upon. On the contrary, the directors are of the opinion that the matter should be taken up for consideration and favorable action. Under the able management of Mr. Havemeyer, and conditions existing in the past, I believe our policy was wise and fully justified, but I believe that now, under the new conditions which large corporations in my opinion must meet, a policy of publicity is desirable. I am heartily in favor of it and I hope to bring about this result. The time of making such a statement, and its nature, must be matters of serious consideration, and will be dealt with by the directors according to their best judgment. It may be stated, however, that hitherto there has not been expressed by any considerable number of stockholders a wish for greater publicity.

Until the report of the company's financial condition is made, the stockholders may rest assured that the business for the past year has been satisfactory and that the company is in a strong financial condition.

*Number of Shareholders.*—There are at the present time 9,244 holders of preferred stock and 9,833 holders of the common stock, the average holdings of the preferred stockholders being 48.7 shares, and of common stockholders 45.8 shares, and of preferred and common stock taken together, 47.2 shares. Any action tending to hurt the company hurts the large number of persons who hold the stock mainly for investment and also the large number of others who, in one way or another, are dependent upon the industry.

*Policy as to Maintaining Surplus.*—The subject of first importance to the stockholders is that the business shall be so conducted as to insure the continuance of reasonable dividends. The question has heretofore been raised whether some distribution by way of dividends should not be made from the company's reserve. Upon that subject the directors remain of the opinion that to meet the exigencies of the business there should be a substantial reserve. Whatever reserve there is belongs to the stockholders, and the practical question is, what is best for their interest? The policy which the board will follow, unless otherwise instructed, will be in line with that of the past in respect of carrying on as large a business as possible at a small profit and of maintaining the company in the strongest possible position.

*Litigation.*—Touching the proceedings against the company no definite statement can be made at this time, except in relation to the effort of George H. Earle to hold the company liable by reason of the loan which was made to Adolph Segal. There are two suits, one in New York and one in New Jersey. The suit in New York was reached for trial on Nov. 19 last, but on application for leave to amend the complaint, the case went over. After all the publications about the suit, it is suggestive that the plaintiff was not willing to go to trial.

*Additional Directors.*—In the opinion of the board, it is desirable that the number of directors in the board should be increased from 7 to 9.

The following resolution was then offered by a representative of the company and unanimously adopted:

*Resolved*, That the directors be, and they hereby are, requested to prepare and have published such statement about the company's business, finances and assets as to them shall seem suitable, having reference to all the circumstances to be considered; that they be required to take action on the matter at their early convenience, and that the subject be, and hereby is, referred to them will full authority.

Claus A. Spreckels, a large stockholder (as owner of $650,000 of preferred stock—he claims to be the largest shareholder), was present with the avowed object of ascertaining where "the company begins and the Havermeyer estate leaves off," and in particular to learn who owns the Hayemeyer & Elder plant in Brooklyn and the beet-sugar interests, as well as to determine the valuation placed on the plants that have been dismantled, including the St. Louis Sugar Refining Co. and the American Sugar Refining Co. of San Francisco, &c. At the conclusion of the meeting he was quoted as saying:

I am perfectly satisfied with the arrangements which have been made. Mr. Parsons (a director) assured me that the report which the directors will prepare for the stockholders will be a detailed one, giving adequate information in regard to the company's affairs. That was all that we wanted.

*New Officers.*—The following officers have been elected; W. B. Thomas, President; Arthur Donner, Vice-President and Treasurer, and C. R. Heike, Secretary.

*New Suit.*—Press despatches dated Jan. 9 stated:

A new suit has been started in the U. S. Circuit Court at Philadelphia by George H. Earle, receiver of the Pennsylvania Sugar Refinery Co., to recover $7,044,209 from the American Sugar Refining Co. and Gustav E. Kissel, in connection with the purchase of the refinery of the Pennsylvania Co. several years ago. Compare V. 85, p. 348; V. 84, p. 627.—V. 85, p. 1520.

**Arnold Print Works.**—*Receivers' Certificates.*—Judge Lowell in the United States Circuit Court at Boston on Jan. 7 auhorized the receivers to issue an additional $100,000 receivers' certificates, making in all $300,000 authorized. An issue of $43,000 certificates also was authorized in the case of Gallup & Houghton.—V. 85, p. 1514.

**Bay State Gas Co.**—*Income Bondholders to Receive $1,070 per Bond.*—Judge Putnam in the United States Circuit Court at Boston on Jan. 9 approved the settlement of the suit of the holders of the $507,000 outstanding income bonds upon the basis of a payment by Receiver George Wharton Pepper of Philadelphia of the sum of $1,070 for each of said bonds, or $542,490 in all, the bondholders to have 30 days to prove claims before Special Master Causten Browne of Boston.

President Thomas W. Lawson of Boston on Jan. 10, referring to this settlement of the long-pending litigation, says:

The company, after forfeiting its most valuable assets because of this litigation and receivership, and after paying the above $542,490 and over $500,000 receivership fees and expenses, has remaining about $1,100,000 cash and an offer of about $1,500,000 for its going charter and stock machinery. After the formalities of relieving the receiver of his charge have been gone through, the company will begin business over again, at which time I will lay its plans in addition to a cash offer for its assets, before all stockholders. (Compare V. 84, p. 805; V. 85, p. 1648.)

The courts having passed upon all the outstanding stock, and having canceled all illegally or improperly issued stock, and having pronounced all stock now outstanding to be of one class and of equal value, the company has decided it best to have all holders of stock turn in their old certificates to the Treasurer in Philadelphia and receive new ones in return. (The amount of stock outstanding in April last was $184,587,500, par of shares $50.—Ed.)

The sum due from Charles S. Hinchman of Camden, N. J., for the assignment to him of the decree against Mr. Addicks is payable June 15 on or before which time, it is supposed, the receivership will end. The directors, it is said, include:

Thomas, W. Lawson, who is reported to own or control about one-quarter of the outstanding stock; J. Frank Allee, W. Harry Miller, Newall Ball, Daniel Layton and Sylvester John Abobtt and C. F. Kellar.—V. 85, p. 1648.

**Bell Telephone of Pennsylvania.**—*New Name.—Change of Par Value from* $50 *to* $100 *Effective Jan.* 16.—The Bell Telephone Co. of Philadelphia has notified the Philadelphia Stock Exchange that the name of the company has been changed to "The Bell Telephone Co. of Pennsylvania," and the par value of its shares of stock changed from $50 to $100 each, to take effect Jan. 16.

Upon the opening of the transfer books on Jan. 16 only shares of the par value of $100 of the Bell Telephone Co. of Pennsylvania will be transferred, one share of which will be issued in exchange for every two shares of stock of the Bell Telephone Co. of Philadelphia.

The company has arranged with H. R. Roney, 17th and Filbert Streets, Philadelphia, to purchase or sell such shares of stock of the Bell Telephone Co. of Philadelphia at $50 per share as will enable stockholders to make the necessary exchange.

*Acquisition.*—See Maryland Telephone Co. below.—V. 85, p. 1578.

**Bodwell Water Power Co., Milford, Me.**—*Foreclosure.*—A press dispatch from Portland, Me., on Jan. 6 reports the filing of a bill in equity to foreclose the $1,000,000 mortgage, Central Trust Co., trustee. The company, it is stated, made substantially the following announcement:

The company will be unable to pay the coupons due Jan. 1 1908 until some adjustment is made with the Eastern Manufacturing Co., which the Bodwell Co. contracted to supply with power to the extent of 2,850 horse-power, and which is the latter's principal source of income. The Eastern Co. claims damages because of the delay in starting the plant and refuses to pay the Bodwell Co more than a few thousand dollars.—V. 83, p. 40; V. 84, p. 1184.

**Butte (Mont.) Electric & Power Co.**—*Reasons for Omission of Dividend on Common Stock.—Earnings—Status.*—In a circular announcing the decision of the directors on Dec. 12 not to declare the usual quarterly dividend on common stock, which would have been payable Dec. 15, President C. W. Wetmore submits the following statement of earnings and accompanies it with the following remarks:

*Consolidated Earnings and Income Account of the Company and Its Subsidiaries for* 10 *Months Ending Oct.* 31.

| | *Gross earnings.* | *Net after oper. & taxes.* | *Other income.* | *Interest on bonds, &c.* | *Sinking fund.* | *Balance, surplus.* |
|---|---|---|---|---|---|---|
| 1907 | $819,112 | $454,854 | $26,131 | $214,867 | $6,244 | $259,874 |
| 1906 | 655,655 | 350,110 | 15,690 | 178,696 | 5,416 | 181,688 |

*Net Income for Calendar Years* (1907, 2 *Months Estimated*).

| 1907. | 1906. | 1905. | 1904. | 1903. |
|---|---|---|---|---|
| $318,000 | $247,303 | $200,832 | $179,897 | $139,353 |

"Notwithstanding the great increase in earnings it is impracticable, in the present depressed conddtion of the security market, to sell at satisfactory prices the first mortgage bonds available in the treasury to reimburse the company for capital expenditures heretofore made, and it has therefore been deemed more wise not to make at this time the usual distribution on its common stock.

"All construction work heretofore authorized has now been substantially completed, and no further capital expenditures will be made until financial conditions have so changed as to permit the sale of securities on advantageous terms.

"During the year 1907 the company has acquired the electric-lighting properties at Livingston, Mont., including a hydro-electric plant and water rights upon the Yellowstone River, near Livingston; has completed the second hydro-electric plant on the Madison River, an installation of 12,000 horse-power; has extended the power transmission lines of the Madison River plants to the plant at Livingston, thus uniting the powers of the Madison River and the Yellowstone; has installed a new central steam-heating station at Butte, and has made other important improvements upon its various properties. The properties of the company are in excellent physical condtion, and their operating efficiency and earning capacity are greater than ever before in its history.

"Besides its reserve plants, the company has now installed hydro-electric generating capacity aggregating 20,000 horse-power, as follows: Upon the Madison River, 15,000; upon the Big Hole River, 4,000; upon the Yellowstone River 1,000. Through its subsidiary companies, the company is in possession of water rights which will admit of the development of from 30,000 to 40,000 additional hydro-electric horse-power at unusually low cost.

"During the year 1906 an exhaustive examination on behalf of the company was made by competent experts of the water powers of Montana and of the present and prospective market for hydro-electric power, and the conclusion reached that the demands for such power would keep pace with the probable prospective development and would ultimately exhaust the entire water-power capacity of the State. The undeveloped rights of the company are, therefore, believed to be of great value." Compare "Railway and Industrial" Section, p. 156, and "Chronicle," V. 82, p. 1441.—V. 85, p. 1578.

**Capital City Power Co., Montana.**—*Offering of Guaranteed Bonds.*—A. B. Leach & Co., New York, Chicago, Boston and Philadelphia, are offering at par and interest the unsold portion of a total issue of $1,500,000 first mortgage sinking fund 6% gold bonds of $1,000 each (c*&r), dated Sept. 1 1907, maturing Nov. 1 1937, but subject to call at company's option on any interest day after Nov. 1 1912 at 105 and interest upon three months notice. Interest payable May and November at banking house of A. B. Leach & Co., New York, in gold coin, or at the Bank of Scotland, London, E. C., in Sterling. Sinking fund $30,000 annually, beginning with 1913. United States Mortgage & Trust Co., New York, trustee. Both principal and interest are unconditionally guaranteed by the United Missouri River Power Co. The bonds will be secured by "an absolute first mortgage upon the entire property of the company, which, when completed will consist of a modern water-power plant, having a capacity of at least 25,000 electrical horse-power." The Capital City Power Co. was incorporated in August last under the laws of New Jersey, with $2,000,000 of authorized capital stock, all of which, except shares to qualify directors, is owned by the United Missouri River Power Co. A prospectus, revised in some particulars for the "Chronicle," says in substance:

*Earnings of United Missouri River Power Co. for Five Months Ending June* 30 *in* 1907 *and* 1906.

| 5 *Months*— | *Gross.* | *Op. Exp.* | *Net.* | *Int.,&c.* | *Deprec'n.* | *Bal.,Sur.* |
|---|---|---|---|---|---|---|
| 1907 | $283,391 | $65,398 | $217,993 | $79,661 | $20,000 | $118,332 |
| 1906 | 145,620 | 33,901 | 111,719 | 65,025 | 20,000 | 26,694 |

*Note.*—This statement for the five months of 1907 shows a surplus, after deducting all charges, over three times the interest requirement for the same period on the present issue, notwithstanding the fact that the plant of the Helena Power Transmission Co. was operated at about one-third of its capacity Feb. 14 to April 1 1907.

*Estimated Annual Income of United Missouri River Power Co., Based upon Contracts Now in Operation or Becoming Operative During Present Year.*

| | | | |
|---|---|---|---|
| Gross income | $901,900 | Interest charges, &c | $239,370 |
| Net inc., over int., taxes, &c. | 771,900 | Bal. for int. on present issue | 532,530 |

The company is operating under perpetual franchises granted by the Congress of the United States, containing no unfavorable restrictions.

*Capitalization United Missouri River Power Co.* (*see that Co. below*).

| | | |
|---|---|---|
| Capital stock, common | | $19,000,000 |
| Preferred | | 250,000 |
| Funded debt—Collateral trust 6% bonds | $2,000,000 | |
| Missouri River Power Co. 1st mtge. 6% bonds (V. 76, p. 708; V. 84, p. 935) | 679,000 | |
| Helena Power Transmission Co. 1st mtge. 6% bonds (V. 81, p. 843) | 900,000 | |
| Capital City Power Co. 1st mtge. 6% bonds | 1,500,000 | |
| | | $5,079,000 |

The United Missouri River Power Co. controls, through ownership of the entire capital stock (with the exception of shares necessary to qualify directors), the Missouri River Power Co. and Helena Power Transmission Co., both hydro-electric properties utilizing the water of the Missouri River. The property of the *Missouri River Power Co.* consists of a dam, having a maximum height of 39 feet, and power station, located at Canyon Ferry Mont., about 17 miles northeast of Helena; installed in the power station are 10 Westinghouse generators, turbines, &c., having a combined capacity of 9,250 horse-power.

At a point (Houser Lake) 16 miles below the above-mentioned property is located the *Helena Power Transmission* company's hydro-electric plant, including dam of concrete and steel having a maximum height of 70 feet, and contiguous thereto a power station installation of 5 pairs of turbines directly connected with 5 generators, having a total capacity of 18,650 horse-power (see illustrated article in "Engineering News" of New York for Nov. 14 1907—Ed.)

The company owns a modern Westinghouse steam auxiliary plant in Butte, equipped with two Westinghouse-Parsons turbine generators, capable of delivering at least 5,000 horse-power.

To enable the company to further develop its rapidly-growing business, it has become necessary to increase its capacity by the installation of a third development at a point on the Missouri River about 25 miles below the Helena Power Transmission Co.'s plant and about 33 miles from the City of Helena. The property will consist, when completed, of a dam and power station sufficient to generate 25,000 horse-power under a head of 110 feet. A high potential transmission line will be constructed from the power station to a point about 18 miles distant, where a physical connection will be made with the high-tension pole lines of the Helena Power Transmission Co., from whence the power is delivered to the constantly increasing power centres of Helena, Butte and Anaconda. (This development will be owned by the Capital City Power Co.—Ed.)

With the three water-power plants in operation, the United Missouri River Power Co. will control not alone the flow of the Missouri River within its electrical zone, but have practically a monopoly of the electrical power business in the rich mining region penetrated by its lines. These pole lines enter most of the principal power centres of Montana. Power is transmitted from the Canyon Ferry and Hauser Lake plants to Helena over duplicate transmission lines, thence to Boulder, Butte and Anaconda, a total distance of about 85 miles.

*Capacity of Property, Total to Be* 57,900 *Horse-power.*

| | |
|---|---|
| Missouri River Power Co | 9,250 *H.-P.* |
| Helena Power Transmission Co | 18,650 " |
| Helena Power Transmission Co. steam plant | 5,000 " |
| Capital City Power Co | 25,000 " |

The storage reservoir at Canyon Ferry comprises an area of six square miles, and that at Houser Lake covers 10 square miles, while at the new development a lake of about 10 square miles will be created, making a combined storage area of 26 square miles.

Practically the entire output of the hydro-electric plants of the United Missouri River Power Co. is under lease to large consumers, at prices ranging from $36 to $56 per horse-power. Among others, contracts for power are in operation with the Amalgamated Copper Co. for the Washoe Copper Co. (smelter); ex-Senator Wm. A. Clark for the Colusa Parrott Mining & Smelting Co.; Helena Light & Railway Co., Anaconda Copper Mining Co., Boston & Montana Consolidated Mining Co., Whitlach Mining Co., Lexington Mining Co., American Smelting & Refining Co. (East Helena smelters, Butte & Boston Mining Co., Butte Water Co. and Comet Mines.

The stock of the United Missouri River Power Co. is held by strong interests intimately associated with the mining and smelting industry in Helena and Butte. The directors are: Hon. S. T. Hauser (President), ex-Governor of Montana, Helena, Mont.; Hon. Wm. A. Clark, New York; F. P. Addicks, Vice-President Amalgamated Copper Co., New York; B. B. Thayer, assistant to the President Amalgamated Copper Co., New York. Erskine Hewitt, New York; B. Y. Frost, Vice-President, New York; F. O. Holter, New York; A. M. Holter, Helena, Mont.; Anton Eilers, New York.

The "Engineering & Mining Journal" of New York for Dec. 28 1907 has an illustrated article regarding the several plants. See also article in "Engineering News" of New York for Nov. 14 1907.

**Cleveland (O.) Union Stock Yards Co.**—*Extra Dividend.*—A quarterly dividend of 2% and an extra dividend of 1% was paid Jan. 1. Compare V. 85, p. 1211.

**Consolidated Steamship Lines.**—*Earnings.*—Those conversant with the company's affairs confirm the following:

*Earnings of the Consolidated Steamship Lines for Calendar Year* 1907.

| | |
|---|---|
| Net income applicable to the interest on the 4% bonds of Consolidated Steamship Lines, after providing for all fixed charges and interest on bonds of controlled companies | $2,363,800 |
| Interest on bonds of Consolidated Steamship Lines July 1 1907, $680,000; Jan. 1 1908, due but unpaid, $1,240,000) | 1,920,000 |
| Balance, surplus, for year 1907 | $443,800 |

The ten new vessels which are to be completed this year contributed somewhat to the fixed charges in 1907 without, of course, adding to the earnings.

*Committee Enlarged.*—The protective committee representing the Consolidated Steamship Lines 4% collateral trust bonds, has added to its membership Henry P. Booth, Edward J. Berwind and Henry R. Mallory, all of New York, and has chosen as Secretary A. R. Nichol, 15 Nassau St., New York City. Compare V. 86, p. 54.

**Diamond Match Co.**—*New Transfer Agent.*—The Empire Trust Co. of this city has been appointed transfer agent in New York, the company having heretofore acted in that capacity itself.—V. 85, p. 724.

**Electric Properties Co.**—*Stock Ownership.*—In the balance sheet of the Westinghouse Machine Co., as shown under "Annual Reports," on a preceding page, there is included among the assets of that company an item of "stocks—Electric Properties Co. $5,000,000."

*Assent to Plan.*—See Westinghouse Machine Co. below.—V. 84, p. 1426.

**Hall Signal Co., New York.**—*Dividend Deferred.*—The directors, it is announced, have decided to defer action on the quarterly dividend of 1¾% on the $1,900,000 common stock. There is also $100,000 preferred stock.—V. 84, p. 573, 511.

**Harrison Bros. & Co.**—*Report.*—For the fiscal year ending Oct. 31:

| | Net Profits. | Interest on bonds. | Improvements, &c. | Balance Surplus. |
|---|---|---|---|---|
| 1906-07 | $130,106 | $65,000 | $30,654 | $34,452 |
| 1905-06 | 100,859 | 65,000 | ------- | 35,859 |

The gross income for 1905-06 (1906-07 not reported) was $458,094.—V. 84, p. 105.

**Helena Power Transmission Co.**—See Capital City Power Co. above.—V. 81, p. 843.

**Homestake Mining Co.**—*Dividends Resumed.*—Dividends suspended last May, owing to a fire in the mines, have been resumed at the old rate, 50 cents a share, a monthly distribution of this amount having been declared on Jan. 8, payable Jan. 25 to holders of record Jan 20.—V. 85, p. 1579.

**Hudson Navigation Co., New York.**—*Called Bonds.*—The Trust Company of America, as trustee, announces the numbers of thirty ($30,000) 20-year 5% bonds, secured by the collateral trust deed, dated Jan. 1 1903, made to the City Trust Co. of New York (now the Trust Company of America) as trustee, which have been drawn for redemption at par and interest and will be paid on presentation at the office of the trustee, interest ceasing Jan. 15.

*Bond Certificates.*—The following sale was made at auction in this city on Dec. 26 1907:

Bond certificate calling for $50,000 at par of 5% bonds, with stock bonus, on which 25%, viz., $12,500, has been paid, remaining 75% being due in various installments between May 1907 and May 1908; sold at 20.—V. 85, p. 1648.

**Hudson River (Bell) Telephone Co., Albany, N. Y.**—*Dividend Omitted.*—In view of the requirements for extensions, &c., the directors, it is announced, have decided to omit the dividend that would otherwise have been paid Jan. 15. Compare V. 84, p. 806; V. 85, p. 37.

**Kansas Natural Gas Co.**—*First Dividend, Payable Monthly During* 1908.—An initial dividend of 6% has been declared on the $12,000,000 stock, payable monthly at the rate of 50 cents a share, the first installment being payable on Feb. 24 to stockholders of record Feb. 5.—V. 85, p. 102.

**Lindsay Light Co., Chicago.**—*Monthly Dividend Reduced from 3½% to 2%.*—The directors on Dec. 31 declared a monthly dividend of 2%, being a reduction of 1½% as compared with the amount distributed every thirty days since June 1 1907. The decrease is attributed to the falling off in business occasioned by the currency stringency which began in October. Compare V 85, p. 725.

**Maryland Telephone Co.**—*Change in Control.*—The entire $1,000,000 capital stock of this company (incorporated last spring as successor of the Maryland Telephone & Telegraph Co., V. 84, p. 1116), was recently sold by the Baltimore Electric Co., as proposed when that company passed under the control of the Consolidated Gas Electric Light & Power Co. (V. 85, p. 1341). Rumor places the price at about $300,000. The new owners of the telephone property are commonly understood to be interested in the Chesapeake & Potomac (Bell) Telephone Co., which, according to a recent plan, is to be merged in the Bell Telephone Co. of Pennsylvania. See that company above, and in V. 85, p. 865, 1464, 1578.

Chairman S. Davies Warfield of the Consolidated Gas El. Light & Power Co. on Dec. 2, referring to the sale, said:

The Maryland Telephone Co. has been purchased subject to the $1,000,000 first mortgage bonds and the $1,155,000 general mortgage bonds outstanding, and the property has been turned over to interests having the largest experience in the telephone business throughout the country. H. P. Miller, representing the purchasers, has been placed in charge of the property, with headquarters in the Maryland Telephone Building. (The shareholders of the Maryland Telephone Co., it is said, recently voted to reduce the authorized issue of bonds from $5,000,000 to $3,000,000. Compare V. 80, p. 1060.—Ed.)—V. 85, p. 1405.

**Milliken Bros. (Inc.).**—*Prepayment of Interest.*—The receivers announce that the interest due Feb. 1 on the $3,000,000 6% bonds will be paid Jan. 15. No receivership certificates are outstanding.—V. 85, p. 1405.

**Missouri River Power Co.**—See Capital City Power Co. above.—V. 84, p. 935

**National Fuel Gas Co., Pittsburgh, Pa.**—*Extra Dividend.*—This company, controlled by the Standard Oil Co. of New Jersey (V. 85, p. 217), has declared with the regular quarterly dividend of 3% an extra dividend of 17% from surplus, payable on the $2,400,000 stock (par $50). Compare V. 81, p. 1795.—V. 85, p. 225.

**New York Air Brake Co.**—*Financial Plans.*—The "New York Times" of Jan. 9 said:

While the question of new financing is still in abeyance, it was learned yesterday that the directors have reached an agreement with the advisory committee of creditors by which the floating debt will be extended and the directors left free to consider the advisability of increasing their capital obligations without the embarrassment of having to meet current debts.

The plan finally agreed upon by the committee and the directors involves the placing of a mortgage on the property, which is at present unincumbered, to cover the total amount of the current indebtedness and the issuance of new paper to the creditors, which is to run for six months, specifically secured on its face by the mortgage. Exactly how large this mortgage will be, members of the committee would not say, but it was stated that it would be no more than sufficient to cover the outstanding debts, which are much under the assets, which are placed at $3,500,000.

One of the advisers of the company said yesterday that the directors were of the opinion that with the easing up of the money market the increases in collections would supply money as rapidly as it was needed.—V. 85, p. 1649, 1579.

**Passaic Steel Co., Paterson, N. J.**—*Receivership.*—Judge Lanning in the United States District Court at Trenton, N. J., on Dec. 30 appointed John R. Lee, Oakland Cook and William Arnold of Paterson, receivers for the company upon application by Joseph O'Brien and Michael Martin, both of Scranton, Pa., on the grounds that interest on the $2,500,000 bonds for October 1906 and April 1907 and October 1907, and taxes to a considerable amount, remain unpaid.—V. 83, p. 327.

**Pittsburgh Trolley Pole Co.**—*Receivers' Sale Jan.* 15.—The Southside Trust Co. of Pittsburgh, as receiver, advertises the sale of this company's entire property for Jan. 15. at Pittsburgh.—V. 79, p. 2476.

**Sacramento Valley Irrigation Co.**—*Receiver.*—A press dispatch from Alamogordo, N. M., on Jan. 5 said:

The Sacramento Valley Irrigation Co. which is constructing one of the largest irrigation systems in the Southwest, has been placed in the hands of a receiver. The company is capitalized for $1,000,000 and has already spent $200,000 on the project. J. W. Thompson of Alamogordo has been appointed receiver.

**Santo Domingo Gold & Copper Co.**—*Subscriptions Returned.*—A. O. Brown & Co. of this city in the latter part of 1906 offered and sold a large block of the stock of this company to their clients throughout the United States. Last year the firm made a thorough investigation of the project on its own account, and, finding the prospects unpromising, have returned the subscriptions with 4% interest.

**Standard Underground Cable Co.**—*Extra Dividend.*—An extra dividend of 3% was paid Jan. 10, together with the usual quarterly dividend of 3%, on the $2,500,000 stock. This payment compares with 3% and 5% extra at the same time in 1907.

Dividends in 1907 amounted to 17%, the same as in 1906. On Jan. 22 1907 a stock dividend of 25% was authorized on the $2,000,000 outstanding stock. Compare V. 84, p. 225, 54.

**(John B.) Stetson Co. (Hats), Philadelphia.**—*Extra Dividend.*—An extra dividend of 25% and a semi-annual dividend of 15% have been declared on the $3,275,000 common stock, payable Jan. 15 on stock of record Jan. 9, together with the usual semi-annual dividend of 4% on the $1,500,000 preferred stock. In 1907 10% was paid on the common in January and July and also 5% extra in January. The stockholders were last month offered the right to subscribe for 25% in new stock, to be paid for this month, and the 25% extra dividend will therefore give the common stockholders the cash for their subscription, if made, to the new stock. Compare V. 84, p. 53.—V. 85, p. 1466.

**United Missouri River Power Co.**—*New Stock—Properties Controlled, &c.*—This company, whose properties, funded debt, earnings, &c., are shown above, under the caption of the Capital City Power Co., was incorporated under the laws of New Jersey on Feb. 16 1906 with $5,000,000 capital stock in shares of $100 each. On Feb. 1 1907 the stock was increased to $5,250,000 and on Sept. 15 1907 to $10,250,000, of which $250,000 is preferred.

*Collateral Trust Bonds.*—The company under date of Mch. 1 1906 made a collateral trust deed to the Central Trust Co. of New York as trustee to secure an issue of not exceeding $3,300,000 "30-year sinking fund gold bonds" dated Mch. 1 1906 and due Mch. 1 1936, but subject to call, any or all, at 105 and interest on any interest day after Mch. 1 1911. Denomination $1,000 (c*). Interest payable Mch. 1 and Sept. 1. Of these bonds $2,000,000 bearing 6% interest are now outstanding, as stated in the foregoing item under title of Capital City Power Co.:

At the time of the making of the mortgage there were deposited with the trustee $1,700,000 common stock (17,000 shares of $100 each) of the Missouri River Power Co. and $360,000 capital stock (3,600 shares of $100 each) of the Helena Power Transmission Co. There are now deposited with the trustee 20,000 shares common stock Missouri River Power Co. of the par value of $100 per share ($2,000,000), and 19,990 shares capital stock Helena Power Transmission Co. of the par value of $100 per share ($1,999,000).

The trust deed authorized the issuance of $2,000,000 of bonds forthwith, and reserved the remaining $1,300,000 bonds to be issued as follows: $500,000 for the acquisition of stocks or bonds of other companies, but only to an amount at face value not exceeding the actual purchase price paid by them for such stock and bonds, or for any other property acquired, made subject to the lien of the indenture $800,000, or such less amount as may be required, for use at the discretion of the company for the refunding at or before maturity of the first mortgage bonds of the Missouri River Power Co. and the Helena Power Transmission Co., any bonds not so required to be canceled. The preamble provides that if all of the capital stock of the two companies just named is not purchased or acquired, the company shall reserve $91 par value of the bonds for each share of the common stock of the Missouri Power Co. and $50 par value of the bonds for each share in the Helena Power Transmission Co. not purchased or acquired. The capitalization of the two companies is as follows.

*Present Capitalization of Operating Companies.*

| | Par. | Interest. | Amount. | Maturity |
|---|---|---|---|---|
| Missouri River Power Co.— | | | | |

The Colonial Trust Co. of New York is trustee under both these issues, and the interest thereon is payable at its banking house.

The Missouri Power Co. has paid dividends at the rate of 7% per annum on the preferred stock, and one account mentions dividends at the rate of 6% per annum for some period or periods on the common stock, but the official statement to the "Chronicle" makes no reference to distributions on the common shares.

**Western Stone Co., Chicago.**—*Dividend Omitted.*—The directors on Dec. 29 decided to omit payment of the regular quarterly dividend of 1% on the $2,250,000 capital stock. —V. 81, p. 724, 672.

**Western Union Telegraph Co.**—*Listing of Stock to be Issued as Dividend.*—The New York Stock Exchange has authorized the listing on and after Jan. 15 1908 of the $1,217,000 additional stock which is to be distributed to the stockholders on that date as a quarterly dividend of 1¼%, making the total amount authorized to be listed $98,587,000. Compare V. 85, p. 1525.

*Not Subject to State Anti-Trust Law.*—Justice Hendrick in the Supreme Court in this city on Dec. 20 vacated an order obtained by Attorney-General Jackson in July last for the examination of officers and books and papers of the com-

pany, and the Postal Telegraph & Cable Co., with a view of proving violation of the Donnelly (State) anti-trust Act.

It was claimed that an agreement existed between the two companies with reference to rates at common points and the division of receipts from stations in hotels and other centres, such agreement being in restraint of trade. The court holds that the anti-trust law prohibits only "monopolies in tangible articles of trade and commerce in common use, and such as are capable of manufacture, production and sale," and that telegraphic communication is not a commodity within the meaning of the Act.—V. 85, p. 1525 1467.

**Westinghouse, Church, Kerr & Co.**—*Endorsement of Notes, &c.*—See reorganization plan of Westinghouse Machine Co. below.

*Stock Ownership.*—The balance sheet of the Electric Properties Co., in V. 84, p. 1426, shows among the assets of that company an item "Sub-company (Westinghouse, Church, Kerr & Co.), $7,000,000."—V. 84, p. 1001.

**Westinghouse Machine Co.**—*Coupon Payment.*—Coupons due Jan. 1 1908 on debenture certificates of 1920 were paid at maturity at the Fidelity Title & Trust Co., Pittsburgh.

*Balance Sheet.*—See "Reports" on a preceding page.

*Reorganization Agreement.*—Under date of Dec. 24 1907 the following creditors' committee,

Residents of Pittsburgh.—Wilson A. Shaw, Prest. Bank of Pittsburgh, N. A.; Robert Wardrop, Prest. Peoples' National Bank; H. C. Bughman, Prest. Second National Bank; James C. Chaplin, Vice-Prest. Colonial Trust Co.; R. B. Mellon, Vice-Prest. Mellon National Bank.

Others.—Horace E. Smith, of Chas, Smith & Sons, Bankers, Philadelphia; Frederick S. Moseley, of F. S. Moseley & Co., Boston; Frederick D. Underwood, Prest. Erie Railroad Co., John F. Wallace, Prest. Electri Properties Co., both of New York, and A. G. Becker, of Chicago.

With James C. Chaplin as Secretary, 317 4th Ave., Pittsburgh, Pa., and the Colonial TrustCo. of Pittsburgh as depositary.

have proposed the following plan for the extension of the company's debt, to which plan the directors of the company, the Westinghouse, Church, Kerr & Co. (V. 83, p. 1001) and the Electric Properties Co. (V. 84, p. 1426) have assented:

*Proposed Issue of* $7,200,000 *3-year 6 % Notes, dated Jan. 2 1908.*

The company to create an issue of $7,200,000 of three-year 6 % registered notes (without coupons) secured by the bonds hereinafter mentioned, such bonds to be taken at 85 % of their face value (total amount required $8,471,000 face value). These notes to be dated as of Jan. 2 1908 and to be payable in three years from date, the privilege, however, to be reserved to the company of paying the principal of said notes, or any part thereof (such partial payments, if any, to be made *pro rata* on all of said notes), at any quarterly interest period. Denomination $500, or multiples thereof. Interest payable quarterly from Jan. 1 1908.

$8,471,000 *of the* $10,000,000 5 % *Gold Bonds dated* 1907 *as Collateral.*

Said notes shall be secured by bonds of the company's present authorized issue of $10,000,000, face value, 25-year 5 % sinking fund gold bonds, principal due Jan. 1 1932, or bonds of such substituted issue as shall be approved by the committee, said bonds to be taken for such purpose at 85 % of their face value. The bonds shall be deposited with the depositrya as trustee, and are to be released only in proportion as said notes are paid.

*Terms of Exchange.—Right to Sell Collateral, &c.*

Any claim less than $1,000 shall be paid in cash; fractional amounts less than $500 of any claims exceeding $1,000 shall be paid in cash. Each creditor assenting to the plan shall receive for his claim an amount of said notes equal in face value to the face value of the claim, with interest adjusted as of Jan. 1 1908.

Holders of notes upon which both the company and Westinghouse, Church, Kerr & Co. are liable, or of notes of Westinghouse, Church, Kerr & Co., secured by such notes, shall receive three-year 6 % notes of the company, endorsed by Westinghouse, Church, Kerr & Co.

The committee shall have the power at any time in their discretion to sell all or any part of the said bonds of the company deposited to secure said 3-year 6 % notes at not less than 85 % of their face value, and the proceeds in case of sale shall be applied to the retirement of the said notes; if only a portion of the bonds are sold, the proceeds shall be applied *pro rata* to the then outstanding notes.

Four-fifths of the directors shall be persons approved by the creditors' committee so long as any of said notes shall be unpaid.

The company not to pay any dividends to its stockholders so long as any of the said notes are outstanding unless provision has been made for the payment of said notes.

Westinghouse, Church, Kerr & Co. will endorse 3-year 6 % notes of the company to be issued in lieu of the outstanding notes of Westinghouse, Church, Kerr & Co. endorsed by the company for the ultimate payment of which the company is responsible (and of notes of Westinghouse, Church, Kerr & Co. secured by such notes). The assent of Westinghouse, Church, Kerr & Co. and Electric Properties Co. to the plan and this agreement shall not become effective until the holders of all such notes agree to accept in lieu thereof said 3 year 6 % notes endorsed as aforesaid.

Electric Properties Co. and Westinghouse, Church, Kerr & Co., when their assent to the plan shall become effective, as here provided, will surrender the collateral heretofore deposited by the company with them, or either of them, as security for the outstanding notes of Westinghouse Church, Kerr & Co. bearing the endorsement of the company.

The guaranty by the company of the collection of certain notes and accounts receivable of Westinghouse, Church, Kerr & Co. (other than the open account of Westnghouse, Church, Kerr & Co. against the company, for which 3 year 6 % notes shall be issued), shall be so modified that the obligation of the company shall be that the balance of such guaranteed notes and accounts receivable remaining uncollected on the date of this agreement, with such interest as may accrue thereon, shall be purchased by the company on or before Dec. 31 1901.

The committee may declare the plan operative whenever in their opinion the holders of so large a portion of the floating debt have assented thereto that in the opinion of the committee the purposes of the plan will be substantially accomplished.

The receivers urge the importance of a speedy reorganization, and the creditors' committee, referring to the balance sheet of Oct. 23 1907 (see "Annual Reports") and to the statement of earnings published in V. 85, p. 104, say:

"We believe that the value of the company's assets as a going concern is largely in excess of its liabilities," and that "under the plan proposed, the company will not only be able to liquidate its indebtedness in full, but that it will continue, as heretofore, to earn material returns on its capital stock. We further believe that during the next three years the company will be able to make substantial payments on account of the principal of the notes, that the bonds pledged will become a marketable security, and that before the maturity of the notes a sufficient amount of the bonds can be disposed of to provide for the liquidation of any unpaid balance of the principal."

Creditors desiring to participate in the plan should become parties to the extension agreement on or before Jan. 15 1908 by deposit of their notes or other obligations and of assignments of other claims with the depositary, the Colonial Trust Co. Pittsburgh.—V. 86, p. 55.

---

—N. W. Halsey & Co., bankers of this city, are distributing a brochure entitled "Business Insurance," reprinted from the "World's Work," by courtesy of the publishers, Doubleday, Page & Co. Free copies may be had upon request to the firm's New York offices, 49 Wall St. Another booklet, "The Financial Soundness of Great Railroads," is ready for free distribution. In this 32-page booklet, N. W. Halsey & Co. carefully review the remarkable growth in property values and earning power of the principal railroads since 1897. The text includes analyses for 10 years of ten important railroads, illustrated by tables and diagrams. When writing for the "Financial Soundness of Great Railroads," ask for booklet AJ-10.

—The Hand-Book of Securities, compiled by the publishers of the "Commercial & Financial Chronicle," is now ready. The book contains in a small compass very full information concerning the various railroads and the leading industrials whose securities are dealt in on the New York, Boston, Philadelphia and Chicago Stock Exchanges. It shows their earnings, dividends, etc., for a series of years, present fixed charges, and also the amounts of the different issues of bonds outstanding, their rates of interest, etc. There is also given the monthly range of stocks and bonds for 1906 and 1907, together with a yearly range for four years. Price, a dollar, or seventy-five cents to "Chronicle" subscribers.

—We have received a copy of the annual circular compiled by Messrs. Sanford & Kelly, New Bedford, Mass., relating to the industries of this prosperous city—cotton and other manufacturing corporations, national banks, savings banks, &c.—and containing statistics, financial and otherwise, for the year 1907. The review of the general business of New Bedford contains many varied and interesting facts; for instance, a computation of the dividends distributed by local concerns shows an average of 8.2%, the amount distributed being $1,242,428 larger than the previous year.

—The Banking house of Shoemaker, Bates & Co., 37 Wall Street, have opened a Chicago office at 205 La Salle Street, with Mr. A. Follansbee as Manager, who is well known in Chicago. It is the intention that the Chicago branch will deal largely in high-grade investment securities, the house having already been doing considerable business in that city. The firm has two memberships on the New York Stock Exchange.

—Edward G. Johns, formerly identified with Hayden, Stone & Co. and with Herrick, Berg & Co., has opened for business on his own account at 43 Exchange Place, dealing in bonds, miscellaneous and curb securities. Mr. Johns has recently returned to New York after an extensive trip through the mining districts in Lower Arizona, Upper California, Nevada and Nova Scotia. He is well posted on mining conditions.

—Max Hesslein, who lately retired from Knauth, Nachod & Kuhne, has become a member of the New York Stock Exchange firm of Sig. H. Rosenblatt & Co., 42 Broadway. Mr. Hesslein had been identified with Knauth, Nachod & Kuhne since 1902, has had fourteen years in Wall Street, enjoys a large acquaintance in financial circles, and will bring important connections to his new affiliations.

—Notice is given of the continuance of the well-known New York Stock Exchange house of James H. Oliphant & Co., 20 Broad St., this city, whose senior partner, J. H. Oliphant, was lately killed by a customer in the firm's offices. The concern will be conducted under the old name as heretofore by Mr. Oliphant's former partners, Alfred L. Norris, Floyd W. Mundy and J. Norris Oliphant.

—Hambleton & Co., Baltimore. Md., have issued a special list of securities showing the prices for December 1906 as compared with December 1907, and the return on the investment for 1906 compared with present return. These bonds are all either Baltimore or New York Stock Exchange securities, and most of them are on the court list for the investment of trust estates.

—Aymar Johnson, Chalmers Wood Jr., member N. Y. Stock Exchange, and Edmund P. Rogers, are the partners in the new firm of Johnson, Wood & Rogers, at 38 Wall St., which commenced business Monday. The firm is an evolution of the curb-brokerage concern of Wood & Co., and will transact a general commission business in stocks, bonds and investment securities.

—The opposition in Boston to the control of the Boston & Maine by the New York New Haven & Hartford RR. Co. is voiced in a quarto pamphlet of 77 pages on the comparative financial condition of the two companies prepared by Louis D. Brandeis of Brandeis, Dunbar & Nutter, 161 Devonshire St., Boston.

—Eliot Norton, of the New York Bar, has written an essay on "Short Sales of Securities Through a Stock Broker." It is published as a booklet by John McBride Co., 2 Rector St., New York. The author describes the method of short selling and the legal rights and duties involved. The book has been revised by members of the Stock Exchange.

—In view of the tax assessment date, Jan. 13, A. M. Kidder & Co., 18 Wall St., New York City, offer investors a selected list of guaranteed stocks, exempt from tax to return the purchaser 4 to 6%. A list of these stocks will be sent upon application or by telephoning "4931 Cortlandt."

—A very clear statement of the average yield based on present prices of a selected list of Stock Exchange securities in comparison with Jan. 1907 has been issued by Messrs. Edgerly & Crocker, 53 State St., Boston, Mass., and 71 Broadway, New York.

—The Boston Safe Deposit & Trust Co., 87 Milk St., Boston, has issued the 1908 edition of its annual booklet—"Coupons, Where Paid."

# The Commercial Times.

## COMMERCIAL EPITOME.

*Friday Night, Jan.* 10 1908.

With the stock market higher and money rates easier, both on call and for time loans, the feeling has been rather more cheerful, although general trade is still noticeably affected by the widespread disposition to proceed cautiously. Prices are in the main well sustained.

LARD on the spot has been firm in the main. There has been an increase in trade, largely for export account. All of the City offered has been taken for shipment. Supplies continue moderate. City 8c. and Western 8.10@8.35c. Refined lard has advanced on small supplies and offerings. Trade has been quiet and confined to local jobbers. Refined Continent 8.70c., South American 9.40c. and Brazil in kegs 10.65c. The speculation in lard futures at the West has been more active. Prices have been firmer in the main on increased speculative buying. Commission-house business has increased. The liberal movement of hogs, however, and selling by packers have militated against any sharp improvement in prices.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

| | Sat. | Mon. | Tues. | Wed. | Thurs. | Fri. |
|---|---|---|---|---|---|---|
| January delivery | 7.87½ | 8.05 | 8.00 | 7.87½ | 7.92½ | 7.82½ |
| May delivery | 8.07½ | 8.27½ | 8.20 | 8.12½ | 8.17½ | 8.07½ |

PORK on the spot has been irregular, with trade quiet and limited to jobbers. Mess $14 50@$16, clear $15 50@$16 75 and family $17 50@$18. Beef has been somewhat easier, owing to dulness of trade and large supplies of some grades. Mess $10 50@$11, packet $12 50@$13 50, flank $11 50@$12, family $14@$15 and extra India mess $21@$22. Cut meats have been easier with trade dull and of a hand-to-mouth character. Pickled shoulders 7@7½c., pickled hams 9@9½c. and pickled bellies, 14@10 lbs., 8@8¼c. Tallow has been quiet and steady; City 5½c. Stearines have been in moderate demand and firm; oleo 7⅝c. and lard 9¼c. Butter has advanced on small supplies; creamery extras 30½c. Cheese has been quiet and steady; State, fine, 15¾c. Eggs have been quiet and steady; Western firsts 27c.

OIL.—Cottonseed has been quiet and firm; prime summer yellow 39@40c. Linseed has been easier, owing to a lower market for seed and the dulness of trade, purchases being confined to small lots to fill immediate needs. City, raw, American seed, 44@45c.; boiled 45@46c. and Calcutta, raw, 60c. Lard has been quiet and steady; prime 73@75c. and No. 1 extra 54@57c. Cocoanut has been dull and easier; Cochin 8¼@8½c. and Ceylon 6¾c. Olive has been quiet and easier; yellow 65@75c. Peanut has been quiet and steady; yellow 65@80c. Cod has been moderately active and steady; domestic 42@43c. and Newfoundland 44@45c.

COFFEE on the spot has been quiet and steady. Rio No. 7 6c. West India growths have been firmer and more active; fair to good Cucuta 9⅛@10¼c. Speculation in future contracts has been quiet and prices have moved within narrow limits. In the main the tone has been firmer, however, owing to an absence of selling pressure and strength at Havre at times. Europe has bought March here to some extent. Local roasters and dealers have bought small amounts, and there has been more or less covering of shorts.

The closing prices were as follows:

| | | | | | | |
|---|---|---|---|---|---|---|
| January | 5.70c. | May | 6.00c. | September | 6.25c. |
| February | 5.80c. | June | 6.05c. | October | 6.25c. |
| March | 5.90c. | July | 6.10c. | November | 6.30c. |
| April | 5.95c. | August | 6.15c. | December | 6.35c. |

SUGAR.—Raw has been firmer and more active, principally for Cubans. Centrifugal, 96-degrees test, 3.92c.; muscovado, 89-degrees test, 3.42c., and molasses, 89-degrees test, 3.17c. Refined has been moderately active and firmer. Granulated 4.80c. Deliveries of refined on contracts have been delayed, owing to labor troubles. Teas have been firmer and more active. Spices have been moderately active and firm. Hops have been quiet and steady.

PETROLEUM has been in good export and domestic demand, and firm. Refined, barrels, 8.75c., bulk 5c. and cases 10.90c. Gasoline has been in brisk demand and steady; 86-degrees 21c. in 100-gallon drums. Naphtha has been moderately active and firmer; 73@76-degrees 19c. in 100-gallon drums. Spirits of turpentine has advanced sharply to 55c. on small receipts. Trade has been dull. Rosin has been quiet and firm; common to good strained $3 20.

TOBACCO.—The market for domestic leaf has continued quiet, though a more cheerful feeling is noticeable in some quarters. But with the consumption of cigars still restricted, manufacturers have limited their purchases of leaf to small lots. Prices have been steady as a rule, but some dealers are expecting reductions, as the new crop is said to be of poorer quality. Havana and Sumatra have been quiet and firm.

COPPER has been dull and steady; lake 13⅝@13⅞c.; electrolytic 13½@13¾c. Lead dull and easy at 3.60@3,70c. Spelter has been dull and steady at 4.30@4.35c. Tin quiet and firm; Straits 27c. Iron has been quiet and firm; No. 1 Northern $18 50@$18 75 and No. 2 Southern $17 25@$17 75.

## COTTON.

*Friday Night, Jan.* 10 1908.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 284,017 bales, against 340,240 bales last week and 349,425 bales the previous week, making the total receipts since the 1st of September 1907, 5,395,337 bales, against 6,382,924 bales for the same period of 1906-07, showing a decrease since Sept. 1 1907 of 987,587 bales.

Speculation in cotton for future delivery has been quiet, but a number of circumstances have combined to cause some advance in prices. Among them were the firmness of the spot markets, noticeable strength in Liverpool, something of a rise in securities, and an unexpectedly bullish ginning report by the Census Bureau Thursday on the quantity ginned up to Jan. 1. It was 9,955,427 bales, against 11,741,039 for the same time in 1906-07 and 9,275,426 in 1905. This means that the total ginned from Dec. 13th to Jan. 1 reached the record-breaking quantity of 674,350 bales, against 627,442 in the previous year and 427,607 in 1905. But although the figures were large they were not so large as had been expected, and, accordingly, on the day when they appeared, prices here advanced some 20 to 25 points. Many of the local guesses on the crop based on this report were 11,750,000 to 12,000,000 bales. But believers in an ultimate decline think that the yield is at the very least 12,000,000 bales, and not improbably half a million bales above this, if not more. Some of the estimates, indeed, run up to 13,000,000 bales, but at the moment such estimates are not at all general. One of the cardinal factors in the situation is the strength of the spot quotations at the South coincident with reports of a better demand from both the domestic and the European spinners. Exports, moreover, have at times been large. Purchases of the May option have occasionally been rather liberal and that month at one time recovered its recent discount under March, and in fact reached a slight premium. Reports about the labor situation in Lancashire have had alternately a more or less depressing or bracing effect, as the prospects seemed poor or good for settling the question and averting a strike. A special cable to us to-night, which we give in full elsewhere in this department, is to the effect that the Federated spinners threaten to close their mills on the 25th unless the ring spinners' strikes at Oldham terminate before that date. British exports of yarns and cloths for December showed a noteworthy falling off as compared with November, but for the calendar year the total of both is larger than that for the previous year. The exports of yarns for the year were 241,077,800 lbs., against 207,373,100 in 1906. The total of cloths for 1907 was 6,297,602,400 yards, against 6,261,295,000 in 1906. Wall Street and Liverpool interests have latterly been buying, but the South as a rule has sold. To-day prices declined, owing to reported "cuts" in cotton goods, dulness of the speculation and some manipulative pressure at the expense of local "longs." Spot cotton has been quiet. Middling uplands closed at 11.45c., an advance for the week of 5 points.

The rates on and off middling, as established Sept. 11 1907 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

| | | | |
|---|---|---|---|
| Fair | c 1.75 on | Strict low mid | c 0 30 off |
| Strict mid. fair | 1.50 on | Fully low mid | 0.65 off |
| Middling fair | 1.25 on | Low middling | 1.00 off |
| Barely mid. fair | 1.00 on | Barely low mid | 1.25 off |
| Strict good mid | 0.75 on | Strict good ord | 1.50 off |
| Fully good mid | 0.62 on | Fully good ord | 1.75 off |
| Good middling | 0.50 on | Good ordinary | 2.00 off |
| Barely good mid | 0.37 on | Strict g'd mid. tgd | 0.35 on |
| Strict middling | 0.25 on | Good mid. tinged | Even |
| Middling | Basis | Strict mid. tinged | 0.20 off |
| Middling tinged | c 0.30 off | | |
| Strict low mid. ting | 1.00 off | | |
| Low mid. tinged | 1.80 off | | |
| Strict g'd ord. ting | 2.00 off | | |
| Fully Mid. stained | 1.00 off | | |
| Middling stained | 1.25 off | | |

Continental imports for the past week have been 164,000 bales.

The above figures for 1908 show an increase over last week of 75,054 bales, a loss of 441,042 bales from 1907, a decrease of 483,466 bales from 1906, and a gain of 295,862 bales over 1905.

AT THE INTERIOR TOWNS the movement—that is, the receipts for the week and since Sept. 1, the shipments or the week and the stocks to-night, and the same items for the corresponding period for the previous year—is set out in detail below.

| Towns. | Movement to January 10 1908. | | | | Movement to January 11 1907. | | | |

The above totals show that the interior stocks have *increased* during the week 93 bales and are to-night 137,676 bales less than at the same time last year. The receipts at all the towns has been 79,630 bales less than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The results for the week and since Sept. 1 in the last two years are as follows:

| January 10 | 1907-08 | | 1906-07 | |
|---|---|---|---|---|
| Shipped— | Week. | Since Sept. 1. | Week. | Since Sept. 1. |
| Via St. Louis | 16,874 | 189,578 | 37,972 | 408,482 |
| Via Cairo | 5,940 | 89,846 | 8,164 | 120,933 |
| Via Rock Island | 1,407 | 7,304 | 3,290 | 29,340 |
| Via Louisville | 1,989 | 28,907 | 1,649 | 41,927 |
| Via Cincinnati | 1,838 | 17,528 | 4,061 | 28,498 |
| Via Virginia points | 2,987 | 39,934 | 4,491 | 55,507 |
| Via other routes, &c | 16,492 | 114,337 | 17,007 | 140,888 |
| Total gross overland | 47,527 | 487,434 | 76,634 | 825,495 |
| *Deduct shipments* | | | | |
| Overland to N. Y., Boston, &c | 3,989 | 44,652 | 9,776 | 72,734 |
| Between interior towns | 2,810 | 44,066 | 1,768 | 27,642 |
| Inland, &c., from South | 1,976 | 33,014 | 1,174 | 22,162 |
| Total to be deducted | 8,775 | 121,372 | 12,718 | 122,538 |
| Leaving tota net overland * | 38,752 | 365,702 | 63,916 | 702,957 |

* Includnig movement by rail to Canada.

The foregoing shows the week's net overland movement has been 38,752 bales, against 63,916 bales for the week last year, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 337,255 bales.

| In Sight and Spinners' Takings. | 1907-08 | | 1906-07 | |

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic advices this evening denote that rain has fallen in most sections of the South during the week, and that at some points the rainfall has been rather heavy. At the close lower temperature prevails. The crop is moving on a fairly free scale.

*Galveston, Texas.*—We have had rain on four days during the week, the rainfall being one inch and thirtysix hundredths. The thermometer has averaged 55, ranging from 48 to 62.

*Abilene, Texas.*—There has been rain on two days of the week, the rainfall reaching sixty-two hundredths of an inch. The thermometer has ranged from 32 to 68, averaging 50.

*Fort Worth, Texas.*—It has rained on two days of the week, the precipitation being twenty-two hundredths of an inch. Average thermometer 50, highest 62 and lowest 38.

*Corpus Christi, Texas.*—We have had rain on one day of the past week, the rainfall reaching fourteen hundredths of an inch. The thermometer has averaged 57, the highest being 70 and the lowest 44.

*Palestine, Texas.*—There has been rain on two days of the week, to the extent of twenty-nine hundredths of an inch. The thermometer has averaged 52, ranging from 38 to 66.

*San Antonio, Texas.*—There has been rain on two days during the week, to the extent of ninety-four hundredths of an inch. The thermometer has ranged from 38 to 66, averaging 52.

*Taylor, Texas.*—It has rained on two days during the week, the rainfall reaching thirty-eight hundredths of an inch. Average thermometer 48, highest 62 and lowest 34.

*New Orleans, Louisiana.*—It has rained on two days of the week, the precipitation reaching two inches and seven hundredths. The thermometer has averaged 53.

*Shreveport, Louisiana.*—There has been rain on one day of the past week, the rainfall being forty-nine hundredths of an inch. The thermometer ranged from 36 to 64, averaging 50.

*Vicksburg, Mississippi.*—It rained on two days during the week, the precipitation reaching forty-nine hundredths of an inch. The thermometer has averaged 59, the highest being 65 and the lowest 37.

*Leland, Mississippi.*—We have had rain the past week, the rainfall being sixty-nine hundredths of an inch. The thermometer has averaged 45.3, ranging from 27 to 61.

*Helena, Arkansas.*—There has been rain on two days during the week, the rainfall being one inch and sixty-nine hundredths. The thermometer has ranged from 30 to 54, averaging 43.

*Memphis, Tennessee.*—There has been rain on one day of the week, the precipitation reaching one inch and thirty-seven hundredths. The thermometer has averaged 43.3, the highest being 55.3 and the lowest 32.5.

*Mobile, Alabama.*—Rain in the interior early part of the week and freezing temperature the latter portion. Farm work has made no progress. Rain has fallen on three days during the week, the rainfall reaching one inch and eighty-six hundredths. The thermometer has ranged from 36 to 67, averaging 54.

*Montgomery, Alabama.*—We have had rain on four days of the past week, the rainfall being one inch and thtirty-seven hundredths. Average thermometer 48, highest 68, lowest 34.

*Madison, Florida.*—It has rained on one day of the week, the precipitation reaching one inch and seventy-five hundredths. The thermometer has averaged 48, ranging from 34 to 62.

*Augusta, Georgia.*—Rain has fallen on two days of the week, the rainfall reaching two inches and fifty-nine hundredths. The thermometer has ranged from 34 to 66, averaging 47.

*Savannah, Georgia.*—We have had rain on three days of the past week, the precipitation being one inch and forty-six hundredths. Average thermometer 52, highest 67 and lowest 37.

*Charleston, South Carolina.*—We have had rain on two days of the week, the rainfall reaching ninety-seven hundredths of an inch. The thermometer has averaged 51, the highest being 67 and the lowest 37.

*Greenwood, South Carolina.*—There has been rain on two days during the week, the rainfall aggregating two inches and twenty-five hundredths. The thermometer has averaged 43, ranging from 35 to 52.

*Charlotte, North Carolina.*—We have had rain the past week, the precipitation being two inches and nine hundredths. Average thermometer 42, highest 56, lowest 27.

The following statement we have also received by telegraph, showing the height of rivers at the points named at 8 a. m. of the dates given:

| | | *Jan.* 10 1908. | *Jan.* 11 1907. |
|---|---|---|---|
| | | *Feet.* | *Feet.* |

COTTON OPTION TRADING.—*President Taylor of the National Ginners' Association Defends It.*—President Taylor of the National Ginners' Association has addressed a communication to the ginners and planters of the South which is in part as follows:

To those who have the real interest of the cotton grower at heart as well as to the grower himself, I would earnestly suggest a careful consideration of the possible effects of the passage of the Burleson bill now pending before Congress. I have had twenty years' experience as a ginner, grower and buyer of cotton, and during my three years' experience as President of the National Ginners' Association I have had great opportunities to study the present methods and the possible effects of the passing of the Burleson bill. I feel sure that if the bill becomes a law it will cost the Southern farmers millions of dollars before it could be repealed. Some years ago in Germany there was raised this same agitation by the growers of grain against speculation, and all the Exchanges were closed by law. The result was so costly and unsatisfactory to the producers of grain and other cereals that the Government itself asked the Exchange to reorganize. This is the only instance of its being tried, but the result was so different from what was expected, I think we should profit by their experience. The loss would be much greater with us, as we grow so much more than we can use at home.

Under the present conditions the producers market from 75,000 to 100,000 bales of cotton per day during September, October and November, while the combined capacity of all the spindles in the world that use American cotton is about 40,000 bales per day. The difference has to be carried by some one and they speculate to that amount, as there is always a chance for an advance or a decline in the price. At present a part of this is carried by the spinners, a part by the farmers and merchants in actual cotton; but the largest part is carried by cotton merchants and cotton buyers. Nearly all this cotton is hedged or sold against the future markets of this country and Europe. Who carries the other end of these contracts? At present speculators carry nearly all of it. These speculators are largely in the South, as the South naturally wants higher prices for cotton, and as they are in closer touch with the crop conditions, it naturally makes them bulls on cotton. It is a well-known fact that very few of the small speculators ever sell any commodity short, but are nearly always found on the buying side. Suppose that our Exchanges were closed, what would be the result? All the smaller speculators scattered throughout the South would quit speculation, as it is rather hard for them to deal in Liverpool; besides, the expense is so great they could not afford it. It costs at the present price of cotton $350 to hedge 1,000 bales of cotton, compared to $150 in this country. The result would be about as follows: Cotton would start in September at about its value from a supply and demand standpoint, and as the farmers increased their sales to meet their obligations the sales of hedges would be so great in Liverpool, with hardly any one supporting the market, that the price would at once go very low and would stay there until the bulk of the crop had been picked and marketed, when it would gradually go back, probably to near its real value; but too late to do the Southern producers any good.

If the producers would only sell what the spinners would take each day this would not happen; but that would be impossible under the present conditions, with the merchants wanting their money for supplies furnished months before they would be forced to sell. What we really need is more speculation, especially here in the South, as it would be nearly all on the buying side, and help carry the load of cotton till the spinner needs it. I think the Exchanges should be so regulated that it would be impossible to depress the price by tendering a lot of low-grade cotton on contracts as is done under the system as in vogue for the past few years. Why can't the Exchanges base their contracts on middling cotton? All grain future contracts are based on No. 2 wheat, which is to the different grades of wheat about what middling is to the grades of cotton, or even better. This would enable the spinner to buy contracts and receive the actual cotton, knowing he would get at least spinnable cotton.

Under the present system there is no other commodity handled on such a small margin as cotton. If protected from weather influence there is no waste, and with the future markets to hedge his sales in, the small buyer with limited capital but good credit can handle a very large amount of cotton during a season, so that a very small profit on each bale makes him a nice income for the year's business. With our future markets closed it would be impossible for him to get accommodations from the banks to handle as much business, so he would have to reduce his business and make a larger profit per bale. This would all come out of the price paid the producer. This would also reduce competition among the buyers.

Without our Exchanges we would have nothing to govern the price except Liverpool, and as it is always their interest to buy cotton cheap we would be at their mercy. If all our surplus sales had to be hedged each day in Liverpool, that market would go down so fast that it would almost create a panic.

Everyone in the South is interested in the producer getting good prices for his crop; so why not let all that want to carry the burden of the heavy offerings during the fall months? If there are faults in the present method of conducting the Exchanges, regulate them by law if necessary. If we have a piece of machinery that don't work exactly right, we do not destroy it, but we overhaul it and oil it up well, and it usually runs much better.

I think a good deal of this agitation against trading in futures is caused by the irresponsible "bucket shops" that have been opened up all over the country largely by irresponsible persons. Some of our Southern States saw the harm of bucket shops, so they have legislated against them; but in doing so they went too far, I think, and stopped legitimate speculation that is really a benefit to the producer.

Take the years when we have had the most speculaton—viz., 1903-04 and 1905-06—the farmers got the highest price for their cotton in years, while under the restriction on speculation this year, with a crop really smaller compared to the consumption than in either of the years mentioned, price has been much lower, notwithstanding the price of cotton goods is very much hgher than in either of these years. I believe if the South had the opportunity to speculate in cotton goods this year as in the years mentioned, the crop would have sold at from 12½ to 15 cents, as compared to a little over 10 cents.

It has taken years to build up this system, and under it the South is most prosperous in its history. Then why should we try any such radical measure as is proposed by the Burleson bill?

LANCASHIRE LOCKOUT THREATENED.—Our correspondent at Manchester cables us this evening that the Federated Spinners of Lancashire threaten to close their mills on the 25th of January unless the individual strikes of the ring spinners at Oldham are terminated before that time. Two-thirds of the spinners in Lancashire, our correspondent says, will be involved in the lockout and that great diplomacy will be required to avert it.

WORLD'S SUPPLY AND TAKINGS OF COTTON.—The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Sept. 1, for the last two seasons, from all sources from which statistics are obtainable; also the takings, or amount gone out of sight, for the like period.

| Cotton Takings Week and Season. | 1907-08. | | 1906-07. | |
|---|---|---|---|---|
| | *Week.* | *Season.* | *Week.* | *Season.* |
| Visible supply Jan. 3 | 4,873,468 | .... | 5,224,577 | .... |
| Visible supply Sept. 1 | .... | 2,291,844 | .... | 1,784,156 |
| American in sight to Jan. 10 | 369,862 | 7,151,644 | 405,912 | 8,578,469 |
| Bombay receipts to Jan. 9 | 77,000 | 620,000 | 84,000 | 768,000 |
| Other India Shp'ts to Jan. 9 | 7,000 | 102,000 | 3,000 | 78 000 |
| Alexandria receipts to Jan. 8 | 37,000 | 685,000 | 45,000 | 691,000 |
| Other supply to Jan. 8*a* | 8,000 | 164,000 | 6,000 | 184,000 |
| Total supply | 5,372,230 | 11,014,488 | 5,768,489 | 12,083,625 |
| *Deduct*— | | | | |
| Visible supply Jan. 10 | 4,948,522 | 4,948,522 | 5,389,564 | 5,389,564 |
| Total takings to Jan. 10 | 423,808 | 6,065,966 | 378,925 | 6,694,061 |
| Of which American | 321,808 | 4,608,966 | 291,925 | 5,195,061 |
| Of which other | 102,000 | 1,457,000 | 87,000 | 1,499,000 |

*a* Embraces receipts in Europe from Brazil, Smyrna, West Indies, &c.

ALEXANDRIA RECEIPTS AND SHIPMENTS.

| *Alexandria, Egypt, January* 8. | 1907-08. | 1906-07. | 1905-06. |
|---|---|---|---|
| *Receipts* (cantars)— | | | |
| This week | 280,000 | 340,000 | 250,000 |
| Since Sept. 1 | 5,138,582 | 5,183,881 | 4,072,250 |

| *Exports* (bales)— | *This week.* | *Since Sept.* 1. | *This week.* | *Since Sept.* 1. | *This week.* | *Since Sept.* 1. |
|---|---|---|---|---|---|---|
| To Liverpool | 6,750 | 136,020 | 5,250 | 132,186 | 5,250 | 119,546 |
| To Manchester | 7,750 | 116,270 | 9,000 | 111,660 | 6,250 | 80,943 |
| To Continent | 18,250 | 161,901 | 16,000 | 166,404 | 17,000 | 146,900 |
| To America | 1,750 | 31,797 | 5,250 | 51,278 | 3,000 | 36,742 |
| Total exports | 34,500 | 445 988 | 35,500 | 461,528 | 31,500 | 384,131 |

*Note.*—A cantar is 99 lbs. Egyptian bales weigh about 750 lbs.

CENSUS BUREAU'S REPORT ON COTTON GINNING.—The Division of Manufactures in the Census Bureau completed and issued on Jan. 9 the eighth of its series of reports on cotton ginning the present season as follows (counting round as half bales and excluding linters):

| States— | Ginned to Jan. 1 1908. | 1907. | 1906. |
|---|---|---|---|
| United States | 9,955,427 | 11,741,039 | 9,725,426 |
| Alabama | 1,030,721 | 1,190,062 | 1,176,608 |
| Arkansas | 627,725 | 731,547 | 510,599 |
| Florida | 50,136 | 59,011 | 72,889 |
| Georgia | 1,725,273 | 1,571,582 | 1,670,466 |
| Kentucky | 1,329 | 1,362 | 1,218 |
| Louisiana | 562,477 | 836,459 | 456,339 |
| Mississippi | 1,228,444 | 1,289,294 | 1,033,794 |
| Missouri | 26,644 | 38,441 | 35,427 |
| New Mexico | 93 | ------ | ------ |
| North Carolina | 565,479 | 571,628 | 629,344 |
| Oklahoma | 745,796 | 701,814 | 576,076 |
| South Carolina | 1,065,690 | 868,977 | 1,075,936 |
| Tennessee | 225,245 | 241,838 | 240,565 |
| Texas | 2,092,735 | 3,626,117 | 2,231,689 |
| Virginia | 7,640 | 12,907 | 14,476 |

The number of round bales included is 179,391, against 255,566 last year and 263,581 two years ago; the number of Sea Island bales is 75,628, compared with 54,275 last year and 98,942 two years ago.

The number of active ginneries in the various States follow: Alabama, 3,436; Arkansas, 2,093; Florida, 244; Georgia, 4,531; Kentucky, 2; Louisiana, 1,835; Mississippi, 3,495; Missouri, 73; New Mexico, 2; North Carolina, 2,702; Oklahoma, 969; South Carolina, 3,167; Tennessee, 660; Texas, 3,968; Virginia, 99; United States, 27,276, against 28,408 last year and 28,853 two years ago.

COTTON CONSUMPTION AND OVERLAND MOVEMENT TO JAN. 1.—Below we present a synopsis of the crop movement for the month of December and the four months ended Dec. 31 for three years:

| | 1907. | 1906. | 1905. |
|---|---|---|---|
| Gross overland for December—bales | 164,525 | 347,523 | 237,951 |
| Gross overland for 4 months | 422,720 | 705,300 | 533,383 |
| Net overland for December | 123,939 | 300,311 | 192,977 |
| Net overland for 4 months | 313,957 | 602,129 | 422,379 |
| Port receipts in December | 1,594,036 | 1,601,284 | 1,081,522 |
| Port receipts in 4 months | 4,975,906 | 5,866,481 | 5,080,889 |
| Exports in December | 1,303,475 | 1,240,127 | 1,024,683 |
| Exports in 4 months | 3,803,793 | 4,126,210 | 3,453,642 |
| Port stocks on Dec. 31 | 1,051,889 | 1,333,239 | 1,127,018 |
| Northern spinners' takings to Jan. 1 | 697,228 | 1,174,607 | 1,218,620 |
| Southern consumption to Jan. 1 | 832,000 | 815,000 | 796,000 |
| Overland to Canada for 4 months (included in net overland) | 33,070 | 54,326 | 53,374 |
| Burnt, North and South, in 4 months | ------ | ------ | 110 |
| Stock at North. interior markets Jan. 1 | 11,952 | 10,795 | 14,829 |
| Came in sight during December | 2,003,975 | 2,219,638 | 1,581,799 |
| Amount of crop in sight Jan. 1 | 6,601,863 | 7,908,610 | 6,941,268 |
| Came in sight balance season | - - - - | 5,642,150 | 4,378,592 |
| Total crop | - - - - | 13,550,760 | 11,319,860 |
| Average *gross* weight of bales | 515.01 | 521.46 | 515.26 |
| Average *net* weight of bales | 492.01 | 498.96 | 492.83 |

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is quiet for yarns and nominal for shirtings. The demand for India is poor. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

| | 1907-08. 32s Cop Twist. | 1907-08. 8¼ lbs. Shirtings, common to finest. | 1907-08. Cot'n Mid Upl's | 1906-07. 32s Cop Twist. | 1906-07. 8¼ lbs. Shirtings, common to finest. | 1906-07. Cot'n Mid Upl's |

## BREADSTUFFS.

*Friday, Jan.* 10 1908.

Prices for wheat flour have ruled firm with occasional advances. These, however, have been to a large extent merely nominal, as trade has continued extremely dull and of a hand-to-mouth character. Export trade has been at a standstill. Stocks in the hands of dealers are unusually small, but no disposition is shown to replenish them. The output at the large milling centres continues on a much smaller scale than at this time last year. Corn meal has been quiet but firmer. Buckwheat flour has been dull and easier.

Wheat has suffered something of a decline, partly at least by reason of better weather in Argentine, larger offerings of La Plata wheat at times in Liverpool, a lack as a rule of anything like an animated export demand here, and finally the dulness of speculation. Thus, for one reason or another, large bull interests at Chicago have deemed it advisable to liquidate, and they have done so on a considerable scale. At the same time Liverpool quotations of late have shown unexpected steadiness, partly, it appears, owing to support given to prices there by large speculative interests. As to who these people are, opinions seem to differ, but one idea which perhaps may not be entirely without foundation is that it is large Chicago interests. World's supplies, moreover, have been increasing. Last week they increased nearly 2,500,000 bushels, against only about 1,900,000 for the same time last year. Yet prices here of late have been firmer. In spite of the reports of a poor demand at Liverpool prices there have been sustained in a manner that has surprised many. Mr. John Morley, Secretary of State for India, has received a dispatch from Lord Minto, Viceroy of India, stating that the area sown to wheat in India this year is 34% smaller than that of last year. Moreover, the receipts at our Northwestern markets have been light, and

the cash situation there has latterly at least been firm. The Southwest has reported a good milling demand. As regards European weather reports, they have on the whole been unfavorable. Severe freezing has occurred in France, Germany, Austria and Russia. In Russia the weather has not only been intensely cold, but the fields are without snow covering; the prospects, therefore, are reported rather dubious and at the same time supplies are light. It may be added that, although world's supplies have latterly been increasing, the total is nevertheless only 140,650,000 bushels, or nearly 27,000,000 bushels less than a year ago and 12,600,000 bushels less than at this time in 1906. Under the circumstances part of the decline early in the week has latterly been recovered. To-day prices advanced early on better cables than had been expected, bull support and covering of shorts. Later on came a decline on liquidation, partly, it was reported, for leading bulls, favorable Argentine news and bearish pressure. Before the close reports of an active export demand caused a rally.

DAILY CLOSING PRICES OF WHEAT FUTURES IN NEW YORK.

| | Sat. | Mon. | Tues. | Wed. | Thurs. | Fri. |
|---|---|---|---|---|---|---|

DAILY CLOSING PRICES OF WHEAT FUTURES IN CHICAGO.

| | Sat. | Mon. | Tues. | Wed. | Thurs. | Fri. |
|---|---|---|---|---|---|---|
| May delivery in elevator | 108¼ | 107 | 106¼ | 105½ | 106⅝ | 106¼ |
| July delivery in elevator | 100¼ | 99¼ | 98⅝ | 98 | 99 | 98¾ |
| September delivery in elevator | 96¾ | 96⅛ | 95½ | 94⅞ | 95⅝ | 95⅜ |

Indian corn futures have declined of late, owing to generally favorable weather for curing the crop. This has led to liquidation and more or less short selling in expectation of larger receipts shortly, especially as present prices are attractive and the movement of hogs to market continues liberal, so that a lessened feeding demand seems probable. Cash and elevator interests at the West have been selling. But there has been more or less support, so that no marked depression has occurred. The movement, too, in spite of the favorable weather, has been light, and at times there has been an increased cash demand, partly for export. It is insisted, too, that the percentage of unmerchantable corn this season is unusually large. To-day the market was easier on favorable weather, larger receipts than expected and liquidation.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN IN NEW YORK.

| | Sat. | Mon. | Tues. | Wed. | Thurs. | Fri. |
|---|---|---|---|---|---|---|
| Cash corn | 69 | 69⅜ | 69⅝ | 69⅞ | 68½ | 68 |
| May delivery in elevator | 69⅞ | 70¼ | 70½ | 69⅞ | 69⅞ | 69½ |

DAILY CLOSING PRICES OF CORN FUTURES IN CHICAGO.

| | Sat. | Mon. | Tues. | Wed. | Thurs. | Fri. |
|---|---|---|---|---|---|---|
| May delivery in elevator | 61⅜ | 61⅜ | 61½ | 60⅞ | 61 | 60½ |
| July delivery in elevator | 60⅛ | 60⅛ | 60¼ | 59⅜ | 59⅝ | 59 |
| September delivery in elevator | 60 | 60 | 60 | 59¼ | 59¼ | 58¾ |

Oats for future delivery in the Western market have been easier in the main, owing to depression in wheat and corn. The cash trade, moreover, has been dull and larger receipts are expected. Northwestern houses have sold at Chicago at times and so have elevator concerns. The speculation, however, has been quiet as a rule and destitute of features of striking interest. Stocks of contract grade are small, and the fear of manipulation causes many to hold aloof from the speculation. To-day prices declined slightly on liquidation.

## THE DRY GOODS TRADE.

*New York, Friday Night, Jan.* 10 1908.

With the announcement yesterday by the American Printing Company and others of a cut in the price of staple prints from 7c. to 6c., the reduction to take place immediately, a first step was made in the direction of placing cotton goods on a level where they will prove more attractive to buyers. Advantage was taken of this action by other agents to announce revisions which had long been under consideration, and it is expected that during the course of next week numerous lines will be placed on a more reasonable price basis. The American Printing Company was a large buyer of print-cloth regulars at Fall River during the latter part of last week, paying 4¼c. for goods to be delivered up to April next; and, while their purchases were of sufficient volume to steady the print-cloth market, yet the price paid was sufficiently low to make it reasonably certain that a reduction in prints would follow. Apart from the idea of stimulating trade and following the course of the print-cloth market, however, another point that undoubtedly influenced the reduction was the knowledge that others were practically selling below the 7c. level by lengthening discounts, thereby placing the dominating interest at a disadvantage. There has been more inquiry for goods generally during the week and slightly more business, due almost entirely to the improvement in the financial situation. Bankers are showing a greater disposition to discount commercial paper and rates have materially fallen during the week. A fair number of buyers have been in town, and operations are expected to increase largely when the whole market has been placed on a more favorable level. Lower prices have been named on men's wear woolen goods during the week, but business has not been heavy.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending Jan. 4 were 2,229 packages, valued at $133,719, their destination being to the points specified in the table below:

| | 1908 | | 1907 | |
|---|---|---|---|---|
| New York to Jan 4 | Week. | Since Jan. 1. | Week. | Since Jan. 1 |
| Great Britain | 8 | 8 | 65 | 65 |
| Other European | 11 | 11 | 2 | 2 |
| China | --- | --- | --- | --- |
| India | 100 | 100 | 161 | 161 |
| Arabia | 1,143 | 1,143 | --- | --- |
| Africa | 124 | 124 | 28 | 28 |
| West Indies | 145 | 145 | 426 | 426 |
| Mexico | 1 | 1 | 71 | 71 |
| Central America | 119 | 119 | 340 | 340 |
| South America | 370 | 370 | 650 | 650 |
| Other Countries | 208 | 208 | 584 | 584 |
| Total | 2,229 | 2,229 | 2,327 | 2,327 |

The value of these New York exports since Jan. 1 has been $133,719 in 1908, against $162,296 in 1907.

There has been a better demand for heavy brown drills and sheetings, some of the prices now named proving acceptable to buyers; in many cases declines have occurred during the week, but it is expected that further revisions will be made before any large amount of purchasing takes place. Light-weight sheetings have been fairly steadily held and have met with a moderate demand. There have been more inquiries from exporters, but little actual business has been reported; with an easier money market, however, shipments of goods which have been delayed will be sent forward. In some quarters it is expected that a fair business will develop for China in the near future, but this will hardly materialize before the Chinese New Year, and may then be delayed if price changes are not considered sufficiently radical. Lower levels have not generally been named on bleached goods so far, but second hands are selling below agents' quotations, and some of the latter have taken business at reduced prices. Changes will undoubtedly be made when buyers show a disposition to operate. A new price of 12c. has been announced for A.C.A. ticks, but denims and other coarse, colored cotton goods remain unchanged. Ginghams are steadily held and have been in moderate demand. Linings have again been reduced, but the market is quiet. While print cloth regulars are ⅛c. higher than last week as a result of the purchasing by the American Printing Company, wide goods are lower, and there has been some buying by converters on the basis of 5¼c. for 38½-inch 64x64s.

WOOLEN GOODS.—The opening of the American Woolen Company's lines for the fall of 1908 occurred during the week after having been twice postponed, and a comparison of their list of prices shows a general reduction from last year of about 5%. That the cut was not more radical was a relief to other members of the trade who had been disturbed by numerous reports afloat in the market. A fair number of buyers have been looking at the new lines opened during the week, but the actual volume of business transacted has been very small, and the season so far has been very unsatisfactory. The time is now approaching, however, when business will have to be done if it is going to be done at all, and the next few weeks are consequently being looked forward to with a certain amount of anxiety and a great deal of interest. Overcoatings are particularly slow, and less business has been done this season so far than is usually transacted by the middle of December. Those who expected a revival of activity in dress goods immediately after the turn of the year have been disappointed, for the market remains exceptionally quiet. As far as light-weight goods are concerned, the business in woolens is practically over and little interest is being shown in worsteds. An improvement in the retail trade situation, however, would probably result in some further duplicate ordering of the latter. Little business has yet been done in fall lines, although there has been some buying of broadcloths.

FOREIGN DRY GOODS.—Imported woolen and worsted dress goods have been quiet and featureless. A better feeling is apparent in the silk and ribbon markets, but business has been small. Linens continue firm, but burlaps are quiet and barely steady.

# State and City Department.

## *MUNICIPAL BOND SALES IN DECEMBER AND THE YEAR* 1907.

The total amount of municipal bonds placed during the month of December reached $7,371,236. These figures are exclusive of $18,425,142 of temporary loans, $6,034,700 of Canadian loans, $294,000 bonds of Hawaii and $2,000,000 general fund bonds of New York City. The aggregate for December as well as the twelve months for a series of years is shown in the following table:

| | *Month of December.* | *For the Twelve Mos.* | | *Month of December.* | *For the Twelve Mos.* |
|---|---|---|---|---|---|
| 1907 | $7,371,236 | $224,187,039 | 1899 | $4,981,225 | $118,113,005 |
| 1906 | 21,260,174 | 201,743,346 | 1898 | 7,306,343 | 103,084,793 |
| 1905 | 8,254,593 | 183,080,023 | 1897 | 17,855,473 | 137,984,004 |
| 1904 | 9,935,785 | 250,754,946 | 1896 | 10,664,287 | 106,496,060 |
| 1903 | 13,491,797 | 152,281,050 | 1895 | 8,545,804 | 114,021,633 |
| 1902 | 11,567,812 | 152,846,335 | 1894 | 13,486,374 | 117,176,225 |
| 1901 | 15,456,958 | 149,498,689 | 1893 | 17,306,564 | 77,421,273 |
| 1900 | 22,160,751 | 145,733,062 | 1892 | 3,297,249 | 83,823,515 |

For the year 1907 the total exceeded that for 1906 by over 22 millions, and, with the exception of 1904, the aggregate is the largest ever recorded for any calendar year. Nearly the whole of the increase in 1907, however, is accounted for by the enlarged output of New York City, which issued $78,722,815 of bonds in 1907, against $57,052,175 in 1906. This does not include any of the revenue bonds, which, being temporary obligations in the nature of floating debt, we disregard.

The amount of the sales for 1907 is $224,187,039, as against $201,743,346 in 1906, $183,080,023 in 1905, $250,754,946 in 1904, $152,281,050 in 1903, $152,846,335 in 1902, $149,498,689 in 1901 and $145,733,062 in 1900. It should be borne in mind that, for reasons so often explained, we do not incorporate in our compilations temporary loans, nor do we include sales made by places located outside of the United States. Thus we reported during the year $154,577,327 of temporary loans, $13,391,912 of Canadian loans, $1,000,000 of Porto Rico and $294,000 of Hawaiian loans and $13,500,000 general fund bonds of New York City, all of which have been excluded. With all of these incorporated the 1907 total would be increased to $405,818,278.

The following table shows the monthly output in each of the years 1907 and 1906:

| | 1907. | 1906 | | 1907. | 1906. |
|---|---|---|---|---|---|
| January | $10,160,146 | $8,307,582 | July | $16,352,457 | $25,442,095 |
| February | 37,835,720 | 28,390,655 | August | 22,353,641 | 16,391,587 |
| March | 10,620,197 | 20,332,012 | September | 47,699,077 | 8,980,418 |
| April | 19,909,004 | 8,725,437 | October | 9,738,358 | 14,819,277 |
| May | 16,348,336 | 14,895,937 | November | 4,408,381 | 12,511,550 |
| June | 21,390,486 | 21,686,622 | December | 7,371,236 | 21,260,174 |
| Total | | | | $224,187,039 | $201,743,346 |
| Average per month | | | | $18,682,253 | $16,811,945 |

In the following table we give a list of December loans to the amount of $7,371,236 issued by 129 municipalities. In the case of each loan reference is made to the page in the "Chronicle" where an account of the sale is given.

All the above sales (except as indicated) are for November.

These additional November issues will make the total sales (not including temporary loans) for that month $4,408,381.

## News Items.

**Iberville Parish First Ward School District (P. O. Plaquemine), La.**—*Litigation.*—The following regarding a suit brought to restrain the issuance of the $30,000 5% school-building bonds awarded on Aug. 16 to W. J. Hayes & Sons of Cleveland (V. 85, p. 616), is taken from the New Orleans "Picayune" of Jan. 3:

Plaquemine, La., Jan. 2.—Suit was filed in the District Court to-day by E. B. Tolbot, Attorney for L. N. False, A. Wilbert Sons' Shingle Co. and the Whitecastle Lumber & Shingle Co., against the Police Jury and the School Board of Iberville Parish, enjoining the collection of taxes and issuing of bonds by the First Ward School District. An election was held in April 1907 creating the School District, and was carried by a vote of 63, representing $269,432 property valuation, against 2 votes, representing $40,945. A tax of 2 mills was levied by the Police Jury on the property in the district to run for twenty years. The money derived from this tax was to go towards erecting a high-school building at Whitecastle and graded school buildings at Samstown, New Camp and Augusta, and remodeling the school at Bayou Goula. The school houses at Samstown, New Camp and Augusta and remodeling of the Bayou Goula school house have been completed. The ground was purchased and plans accepted for the Whitecastle high-school building.

**Kansas.**—*Extra Session of Legislature.*—The Legislature of this State will convene in special session at 4 p. m. on Jan. 16 for the enactment of a guaranty deposit law and a primary election law, also the revision of the tax law. The regular session ended March 13 1907.

**New York City.**—*Reference Made by Mayor to Constitutional Amendment Relating to City's Debt Limit.*—Mayor McClellan, in his annual message to the Board of Aldermen, urges the most careful consideration and fullest discussion before any action is taken regarding the proposed amendment to the Constitution providing for the elimination from the 10% limit of indebtedness of bonds issued representing revenue-producing properties, such as subways and docks, in the same respect as bonds issued for water supply. As already stated in V. 85, p. 1475, the Charter Revision Commission in its report to the Governor on Nov. 30 1907 recommended the exclusion from the computation of the city's debt limit of "all bonds or evidences of indebtedness issued for purposes which produce revenues in excess of their maintenance charges." Governor Hughes, in his message to the Legislature last week, declared himself in favor of this recommendation, and requested that body to take appropriate action. The Mayor in his message refers to a similar recommendation made by an Advisory Commission appointed by him and states that if such an amendment was authorized it "might tempt the city into enterprises which in the end would result in shaking its financial stability, encouraging extravagance and injuring the value of its outstanding securities." The suggestion is also made by the Mayor that "the Charter should be so amended that the Commissioners of the Sinking Fund might in their discretion issue corporate stock, redeemable at the option of the city after a brief period of from one to five years, and payable in any event in ten to fifty years." The following figures concerning the city's finances were also given in the message:

FUNDED DEBT.

| | Dec. 31 1906. | Dec. 31 1907. |
|---|---|---|
| Gross funded debt | $665,697,392 06 | $735,015,765 05 |
| Less amounts in sinking fund | 191,044,186 94 | 197,437,164 02 |
| Net funded debt | $474,653,205 12 | $537,578,601 03 |
| Increase in the year 1907 of net funded debt | | $62,925,395 91 |
| Add increase in the year 1906 over 1905 of net funded debt | | 44,176,204 73 |
| Total increase in the years 1906 and 1907 of net funded dt. | | $107,101,600 64 |

TEMPORARY DEBT.

*Revenue Bonds Issued in Anticipation of Taxes—Amounts Outstanding.*

| | Dec. 31 1906. | Dec. 31 1907. |
|---|---|---|
| Revenue bonds of 1902 | $3,130,000 00 | $100,000 00 |
| Revenue bonds of 1903 | 7,800,000 00 | 5,000,000 00 |
| Revenue bonds of 1904 | 9,225,000 00 | 1,000,000 00 |
| Revenue bonds of 1905 | 10,150,000 00 | 7,000,000 00 |
| Revenue bonds of 1906 | 20,107,270 00 | 9,397,210 00 |
| Revenue bonds of 1907 | ---------- | 31,148,826 92 |
| Totals | $50,412,270 00 | $53,646,036 92 |
| Deduct | | 50,412,270 00 |
| Increase in 1907 in temporary debt | | $3,233,766 92 |
| Add increase in 1906 over 1905 in temporary debt | | 8,315,270 00 |
| Total increase in the years 1906 and 1907 in tempor'y debt | | $11,549,036 92 |
| Total increase in 1906 and 1907 in net funded debt | | $107,101,600 64 |
| Total increase in 1906 and 1907 in temporary debt | | 11,549,036 92 |
| Total increase for 1906 and 1907 in net bonded debt | | $118,650,637 56 |

"The condition of the city's finances in relation to its borrowing capacity or margin for incurring further indebtedness on Oct. 1, 1907, was as follows":

| | | |
|---|---|---|
| Ten per cent of the assessed valuation of real estate for 1907 | | $624,048,060 20 |
| Net funded debt (excluding county indebtedness and water bonds issued since Jan. 1 1904) | $498,487,118 05 | |
| Net contract liability (including rapid transit construction) | 70,766,529 10 | |
| For lands acquired | 16,202,566 98 | |
| | | 585,456,214 13 |
| Revenue bonds | | 19,030,000 00 |
| Balance of excess of 10 % of assessed valuation over debt | | $19,561,846 07 |
| Proceeds of the sale of bonds | | 16,531,277 27 |
| Estimated margin on Oct. 1 1907 | | $36,093,123 34 |

The foregoing estimated margin of $36,093,123 34 of borrowing capacity furnished by the Comptroller is as of Oct .1 1907, and does not include certain incomes of the Sinking Funds and redemption of debt that have accrued since then, and which furnish a further margin.

**North Carolina.**—*Donation of Repudiated Bonds Declined by New York State.*—Governor Hughes has declined to accept a donation of repudiated bonds of North Carolina offered by a committee of bondholders for the purpose of bringing suit against that State to recover on $11,000,000 of the securities which they now hold. The Governor, in declining to accept the bonds, tells the committee that, under the Federal Constitution, North Carolina is not subject, without its own consent, to suit by another State acting in behalf of individual citizens and that the Governor does not believe that the State of New York should take title to the bonds to begin the suit. The Governor's reply to the bondholders committee is as follows:

Governor Hughes directs me to acknowledge receipt of your letter of the 13th instant and of your earlier communications, and to say:

Under the Constitution of the United States the State of North Carolina is not subject, without its consent, to suit by citizens of New York or by the State of New York acting for the benefit of its citizens to whom the former State may be indebted. Suit can properly be brought by the State of New York, not as a representative of individual owners of bonds of North Carolina, but as the holder of the absolute title comprehending both the legal title and the right to beneficial enjoyment. It does not seem to the Governor proper that such a title should be asserted, and that by virtue thereof suit should be brought in the name of the State of New York, which is intended to cover the claims of individual bondholders, or to force settlement with them.

And, assuming that the proceeding is exclusively for the benefit of the State of New York, the Governor does not believe it to be a wise policy for the State to attempt to enrich itself by taking gifts of claims to be prosecuted against sister States.

Very truly yours,
ROBERT W. FULLER,
*Secretary to the Governor.*

In V. 85, p. 1657, we referred to the refusal of Governor Glenn of North Carolina to recognize the bonds, when Edward L. Andrews, representing the New York holders of the bonds, threatened to donate $3,000,000 of the securities to another State or to a foreign Government to bring suit against the State.

After receipt of the above letter, the attorneys for the committee insisted that New York Statutes made it mandatory upon State authorities to accept the donation and prosecute claims of this nature. Governor Hughes in answer to this contention makes the statement that as "the whole purport of the statute is for the prosecution of claims against another State by the State of New York, the Governor rests the exercise of his discretion over the details upon a negation of the whole object of the law." The communication ended with the official statement that "the Governor does not deem it proper for him to exercise his discretion in the acceptance of gifts of claims in order that they may be prosecuted against another State."

*Special Session of Legislature.*—The Governor has issued a call for a special session of the General Assembly. It is stated that the session will begin Jan. 21 for the purpose of enacting legislation to change, modify, straighten or repeal the railroad passenger rate of 2¼ cents a mile passed at the regular session of the Legislature and also the law concerning unjust discrimination in freight rates.

**Ontario.**—*Power By-Laws Voted.*—The Toronto "Globe" of Jan. 7 states that the "Power By-laws submitted throughout western Ontario yesterday, to enable the various municipalities to participate in the project of the Hydro-Electric Commission for the distribution of Niagara power in the region between the Falls and points as far west and northwest as St. Thomas and Stratford, were, generally speaking, carried by large majorities. In some cases, as in St. Thomas and Guelph, where the public ownership movement is particularly strong, the majorities were overwhelming, and in only one industrial center, Ingersoll, was the by-law defeated. There a proposal to spend $50,000 on the purchase of the Ingersoll Light Co.'s plant was beaten by a vote of 436 to 200." The vote was as follows:

| | For. | Agst. | | For. | Agst. |
|---|---|---|---|---|---|
| Hamilton | 3,038 | 1,673 | Woodstock | 865 | 154 |
| London | 2,809 | 941 | Ingersoll | 200 | 436 |
| St. Thomas | 1,295 | 191 | Waterloo | 437 | 115 |
| Brantford | 1,131 | 734 | St. Mary's (Maj.) | 292 | ---- |
| Stratford | 1,053 | 372 | Hespeler (Maj.) | 82 | ---- |
| Guelph | 968 | 98 | New Hamburg | 152 | 21 |
| Galt | 756 | 510 | | | |

## Bond Proposals and Negotiations this week have been as follows:

**Adrian School District (P. O. Adrian), Lenawee County, Mich.**—*Price Paid for Bonds.*—The Secretary of the Board of Education writes us that the price paid for the $60,000 4% school bonds recently awarded to local investors (V. 86, p. 62) was par. Denominations: $100 and $500. Interest Jan. 1 and July 1. Maturity $6,000 yearly from 1914 to 1923 inclusive.

**Albany, Dougherty County, Ga.**—*Bids Rejected.*—All bids received for the five issues of 5% gold coupon improvement bonds aggregating $75,000 offered on Jan. 6 were rejected. See V. 85, p. 1535, for a description of these securities.

**Ashland, Boyd County, Ky.**—*Bond Sale.*—This city on Dec. 24 1907 awarded $7,500 6% street-improvement bonds to Jno. Bradly of Nashville, Tenn., at par and accrued interest. Denomination $500. Date May 1906. Interest annual. Maturity ten years, subject to call in four and seven years.

**Barnstable County (P. O. Barnstable), Mass.**—*Notes Not Sold.*—No bids were received on Jan. 1 for $18,000 Bass River bridge notes offered on that day.

**Bay City, Matagorda County, Tex.**—*Bond Sale.*—An issue of $8,000 5% water-works bonds was recently awarded to the State School Fund at par and accrued interest. Maturity Oct. 1 1947, subject to call after ten years.

**Bayonne, N. J.**—*Award Postponed.*—The City Council on Jan. 7 referred to the Mayor, Comptroller and Finance Committee the bids received for the three issues of 5% gold bonds, aggregating $434,000, described in V. 86, p. 62. Interest semi-annually at the Bayonne Trust Co. of Bayonne.

**Beaufort County (P. O. Washington), N. C.**—*Bond Sale.*—On Jan. 6 the $50,000 5% 30-year gold coupon or registered bridge-construction bonds described in V. 85, p. 1535, were awarded to A. J. Hood & Co. of Detroit at 100.05. A bid of $47,500 was also received from Emery, Anderson & Co. of Cleveland, while MacDonald, McCoy & Co. of Chicago bid par for 5½s.

**Bellevue, Huron County, Ohio.**—*Bond Election.*—Local reports state that the Borough Council on Dec. 10 passed an ordinance providing for an election to submit to the voters the question of issuing $100,000 bonds to build a borough hall, pave and curb streets and construct sewers in Fairview District.

**Belleville School District (P. O. Newark), Essex County, N. J.**—*Bonds Defeated.*—The result of an election held Dec. 20 to vote on the question of issuing $5,000 bonds to condemn land for a school site and $38,400 bonds to erect a school thereon and to purchase a plot for school purposes, was 47 "for" to 52 "against."

**Beloit, Mitchell County, Kan.**—*Bonds Voted.*—Propositions to issue $18,000 water-works-purchase bonds, $15,500 water-works-extension bonds and $16,500 electric-light-plant-purchase bonds carried at an election held Dec. 17 1907.

**Berne, Albany County, N. Y.**—*Description of Bonds.*—We are informed that the $10,000 bonds recently authorized by the Board of County Supervisors to pay for the construction and improvement of Beaver Dam Road No. 192 and Delaware Turnpike, Section 4, No. 198 (V. 85, p. 1658), are coupon in form, carry 5% interest, and are dated Feb. 1 1908. A proposition to issue these bonds carried at the election held Dec. 14 1907. They are also authorized by Chapter 115, Laws of 1898. Securities are in denomination of $1,000 each. Interest is payable annually at the office of Wallace A. Peasley, Town Supervisor. Maturity $1,000 yearly on Feb. 1 from 1912 to 1921 inclusive.

**Bethlehem, Albany County, N. Y.**—*Description of Bonds.*—Official circular states that the $21,000 5% coupon bonds authorized at a meeting of the Board of County Supervisors held Dec. 17 1907, to pay for the construction and improvement of River Road No. 193; Delaware Turnpike, Section 3, No. 178, and Glenmont-Feura Bush Road No. 367 (V. 85, p. 1658), are in denomination of $1,000 each and are dated Feb. 1 1908. These securities are part of an issue of $25,000 authorized at an election held Dec. 14 1907; also by Chapter 115, Laws of 1898. Interest annually at the Town Supervisors' office. Maturity $3,000 yearly on Feb. 1 from 1909 to 1915 inclusive.

**Bradford School District (P. O. Bradford), Ohio.**—*Bonds Not Sold.*—On Jan. 6 no offers were received for the $40,000 4% coupon school-house bonds described in V. 85, p. 1599.

**Caledonia, Houston County, Minn.**—*Bonds Proposed.*—This village has made application to the State of Minnesota for a loan of $6,000 at 4% interest for the extension of the light plant. Denomination $1,000. Interest annually in June. Maturity from July 1 1917 to July 1 1922.

**Cambridge, Guernsey County, Ohio.**—*Bond Offering.*—Proposals will be received until 12 m. Feb. 3 by S. R. Heade, City Auditor, for the following sanitary-sewer-construction assessment bonds:

| | | |
|---|---|---|
| $1,100 00 | 4½ % | Foster Avenue bonds. Denomintion $110. |
| 1,353 50 | 4½ % | Blaine Avenue bonds. Denomination $135 35. |
| 1,307 50 | 4½ % | North Tenth Street bonds. Denomination $130 75. |
| 563 50 | 4½ % | North Ninth Street bonds. Denomination $56 35. |
| 1,517 50 | 4½ % | North Eleventh Street bonds. Denomination $151 75. |
| 524 00 | 4½ % | Clark Street bonds. Denomination $52 40. |
| 799 50 | 4½ % | Carlisle Avenue bonds. Denomination $79 95. |
| 397 50 | 4½ % | Woodlawn Avenue bonds. Denomination $39 75. |
| 403 00 | 4½ % | South Twelfth Street bonds. Denomination $40 30. |
| 279 30 | 4½ % | Morton Avenue bonds. Denomination $27 93. |
| 490 00 | 4½ % | Ogier Avenue bonds. Denomination $49. |
| 461 00 | 4½ % | East Third Street bonds. Denomination $46 10. |
| 803 50 | 4½ % | West Third Street bonds. Denomination $80 35. |
| 279 30 | 4½ % | Fourth Street bonds. Denomination $27 93. |
| 1,563 50 | 4½ % | North Fifth Street bonds. Denomination $156 35. |
| 533 00 | 4½ % | Wall Avenue bonds. Denomination $53 30. |

The amount of bonds to be issued may be reduced by assessments paid in cash prior to the date of sale. Authority Sections 50 to 95 of Municipal Code. Date Jan. 1 1908. Interest annually at City Treasurer's office. Maturity one bond of each issue yearly on Jan. 1 from 1909 to 1918 inclusive. Certified check for $500, payable to S. R. Heade, City Auditor, is required. Accrued interest to be paid by purchaser.

**Camden, Kershaw County, S. C.**—*Bond Offering.*—Further details are at hand relative to the offering on Jan. 15 of the $50,000 5% coupon sewer-system bonds mentioned in V. 85, p. 1658. Proposals for these bonds will be received until 12 m. on that day by J. J. Goodale, City Clerk. Denomination $500. Interest Jan. and July at Camden. Maturity forty years, subject to call after twenty years. Bonds are exempt from State, county and city taxes. Certified check for 5% of the amount of bid, payable to the City Treasurer, is required. Bonded debt at present $17,500. Assessed valuation, $1,284,922.

**Canal Dover, Tuscarawas County, Ohio.**—*No Action Yet Taken.*—No steps have yet been taken towards the issuance of the $35,000 municipal-electric-light-plant-construction bonds voted on Nov. 5 1907. See V. 85, p. 1353.

**Canton, Stark County, Ohio.**—*Bond Sale.*—On Jan. 6 the $10,000 4% 10-year coupon storm-water-sewer-construction bonds described in V. 85, p. 1599, were sold to Lynch & Day, agents, at 100.50—and accrued interest—a basis of about 3.94%. A bid was also received from M. E. Aungst, attorney, at par. Securities bear date of Dec. 1907.

**Cardington, Morrow County, Ohio.**—*Bond Offering.*—Proposals will be received until 12 m. Jan. 21 by C. F. Heimlich, Village Clerk, for the following bonds:

| | | |
|---|---|---|
| $5,143 70 | 5 % | street-improvement bonds. Denomination $1,028 74. Maturity $1,028 74 yearly on Nov. 1 from 1908 to 1912 inclusive. |
| 5,000 00 | 5 % | street-improvement bonds. Denomination $1,000. Maturity $1,000 yearly on Nov. 1 from 1914 to 1918 inclusive. |
| 5,000 00 | 5 % | refunding bonds. Denomination $1,000. Maturity $1,000 yearly on Nov. 1 from 1909 to 1913 inclusive. |

The above bonds are dated Nov. 1 1907. Interest semi-annual.

**Cashton, Monroe County, Wis.**—*Bond Election.*—Reports state that the question of issuing $15,500 bonds for the erection of a building to contain an electric-light plant, a pumping station and a meeting place for the Council, will be voted upon on Jan. 21.

**Cass County (P. O. Logansport), Ind.**—*Bonds Not Sold.*—No bids were submitted on Jan. 6 for the $5,385 87 6% Charles D. Wilson ditch-construction bonds described in V. 85, p. 1658.

**Center Independent School District (P. O. Center), Shelby County, Tex.**—*Bond Sale.*—This district has disposed of to the State School Fund $6,000 5% school-house bonds. The price paid was par and accrued interest. Maturity July 1 1947, subject to call after ten years.

**Chester, Meigs County, Ohio.**—*Bonds Voted.*—On Jan. 2 the voters of this city, according to reports, authorized the issuance of $17,500 refunding bonds. The vote was 87 to 22, three-fifths being necessary to authorize.

**Cincinnati School District (P. O. Cincinnati), Hamilton County, Ohio.**—*Bonds to be Re-offered Shortly.*—The Clerk of the Board of Education advises us that the $100,000 4% 20-40-year (optional) coupon improvement bonds offered without success on Nov. 25 1907 (V. 85, p. 1416), will probably be re-offered in February.

**Cisco, Eastland County, Texas.**—*Description of Bonds.*—We are informed that the $16,000 5% water-works bonds voted Oct. 26 1907 (V. 85, p. 1353) will be dated Oct. 26 1907 and will mature Oct. 26 1947, but will be subject to call after Oct. 26 1937. Denomination $1,000. Bonded debt, not including this issue, $21,000. Floating debt, $4,000. Assessed valuation for 1907, $1,135,000.

**Claremore, Okla.**—*Bond Sale.*—This city recently sold the $40,000 5% 20-year water-works-extension bonds voted Oct. 22 1907 (V. 85, p. 1162) to John Nuveen & Co. of Chicago on a 6% basis. Denomination $1,000. Date Nov. 1 1907. Interest semi-annual.

**Clinton County (P. O. Plattsburgh), N. Y.**—*Bond Offering.*—Proposals will be received until 1:30 p. m. Jan. 15 by Curtis E. Inman, County Treasurer, for $110,000 5% coupon good-roads bonds. Denomination $1,000. Date Jan. 2 1908. Interest semi-annually at the City National Bank of Plattsburgh. Maturity Jan. 2 1911. Total debt at present, $107,000.

**Columbus, Muskogee County, Ga.**—*No Action Yet Taken.*—We are advised that up to Jan. 4 no action had yet been taken in regard to issuing the $75,000 4% 1-30-year (serial) Dillingham Street bridge bonds voted (V. 85, p. 818), Sept. 10 1907.

**Conneaut School District (P. O. Conneaut), Ashtabula County, Ohio.**—*Bond Offering.*—Proposals will be received until 12 m. Feb. 3 by the Board of Education at the office of R. E. Mygatt, Clerk, for $70,000 4½% school bonds. Authority Section 3992, Revised Statutes. Denominations $500, $1,000 and $1,500. Date, day of sale. Interest, Jan. 1 and July 1 at the office of the Conneaut Mutual Loan & Trust Co. of Conneaut. Maturity $500 each six months from Jan. 1 1909 to July 1 1914, inclusive, $1,000 on Jan. 1 1915, $500 on July 1 1915, $1,000 on Jan. 1 1916, $500 on July 1 1916, $1,000 on Jan. 1 1917, $500 on July 1 1917, $1,000 each six months from Jan. 1 1918 to Jan. 1 1936 inclusive and $1,500 each six months from July 1 1936 to July 1 1943 inclusive. A certified check (or bond) for $3,000 is required.

**Cuyahoga County (P. O. Cleveland), Ohio.**—*Bond Sale.*—On Jan. 4 the $200,000 4½% coupon public-building bonds described in V. 85, p. 1600, were awarded to Denison & Farnsworth and Hayden, Miller & Co., both of Cleveland, and the Provident Savings Bank and Trust Co. and Breed & Harrison, both of Cincinnati, at their joint bid of 101.1706 and accrued interest. Following is a list of the bidders:

| | | | |
|---|---|---|---|
| Denison & Farnsworth, Cleveland | | Otis & Hough, Cleve | $202,226 00 |
| Hayden, Miller & Co., Cleveland | | Well, Roth & Co., Cincinnati | 201,811 00 |
| Prov. Sav. Bk. & Tr. Co., Cincinnati | $202,341 25 | W. R. Todd & Co., Cincinnati | a201,500 00 |
| Breed & Harrison, Cin. | | F. H. Saunders, Cleveland | 201,407 00 |

*a* Bid irregular.

All bidders offered accrued interest in addition to their bids. Maturity on Oct. 1 as follows: $10,000 yearly from 1909 to 1917 inclusive and $11,000 yearly from 1918 to 1927 inclusive.

*Bonds Proposed.*—According to reports in local papers, this county has under consideration a propositionto issue $463,000 bonds to construct a high-level bridge to connect Denison and Harvard avenues.

**Dallas, Dallas County, Texas.**—*No Action Yet Taken.*—Up to Dec. 26 no action had yet been taken looking towards the issuance of the $500,000 water-works-improvement bonds, the $100,000 bonds for street-improvements and the $50,000 public-school-building bonds described in V. 85, p. 959. Securities bear 4% interest and are payable in gold. We are advised, however, that by Jan. 15 it is expected that these bonds will be submitted to the Attorney General for approval.

**Delaware, Delaware County, Ohio.**—*Bond Sale.*—On Jan. 2 the $10,012 65 5% coupon refunding bonds described in V. 85, p. 1535, were awarded to Seasongood & Mayer of Cincinnati at 101.766 and accrued interest. Following are the bids:

| | | | |
|---|---|---|---|
| Seasongood & Mayer, Cin. | $10,189 50 | Delaware Sav. Bk., Dela. | $10,022 66 |
| Prov. Sav. Bk. & Tr. Co., Cin | 10,070 40 | S. A. Kean, Chicago | 10,017 65 |
| New First Nat. Bk., Colu. | 10,044 15 | Ohio Sav. Bank & Tr. Co. | 10,017 65 |
| V. T. Hills, Delaware | 10,042 65 | Emery, Anderson & Co., Cl | 10,012 65 |
| M. Miller, Delaware | 10,022 90 | | |

Maturity $1,012 65 on March 1 1909 and $1,000 yearly on March 1 from 1910 to 1918 inclusive.

**Del Rio Independent School District (P. O. Del Rio), Valverde County, Tex.**—*Bonds Registered.*—An issue of $30,000 5% school-house bonds of this district was registered on Dec. 23 1907 by the State Comptroller. Maturity Nov. 30 1947, subject to call after ten years.

**Detroit, Mich.**—*Bond Sale.*—On Jan. 6 the $250,000 3½% 30-year coupon (with privilege of registration) public-school-bonds described in V. 85, p. 1658, were awarded as follows: $209,000 to the Sinking Fund Commissioners of Detroit at par, $10,000 to the First National Bank of Lapeer at par, $10,000 to the Estate of John Pridgeon at par, $10,000 to William Beals at par, $7,000 to William Wallace Weir at 103, $3,000 to Mrs. Lena Frank at 101 and $1,000 to Helen D. Moyers at 101. These bonds were disposed of at an average price of 100.10, an interest basis of about 3.495%.

**Dunkirk, Chautauqua County, N. Y.**—*Bond Sale.*—We are advised that the $6,000 "or more" 4% bonds to cover deficiencies in Washington and Central Avenue funds, recently offered but not awarded by this city (V. 85, p. 1600), have been disposed of locally at par. Bonds are subject to call any time after ten days' notice.

**Duval County (P. O. Jacksonville), Fla.**—*No Bond Election.*—The County Clerk, P. D. Cassidey, informs us that the report stating that the Board of County Commissioners has under consideration a proposition to call an election to vote on the question of issuing $75,000 or $100,000 court-house and jail-construction bonds, is erroneous.

**East Lake (P. O. Birmingham), Jefferson County, Ala.**—*No Action Yet Taken.*—No action has yet been taken looking towards the issuance of the $25,000 street-improvement and the $15,000 sewer 5% 20-year bonds voted on Nov. 25 1907. The electors of the town on Jan. 6 voted in favor of annexation to "Greater Birmingham."

**East St. Louis School District No. 189 (P. O. East St. Louis), St. Clair County, Ill.**—*Bonds Not Sold.*—We are advised that the $60,000 4% registered school-building-construction bonds described in V. 86, p. 62, were offered without success on Jan. 6.

**Edgeley, Lamoure County, N. D.**—*Bonds Voted.*—We are advised that the proposition to issue the $3,000 6% 5-year electric-light bonds mentioned in last week's issue carried at the election held Jan. 6 by a vote of 63 to 8.

**Elmwood Place (P. O. Station P, Cincinnati), Ohio.**—*Bonds Not Sold.*—No bids were received on Dec. 30 1907 for the $10,000 4% 30-year refunding bonds described in V. 85, p. 1476. Interest is payable at the First National Bank of Elmwood Place.

**Fall River, Mass.**—*Temporary Loans.*—During the year 1907 temporary loans amounting to $529,000 were negotiated. Of this amount $100,000 was previously reported by us.

**Farmville, Pitt County, N. C.**—*Bond Offering.*—Proposals will be received until 12 m. Feb. 4 by R. L. Davis, Town Clerk, for $5,000 5% bonds, to aid in the construction of the Raleigh & Pamlico Sound Railroad. Denomination $100. Date Aug. 1 1907. Interest annual. Maturity Aug. 1 1937. Certified check for $50 is required. Assessed valuation $350,000. These bonds were offered but not awarded on Jan. 5.

**Fort Bend County (P. O. Richmond), Tex.**—*Bond Offering.* D. R. Pearson, County Judge, is advertising for proposals for the $75,000 court-house, $30,000 Brazos River bridge and the $5,000 Bernard River bridge 4% 5-40-year (optional) bonds registered on Dec. 17 1907 by the State Comptroller and offered but not sold on Oct. 14 1907. See V. 85, p. 1659.

**Fort Pierre Independent School District (P. O. Fort Pierre), Stanley County, S. D.**—*Bonds Not Yet Sold.*—F. G. Fisher, President School Board, in a letter received Dec. 28, advises us that the $19,000 5% 10-20-year (optional) school bonds, bids for which were rejected on Sept. 30 (V. 85, p. 960), are still unsold.

**Freeborn County (P. O. Albert Lea), Minn.**—*Bond Offering.*—Proposals will be received until 10 a. m. Jan. 14 by C. E. Brainerd, County Auditor, for $10,000 ditches Nos. 11 and 15 completion bonds at not exceeding 6% interest. Maturity five years.

**Garrettsville, Portage County, Ohio.**—*Bond Sale.*—The $2,000 4% 5-10-year (optional) coupon water-works-system-construction bonds a description of which was given in V. 85, p. 1600, were awarded on Jan. 3 to the First National Bank of Garrettsville at 100.30 and accrued interest—a basis of about 3.934% to the optional date and about 3.964% to full maturity. Securities are dated Dec. 15 1907.

**Gloucester City, Camden County, N. J.**—*Bonds Proposed.*—This city, according to reports, proposes to issue $75,000 street-improvement bonds.

**Guilderland, Albany County, N. Y.**—*Description of Bonds.*—The $4,000 5% coupon Schoharie Road, Sections 1 and 2, No. 177, construction and improvement (town's portion) bonds mentioned in V. 85, p. 1659, will be issued in denominations of $1,000 each, dated Feb. 1 1908 and will mature $1,000 on Feb. 1 in each of the years 1910, 1911, 1912 and 1913. Authority election held Nov. 5 1907 and Chapter 115, Laws of 1898. Interest annually at the Town Supervisor's office.

**Harrisburg School District (P. O. Harrisburg), Dauphin County, Pa.**—*Bond Offering Postponed.*—We are advised by D. D. Hammelbaugh, Secretary of the Board of School Directors, that the offering of $69,000 4% coupon school-building bonds which was to have taken place Jan. 8 has been postponed until Jan. 15. Denomination to suit purchaser. Date Jan. 1 1908. Interest semi-annually at the City Treasurer's office. Maturity on Jan. 1 as follows: $10,000 in 1913, $2,000 yearly from 1914 to 1929 inclusive and $3,000 yearly from 1930 to 1938 inclusive. Bonds are exempt from State tax. Certified check for 2% of bonds bid for, payable to the City Treasurer, is required.

**Holdredge, Phelps County, Neb.**—*Bonds to be Offered Shortly.*—We are advised that the $20,000 5% 5-20-year (optional) coupon sewer-system-construction bonds dated Oct. 17 1907 and described in V. 85, p. 1416, will be placed on the market about Feb. 1.

**Holland, Ottawa County, Mich.**—*Bond Sale.*—On Jan. 6 the $18,000 4-9-year (serial) coupon refunding water-works bonds, Series "H," described in V. 85, p. 1600, were awarded to the Michigan Commercial Insurance Co. of Lansing for $18,051 (100.283) and accrued interest for 5s. Purchaser to furnish blank bonds. Bids were also received from the Bumpus-Stevens Co. of Detroit, Emery, Anderson & Co. of Cleveland and Thos. J. Bolger and A. B. Leach & Co., both of Chicago.

**Joplin, Jasper County, Mo.**—*Bond Offering.*—Proposals were asked for until 3 p. m. yesterday (Jan. 10) for the $96,000 5% 5-20-year (optional) coupon sanitary and storm-water-sewer-construction bonds voted Dec. 23 1907. See V. 86, p. 63. Authority, Section 6350, Revised Statutes of 1899. Denomination $500. Date Jan. 2 1908. Interest semi-annually at the City Treasurer's office. The result of this offering was not known to us at the hour of going to press.

**Kansas City, Kan.**—*Bond Sale.*—This city recently awarded an issue of $218,500 5% refunding bonds offered on Dec. 23 1907 to local banks at par. Denomination $500. Date Dec. 15 1907. Interest semi-annual. Maturity ten years.

**Kenedy Independent School District (P. O. Kenedy), Karnes County, Tex.**—*Bonds Registered and Sold.*—On Jan. 4 the $12,000 5% school-house bonds mentioned in V. 85, p. 1659, were registered by the State Comptroller. These bonds have been purchased by State School Fund at par and accrued interest. Maturity Jan. 1 1948, subject to call after three years. Denomination $500. Date Jan. 1 1908. Interest annual.

**King County (P. O. Seattle), Wash.**—*Bond Sale.*—On Jan. 7 the $1,500,000 5% 20-year bonds issued to refund the current expense, road and bridge fund warrants now outstanding were awarded, according to reports, to the Harris Trust & Savings Bank and E. H. Rollins & Sons, both of Chicago, at their joint bid of $1,502,000—the price thus being 100.133, a basis of about 4.99%. See V. 85, p. 1600, for a description of these securities.

**Kittery Water District, York County, Me.**—*Bonds Awarded in Part.*—This district on Dec. 26 1907 awarded $210,000 5% coupon bonds to Tucker, Hayes & Co. of Boston. These securities are part of an issue of $230,000 authorized by a special Act of the last Legislature to purchase from the Agamenticus Water Co. a gravity water system developed in 1901 and to extend the same. Denominations $500 and $1,000. Date Jan. 1 1908. Interest semi-annually at the City Trust Co. of Boston. Maturity on Jan. 1 as follows: $2,500 yearly from 1909 to 1912 inclusive, $5,000 yearly from 1913 to 1920 inclusive, $8,000 yearly from 1921

to 1930 inclusive and $10,000 yearly from 1931 to 1938 inclusive.

**Le Flore County (P. O. Greenwood), Miss.**—*Bond Offering.*—Proposals will be received until Jan. 28 for two issues of drainage bonds, aggregating $39,500. G. W. Holmes is President Board of Drainage Commissioners.

**Lewisburg, Preble County, Ohio.**—*Bonds Voted.*—This place has voted to issue $46,000 water-works and light-plant bonds, according to local reports.

**Lidgerwood, Richland County, N. D.**—*Bond Election.*—On Jan. 14 the electors of this city will vote on the question of issuing $7,500 water bonds.

**Los Angeles, Los Angeles County, Cal.**—*Bonds Awarded in Part.*—Sacramento papers report that the State of California has purchased from the city of Los Angeles $510,000 of the $23,000,000 Owens River water-supply bonds mentioned in V. 85, p. 677.

**Louisville, Jefferson County, Ky.**—*Bonds Awarded in Part.*—J. M. Terry, Treasurer and Secretary of the Sinking Fund Commissioners, advises us that $603,000 of the $1,000,000 4% Louisville Water Co. gold coupon mortgage bonds mentioned in V. 85, p. 1354, were sold during the year 1907. This makes a total of $9,000 sold since Nov. 16 1907, the date of our last report.

Under date of Jan. 2 we are informed that $2,000 more of the $1,000,000 4% 40-year gold coupon sewerage-system-construction bonds offered on July 10 1907 (V. 85, p. 1354) had been disposed of. This makes a total of $702,000 bonds sold during the year 1907.

**Madison, Morris County, N. J.**—*No Action Yet Taken.*—Up to Jan. 8 no action had yet been taken looking towards the issuance of the $125,000 sewer-system and disposal-plant bonds at not exceeding 5% interest voted Dec. 2 1907. See V. 85, p. 1477.

**Malden, Mass.**—*Sales for the Year.*—The following bonds were placed during the year 1907.

$3,000 5% brick sidewalk bonds, dated May 1 1907.
9,000 5% street bonds, dated May 1 1907.
10,000 5% sewer bonds, dated May 1 1907.
5,000 5% sewer bonds, dated Dec. 2 1907.
45,000 5% improvement bonds, dated July 1 1907.

All of the above issues were awarded to E. H. Rollins & Sons of Boston at 100.86.

**Marion School District No. 52 (P. O. Marion), Williamson County, Ill.**—*Bids Rejected—Bond Offering.*—All bids received on Dec. 28 1907 for the $15,000 4½% 3-17-year (serial) coupon school-building bonds described in V. 85, p. 1601, were rejected. We are advised that the attorney for the district will now offer these bonds at private sale.

**Medford, Jackson County, Ore.**—*Bond Offering.*—Proposals were asked for until 6 p. m. yesterday (Jan. 10) by B. M. Collins, City Recorder, for $25,000 5% gold coupon improvement bonds. Denomination $500. Date January 1908. Interest semi-annually at place designated by purchaser. Maturity January 1918. Bonds are exempt from county taxes. The result of this offering was not known to us at the hour of going to press.

**Medina, Orleans County, N. Y.**—*Bonds Not Yet Sold.*—Up to Jan. 2 no purchaser had yet been found for the $30,000 registered village-hall-construction bonds at not exceeding 5% interest, offered but not awarded on Oct. 30 1907. See V. 85, p. 1292.

**Melita, Man.**—*Debentures Not Yet Sold.*—We are informed by W. F. Thomas, Secretary-Treasurer, that the $5,000 5% 20-year coupon sidewalk and drain-construction and repair and street-improvement debentures offered but not sold on Nov. 4 1907 (V. 85, p. 1417) are now being offered at 93.

**Millen, Jenkins County, Ga.**—*Bond Offering.*—Further details are at hand relative to the offering of the $30,000 5% gold coupon light and water plant bonds mentioned in V. 85, p. 1601. These securities will be offered at public auction at 10 a. m. on that day by the Mayor and the City Council. Denomination $1,000. Date, day of issue. Interest semi-annually in January and July in New York City. Maturity $1,000 yearly on Jan. 1 from 1910 to 1937 inclusive and $2,000 on Dec. 31 1937. Bonds are exempt from taxation. Certified check for $1,000, payable to C. V. DeLoach, City Treasurer, is required. Bonded debt at present $4,000.

**Milwaukee, Wis.**—*Bond Election Proposed.*—The Finance Committee, according to reports in local papers, has recommended that a resolution providing that the question of issuing bonds for the construction of a $60,000 bath house be voted upon at the next election, be adopted.

**Mineral Wells, Palo Pinto County, Tex.**—*Bond Sale.*—The State School Fund has purchased at par and accrued interest the $15,000 sewer bonds (V. 85, p. 1537), the $10,000 water-works-system-improving and extending bonds (V. 85, p. 1660) and $1,196 bridge-repair bonds. Securities carry 5% interest and mature Oct. 1 1947, but are subject to call after ten years.

**Mingo Junction, Jefferson County, Ohio.**—*Bids Rejected.*—On Dec. 31 1907 the bids received for the $50,000 5% coupon sewer-construction bonds the original advertisement of which called for proposals until Dec. 23 1907 (V. 85, p. 1417) were opened and rejected.

**Monrovia School District (P. O. Monrovia), Los Angeles County, Cal.**—*Bond Election.*—According to reports, the School Board at a meeting held Jan. 2 decided to call an election to vote on the question of issuing $4,000 funding and $4,000 auxiliary-grammar-school bonds.

**Moorhead, Clay County, Minn.**—*Bond Sale.*—On Dec. 30 1907 this city awarded $50,000 6% 1-5-year (serial) sewer bonds to the First National Bank, Moorhead National Bank and the First State Bank, all of Moorhead, at 100.50. Denomination $1,000. Date Dec. 1 1907. Interest semi-annual.

**Mount Vernon, Westchester County, N. Y.**—*Corrected Maturity.*—We are advised that the $63,000 5% refunding redemption bonds to be offered at 8 p. m. Jan. 14 mature Feb. 1 1914 and not Feb. 1 1918, as at first reported. Bids for this issue and for the $25,000 5% 6-year assessment bonds also to be offered at 8 p. m. Jan. 14 must be made on printed forms furnished by the city. For other details of bonds and terms of offering see V. 85, p. 1660.

*The official notice of this bond offering will be found among the advertisements elsewhere in this Department.*

**New Castle County (P. O. Wilmington), Del.**—*Bonds Not Sold—Bond Offering.*—No award was made on Dec. 31 1907 of $190,000 court-house bonds offered on that day. Proposals are again asked for these bonds and will be received this time until Feb. 4. C. C. Hopkins is Chairman Finance Committee.

**New Scotland, Albany County, N. Y.**—*Description of Bonds.*—Through the circular issued by the Board of County Supervisors we learn that the $30,000 5% coupon bonds for the construction and improvement of the Delaware Turnpike, Section 3, No. 178, Delaware Turnpike, Section 4, No. 198; New Scotland-Wolf Hill Road No. 366 and the Glenmont-Fuera Bush Road No. 367, mentioned in V. 85, p. 1660, will mature $3,000 yearly on Feb. 1 from 1909 to 1918 inclusive. Securities are in denomination of $1,000 each and are dated Feb. 1 1908. Authority election held Dec. 14 1907 and Chapter 115, Laws of 1898. Interest annually at the Town Supervisors' office.

**Newtown, Hamilton County, Ohio.**—*Bond Election.*—On Dec. 1 1907 the Village Council passed a resolution providing for an election Feb. 1 to vote on a proposition to issue $7,000 bonds for the purpose of laying a ditch or drain from Main Street, through an alley and across Centre Street, to Clear Creek.

**New York City.**—*Bond Sales.*—The following bonds were sold during the month of December to the sinking fund:

| *Purpose.* | *Rate of Int.* | *Maturity.* | *Amount.* |
|---|---|---|---|
| Various municipal purposes (corp. stock) | 3 | 1957 | $41,250 |
| Library Bldg., Bryant Park (corp. stock) | 3 | 1957 | 5,000 |
| General fund bonds | 3 | 1930 | 2,000,000 |
| Assessment bonds | 3 | {On or after} {Jan. 2 1908} | 369,380 |
| Total | | | $2,415,630 |

In addition to the above the following revenue bonds (temporary securities) were also issued:

| | *Interest.* | *Amount.* |
|---|---|---|
| Revenue bonds, current expenses | 6 | $3,379,000 |
| Revenue bonds, current expenses | 5 | 25,000 |
| Revenue bonds, current expenses | 5 | 351,210 |
| Revenue bonds, special (red'l on or after Jan. 2 1908) | 3 | *700,000 |
| | | $4,455,210 |

* Purchased by the sinking fund.

We are informed that J. P. Morgan & Co., the First National Bank and the National City Bank have exercised their option on about $10,000,000 of the remaining $20,000,000 6% revenue bonds mentioned in V. 85, p. 1161. It will be recalled that in November the Comptroller decided to place $50,000,000 of these revenue bonds and the Morgan syndicate at once took $30,000,000. It also got an option on the other $20,000,000. The syndicate is taking up the bonds in various amounts from day to day, and have until Feb. 15 (time extended from Jan. 15) to exercise the option on the remaining $10,000,000.

**Niagara Falls, N. Y.**—*Bonds Authorized.*—It is stated that the Board of Estimate and Apportionment has authorized the issuance of $70,000 bonds for the construction of a tunnel trunk sewer in the Echota District.

**Norfolk, Va.**—*Bonds Awarded in Part.*—Local papers report that $20,000 of the $50,000 4% water-meter-purchase bonds mentioned in V. 85, p. 1292, have been awarded to M. J. Drummond & Co. to pay for the cost of furnishing 3,900 water meters to the City.

**Odessa, Lincoln County, Wash.**—*Bonds Not Sold.*—A letter received Jan. 7 from W. M. Nevins, Town Clerk, states that no award has yet been made of $20,000 bonds, proposals for which were asked for until Dec. 17 1907.

**Oneida, N. Y.**—*Bonds Not Sold.*—The City Clerk advises us that the two issues of 4½% paving and sewer bonds aggregating $12,961 70, offered on Jan. 7, failed to attract any bidders. See V. 86, p. 64, for description of these securities.

**Overpeck Township School District, Bergen County, N. J.**—*Bonds Not Sold.*—On Dec. 30 1907 no proposals were received for the $50,000 5% school bonds described in V. 85, p. 1601.

**Pen Argyl, Northampton County, Pa.**—*Bond Election.*—At the February election a proposition to issue $16,000 town-hall-construction bonds will be submitted, it is stated, to the electors of this place.

**Pendleton, Umatilla County, Ore.**—*Bid Rejected.*—The only proposal received on Dec. 31 1907 for the four issues of 5% 20-30-year (optional) bonds, aggregating $135,000, de-

scribed in V. 85, p. 1537, was one for 6s submitted by S. A. Kean of Chicago. This bid was rejected.

**Philadelphia, Pa.**—*Loan Authorized.*—The Select and Common Councils on Dec. 20 1907 approved an ordinance providing for a temporary loan of $775,000 at not exceeding 5% interest for general municipal purposes. Maturity "at or within four months."

**Pincher Creek, Alta.**—*Debenture Offering.*—Further details are at hand relative to the offering on Jan. 15 of the $5,900 registered local-improvement debentures mentioned in V. 86, p. 65. Proposals for these debentures will be received until 12 m. on that day by E. J. Mitchell, Chairman Finance Committee. Date Jan. 15 1908. Interest annually in Pincher Creek. Maturity $1,180 yearly on Jan. 15 from 1909 to 1913 inclusive. Debenture debt, not including this issue, $10,000. Floating debt, $2,500.

**Pittston School District (P. O. Pittston), Luzerne County, Pa.**—*Bond Sale.*—We have just been advised that during the latter part of Oct. 1907 this district awarded $18,000 5% improvement bonds to Baker & Ayling of Philadelphia at 101.50. Denomination $500. Interest semi-annually in May and November. Maturity $1,000 yearly from 1912 to 1929 inclusive.

**Polkton Township School District No. 4 (P. O. Coopersville), Ottawa County, Mich.**—*Bond Sale.*—On Jan. 6 the $15,000 5% school-building bonds described in V. 85, p. 1293, were awarded to the Bumpus-Stevens Co. of Detroit for $15,051 50 (100.343) and accrued interest. Maturity $500 yearly on Dec. 31 from 1908 to 1916 inclusive and $10,500 Dec. 31 1917.

**Portsmouth School District (P. O. Portsmouth), Scioto County, Ohio.**—*Bond Offering.*—Proposals will be received until 12 m. Jan. 31 by the Board of Education, at the office of Wm. L. Reed, Clerk, for $15,000 4½% coupon bonds. Authority Section 3994, Revised Statutes. Denomination $500. Interest semi-annually at the Central National Bank of Portsmouth. Maturity $3,000 yearly on Jan. 31 from 1912 to 1916 inclusive. Securities are issued for the purpose of building an addition to the Highland School Building and will be dated Jan. 31 1908.

**Pottsville, Schuylkill County, Pa.**—*Bond Sale.*—On Jan. 7 an issue of $15,000 4% 10-30-year (optional) coupon street-paving bonds was disposed of as follows: $5,000 to M. E. Miller at 103, $4,000 to Sarah Stichter at 102, $3,000 to C. L. Erdman at 102.50, $1,500 to E. P. Leesschur at 102, $1,000 to the Safe Deposit Bank of Pottsville at 102 and $500 to Anna C. Merkle at 102. Securities are in denomination of $500 each and are dated Jan. 1 1908. Interest semi-annually at the Borough Treasurer's office. Bonds are tax-exempt.

**Providence School District (P. O. Providence), Webster County, Ky.**—*Bonds Not Sold.*—No sale was made on Dec. 28 1907 of $6,000 6% bonds offered on that day. Denominations $500 and $100. Date Dec. 24 1907. Interest annual. Maturity Dec. 24 1927, but subject to call before that time.

**Randall County (P. O. Canyon), Texas.**—*Description of Bonds.*—We are advised that the $53,000 court-house-construction bonds voted at the election held Dec. 17 1907 (V. 85, p. 1661) will be coupon in form and carry 4% interest. Authority, Acts 1899, page 258. Denomination $1,000. Interest annually in April in Canyon or Austin. Maturity forty years from date of issue, but subject to call after ten years. Bonds are exempt from all taxes. Total debt, including this issue, $69,000. Assessed valuation 1907, $3,400,000.

**Regina, Sask.**—*Debenture Offering.*—Proposals will be received until 5 p. m. Jan. 23 by J. Kelso Hunter, City Clerk, for the following debentures:

$100,000 5% coupon general-hospital debentures. Maturity 30 years.
255,000 5% coupon street-paving debentures. Maturity 15 years.
50,000 5% coupon granolithic-sidewalk-construction debentures. Maturity 20 years.
60,000 5% coupon sewer-system-extension debentures. Maturity 30 years.
30,000 5% coupon water-works system-extension debentures. Maturity 30 years.
60,000 5% coupon electric-light-system- extenson debentures. Maturity 30 years.

The above debentures are dated Feb. 1 1908. Interest annually at the Bank of Montreal in London, Eng., New York, Montreal, Toronto or Regina. As reported by us in V. 85, p. 1538, these securities were offered without success as 4½s on Sept. 3.

**Rensselaerville, Albany County, N. Y.**—*Description of Bonds.*—We are informed that the issue of $3,100 bonds authorized on Dec. 17 1907 by the Board of County Supervisors to pay for the cost of constructiong and improving the Delaware Turnpike, Section 5, No. 199 (V. 85, p. 1661), is coupon in form and carries 4% interest. These bonds are issued under authority of Chapter 155, Laws of 1898; also election held Dec. 14 1907. Denomination $500, except one bond of $600. Date Feb. 1 1908. Interest annually at the Town Supervisor's office. Maturity on Feb. 1 as follows: $500 in each of the years 1912, 1913, 1914, 1915 and 1916 and $600 in 1917.

**Richland County (P. O. Wahpeton), N. D.**—*Bonds Not Yet Sold.*—Up to Jan. 4 no sale had yet been made of the $84,500 7% coupon drainage bonds bids for which were rejected on Nov. 12 1907. See V. 85, p. 1418.

**Rochester, Beaver County, Pa.**—*Bonds Not Yet Sold.*—The $35,000 4½% bonds offered on Nov. 1 1907 were not disposed of up to Dec. 31 1907, according to the Borough Secretary.

**Rocky Hill School District (P. O. Rocky Hill), Somerset County, N. J.**—*Bonds Not Sold—Bond Offering.*—Up to Jan. 8 no disposition had yet been made of the $8,500 4½% registered school-building bonds described in V. 85, p. 1661. Theodore F. Stryker, District Clerk, informs us, however, that proposals for these securities will be received at any time.

**Rome, Oneida County, N. Y.**—*Bonds Authorized.*—It is stated locally that the Common Council on Jan. 7 adopted a resolution providing for the issuance of $100,000 4% 20-year Fish Creek water-system-construction bonds. Denominations: $100, $500 and $1,000. Interest semi-annually.

**Saginaw, Mich.**—*Bond Sale.*—It is stated in local papers that on Jan. 2 a local investor purchased $6,000 refunding court-house bonds.

**St. Louis, Mo.**—*Bonds Awarded in Part.*—Under date of Jan. 3 the City Comptroller advises us that $7,000 more of the $2,000,000 3.65% 20-year gold coupon renewal bonds offered on June 11 1907 had been disposed of at par and accrued interest. This makes a total of $850,000 already sold. Of this amount, $846,000 were disposed of during 1907. Securities are dated June 25 1907. See V. 85, p. 1355.

**St. Mary's, Auglaize County, Ohio.**—*Bond Sale.*—On Dec. 27 1907 the $25,000 5% 10-year sewerage-disposal-plant-construction bonds dated Dec. 1 1907 and described in V. 85, p. 1538, were awarded to the Provident Savings Bank & Trust Co. of Cincinnati at 101.22—a basis of about 4.845%.

The following bids were received:

| | |
|---|---|
| Provident Savings Bank & Trust Co., Cincinnati | $25,305 00 |
| Atlas Nat. Bank, Cincin | 25,201 75 |
| Spitzer & Co., Toledo | *b*25,174 00 |
| W. R. Todd & Co., Cincin. | $25,150 00 |
| W. J. Hayes & Sons, Cle | 25,007 00 |
| Home Banking Co., St. M. | *a* par |
| First National Bank, St. M. | *a* par |

*a* "For half amount." *b* Also furnish blank bonds.

**Sandusky, Ohio.**—*Bond Offering.*—Proposals will be received until 12 m. Feb. 3 by Joseph Loth Jr., City Auditor, for $2,000 4% Sulphur Springs Ditch improvement bonds. Denomination $500. Date Jan. 2 1908. Interest semi-annually at the office of the City Treasurer. Maturity Jan. 2 1917. Certified check for $1,000 is required. Purchaser to pay accrued interest.

**Santa Monica School District (P. O. Santa Monica), Los Angeles County, Cal.**—*Bond Election Proposed.*—Reports state that the Board of Education purposes to hold an election to submit to the voters the question of issuing $20,000 bonds to replace the burned Washington school house with a brick structure.

**Seattle, Wash.**—*Bond Sale.*—In local papers it is reported that the State of Washington recently purchased $140,000 lighting bonds of this city. The money was paid to the city out of the State School Land Funds.

**Seattle School District No. 1 (P. O. Seattle), King County, Wash.**—*Description of Bonds.*—At a meeting of the School Board Jan. 3 Reuben W. Jones, Secretary, was directed to notify the County Treasurer to advertise for bids for the $500,000 20-year coupon school-building and site-purchase bonds voted Dec. 7. See V. 85, p. 1602. Denomination $1,000. Date May 1 1908. Interest, at a rate not to exceed 6%, payable semi-annually.

**Sevier County (P. O. Sevierville), Tenn.**—*Bonds Authorized.*—Local papers report that on Dec. 21 1907 the County Court authorized the issuance of $150,000 bonds to aid in the construction of the Knoxville Sevierville & Eastern RR. These bonds were voted at an election held recently. See V. 85, p. 1165.

**Spirit Lake, Dickinson County, Iowa.**—*No Action Yet Taken.*—Under date of Dec. 28 we are advised that owing to the monetary conditions the town authorities have as yet taken no action regarding the issuance of the $22,000 water and light bonds voted at the election held Nov. 4 1907 (V. 85, p. 1356) and will probably not do so until some time next spring.

**Stamford School District (P. O. Stamford), Jones County, Tex.**—*Bond Election.*—According to reports, an election will be held Jan. 28 to vote on the question of issuing $10,000 20-year additional public-school-building bonds.

**Struthers, Mahoning County, Ohio.**—*Bids.*—The following bids were received on Dec. 30 1907 for the $5,000 6% 1-10-year (serial) street-improvement bonds awarded on that day, as stated in V. 86, p. 65, to the Struthers Savings & Banking Co. of Struthers at 103.26 and accrued interest—a basis of about 5.309%:

| | |
|---|---|
| Struthers Savs. & Banking Co., Struthers | *a*$5,163 00 |
| Provident Savs. Bk. & Tr. Co., Cincinnati | 5,163 50 |
| Otis & Hough, Cleveland | $5,101 00 |
| First National Bank, Barnesville | 5,087 00 |

*a* and accrued interest.

Bonds are dated Nov. 15 1907.

**Tarentum, Allegheny County, Pa.**—*Bond Offering.*—Further details are at hand relative to the offering on Jan. 25 of the $7,500 4½% coupon garbage-incinerator bonds mentioned in V. 85, p. 1662. Proposals for these bonds will be received until 4 p. m. on that day by W. A. Gibson, Borough Secretary. Denomination $500. Date Dec. 1 1907. Interest semi-annually at the Tarentum Savings & Trust Co.

Maturity Dec. 1 1932. Bonds are exempt from taxation. Certified check for $500, payable to A. J. Fulton, is required.

**Taunton, Mass.**—*Temporary Loan.*—During the year 1907 this city borrowed $11,500 in small amounts for various purposes.

**Teague, Freestone County, Tex.**—*Bonds Voted.*—The election held Jan. 2 to vote on the question of issuing the $50,000 municipal water-works-system bonds mentioned in V. 85, p. 1356, resulted in 2 votes being cast against the proposition while 74 were in its favor.

**Teague Independent School District (P. O. Teague), Freestone County, Tex.**—*Bond Offering.*—D. D. Peevy, Secretary, is offering at par and accrued interest the $15,000 5% school-house bonds registered by the State Comptroller on Nov. 27. Securities are dated July 1 1907 and mature July 1 1947, but are subject to call after ten years.

**Toledo, Ohio.**—*Bonds Authorized.*—On Dec. 30 1907 the City Council passed an ordinance providing for the issuance of $50,000 of $150,000 4½% coupon boulevard-extension bonds voted on Nov. 5 1907. Denomination $1,000. Date Dec. 30 1907. Interest semi-annually at the United States Mortgage & Trust Co. in New York City. Maturity Dec. 30 1927.

In addition to the above, the City Council on Dec. 23 1907 also passed ordinances providing for the issuance of the following bonds:

$2,501 96 5% coupon State Street No. 1 paving assessment bonds. Denomination $250, except one bond of $251 96. Date Nov. 29 1907. Maturity $251 96 on March 29 1909 and $250 each six months from Sept. 29 1909 to Sept. 29 1913 inclusive.

3,280 16 5% coupon Southard Avenue No. 1 paving assessment bonds. Denomination $330, except one bond of $310 16. Date Dec. 12 1907. Maturity $310 16 on March 12 1909 and $330 each six months from Sept. 12 1909 to Sept. 12 1913 inclusive.

2,415 42 5% coupon Jervis Street No. 2 paving assessment bonds. Denomination $250, except one bond of $165 42. Date Nov. 25 1907. Maturity $165 42 on March 25 1909 and $250 each six months from Sept. 25 1909 to Sept. 25 1913 inclusive.

2,446 41 5% coupon Jervis Street No. 3 paving assessment bonds. Denomination $250, except one bond of $196 41. Date Dec. 1 1907. Maturity $196 41 on March 1 1909 and $250 each six months from Sept. 1 1909 to Sept. 1 1913 inclusive.

5,976 15 5% coupon Locust Street No. 2 paving assessment bonds. Denomination $600, except one bond of $576 15. Date Dec. 26 1907. Maturity $576 15 on March 26 1909 and $600 each six months from Sept. 26 1909 to Sept. 26 1913 inclusive.

10,005 88 5% coupon Orchard Street No. 1 paving assessment bonds. Denomination $1,000, except one bond of $1,005 88. Date Dec. 5 1907. Maturity $1,005 88 on March 5 1909 and $1,000 each six months from Sept. 5 1909 to Sept. 5 1913 inclusive.

2,075 55 5% coupon Parker Avenue No. 2 paving assessment bonds. Denomination $210, except one bond of $185 55. Date Dec. 15 1907. Maturity $185 55 on March 15 1909 and $210 each six months from Sept. 15 1909 to Sept. 15 1913 inclusive.

1,566 90 5% coupon Sewer No. 986 construction assessment bonds. Denomination $400, except one bond of $366 90. Date Jan. 5 1908. Maturity $366 90 on March 5 1909, $400 on March 5 1910 and $400 on Sept. 5 in each of the years 1909 and 1910.

225 98 5% coupon Robinwood Avenue No. 6 grading assessment bonds. Denomination $60, except one bond of $45 98. Date Dec. 15 1907. Maturity $45 98 on March 15 1909 and $60 each six months from Sept. 15 1909 to Sept. 15 1910 inclusive.

Interest on the above issues is payable semi-annually at the City Treasurer's office.

**Underwood, Pottawattamie County, Ia.**—*Water Works Election.*—This town, according to reports, will hold an election Jan. 20 to vote on a proposition to install a system of water-works.

**Valentine School District (P. O. Valentine), Cherry County, Neb.**—*Bonds Voted.*—Nebraska papers report the result of an election held Dec. 30 1907 to vote on the question of issuing $5,000 Valentine school-house-enlargement bonds as being 201 "for" to 16 "against."

**Verona, Essex County, N. J.**—*Bonds Voted.*—The election held Dec. 30 1907 resulted in favor of the proposition to issue the $55,000 water-system-construction bonds mention of which was made in V. 85, p. 1419.

**Wapakoneta, Auglaize County, Ohio.**—*Bonds Not Sold.*—No award has yet been made of the $2,000 East Mechanic Street and the $1,300 North Blackhoof Street 4½% 1-5-year (serial) coupon sewer-construction bonds offered on Dec. 9 1907 and described in V. 85, p. 1295. We are not advised, however, as to what disposition has been made of the $3,200 4½% 1-5-year (serial) coupon Ohio and West Benton streets sewer-construction assessment bonds offered on the same day. Securities are dated Dec. 1 1907.

**Wappingers Falls, Dutchess County, N. Y.**—*Bonds Not Yet Sold.*—Under date of Jan. 8 we are advised that no purchaser has yet been found for the $10,000 coupon (with privilege of registration) electric-light bonds at not exceeding

**City of Mount Vernon,**

**Westchester County, New York,**

**Redemption Refunding Bonds**

The Common Council of the City of Mount Vernon, New York, will, at the Lucas Building, Depot Place, in said city, on the 14TH DAY OF JANUARY, 1908, AT EIGHT O'CLOCK P. M., receive sealed proposals for the purchase of sixty-three (63) Refunding Redemption Bonds of said City of Mount Vernon, numbered consecutively as issued from 1 to 63, both inclusive, and the said sixty-three (63) bonds will be sold to the highest bidder at public sale to be held at said time and place. Said bonds are authorized to be issued under and pursuant to Section 155 and 200 of Chapter 182 of the Laws of 1892 as amended, and under and pursuant to the provisions of Section 7 of the General Municipal Law as amended. Said bonds are exempt from taxation for town, county, municipal and State purposes. They will be dated February 1, 1908, and payable on the first day of February, 1914. Each bond will be for the principal sum of $1,000 and will bear interest at the rate of five per cent per annum, payable semi-annually, and both principal and interest will be paid at the office of the City Treasurer of the City of Mount Vernon, New York. They will be delivered to the purchaser on the first day of February, 1908. Each bid for said bonds must be accompanied by a certified check for $1,000 as security for the performance of the bid if accepted. The Common Council will at said time and place open such proposals as may be received and accept the highest thereof, unless it be deemed for the best interests of the City to reject any or all of said proposals.

The bonds will be engraved under the supervision of and certified to as to their genuineness by the United States Mortgage & Trust Company of New York City, and their legality approved by J. H. Caldwell, Esq., of said city of New York, whose opinion as to legality will be furnished to the purchaser. The bonds cannot be sold for less than par and accrued interest.

By order of the Common Council.
BENJAMIN HOWE,
Mayor.
A. W. REYNOLDS,
City Clerk.

Dated, Mount Vernon, N. Y., Dec. 20th, 1907.

**205 La Salle Street, CHICAGO**

5% interest offered without success on Nov. 27 1907. See V. 85, p. 1478.

**Waterford, Saratoga County, N. Y.**—*Bond Sale.*—On Dec. 28 1907 Frederick W. Kavanaugh purchased at par an issue of $23,900 4½% 1-20-year (serial) sewer District No. 2 bonds. Denomination $1,195. Date Dec. 28 1907. Interest annual.

**Wayne County (P. O. Wooster), Ohio.**—*Bonds Awarded in Part.*—Bids amounting to $4,000 were received on Jan. 4 for the two issues of 4% ditch-construction bonds aggregating $13,000 described in V. 85, p. 1663.

**Waynesburg, Stark County, Ohio.**—*Bond Offering.*—Proposals will be received until 12 m. Feb. 3 by Robert C. Jones, Village Clerk, for $2,000 5% water-works-plant-construction bonds. Authority Act of Village Council, May 24 1904. Denomination $1,000. Date July 1 1904. Interest semi-annually in Canton at the Geo. D. Harter Bank. Maturity $1,000 on April 1 in the years 1932 and 1934. Certified check for $2,000, payable to the Village Treasurer, is required. Bonds are coupon in form and are exempt from taxation. Bonded debt, not including this issue, $13,000.

**Westerlo, Albany County, N. Y.**—*Description of Bonds.*—The Board of County Supervisors have decided that the $6,500 5% coupon bonds for the construction and improvement of the Delaware Turnpike, Section 5, No. 199 (V. 85, p. 1663), will be dated Feb. 1 1908 and will mature $1,300 yearly on Feb. 1 from 1909 to 1913 inclusive. Authority election held Nov. 5 1907 and Chapter 115, Laws of 1898. Denomination $650. Interest annually at the office of the Town Supervisor.

**Westerville, Franklin County, Ohio.**—*Bond Sale.*—On Dec. 2 1907 this village awarded $1,500 4½% 20-year electric-light-plant-enlarging and completing bonds to the Sinking Fund Trustees at par and accrued interest. Denomination $500. Date Oct. 1 1907. Interest semi-annual.

**Wilmington, New Hanover County, N. C.**—*Bonds Authorized.*—A resolution providing for the issuance of $200,000 4½% 40-year water and sewerage bonds was recently adopted by the Finance Committee. These securities are part of the issue of $500,000 voted (V. 84, p. 1142) at the election held May 7 1907. Denominations $100 to $1,000. Interest semi-annual.

**Winnipeg School District No. 1 (P. O. Winnipeg), Man.**—*Debenture Offering.*—Proposals will be received until 3 p. m. Feb. 6 by R. H. Smith, Secretary-Treasurer of the Public School Board, for $200,000 4% school debentures. Interest, from Feb. 1 1908, payable semi-annually at any chartered bank in Winnipeg. Maturity Aug. 1 1941. Debenture debt, not including this issue, $857,325.

*The official notice of this debenture offering will be found among the advertisements elsewhere in this Department.*

**Winthrop, Mass.**—*Bonds Voted.*—According to Boston papers this town on Jan. 2 voted to issue $139,000 4½% bonds to pay for the plant of the Revere Water Co. Maturity "from 1909 to 1938." As stated in V. 85, p. 817, the valuation of the plant, as approved by Judge Loring of the Supreme Court, was $135,869.

**Yonkers, N. Y.**—*Bond Sale.*—We are advised that the $19,500 6% assessment bonds, proposals for which were asked until Dec. 24 1907 (V. 85, p. 1603), were sold at 100.05 to W. J. Hayes & Sons of Boston. Securities are dated Dec. 27 1907 and mature Dec. 1 1910. Delivery of bonds, Dec. 27 1907.

**Yonkers School District (P. O. Yonkers), N. Y.**—*Bond Sale.*—This district on Jan. 6 awarded $9,350 5½% registered school bonds to Wadsworth & Wright of New York City at 108.75 and accrued interest. The bids were as follows:

| | |
|---|---|
| Wadsworth & Wright, N. Y. | 108.75 |
| Ferris & White, New York | 107.35 |
| Rhoades & Co., New York | 104.82 |
| N. W. Harris & Co., N. Y. | 104.60 |
| W. J. Hayes & Sons, Cleveland | 104.54 |
| Adams & Co., Boston | 104.406 |
| N. W. Halsey & Co., N. Y. | 102.27 |
| Geo. M. Hahn, New York | 102.17 |
| Emery, Anderson & Co., Cleveland | 101.12 |

All bidders offered accrued interest in addition to their bids. These bonds are issued under authority of Chapter 543, Laws of 1899. Date Dec. 16 1907. Interest April 1 and Oct. 1. Maturity April 1 1950. Delivery of bonds Jan. 16 1908.

## NEW LOANS.

**$200,000**

**CITY OF WINNIPEG**

**SCHOOL BONDS.**

Sealed tenders, addressed to the Secretary-Treasurer Winnipeg School Board, will be received up to THREE O'CLOCK P. M., FEBRUARY 6TH, 1908, for the purchase of the whole, or any portion, of $200,000 of debentures of the School District of Winnipeg Number One, repayable at the expiration of 35 years from the 1st of August, 1906, with interest from 1st February, 1908, at four per cent per annum, payable semi-annually. Money to be paid and delivery made at Winnipeg. Principal and interest payable at any chartered bank in Winnipeg. Each bond is signed by the Secretary of the Provincial Government, as a guaranty that all legal requirements in connection with the issue of bonds have been complied with. *The School District of Winnipeg is coterminus in area with the City of Winnipeg.* The assessment of the School District for 1907 was $94,000,000, and the debenture debt, exclusive of this issue, is $857,325 00, the retirement of which being provided for by the levy of an adequate sinking fund. The highest of any tender not necessarily accepted. For further information apply to the undersigned.

### *CLEARING HOUSE RETURNS.*

The following table, made up by telegraph, &c., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day have been $2,810,805,465, against $2,429,039,492 last week and $3,443,069,727 the corresponding week last year.

| *Clearings—Returns by Telegraph. Week ending Jan. 18.* | 1908. | 1907. | *Per Cent.* |
|---|---|---|---|
| New York | $1,468,736,052 | $1,828,621,307 | —19.7 |
| Boston | 149,463,388 | 199,656,201 | —25.1 |
| Philadelphia | 107,249,313 | 124,457,769 | —13.8 |
| Baltimore | 22,069,619 | 25,103,766 | —12.1 |
| Chicago | 189,933,377 | 201,210,340 | —5.9 |
| St. Louis | 54,137,823 | 59,410,667 | —8.9 |
| New Orleans | 17,560,669 | 22,040,714 | —20.3 |
| Seven cities, 5 days | $2,008,610,241 | $2,560,500,764 | —21.6 |
| Other cities, 5 days | 352,076,298 | 426,748,294 | —17.5 |
| Total all cities, 5 days | $2,360,686,539 | $2,987,249,058 | —21.0 |
| All cities, 1 day | 450,118,926 | 455,820,669 | —1.3 |
| Total all cities for week | $2,810,805,465 | $3,443,069,727 | —18.4 |

The full details for the week covered by the above will be given next Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, Jan. 11, and the results for the corresponding week in 1907, 1906 and 1905 are also given. Contrasted with the week of 1907 the total for the whole country shows a loss of 29.8%. Outside of New York the decrease from 1907 is 16.6%.

## *THE FINANCIAL SITUATION.*

The improvement in the Wall Street situation since the new year opened has passed expectations. Indeed, before 1907 had closed, decided evidences of a more hopeful condition were apparent. The easier money which was promised has since then been more than realized. Rates for call loans have dropped as low as 2%, the average since the 1st of January has hardly been above 4 per cent.; while the general expectation and drift is towards still easier money. Even commercial paper has been in active request.

Then too it was a quite hopeful circumstance that we passed upon a new year's record with no large amount of mercantile disasters. That portion of the twelve months almost always is a more trying period than any other portion of the year. This season has been in considerable degree an exception. At least the fatalities have by no means reached the forebodings. Of course the news early last week of the receivership for the Seaboard Air Line, followed later by a similar announcement in the case of the Chicago Great Western, were neither of them really anticipated. Though if there had been more announcements of the same kind, they would have accorded with the pessimism prevailing. These remarks as to monetary affairs at this centre appear to be applicable to trade centres generally. Chicago and other large cities in the West and elsewhere are also putting themselves into more stable condition and stronger form, the better to resist any return of weakness or other setback the future may have in store.

One complaint should be looked into and provided against if need be. We refer to the situation reported from some sections of poor sales and high rates of interest on farm mortgages and renewals. This would be a natural condition after the vast speculative experiences of the past few years, with an innumerable body of new settlers all the time coming in as buyers. That inflow has been slowly subsiding and now for the time being has nearly stopped. The situation only calls for a wait for the demand to catch up to the requirements of the moment. The land exists, and with the best of soil large crops could not fail to bring with them the needed revival. In the meantime the general situation is becoming much less involved, money is daily growing easier, and affairs are slowly assuming the old channels.

---

The further reduction in official rates of discount by the Bank of Germany and the Bank of England this week of 1% each marks the progress toward the restoration of normal discount conditions in Europe. The extinction of the deficit and the establishment of a surplus reserve by the New York Associated Banks last week denote the removal of almost the last vestiges of the crisis in the domestic monetary situation.

While there is a hopeful feeling in London that the losses which were incurred through the protracted drain of gold to America during the panic will be speedily repaired through accretions of the metal from Britain's many sources of supply, possibly aided by a return flow of gold from America, there appears, however, to be less confidence manifested in Germany of any great amelioration of the conditions that have been aggravated by her loss of gold, for which reason it would seem that financial recuperation in Germany will be slow. This at least is indicated by the fact, as officially announced this week, that the subscriptions to the new Prussian loan that was emitted on Tuesday amounted to only 45¼ million dollars. Last week the intended offerings were reported at 75 millions; the sum actually offered was 63 millions; therefore the expectations of the Government appear to have been disappointed.

Attention is called by foreign financial writers to the fact that the Imperial Bank of Germany does not hold as large a gold reserve as, under the circumstances, it ought to keep. The new President of the Bank is believed to be intent upon strengthening its reserve, but at present it does not appear likely that that course will attract much of the metal from abroad. This condition of affairs in Germany and the necessity which appears to exist for borrowing by the Imperial, the federated and the municipal governments, seems to point to the maintenance of comparatively high rates for money in Germany and, in the possible event of disturbance, to efforts to recover some portion of the 39½ millions gold that is said by a member of the Reichstag to have been sent hither from that country last November.

As was disclosed by last week's bank statement and by the liberal offerings of money in the markets this week for call and for fixed-date loans, and also by a somewhat restricted demand for such money, conditions seem to be approaching congestion. This also appears to be the view taken abroad regarding our situation, and the looked-for monetary congestion is expected to promote a return flow of much of the gold that was shipped hither for the relief of tension during our crisis.

It seems unlikely that with the increasing requirements for capital abroad at all the chief centres there will be a further material reduction in discount rates by any of the great banks in Europe; monetary congestion here might encourage the transfer of capital abroad in such volume as at least to help restore monetary equilibrium.

---

Dispatches in the daily papers state that the Senate Finance Committee has had the Aldrich Emergency Currency Bill under consideration and that the indications are that the bill will be reported favorably by the Committee, though with certain modifications intended to make it more comprehensive in scope and more effective in operation. The principal changes appear to be (1) an increase in the limit of the special circulating notes to be created from a maximum of $250,000,000 to a maximum of $500,000,000; (2) an increase in the tax imposed, to insure the retirement of the notes, from the original figure of 6% to a progressive rate with a maximum of 8 or 10%, and (3) a larger allowance of notes on the value of the bonds to be deposited as security for the same. As originally framed, the measure provided that notes might be issued on State, county and municipal bonds up to 75% of their market value. It is intimated that this percentage will be raised, probably to 90%.

We see no objection to increasing the limit of notes from $250,000,000 to $500,000,000, provided the tax to force the retirement of the same is made high enough to accomplish its object. This is a large country, not only in the magnitude of its transactions, but also in area, which last is an important fact, since

it necessarily increases the number of places where separate reservoirs must be kept to supply local needs for currency. Accordingly, standards which would be accepted as sufficient in leading European countries could hardly be deemed as entirely adequate here. Besides this, there is a sentimental advantage in having the amount so large as to impress the public mind with the idea that it will be sufficient to satisfy all possible demands and to cover all likely contingencies. It does not follow that because a very high maximum is fixed, the full sum would necessarily be availed of.

The part often played by sentiment in allaying or exciting public fear was well shown in the action last November of Secretary Cortelyou in proposing to issue $50,000,000 2% Panama Canal bonds and $100,000,000 3% Treasury certificates, together $150,000,000. The situation had already considerably improved when news of these proposed issues was made, but the announcement itself, by reason of the magnitude of the amounts involved, served to remove the last vestige of fear, and the Secretary finally allotted only $25,000,000 of the Canal bonds and but $15,000,000 of the Treasury certificates. The knowledge of the existence of a certain measure of relief often removes the necessity for its exercise. As for the increase in the tax proposed on the new notes so as to make it progressive in its nature, this strikes us as a commendable feature, and is in line with the suggestion offered in these columns last week when discussing the original draft of the bill. We regard it as of the highest importance that the notes should be so burdened with taxes as to drive them speedily out of use when they have served the special purpose for which they were called into being.

We notice that sharp criticisms are being passed on the measure in the West. It certainly embodies some objectionable features, but we must consider a measure of this kind from a practical, common-sense standpoint. In other words, Congressional views and sentiment must be considered and deferred to. It is not what we want, but what our National Legislative body, made up of diverse elements, will give us. Mr. James B. Forgan of the First National Bank of Chicago has written a scathing letter in condemnation of the measure. His position as President of the largest national bank outside of this city, and his banking knowledge and experience, give weight to anything he has to say on the subject. With much of his criticism we are glad to declare ourselves in entire accord. On the other hand, it seems to us that he lays rather undue stress on certain other features of the bill and which may prove less objectionable in their operation than he fears. He thinks that the use of such an expedient as an emergency currency would in itself prove highly disturbing. He says the very name is enough to breed a panic. If the purpose were to create a special note issue, available only in a time of panic, this criticism would be valid. As we look upon it, however, the measure will serve as a provision to tide over the crop-moving season, and if the arrangement once got into operation in that way, the public would speedily become accustomed to it, and all objection on the score mentioned would disappear. It would become a part of the every-day mechanism of our banking machinery, and would no more excite alarm than does the emission of the heavily-taxed notes of the Bank of Germany in the German Empire. Mr. Forgan says that the new notes should be based on commercial assets and not on bond issues, and in this he is, in our estimation, entirely right. Unfortunately, however, as we have pointed out on previous occasions, our National Legislative body cannot get away from the idea that bond collateral is needed back of the note to make it safe beyond peradventure.

Mr. Forgan also objects to the tax proposed on the notes. He looks upon this tax as a burden to be placed upon the borrower. Theoretically, this seems sound and logical, but we are not at all sure that in practice it need work out in that way. If the planter or farmer is in need of money, the country banks possess adequate funds to accommodate him. All they need to do is to recall their balances at the financial centres. The emergency notes would then be taken out by the banks at the reserve centres to fill the void created by the withdrawal of the deposits of the interior institutions, and hence it would be the financial centres that would pay the tax, and not the borrowing communities in the West and South. The extent of these balances available for use by planter and farmer will appear when we say that, according to the Comptroller's statement for Dec. 3 1907, the country banks had no less than $357,546,740 on deposit with reserve agents, and the reserve cities had $166,281,411 on deposit with the central reserve cities, making $523,828,151 together. But whether this view be correct or not, some kind of a tax is absolutely essential in order to force the notes into retirement when they are no longer really needed. With no tax at all, or only a very small tax, and with the right to issue the notes on municipal and railroad bonds, the notes would simply go out and stay out, fostering the most gigantic speculation the country had ever seen.

We observe that a meeting of the Currency Commission of the American Bankers' Association has been called for to-day in Chicago to consider the whole subject of currency legislation. If this Committee can suggest a more wholesome and less objectionable scheme, and can secure approval for it by Congress, an important point will have been gained. The Aldrich Bill would then lose its utility. Much might be said in favor of some plan by which emergency notes could be issued through the clearing houses, arranged in groups in different parts of the country. Barring developments of that kind, the Aldrich Bill, it would seem, will have to be accepted as furnishing the only promise of relief in sight. Little, we should judge, can be expected from Congressman Fowler or his bill. His advocacy in recent speeches of trust company privileges for the national banks and his proposition for a guaranty fund for the protection of bank deposits indicate that he is going far afield.

---

It is curious, and at the same time significant, that while a conference of railroad officials in this country has been arranged with President Roosevelt, in Great Britain a somewhat similar movement is under way. Great Britain is under a radical government at present, and British railroads and British railroad securities have suffered much in the same way as our own roads and securities, through hostile sentiment and legislation, only not to the same extent. The situation, however, is forcing a relaxation of the existing

attitude in Great Britain, just as it is certain eventually to do in this country. Attention is called to the matter in a letter of the London correspondent to the "Scotsman" of Dundee. This correspondent is an unusually well-informed man, and in the letter referred to he points out that to the other circumstances which have of late contributed to restore in some measure the confidence of investors in home railway stocks is now added the fact that the President of the Board of Trade is promoting a conference with representatives of the railway companies in order to obtain information on the restrictions placed on railway companies by Parliament in the way of raising and adjusting rates. It was understood that a meeting of the Railway Companies Association wa to be convened yesterday, the 17th, to consider the matter, and to nominate a committee to confer with Mr. Lloyd-George, who had allowed it to be known that he is in favor of the appointment of a Royal Commission to report upon the question and make recommendations.

The correspondent of the "Scotsman" notes that the present attitude of the President of the Board of Trade is in very striking contrast with that displayed in the early part of last year, when questions arose affecting the relations between the railway companies and shippers. Instances are cited where the President of the Board of Trade gave expression to rather hostile sentiments against the railroads. He has now come to recognize, we are told, that Government hostility to the railways means the impairment of their credit and an inability and also disinclination on the part of the railways to increase their outlays in response to the demands of the public. The Railway Canal Traffic Act of 1894, it is stated, is badly in need of amendment in such a way as will enable the companies to increase their rates so as to compensate them when working costs advance, as they have done in recent years, as a result of increased wages, shorter hours of labor, higher price of fuel, and increased taxes. It is hoped that, through the conference proposed, needed relief for the roads can be provided.

---

By appointment, operating vice-presidents of the leading railroads of the country will meet President Roosevelt on Jan. 27 to discuss with him the question of legalizing pooling arrangements. The purpose of the discussion is to endeavor to have the President use his influence to have Congress modify the existing laws so as to permit of the formation of pools. The particular obstruction which the operating officers want modified or removed is found in Article I., Sec. 5, of the Hepburn Act, and is as follows:

"It shall be unlawful for any common carrier subject to the provisions of this Act to enter into any contract, agreement or combination with any other common carrier or carriers for the pooling of freights of different and competing railroads, or to divide between them the aggregate or net proceeds of the earnings of such railroads or any portion thereof; and in any case of an agreement for the pooling of freights as aforesaid, each day of its continuance shall be deemed a separate offense."

No doubt the operating officers claim to be encouraged to make this appeal to the President because he has already expressed himself in a qualified sort of way on the subject of pooling. Chairman Knapp of the Inter-State Commerce Commission has repeatedly expressed similar sentiments, but always coupled with the condition that the pooling arrangements should be under the supervision and control of the Inter-State Commerce Commission. This is probably the most that the operating railroad officers hope to accomplish at this time, but they are determined to make an earnest effort to obtain relief at once, and therefore an appeal will be made to the President in the hope that with his aid something may be accomplished before Congress adjourns.

Fifty years ago the managers of the railroads found that pooling was necessary. In a circular issued in September 1858 and signed by Erastus Corning, President of the New York Central RR. Co.; Charles Moran, President of the New York & Erie; J. Edgar Thomson, President of the Pennsylvania RR. Co., and John W. Garrett, on behalf of the Committee of the Baltimore & Ohio RR., it was set forth that the above interests "have united in a conference to effect a restoration of harmonious relations, just principles of action and a remunerative tariff." To accomplish these ends and stop ruinous competition, a meeting of railroad managers was called for Sept. 13 at Buffalo. Thereafter when disastrous rate wars threatened to bankrupt railroads, pooling was resorted to as a remedy. In the famous decision in the Trans-Missouri Freight Association case in 1897, it was held that an agreement which was intended to prevent competition and stop rate-cutting was in violation of the Sherman Anti-Trust Act. This decision and the statutes have disrupted all railroad pools. The nearest approach to a pool now in existence is the impotent Trunk Line Association. As every railroad is dependent upon its connecting lines for the free movement of traffic, and as it is essential for the welfare of the shipper as well as in the interest of the carrier that the companies should be allowed to have an understanding about a great many points concerning the movement of freight, there appears to be no substantial reason why permission should not be granted to make pooling arrangements, especially when such pools may be made perfectly harmless by Government supervision.

---

Governor Stuart has chosen for members of the new Railroad Commission of the State of Pennsylvania three men of a conservative type who will be likely to perform their work as prescribed by the new statute in a dignified way and with due regard to the rights of the railroads and public service corporations as well as those of the public. The powers of the Commission are chiefly inquisitorial, and in this particular respect the Commissioners are given great authority. But, having ascertained facts, the Commission may simply make recommendations. The Constitution of the State of Pennsylvania, Article XVII., Sec. 11, provides that the Secretary of Internal Affairs shall have general supervision over railroads, canals and other transportation companies. The new Pennsylvania law is so framed as to keep within this constitutional provision, and consequently the Railroad Commission is simply made advisory to the Secretary of Internal Affairs. The operation of the Pennsylvania Commission will be watched with interest. A forum is offered before which complaints may be laid, and the fullest possible authority is given to the Commission to investigate the grounds of complaints, but it may not apply a remedy. If mild methods do not accomplish good results, it will be possible for the

Secretary of Internal Affairs and the Attorney-General to bring an action in the courts to compel any alleged offending carrier to comply with the laws of the State, and the evidence collected by the Railroad Commission may be of advantage to the State in conducting such a prosecution. One trouble about this method is the law's delay, every person being familiar with the slow process of litigation. Under the new Pennsylvania law, however, the corporations are really given an opportunity to demonstrate that conservative methods have an advantage for the people at large as well as for the corporations. If practice succeeds in demonstrating this, a lesson will be learned which may be of interest to the citizens of other States. There are indications all over the country that radicalism has about run its course. Upon a return to a safe and sane policy, the country will be inclined to study the benefits resulting from the example set by conservative Pennsylvania.

---

The foreign trade statement of the United States for the month of December issued on Thursday makes two new records in our commercial intercourse with other nations. Not only did the total of merchandise exports for the month reach an aggregate in excess of the figures for any similar period in our history, but the favorable trade balance for the first time exceeded 100 millions of dollars. This latter result, however, was largely due to a conspicuous falling off in the inward movement of goods. Specifically stated, the exports of commodities for December 1907 were $207,179,436, which compares with $204,474,217 for November—the previous highest total—and with $190,399,977 for December 1906. In the gain of 17 millions of dollars over last year, most of the leading staples except provisions share—breadstuffs contributing nearly 12 millions and cotton 4½ millions of dollars.

Moreover, as already stated, imports fell off materially, from $134,349,760 in December last year and $110,942,916 in November to $92,288,771 in the closing month of the old year. Consequently the balance of merchandise exports for the month stood at $114,890,665, against $93,531,301 in November, $56,050,217 in the closing month of 1906 and the former record of $98,595,721 made in December 1905. The inflow of specie during the month was heavy, although not up to the total for November, the net imports of gold having been $43,444,068. The year's totals of the merchandise movement, both inward and outward, were in excess of anything heretofore recorded, leaving a net export balance of $500,171,754, a total higher than at any time since 1901, and the gold movement for the same period gave a net import of $88,182,385. As the year's results will be fully given in our columns next week, we omit further reference to them now.

---

The history of the cotton-manufacturing industry in Japan of recent years is a record of almost uninterrupted and for the most part rapid progress. It is not so long ago that the Mikado's kingdom was considered a decidedly unimportant factor in the matter of consumption of cotton, and rightly so, but within the last decade the development of the spinning industry there has been one of the important features in the world's progress in cotton manufacturing. We are led to refer to the subject at this time owing to the receipt, this week, of the official returns of the operations of the Japanese cotton mills for the year 1906-07, as compiled by the Secretary of the Japanese Cotton-Spinners' Association, which are presented to-day in our cotton department.

Attention is first attracted by the further augmentation in consumption of the raw material the past season, and especially as consumption has been on a greater ratio of increase than the increase in spinning capacity. In fact, the advance in efficiency of machinery has been a striking feature in Japan of the last few years. In 1904-05, with an increase in producing spindles of less than 3%, there was a gain in amount of cotton used of almost 9%; in 1905-06, although capacity was added to only 4½%, the volume of consumption advanced 15½%, and in 1906-07 the mills used nearly 4% more cotton than in the previous year, on a gain of barely 2½% in spindles. In other words, since 1903-04 the amount of machinery employed has been augmented only 10%, but consumption has risen 31%.

It is furthermore to be noted that, while East Indian cotton continues to be the variety most largely availed of in Japanese mills, exhibiting a large increase in amount used in 1906-07, the American product is each year entering more and more into the fabrics turned out. In 1903-04 the amount of American cotton used was only 38,024,850 lbs., but the succeeding year the total reached 76,853,025 lbs. and in 1905-06 was 117,370,750 lbs. A further increase to 125,348,898 lbs. is reported for 1906-07. With the important increase in the takings of American and East Indian cotton, there has been a marked decrease in the amount of Chinese cotton entering into the consumption of the mills. From an aggregate of 109½ millions of pounds in 1904-05, there was a drop to 97 millions in 1905-06 and 73 millions in 1906-07. No important changes occurred in 1906-07 in the use of varieties of cotton other than those referred to above, except that the home-grown product shows a large percentage of increase; but the total amount consumed was less than a million pounds.

Consumption, stated in bales of 500 lbs. each—the basis upon which all our compilations are made—reached 906,805 bales in 1906-07, against 873,576 bales in 1905-06 and only 414,000 bales in 1896-97, the advance in the last decade having been 119%, or a gain exceeded only by that in the Southern section of the United States. Moreover, manufacturers in Japan closed the season of 1906-07 with quite full supplies of the various kinds of raw material, their holdings reaching 408,554 bales of 400 lbs. average net weight (equaling 326,843 bales of 500 lbs. each), an amount equivalent to about four months' consumptive requirements. At the close of 1905-06 stocks were 322,342 bales of 400 lbs. each, or 257,874 bales of 500 lbs. each.

Better evidence than the foregoing furnishes of progress in an important industry could hardly be obtained. A quarter of a century ago cotton manufacturing was practically unknown in Japan and in 1890-91 consumption was barely 100,000 bales. Since that time the development of the industry has been steady, barring, of course, the setbacks occasioned by hostilities, first with China and then with Russia. Now Japan has risen to a position of importance, ranking next to India, which in turn follows after Europe and the United States.

---

Building operations in the United States in 1907, referring, of course, to structures for mercantile or dwelling purposes as distinguished from railroad enterprises, &c., although in no general sense restricted in extent, were at the same time, in the volume of money represented by the contracts entered into, less extensive than in the preceding year. Furthermore, it does not seem, from a study of the data furnished us by the "American Contractor," upon which our conclusions are based, that the diminution in activity was coincident with the noticeable acute period of monetary stringency. On the contrary, the statistics at hand for fifty-five leading cities of the country indicate that long before monetary affairs reached the crisis the aggregate of building projects had, month by month, fallen below those for the corresponding period of the preceding year. In fact, with the exception only of April, building transactions in each month of 1907 involved a smaller outlay of money than in 1906.

Going over the results by quarters, we find that in the opening period of the year the engagements aggregated only $149,422,475, against $187,611,187 in 1906, the following quarter the comparison was between $203,706,356 and $201,200,217, the transactions of the next three months called for an outlay of but $136,837,839, against $154,236,596 the preceding year, and the closing period's operations represented only $90,525,206, compared with $123,984,499 in 1906. The total building transactions in the fifty-five cities for 1907, therefore, while they reached the imposing total of $580,492,196, showed a loss from 1906 of nearly 13%, the aggregate for that year having been $667,032,499. As regards the various sections of the country, operations in Southern, Central and Western cities in the aggregate differed but little in the two years, the combined decrease there disclosed being less than 10 million dollars. In the two extreme divisions—the Eastern and the Pacific—however, the falling off in activity from last year is very noticeable. Greater New York alone furnished 42½ millions of the decline of 87 millions shown in the whole country, of which 35 millions was in the Borough of Manhattan, and in other leading cities, like Baltimore, Buffalo, Philadelphia and Pittsburgh, operations were on a less extensive scale. On the Pacific, the diminution in aggregate transactions was about 15 millions; San Francisco recorded a decline of approximately 21½ millions and Los Angeles 4¾ millions, but these were offset to the extent of nearly 11 millions by increased operations at Tacoma, Spokane and Seattle.

In commenting upon its tabulation of the year's results, the "Contractor" says, in effect, that the falling off recorded is not greater than anticipated, in view of the currency stringency, which, curtailing the available money supply, caused the postponement of many enterprises that otherwise would have been credited to 1907. This seems a very reasonable explanation, especially for the shrinkage of operations in November and December, those in the last month in particular having been only $17,670,925, against $38,895,543 for the like period of 1906.

---

The Bank of Germany on Monday reduced its official rate of discount from 7½% to 6½% and on Thursday the Bank of England lowered its rate from 6% to 5%. With these exceptions there were no changes in official rates of discount by any of the European banks; open market or unofficial rates were easy at all the chief centres.

Quite unexpectedly, though such an exhibit was last week regarded as probable very soon, the bank statement of that week disclosed an important surplus reserve, entirely extinguishing the deficit of $11,509,550 recorded Jan. 4 and replacing it with a surplus of $6,084,050. This was the result of an increase of $18,389,900 cash and of $796,300 in reserve requirements; loans were contracted $15,722,200 and deposits increased $3,185,200. The cash gain was chiefly due to remittances hither by interior banks; this movement has been large this week and Treasury operations have also contributed to an augmentation of bank cash, so that the statement of to-day (Saturday) is expected to show a further important increase in the surplus. It may be noted, however, that, notwithstanding such an exhibit, the publication of the detailed statement showing the condition of individual banks in the Clearing House will be withheld for the present and possibly until after the end of the current month; the reason assigned for this decision is that some of the banks have outstanding Clearing-House loan certificates which they cannot immediately retire, and therfeore that the detailed statement, were it to be issued, would be misleading. The summary of bank conditions which has been published weekly will be continued as heretofore. The publication by the State Superintendent of Banks of weekly bank and trust company reports of condition, which it was expected would be made this week, will be deferred until early in February.

---

The favorable bank statement of last week, indications of continued increases in cash and of improvement in reserve, and liberal offerings of loanable funds, especially on call, by large banks and private bankers, together with evidences of the entire restoration of confidence in the situation, contributed to the establishment of normal monetary conditions this week, which were reflected in lower average rates for call money and greater activity in time loans and in commercial paper. One feature was the prompt placing, partly in the domestic and in foreign markets, of practically all of the 30 million New York Central equipment notes, through J. P. Morgan & Co.; there was also good buying of short-term corporation notes, which have latterly been in disfavor, and likewise of the better class of railroad mortgages, indicating an improvement in the investment situation.

Money on call, representing bankers' balances, loaned at the Stock Exchange during the week at 6% and at 2½%, averaging 4%; banks and trust companies loaned at 3% as the minimum. On Monday loans were at 6% and at 4% with the bulk of the business at 4½%. On Tuesday transactions were at 4½% and at 3½% with the majority at 4½%. On Wednesday loans were at 4½% and at 4% with he bulk of the bus ness at 4%. On Thursday transactions were at 4% and at 3% with the majority at 3½%. On Friday loans were at 3¾% and at 2½% with the bulk of the business at 3½%. The market for time money seemed to indicate that the volume of available funds was much in excess of the requirements; as lenders did not appear inclined to make concessions, especially for long-term contracts, the business was chiefly confined to those

for sixty days to four months. Quotations on good mixed Stock Exchange collateral were 5¼ @ 5½% for all three periods and 5½ @ 6% for six months; houses offering exceptionally good security obtained accommodation at 5¼% for the longer date of maturity. The inquiry for commercial paper does not seem to be abating, and it is represented as good from all parts of the East and West and also from banks and other institutions in this city. Rates are 6½@7% for sixty to ninety day endorsed bills receivable, with comparatively small offerings, 6½@7% for prime and 7½% for good four to six months single names.

---

The Bank of England rate of discount was reduced this week to 5% from 6%, at which it had been maintained since Jan. 4.; this reduction, it may be noted, was probably influenced, in part, by the lowering of the official rate of the Imperial Bank of Germany on Monday from 7½% to 6½%, as elsewhere stated. The cable reports discounts of sixty to ninety day bank bills in London 4¼@4⅜%. The open market rate at Paris is 3⅜% and at Berlin and Frankfort it is 5¼%. According to our special cable from London, the Bank of England gained £1,020,018 bullion during the week and held £35,791,426 at the c ose of the week. Our correspondent further advises us that the gain was due wholly to receipts from the interior of Great Britain. The details of the movement into and out of the Bank were as follows: Imports £345,000 (wholly bar gold bought); exports, £958,000 (of which £948,000 to South America and £10,000 to South Africa), and receipts of £1,633,000 *net* from the interior of Great Britain.

---

The foreign exchange market, after opening firm, became quiet and heavy, largely as the result of deranged mail schedules, there being no German steamer on Tuesday and a late closing of Wednesday's mail. On the last-named day, however, there was a good inquiry for remittance, due to selling of stocks for European account and also to moderate offerings of bankers' bills, and there was some inquiry for cables incident to the settlement on the London Stock Exchange. Expectations of a reduction of the Bank of England's rate of discount contributed to a strong tone for long sterling. There was some evidence of the negotiation of finance bills to take advantage of the activity in the time-loan money market. The large gain in domestic exports in December, as reported by the Bureau of Statistics, and at this port thus far in January, as shown by the Custom House returns, attracted attention, for such gains seemed to indicate an increased supply of commercial exchange; the tone for these bills was steady to firm. Speculative operations in the market were small, owing to the risk involved by reason of the lower tendency for discounts abroad and also because of uncertainty as to the extent to which the New York Central equipment notes have been placed in Europe. The market continued strong to the close of the week, responding to a demand for remittance.

On Saturday of last week the market was quiet and irregular, and, compared with the previous day, long declined 10 points to 4 8115@4 8120 and cables 5 points to 4 8605@4 8610; short was 10 points higher at 4 8555@4 8560. On Monday, influenced by easier discounts in London, long rose 15 points to 4 8130@4 8135, short fell 5 points to 4 8550@4 8555 and cables 5 points to 4 86@4 8605. On Tuesday long declined 5 points to 4 8125@4 8130, short 10 points to 4 8540@4 8545 and cables 10 points to 4 8590@4 86. On Wednesday the tone was strong, with an advance of 20 points for long to 4 8145@4 8155, of 25 points for short to 4 8565@4 8570 and of 30 points for cables to 4 8625@4 8630. On Thursday the market was active and higher, indicating covering of a short interest, induced by the reduction in the Bank of England rate. Long rose 30 points to 4 8175@4 82, short 30 points to 8 8575@4 86 and cables 15 points to 4 8640@4 8650. The tone was quite strong on Friday at an advance of 75 points for long, of 50 for short and of 60 for cables.

The following shows daily posted rates for sterling exchange by some of the leading drawers:

| | | *Frl., Jan. 10* | *Mon., Jan. 13* | *Tues., Jan. 14* | *Wed. Jan. 15* | *Thurs. Jan. 16* | *Frl., Jan. 17* |

The market closed on Friday at 4 8250@4 8260 for long, 4 8640@4 8650 for short and 4 87@4 8710 for cables. Commercial on banks 4 8210@4 8220 and documents for payment 4 81@4 82¼. Cotton for payment 4 81@4 81¼, cotton for acceptance 4 8210@@4 8220 and grain for payment 4 82@4 82¼.

---

The following gives the week's movement of money to and from the interior by the New York banks.

| *Week ending Jan. 17 1908.* | *Received by N. Y. Banks.* | *Shipped by N. Y. Banks.* | *Net Interior Movement.* |
|---|---|---|---|
| Currency | $12,879,000 | $3,303,000 | Gain $9,576,000 |
| Gold | 3,027,000 | 308,000 | Gain 2,719,000 |
| Total gold and legal tenders | $15,906,000 | $3,611,000 | Gain $12,295,000 |

With the Sub-Treasury operations the result is as follows:

| *Week ending Jan. 17 1908.* | *Into Banks.* | *Out of Banks* | *Net Change in Bank Holdings.* |
|---|---|---|---|
| Bank's interior movement, as above | $15,906,000 | $3,611,000 | Gain $12,295,000 |
| Sub-Treasury operations | 41,647,000 | 38,147,000 | Gain 3,500,000 |
| Total gold and legal tenders | $57,553,000 | $41,758,000 | Gain $15,795,000 |

The following table indicates the amount of bullion in the principal European banks.

a The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver; but we believe the division we make is a close approximation.

b The Austro-Hungarian Bank Statement is now issued in Kronen and Heller instead of Gulden and Kreutzer. The reduction of the former currency to sterling Pounds was by considering the Gulden to have the value of 80 cents. As the Kronen has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to Pounds, has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20.

d The total of gold in the Bank of Russia includes the balance held abroad that is, the amount held for Russian account in other Continental banks. The proportion so held, and consequently duplicated in the above statement, is about one-quarter of the total.

*h* Excluding foreign gold bills.

*FALL IN THE WORLD'S MONEY MARKETS.*

At frequent intervals during the progress of our recent financial panic, misgivings were expressed as to what the result might be in the way of a recoil of the American shock on Europe. In 1893, panic conditions, although not restricted to the United States —for such communities as Newfoundland and Australia passed through the same experience—were at any rate not reproduced in Europe. For this the common explanation at the time was that European ma kets had passed through the strain of panic and forced liquidation three years before, at the time of the Baring failure of 1890, and were again in sound condition. When, however, one glances back at our older and more serious panic episodes, he will find the re ord to be that one, and frequently more than one, of the European cities suffered acute financial distress along with ours. In 1873, for instance, Vienna was confronted with panic of a really formidable sort, and Berlin was for months on the brink of it. In 1857 London found itself face to face with panic conditions as bad in their way as our own of the same year.

It was natural enough, then, in view of the fact that the trade expansion and speculation, which had overstrained our own money market, had been indulged in by Europe also, that misgivings should have been entertained as to the sequel on these foreign markets. And in point of fact there occurred, even in advance of New York's disasters of October, something like panic at Amsterdam and Genoa, and there have been repeated bank failures of a serious sort at Hamburg. Although no one of these incidents would fairly bear comparison with the breakdown at New York, nevertheless they served to increase the feeling of uncertainty as to what was to follow our own financial collapse.

The world's money markets are now beginning to give their answer. Every one is aware that in November the Bank of England raised its official discount rate to the highest figure since our panic of 1873; that the Imperial Bank of Germany established a rate never before touched in its history, and not reported by any State bank at Berlin since the Franco-Prussian War. At the same time the Bank of France put up its rate to a level not matched since the Boer War. It was evident enough that the immediate cause of these high rates was the sudden and urgent demand for Europe's gold by New York; but this left the question open, how far such abnormal rates reflected financial weakness in the markets of Europe itself.

It would appear that for some considerable time financial judgment at the various financial centres of Europe itself was in doubt on this question. Uncertainty as to what was to happen next in Europe was, we imagine, the immediate inspiration of the strange demands from London last November for some arbitrary action on the currency by the American executive. In fact, the English financiers and critics intimated plainly that they had troubles of their own to provide against, and that Germany was a point of danger which would not admit of Europe placing all its spare resources at the disposal of America. Following out this same line of reasoning, it was rather generally intimated in London, as the year drew to a close, that with conditions as they were, no immediate return to easy money conditions could be looked for. In particular, London pointed out that a long-postponed list of new security issues was bound to come on the London market at the opening of the year and might absorb that market's floating capital. It will be observed that this argument ran along parallel lines with he theory more or less prevalent in our own market—namely that refunding of short-term notes or consummation of belated bond issues may prevent such relaxation in money rates in New York as would otherwise have been looked for.

How rapidly the course of events at New York has disproved this argument the current Wall Street money quotations show. The course of events in Europe has, however, been even more remarkable. The Bank of England, notwithstanding December's predictions that the 7% rate would be maintained as long as possible, has twice reduced its rate during the present month. On January 2 it came down from 7 to 6%; last Thursday from 6 to 5. On each occasion it may be said that reduction at the Bank was compelled by the fact that the open London money market was offering loans at a rate so far below the minimum of the Bank as to make it necessary for that institution to adjust its own terms of discount. Last Wednesday, for example, the day before the Bank of England cut down its 6% rate, private discounts were cited in the cables at 4⅜. At Berlin a somewhat similar state of affairs prevailed. Probably because of the abnormally large outstanding issue of the Imperial Bank's note circulation, reduction from the 7½% official rate was deferred until last Monday. By that time, however, the open market rate for discounts at Berlin had fallen to 5%, or actually 2½% below the Imperial Bank rate. As with the Bank of England, the Bank of Germany's hand was forced by this change in the outside situation. It cut its official rate from 7½% to 6½. Meantime the Bank of France, whose advance in its rates last March was in some ways Europe's first warning of the coming crisis, and which marked it up still higher in the November crisis, reduced its rate on Thursday of last week. An interesting fact about these various reductions is that dispatches from the markets concerned intimate now that even at the lower basis, the State banks are not maintaining full control of the various money markets.

What inference have we a right to draw from this rapid movement of European money rates in the direction of a normal basis? One must be careful, in the first place, not to infer too much. Reduction in these rates did not begin until, at the opening of the present year, the New York premium on currency had disappeared, and with it the abnormal American bid for gold on the London market. Therefore the need of unusual measures of protection against the American demand no longer existed. Again, it must be kept in mind how extravagantly high, from Europe's point of view, were the bank rates which prevailed at the end of 1907. If, furthermore, one takes into account the condition of the institutions themselves, he will find that the Bank of England, for example, is not only not in a weaker position than it was when the high rate was fixed last November, but that its gold holdings, which at the opening of that month stood at £28,725,000, had risen by last Thursday to £35,-791,000. It is true, something over three millions sterling in gold has been loaned direct to the Bank of

England by the Bank of France and must be repaid next month, unless the loan is extended. But nevertheless the fact remains that the Bank's position is exceptionally strong. Taking the fairest measure, the ratio of the Bank's reserve to liabilities, Thursday's statement showed the percentage to be 52⅝%, which compared with 45¼ in the same week a year ago. It was, in fact, very much the highest ratio reported at this time in any year since 1896. Finally, it is worth remembering that all precedent of previous panic periods has pointed to very rapid reduction in these bank rates after actual crisis was over. When the Overend-Guerney panic of 1866, with the incidental 10% rate at the Bank of England, had spent its force, the Bank in four consecutive weeks reduced its rate until it reached 5%. In 1873—another year when New York was drawing gold—the 9% Bank of England rate was similarly cut within four successive weeks to 4½; both these reductions occurring, of course, when panic had been definitely allayed. In other words, the abnormally high level fixed at the time of panic was a provision not against general conditions, but against what might happen in the crisis.

It cannot, therefore, as yet be said that the fall in the European bank rates has been more rapid than is customary after such episodes as that of the season past. We should suppose that the present large gold output of the world, the considerable reduction in trade activity, not only in this country but in Europe, and the consequent release of gold from European hand-to-hand circulation, would tend to hasten the fixing of still lower rates. The point of particular interest in the movement is its bearing on the German situation. Reduction in the Berlin Bank rate, such as occurred last Monday, gives ground for the inference that the German markets have passed through their formidable period of stress and have escaped the predicted disaster. If the fears entertained of German finance and industry last autumn shall thus prove to have been exaggerated or unfounded, we imagine one explanation will be that the German markets had their own period of panicky liquidation no further back than 1901, when banks and stock markets and general trade alike had to face a genuine crisis. Markets which had passed through exactly that experience are not apt within the next few years to take the chances which markets will which have not been similarly tried.

## *FAILURES IN* 1907.

Commercial failures in the United States during 1907 have been comparatively small in number but large in casualties. Taking the compilations of R. G. Dun & Co., the number was only 11,725, against 10,682 in 1906, which shows a small increase; but when we remember that the aggregate takes in the whole 12 months, and includes the entire country and covers a disturbed state of credit and a panic in October severer in leading particulars than ever before befell our business interests, one is surprised at the moderate number of casualties, and especially so when we note that the number in 1904 and 1903 was over 12,000 in each year. It is only when we come to study the aggregate of liabilities that these commercial failures have caused that we begin to take in the seriousness of the catastrophe they disclose. Our commercial and financial affairs had been running at a surpassing state of progress, so that the turn to an abrupt pause was especially awkward, causing a wrench, dislocating and putting out of joint all normal connections in business affairs.

As already indicated, one would expect to find a material increase in 1907 over 1906, both in the number of disasters and amount of liabilities. That would be an obvious result from the very character of the business carried on during the two years, without any controversey or more extended examination. It is within the knowledge of every one that business was much more disturbed in the latter year, and conducted under much greater friction than in 1906. Taking the figures of the same firm, the aggregate liabilities indicate this as the general character of the outcome, that feature of the situation showing a very large and abnormal increase. Those figures tell us also that the body of the failures occurred among the firms having large capital. This inference is inevitable, the fact being that the commercial liabilities aggregate $197,395,225 in 1907, which compares with only $119,201,515 in 1906.

It appears, likewise, that the commercial failures in 1907, measured by the annual amount of liabilities, were almost beyond precedent, increasing in 1907 day by day until the October panic was reached. We recalled that history two weeks ago in our "Retrospect of 1907," and the incidents then narrated need not be repeated. It follows clearly enough, under these circumstances, that the last quarter of the year was by far the most serious and disastrous. The classified commercial statistics are given under the heads of "Manufacturing," "Trading" and "Other." In the manufacturing division it is found that 188 failures, or about 6% of the total, supplied over $76,000,000, or about 70%, of the aggregate liabilities in that branch of business. There consequently remains only $30,591,061 of manufacturing liabilities for the 2,725 failures, or less than $100,000 each. As to trading failures, there were 65 large concerns, with liabilities of $12,670,1[illegible]1, leaving $46,027,987 for the remaining 8,354 failures, or an average of $5,509. Taking the whole division of commercial failures, there were 293 for $100,000 or more, with aggregate liabilities of $116,665,108. That is to say, about 60% of the total commercial defaulted liabilities for the year supplied only about 2½% of the total number; for the remaining 11,432 failures, the liabilities aggregated $80,720,117, an average of $7,061, against $6,577 last year.

Taking these results quarterly, it appears that about 41% of the year's commercial liabilities occurred in the last three months. In the first half of the year they were unusually few in number and small in amount; in the first quarter the liabilities were smaller than in the corresponding months of any year since 1886, with the exception of 1905, 1901 and 1899. The comparison was slightly less striking for the second quarter as to amount of liabilities, but the number of failures was smaller than in most recent years. The third quarter brought no great increase in number of failures, but a few large defaults raised the total liabilities to more than double the previous year; and it is necessary to go back to 1896 to find a larger amount of indebtedness for the corresponding three months.

The details as to the last three years, stated in the form already described, show the number and lia-

bilities for each of those years, indicating a kind of crescendo within that period in the commercial data. If, now, to the commercial figures, we add the extraordinary changes in the banking liabilities, the results, as will be seen, in the following, are not only striking, but amazing.

COMMERCIAL FAILURES.

| | Number | | | Liabilities | | |
|---|---|---|---|---|---|---|
| | 1907. | 1906. | 1905. | 1907. | 1906. | 1905. |
| Manufac'g. | 4,913 | 2,490 | 2,726 | $106,640,444 | $45,675,362 | $44,252,629 |

In studying the foregoing, which includes the banking figures, it is to be said that they are somewhat misleading if accepted as losses. We all know that a bank may close its doors and yet be sound. No financial institution can make money that holds in its vaults all the time enough cash to satisfy a united demand of over-timid depositors. Suspensions may become inevitable in a case of that kind, where no insolvency follow.

## *THE COUNTRY BANKS AND THE PANIC.*

The detailed statement of the condition of the national banks of the United States, under the Comptroller's call of last month, possesses an unusual degree of interest. Moreover, when these statistics are carefully scrutinized and analyzed, they reveal some highly instructive results. There are two chief particulars in which information will be sought. In the first place, every one will seek to learn whether the figures furnish support for the charges so freely made in the West and South during the period of intensest strain, from October to December, that interior banking institutions had been unable to obtain remittances of cash from the East in the usual amounts. In the second place, the figures will be studied with a view to seeing how far they furnish ground for the change in reserve requirements of the country banks proposed in one section of the Aldrich Bill submitted to the United States Senate last week. Country banks are now required to maintain a reserve of 15% against their deposits, of which, however, only 6% need consist of cash on hand. Senator Aldrich proposes to leave the total reserve requirement at 15%, but to raise the portion of cash on hand to 10%.

Those who have had traveling men or business representatives out on the road, whether in the West, or in the South or on the Pacific Slope, know that these men have but a single story to tell when recounting what the local people with whom they came into contact had to say. In these remoter sections every one speaks of "the panic in New York," seeking to convey the idea that all the trouble was here in the East—that at home everything was serene and confident, with no distrust, no lack of confidence—in fact, no trace of disturbance of any kind except such as followed from the unsettling developments in the East. To be sure, nearly all these interior points suspended cash payments and were obliged to resort to the issue of clearing house loan certificates—nay more, to the issue of clearing-house checks in small denominations, suitable for circulation from hand to hand among the general public—but they attribute this, too, to the action and course of the East. Our own representatives in these remoter sections of the country have reported to us, over and over again, that the uniform statement coming from the local banking people was that their banks were waiting for the New York banks to "open up" and give them the cash they had on deposit here, and which they claimed they could not get.

The highest significance attaches to the Comptroller's figures in the light of these statements and allegations. As we proceed it will be seen, not only that there has not been the slighest basis for these charges, but that the facts are in exact conflict with them. So far from the distrust and lack of confidence being confined to Wall Street and the financial centres, the statistics, when compared with corresponding statistics for previous dates, show that nowhere was the distrust so deep or pronounced as among the communities in the interior parts of the country. In other words, the most violent manifestation of the panic and its consequences occurred away from New York and Wall Street, rather than in Wall Street—at least as far as the money currents are any indication by which to judge. The returns of currency shipments published by us (collected from the separate banks in this city) have proved that New York banking institutions during October, November and December responded to the demands of their interior correspondents with extraordinary freedom, sending out to them more money, in the aggregate, than ever before in any like period of time. The figures now made available, through the Comptroller's call, demonstrate the same thing, and as they are official, they leave no further room for cavil or dispute.

Before dealing with the returns for the separate sections, it will be necessary to consider the totals of the national banks of the whole country. These figures, like the others, are in the highest degree interesting and instructive. For through these totals we get an idea of the extent of the relief measures found necessary and applied during that most critical period. Comparing such totals with the corresponding totals at the last previous call, namely on Aug. 22 1907, it is found, in the first place, that the outstanding total of national bank notes was increased in the interval by 50 million dollars, raising it from $551,949,461 to $601,805,985. The date of the Comptroller's present statement is Dec. 3; if it were Dec. 31 the addition to the volume of bank-note circulation would be even greater. Besides the 50 millions of new bank notes put out between Aug. 22 and Dec. 3, $74,461,926 of clearing-house certificates were issued, this being the amount of these loan certificates taken out by the national banks alone; with the State banks included, the amount, of course, would be still larger. In the same interval the United States Government enlarged the volume of its deposits with the national banks in amount of nearly $80,000,000, increasing the same from $143,282,393 Aug. 22 to $223,117,082 Dec. 3. It should also be remembered that up to the time of the Comptroller's call on Dec. 3 we had imported gold from Europe to the amount of about $75,000,000.

Adding these four items together, namely, (1) new national bank notes of $49,856,524; (2) clearing-house certificates of $74,461,926; (3) increase in Government deposits with the banks (after allowing for $6,043,682 decrease in the deposits of U. S. disbursing officers), $73,791,007, and (4) gold imports of $75,000,000, we get a grand total of addition to the circulating medium during this interval of $273,109,457. A factor of some interest in connection with these figures is that, in order to bring about the increase in bank circulation already noted, and to equip themselves to hold the ad-

ditional deposits, the banks increased by over $106,000,000 the aggregate of bonds borrowed by them, the total of these borrowings between the two dates going up from $59,994,634 to $166,073,021. Another fact of some importance is that, on Dec. 3, $185,479,586 of bonds other than U. S. bonds were held as security for Government deposits, against only $68,198,039 so held on Aug. 22. This last shows that the large increase in bank-note circulation and in Government deposits was rendered possible chiefly through the fact that the Secretary of the Treasury allowed the substitution of municipal and railroad bonds for U. S. bonds as security for public deposits.

With $273,000,000 addition to the circulating medium between the two dates, what was the situation on Dec. 3 of the national banks with reference to their holdings of specie and legal tenders? These cash holdings in the interval between Aug. 22 and Dec. 3 were actually reduced in amount of over $40,000,000, dropping from $701,623,532 to $660,784,736. It will no doubt be urged that the figures we are discussing relate to the national banks alone, and that the State banks and trust companies must also be taken into consideration. True. But there is good reason for thinking that if we could have similar returns for these other banking institutions, the disparity would be increased rather than lessened. It is unfortunate that returns are not available for the same date for the State institutions, and in fact no returns at all for most of the States. In Illinois the State Auditor made a call for reports as of date Nov. 19 (two weeks earlier than the call for the national banks), and the totals under this call, when compared with Aug. 20, recorded an increase of $11,070,980 in the holdings of specie and legal tenders. But this must be regarded as wholly exceptional, due to the action of some of the Chicago banks in enlarging their cash holdings. In our own State, the Superintendent of Banking issued a call for the condition of the State banks and trust companies as of Dec. 19, and tabulations of the figures under this call have been prepared for the State banks and trust companies in this city. These tabulations show a reduction in the holdings of specie and legal tenders and bank notes (the bank notes are not segregated) from $60,173,600 on Aug. 22 to only $53,883,600 on Dec. 19. The holdings of the trust companies of this city in the same interval were reduced from $54,274,600 to $41,372,900, making a loss for the two classes of institutions combined of over 19 million dollars.

The most noteworthy and striking fact in connection with the loss of $40,838,796 in the specie and legal-tender holdings of the national banks between Aug. 22 1907 and Dec. 3 is that the loss has fallen entirely upon the reserve cities and chiefly upon New York, thus refuting the charge that the institutions at this centre did not respond with freedom to the demands of their interior correspondents. Between the dates mentioned the cash holdings of the banks in Manhattan Borough were reduced from $218,786,132 to $177,093,822, a loss of $41,692,310, or slightly more than the loss for the national banks in the whole country. So liberally, indeed, did the banks of this city meet the calls from other parts of the country that, as is well known, our Clearing House banks week after week reported a large and steadily increasing deficiency below reserve requirements, and the deficiency was not finally removed until the statement of last Saturday, Jan. 11. The same condition of a deficiency is also revealed in the Comptroller's figures, which show the percentage of reserve held (including the 5% redemption fund at Washington against circulating notes) by the banks of this Borough as only 21.89%, whereas 25% is the requirement. The Chicago banks, too, decreased their money holdings by about $12,000,000, their aggregate of cash falling from $66,138,603 to $54,023,802; but they were careful to keep close to the legal requirement, their ratio of reserves to deposits standing at 24.21%. St. Louis suffered a decrease from $26,821,806 to $21,046,736, and shows a ratio of reserves of only 20.38%.

These three cities constitute what are known as the central reserve cities, which alone are required under the law to keep the full 25% of cash in their own vaults. The aggregate loss in specie and legal tenders by the three cities combined has been over $59,500,000. As this is about 19 million dollars in excess of the loss by all the banks in the national system, it follows that the banks outside the central reserve cities must have gained 19 million dollars. The contrast, however, becomes still more striking when we proceed a step further in our analysis. Besides the three central reserve cities, there are forty other reserve cities. The reserve requirement for these other cities is also 25%, but only one-half need be cash in vault; the other half may be on deposit in the central reserve cities. We find that these 40 other cities likewise show a great depletion of their specie and legal tender holdings, these for Dec. 3 amounting to only $162,600,218, against $190,304,236 Aug. 22. It thus appears that the other national banks throughout the country—those outside the reserve cities, in brief, the country banks—have gained not only the excess loss shown above for the central reserve cities, but about $28,000,000 additional loss sustained by the other reserve cities.

The result to which all this leads is so remarkable that we have compiled and give herewith the following little tabular statement, so as to reveal the results in graphic form. We show separately the holdings of the central reserve cities, the other reserve cities and the country banks, and also the three combined. The figures for Dec. 3 are compared not alone with those for Aug. 22 1907, but also with those for Nov. 12 1906.

SPECIE AND LEGAL-TENDER HOLDINGS OF NATIONAL BANKS.

| | *Dec. 3 1907.* | *Aug. 22 1907.* | *Nov. 12 1906* |
|---|---|---|---|
| Central reserve cities | $252,164,359 | $311,746,541 | $281,868,666 |
| Other reserve cities | 162,600,218 | 190,304,236 | 167,422,349 |
| Combined | $414,764,577 | $502,050,777 | $449,291,015 |
| Country banks | 246,020,159 | 199,572,755 | 185,259,143 |
| Total | $660,784,736 | $701,623,532 | $634,550,158 |

It hence appears that while the reserve cities and the central reserve cities, combined, on Dec. 3 1907 held only $414,764,577 of specie and legal tenders, against $502,050,777 last August and $449,291,015 in November 1906, the country banks held $246,020,159 in December, against only $199,572,755 in August and but $185,259,143 the previous November. In other words, while the banks in the two classes of reserve cities denuded themselves of cash to the extent of $87,000,000, the country banks in the same period of three and a half months, with monetary affairs in a state of acute tension, increased their cash holdings by over $46,000,000 and reported $60,000,000 more of cash on hand than at the date of the last bank call in 1906, namely Nov. 12. It is the country banks, therefore, that absorbed a very considerable portion of the additional circulating medium created, and no doubt this fact would appear still more conspicuously

if we could have the returns for the smaller State banking institutions, which in some of the Southern and Western States are very numerous.

The policy of the country banks in the matter of this expansion in their cash holdings assumes additional importance when we observe that these large additions to money holdings were made in the face of a contraction in their deposit liabilities. The aggregate of the net deposits subject to reserve requirements was only $2,484,664,480 Dec. 3 1907, against $2,627,164,654 Aug. 22 1907 and $2,468,521,246 Nov. 12 1906. The various reserve cities have by no means pursued a uniform policy; some of them have adopted the same course as the country banks in strengthening themselves at the expense of the communities to which they cater, but no good purpose would be served in mentioning them by name.

With $2,485,664,480 of net deposits in the country banks on Dec. 3 1907, and with money holdings $246,-020,159, it will be seen that they were keeping very little short of 10% cash in their own vaults. There would seem no hardship, therefore, in the requirement of the Aldrich Bill compelling them at all times to have 10% cash on hand. That is, it does not appear inequitable to oblige them to conform to a standard which they themselves have set up.

Another point is still to be brought out. The policy which the country banks have pursued in the particular noted is not shown entirely by the increase in their cash holdings. They have been keeping enormous amounts in excess of the requirements with their reserve agents. As already noted, the country banks under existing law are obliged altogether to have a reserve of 15%, of which 9% may be with the reserve agents. There was on Dec. 3 not a single State in the whole Union where the country banks did not hold in excess of the 15%, and in a number of the States the excess was as large as the reserve itself—that is, they held 30% or more of reserve, represented by cash in the vaults and on deposit with reserve agents, being double the amount required. It is a common thing for them to keep deposits at the reserve cities in excess of the requirements, but the position in that respect was never quite so striking as at the date of the December call. The outcome of that situation was that, while at that date their reserve requirement was $372,-849,672, the aggregate of their reserve, comprising money on hand and on deposit, was no less than $620,-649,658, being an excess of nearly a quarter of a thousand million dollars. It is this situation that gives the country banks such tremendous power over the banks in the reserve cities. At the time of the recent panic they would have drawn out every penny of this excess, and more too, if they could have got it. Yet the central reserve cities combined at that date had only $252,-164,359 of cash on hand.

What has been said with reference to the cash and reserve holdings of the country banks as a whole is true of the country banks of all the different sections, but particularly of those in the South. There the situation has been almost phenomenal and has extended to the reserve cities as well. The Texas State Treasury during the panic was obliged to suspend cash payments for a time, because it could not get the necessary cash from the banking institutions throughout the State with which it had its moneys on deposit. Yet Dallas national banks show a total reserve of 27.19%, Fort Worth banks a reserve of 33.45%, San Antonio banks 38.10%, Waco 29.79%, Houston 31.52% and Galveston as much as 48.87%. In some of these cases cash in vault alone amounted to 25% or over. This has reference to the reserve cities in Texas. The country banks in Texas held actual cash of $11,785,503, while the total reserve required (15%) in cash or on deposit was no more than $12,751,238. The Chairman of the Georgia Railroad Commission has recently complained (as noted in another column) that Georgia railroads were not favoring Georgia banking institutions enough—he chargingthat the local communities had suffered during the panic through money being sent to New York, thereby rendering it impossible for local banking institutions to assist the local community. The charge has been demonstrated to be unfounded as to the principal roads at least. But it is worth noting here that the Georgia country banks on Dec. 3 held $4,216,024 of specie and legal tenders in their own vaults, while the total reserve requirements of all kinds was only $3,981,993.

## *THE GEORGIA RAILROAD COMMISSION AND RAILROAD POLICY IN THE SOUTH.*

Some interesting correspondence which recently passed between Chairman S. G. McLendon of the Georgia Railroad Commission and certain railroad officials has been made public within the past week, and has been the subject of discussion in the Southern papers. The correspondence is useful in serving to correct erroneous impressions which appear to be widely prevalent in the South, and also in bringing conspicuously to view the fact that under the championship of the Georgia Railroad Commission, the spirit which has been at the bottom of Government antagonism to railroad interests within the last few years is taking on a somewhat new form or aspect. The Chairman of the Georgia Commission now asks of the railroads that they pursue what he is pleased to call the policy of "home rule" in their financial affairs. In other words, he demands that the railroad companies deposit their current funds in local depositories instead of at the financial centres.

Some of the replies he has received from railroad officials have come as an agreeable surprise to Mr. McLendon, and have been, we should judge, in the nature of an eye-opener to those generally who have been so active in denouncing the railroads, for these replies show that the most prominent railroads have been pursuing the very policy which the Chairman of the Georgia Commission is so devotedly advocating. The correspondence was initiated on Nov. 29 in a letter addressed by Mr. McLendon to Chairman Walters of the Atlantic Coast Line RR. Co. Mr. McLendon began this letter by adverting to Mr. Walters's official position and saying that this position is such that "you (he) control more miles of railroad than any one man in the South." He then informs Mr. Walters that there are certain features of railway management in the State of Georgia and in the South which work great injury and injustice to the people, explaining that he has reference to "the improper placing of the idle money of the railroads." He contends that every dollar which a railroad company can deposit ought to be deposited along the line of that road as a contribution to the life-blood of the section served by it. Proceeding he says:

This ought especially to be the case during the season for marketing the cotton crop of the South. Instead of keeping its money where it can be used several times a day in the handling of cotton, and in this way stimulating the price of cotton and the general activity of trade, the roads hurry their cash assets to New York, where it is the belief of the people that it is used to aid the gambling element in Wall Street. . . . In the recent panic the manner in which the deposits in Southern banks have been depleted for the sole purpose of transferring the available cash to New York is certainly an outrage. . . . When I became Chairman of the Georgia Railroad Commission, I stated that one of the things which the railroads ought to do was to get out of Wall Street. What I meant was that if they kept their money out of Wall Street, those who controlled that money would themselves stay out. I have in mind plans to bring about that result. . . . What I desire most of all to do is to accomplish results beneficial to the people of Georgia and not hurtful to the railroads. If hurt must come to the railroads, so be it; but results beneficial to the people must come.

Mr. McLendon then proceeded to suggest a conference at Atlanta, Ga., with representatives of J. P. Morgan & Co., Thomas F. Ryan and Mr. Harriman, to which we only allude in passing, since nothing came of it, Mr. Walters stating that he did not desire to initiate the call or conference suggested, inasmuch as his acquaintance with Messrs. Ryan and Harriman was only casual and he was not fully advised that they controlled the properties mentioned by the Georgia Chairman.

Mr. Walters' reply was dated Dec. 6, and indicates frankly and fully just what has been the policy of the company over which that gentleman exercises control. If the correspondence had served no other purpose it would have been useful in having elicited so clear a statement with regard to the road's position in that respect. Mr. Walters states that the Atlantic Coast Line Railroad Co. has no depository in New York. It does not lend money to individuals, whether officers of the company or others, and it does not use its money for speculation in New York or anywhere else. If any officers of the Atlantic Coast Line Railroad Co. were known to be speculating in its securities, they would be immediately dismissed by the board of directors. He also points out that in the recent panic the Atlantic Coast Line Railroad Co., instead of depleting the banks of the South, *bought* currency in New York and shipped it South to help meet its pay-rolls, though it had more than sufficient deposits in Southern banks to cover their total amount. Furthermore, the company always keeps on deposit in the South a large amount of money, and from these deposits it meets its pay-rolls and its current vouchers, and only remits to its fiscal agent, the Safe Deposit & Trust Co. of Baltimore, funds to pay its coupons, interest and dividends and to meet large vouchers requiring payment in Northern exchange.

Mr. Walters makes the further statement that, owing to the many extraordinary improvements now being made on the line, it has not been possible since July 1 to remit to Baltimore enough exchange to take care of coupons, interest and dividends. He declares positively that more than 80% of the stock of the Atlantic Coast Line Railroad Co. is owned and controlled by stockholders whose residences are in the South. His most important declaration, however, and which ought to do much to enlighten the Southern public with reference to the relations between the financial districts and local roads, is that the interest the company has in New York is to borrow in that financial centre the money which the South cannot furnish with which to buy equipment and rails and with which to make improvements and extensions in the South. In a very matter-of-fact way, he adds that the amount thus borrowed by the Atlantic Coast Line Railroad Co. in the past twelve months was $9,000,000, in addition to $4,500,000 furnished by the company's stockholders.

In these remarks Mr. Walters gives expression to some truths that ought to be brought home with much force to those people in the South and in the West who imagine that these sections of the country are being drained of their capital and funds by the Eastern financial centres. The fact is, these interior sections—whatever may be the situation with reference to the thickly settled communities in the Eastern and Middle States—are all the time in need of additional capital for improvements, extensions and development which they themselves cannot supply, and for which they must rely upon investors and capitalists in the money centres. Instead of the moneyed classes taking capital out of the South, they have been putting new money and new capital into the South, and the movement would go on indefinitely for the mutual advantage of both the investing classes and the Southern communities served except that the course pursued towards investments in railroads and other corporations has been such as to scare away both the investor and the capitalist.

With regard to current funds, so far as the matter is merely a question of policy, we should think it manifestly desirable to placate hostile public sentiment and propitiate the people as far as possible. In a second letter to Chairman Walters, under date of Dec. 23, Mr. McLendon apparently expresses genuine pleasure over the facts communicated to him by Mr. Walters, and gives it as his opinion that if the policy of "home rule" urged by him and which the Atlantic Coast Line Railroad Co. has already put in operation were carried out fully by other roads, it would change the whole railroad situation in the South in a very brief space of time. He makes certain irrelevant remarks about the beef trust, the tobacco trust, and to the effect that "Roosevelt's efforts to smite this giant of evil, hip and thigh, will dwarf all candidates and all parties in 1908," and then makes what evidently appeared to him to be a point against Mr. Walters, saying: "Think of the tremendous power you alone possess as Chairman of a single board which controls two others. Officially, you control the net surplus earnings and the credit balance to profit and loss account of the Atlantic Coast Line, $9,099,543; Nashville Chattanooga & St. Louis, $4,312,322; Louisville & Nashville RR., $20,827,512, or a total of $34,239,376. This is enough to buy 700,000 bales of cotton at current prices, and that many bales of cotton would control the market." He goes on to contrast the policy of the Atlantic Coast Line with another road in the South (he does not give the name, but is understood to refer to the Central Railway of Georgia), which, according to figures cited by him, has been holding more money on deposit in New York than in Georgia, and which, he alleges, between August and October 1907, reduced its Georgia deposits while increasing those in New York. Mr. McLendon then indulges in the following plea: "What a mighty power for good our railroads would be if they kept their money in the

banks along the line of the railroad, where that money was earned, in the banks where the people keep their own money, in banks that are just as safe for the railroads as they are for the people, and what a mighty power for good if, in making investments of net surplus earnings, the railroads should make these along the line of the roads where that net surplus income was accumulated."

In this last quotation we have a curious commingling of the fallacies upon which public hostility to railroad interests so largely rests and is built up. And it seems a little curious that a person holding such a responsible poition as a Railroad Commissioner should allow himself, in his zeal on behalf of the interests of the "people," to fall into and adopt such a wholesale blunder. We would not be understood as implying that Mr. McLendon is ignorant in such an important matter, but certainly he has been caught napping. Only a cursory examination of the balance sheets of the three roads mentioned by him would have shown him that the $34,239,376 of accumulated surplus does not exist in the form of cash. Every entry or set of entries on one side of a balance sheet must have corresponding entries on the other side. If these profit and loss surpluses represented unused earnings or other profits, the cash to represent them would appear in the accounts. Moreover, if the roads had any such uninvested surplus they might in truth regard themselves as independent of Wall Street—at least for the time being. They would have money enough for a couple of years at least to supply their needs, and could snap their fingers at the Eastern moneyed interests and financial classes. As a matter of fact, the surpluses referred to by the Georgia Chairman have long since been applied in the very way that he insists should be done, namely invested "along the line of the roads." Mr. Walters in a second letter dated Dec. 31 1907 feels called upon to say only in a brief and dignified way (as if he did not care to hurt Mr. McLendon's feelings) that the credit balance of $34,239,376 "does not exist in the form of cash, but has already been invested either in additions to the respective properties, in additional equipment or in permanent improvements." Another letter from Chairman McLendon under date of Jan. 9 1908 apparently closed the correspondence.

While on this subject it may not be amiss to refer here also to the policy which the Southern Railway has been pursuing in the same matter. For when we have the cases of two such conspicuous companies as the Atlantic Coast Line and the Southern Railway in support of the contention, we are clearly justified in the statement that, while possibly there may be isolated instances to the contrary, the South, generally speaking, has had as little reason to complain of the policy of its railroads in the matter of local deposits as it has had in other respects. The Southern Railway, through all the hostile legislation regarding reduced rates, has been pursuing, as is well known, a very conciliatory course, and Chairman McLendon has more than once taken occasion to express appreciation of that fact. In reply to a recent inquiry of Mr. McLendon's, President Finley encloses the form of one of the company's pay checks containing on the back a list of the company's bank depositories in the South, and showing that among the same the company has in the State of Georgia depositories at Atlanta, Athens, Augusta, Savannah, Brunswick, Macon, Columbus and Rome. In these depositories the company's agents deposit, as collected, the revenues derived from the company's business, and the funds are disbursed in the regular order of business by checks in payment of salaries and wages of employees and in current expenditures of the company.

Mr. Finley says these funds are not otherwise withdrawn, except to facilitate meeting the necessities of the company in the payment of interest, dividends and debts and in making such financial arrangements as are necessary in the interests of the property. In other words, the company's policy is, and always has been, to establish depositories and to keep its funds in the South, where it operates, as far as practicable. This practice, he says, has been in use since the organization of the Southern Railway Co., was deliberately adopted, and, while the company must always in these business matters recognize practical conditions as they arise, and be governed by them just as other business enterprises are, the management believe in this policy, and it is their purpose to adhere to it.

These statements simply furnish corroborative testimony to the fact that the South, which is now feeling the business pinch brought on by adverse legislation, must blame its political agitators for the consequences, and cannot in any way hold the railroads responsible for the results. The "Manufacturers' Record" of Baltimore stated the situation clearly and truthfully when it recently declared that "it can safely be said that at least 75% of the new construction projected is halting principally because of harsh legislation rather than on account of the panic."

## *LISTINGS ON THE NEW YORK STOCK EXCHANGE DURING* 1907.

Had the money market and other conditions been favorable, the amount of new securities issued and listed on the New York Stock Exchange during the late calendar year would in all probability have exceeded any previous record, at least in so far as issues for extensions, additions and improvements were concerned. With confidence, however, deeply disturbed, and with the rates for money ruling high, and in the closing months becoming prohibitive, there were many instances of temporary financing by means of note issues, many new projects were nipped in the bud, and many new securities in the hands of syndicates put aside awaiting a change in public sentiment. Three large companies, also, the Great Northern, Northern Pacific and St. Paul, late in 1906 and early in 1907 offered to their shareholders new stocks to a total of no less than 252 millions, distributing the dates for subscription payments thereon over a period of many months. Instead, therefore, of figuring in the year's listings, no portion of this extraordinary amount of new stock will even now be listed "full paid" for some time to come; indeed, in the case of the St. Paul, the last installment of the subscriptions is not due and payable until a year from next March.

The amount of short-term obligations sold during the year reached about $330,000,000, a considerable portion of which would certainly have been represented by bonds or stock, for which a place would have been sought on the New York Stock Exchange, had the times been suitable for the marketing of securities having a long period of years to run. In the following table we bring together the principal issues of notes and short-term loans floated during the year.

PRINCIPAL NOTE ISSUES SOLD DURING 1907.

| | Int. | Date. | Maturity. | Amount. |
|---|---|---|---|---|
| | | | | $ |
| Allegh. Imp. Co. (Mo.&Nor. Ark. RR.) | 5% | Oct. 1906 | xOct. 1 1911 | 6,000,000 |

| Total, industrial companies. | | | | 60,702,703 |
| Total railroads, street railways & indus. | | | | 329,862,703 |

*a* Remainder of $8,000,000 issue (V. 83, p. 35; V. 84, p. 270).
* Subject to call at an earlier date at a certain price at company's option.

It is interesting to note that, of the short-term securities here shown, no less than 290 millions, or over 86%, were put out during the first half of the year. During the latter part of 1907 the money stringency and increasing distrust restricted the market for even such attractive investments as high interest-bearing short-term notes.

Notwithstanding this handicap in the shape of temporary financing, the stock and bonds listed on the New York Stock Exchange in 1907 aggregated $996,845,050, being well up towards $1,000,000,000—not an insignificant total, although less by 25% than the total for the year next preceding and about 50% below that of the year 1905. In 1904, however, the aggregate was less than that now shown by about $286,000,000, while in 1903 the total was only slightly in excess of the present total. As regards the issues put out for new capital and to fund floating debt, the total amount of bonds listed in 1907 ($246,733,414) exceeds that for the several years from 1899 to 1903, inclusive, though falling considerably short of the total ($303,000,000) for 1906, and far short of the aggregate amounts for 1905 and 1904, which were $569,000,000 and $429,000,000 respectively.

*a* Excluding $425,000,000 Japanese Government bonds. *x* Omitting Russian bonds, $1,155,000,000. *z* Includes U. S. Steel $1,018,688,000.

The comparatively favorable exhibit made in the foregoing statement by the year 1907, we make haste to remark, is chiefly due to large issues by a few leading companies, railroad and industrial. The truth of this statement will be seen by examination of the following statements.

LISTINGS OF RAILROAD BONDS.

| Company and Title of Loan. | Amount. | Purpose of Issue. |
|---|---|---|
| Atch. Top. & S. F. 10-yr. conv. 5s | $20,172,000 | Equip., impts. & extens's. |

| do do | 780,000 | Improvements. |
| West. El. & Mfg. conv. 5s | 4,531,000 | Retire deb. ctfs., &c. |
| Total | $136,749,000 | |

Of the $420,000,000 of bonds, railroad, street railway and miscellaneous, which are embraced in the foregoing tables, more than $344,000,000 were issued by thirteen companies. Leading the list is the Union Pacific, with its 72 millions of new convertible 4s, issued on account of new construction, acquisitions, additional equipment, &c. Next in importance of the new issues there come the 35 millions of Lake Shore 4s, floated for general purposes; the 20 millions of Atchison convertible 5s, representing equipment,

improvements and extensions; the 14½ millions of Norfolk & Western convertible 4s, 10 million Delaware & Hudson first lien equipment 4s, 11 million Erie convertible 4s, 10 million Washington Terminal 3½s and 10 million each of Louisville & Nashville divisional 4s and Colorado & Southern "extension and refunding" 4½s.

The Chicago Rock Island & Pacific Ry. also issued $17,250,000 refunding and extension 4s, of which $8,750,000 was for refunding old bonds. The United States Steel Corporation has put out $30,000,000 of its sinking fund 5s in exchange for the stock of the Tennessee Coal Iron & Railroad Co., a transaction which will be remembered as notable in connection with the extraordinary measures taken for the relief of the financial institutions of New York at the time of the recent panic. The Wabash Railroad, having carried out its financial plan to the extent of refunding substantially all of its "A" and "B" debentures, has listed $24,424,000 of the new refunding and extension 4s, of which, however, $4,800,000 are deposited as collateral to secure existing gold notes. The bonds of the International Mercantile Marine Co., issued several years ago but only admitted to dealings on the regular list of the Stock Exchange during the late year, aggregate $72,362,000, or over 17% of the entire amount of bonds of all classes this year listed. Among the bonds that we have mentioned it will be noted that there are four issues together aggregating over 117 millions that are convertible into new stock, showing the extent to which the convertible feature, after the lapse of a good many years, has again come into popular favor.

LISTINGS OF RAILROAD STOCKS.

| *Company and Class of Stock.* | *Amount.* | *Purpose of Issue.* |

SUBSCRIPTION RECEIPTS PLACED ON UNLISTED.

Chicago Milw. & St. Paul instal. receipts for preferred stock, 45 % paid.
do do do do common do do
Chicago Union Traction, Cent. Tr. Co. certfs. of deposit for common stock ($16,148,700) and preferred stock ($11,088,400).
City of N. Y. temporary receipts for $35,000,000 4½ % corporate stock.
do do do do 5,000,000 4½ % asst. bonds.
Northern Pacific subscription receipts for new stock, 4th instal. (37½ %) pd.

As already stated, three of the most important issues of new stock, on which the subscribers were making payment throughout the year 1907 are yet to be fully paid up, and therefore were not ready for a place on the Stock Exchange list during the period under review. The subscription receipts of two of the companies, to be sure, appear on the "unlisted list," but that department forms no part of our annual totals, it being entirely independent of the "regular list." The reader, however, will note the listing of the following considerable blocks of stock which have been subscribed and fully paid for, namely: Southern Pacific, $35,600,000 preferred; Canadian Pacific, 17 millions; Chicago & North Western, 24 millions; Cleveland Cincinnati Chicago & St. Louis, 7 millions; General Electric, 11 millions; the parent Bell telephone company (American Telephone & Telegraph), 21 millions, and its subsidiary, the New York & New Jersey (Bell) Telephone Co., 8 millions. The New York New Haven & Hartford has put out $14,800,000 of new share capital in exchange for Boston & Maine stock and for securities of subsidiary companies; the Pennsylvania $8,400,000, also largely exchanged for stocks of subsidiary companies, and the Wabash more than $28,000,000, one-half common and one-half preferred, as part consideration for the debenture "A" and "B" bonds retired. The additions to the regular list occasioned by the admission to dealings of the shares of certain great industrial corporations, for the most part outstanding and in the hands of the public for several years past, have been, as to the total par value of the shares represented, of unusual importance. The so-called Ship Trust thus contributes 101 millions. the Tin Can Trust 82 millions, the Mackay Companies (telegraph, cable and telephone) 82 millions and the Cast Iron Pipe Co. 24 millions.

## *RAILROAD GROSS EARNINGS FOR DECEMBER.*

Railroad gross earnings are now showing large decreases, and there are very few roads which form exceptions to the rule. In December, according to the preliminary compilations which we present to-day, there was a loss of $3,092,739, or 4.28%, on the roads contributing returns, embracing altogether 88,234

miles of line. The falling off extends to all sections of the country and to all classes of roads, with the exception of those in the territory between Lake Superior and the North Pacific Coast, where the previous year some of the lines suffered from phenomenally cold weather and snow blockades and also had to contend with the peculiar situation existing at that time arising out of the fuel scarcity.

The remark applies to the Great Northern Ry., the "Soo" road and one or two others. These reported large losses in December 1906; hence for December 1907, with the absence of any such disturbing conditions, they record noteworthy improvement. Save for this, our showing for the month would be still more unfavorable. This fact is brought out very clearly in the following summary of the roads distinguished for large increases or large decreases. It will be noticed that the decreases greatly outnumber the increases, and that the latter are supplied chiefly by the classes of roads already enumerated—those which suffered from adverse weather conditions the previous year.

PRINCIPAL CHANGES IN GROSS EARNINGS IN DECEMBER.

| | *Increases.* |
|---|---|
